CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest”) is a Canadian Investment Manager focused on unique income generating investment products. Harvest was founded in 2009 and is focused on developing investment products that follow the investment philosophy of:

1. Clear investment objectives
2. Transparency
3. Income generation

Harvest endeavours to develop investment products that are clear in their mandate and easy for our investors to understand. We strive to be transparent, so that our investors can open their financial reports and know exactly what they own. Our funds are invested to provide investors with consistent monthly or quarterly income; therefore, we seek to invest our fund portfolios in well managed companies that have a history of steady cash flow and pay dividends.

INVESTMENT PRODUCT

The Healthcare Leaders Income ETF (formerly Healthcare Leaders Income Fund) (the “Fund”) invests in an equally-weighted portfolio of 20 Equity Securities that are included in the Health Care sector of the Global Industry Classification Standards or, if such industry classification system is no longer made available by MSCI Inc. and Standard & Poor’s, any other internationally recognized industry classification system at the time of investment and whose underlying business includes, but is not limited to, the provision of healthcare goods and services, including manufacturing and distributing healthcare products, equipment, supplies and technologies, producing and marketing of pharmaceuticals and biotechnology products, and/or engaging in research and development, each with a market capitalization of at least US\$5 billion.

PRESIDENT'S MESSAGE

Healthcare Leaders Income ETF

Unitholder letter March 2017

Dear Valued Unitholder,

2016 can be characterized as another year of volatility as investors faced political uncertainty and tough market decisions. As the year started, markets continued their steady decline over economic concerns after the first Fed rate hike in almost a decade, only to bottom out in February and rally back up through the spring and summer. As September approached, the political rhetoric and steady diet of 2am Tweets unnerved markets leading to declines as the US election drew closer. As the event passed and the world woke up to the new realities of a Trump Presidency, the markets turned and rallied into the end of the year.

Looking ahead, we believe the U.S. will be a strong performer in the world market due to an economy that has been bubbling along with just under a 2% inflation rate and just over a 2% growth rate for the last 5 years. Any "Trump" effect would more than likely trickle down into the economy later in 2017 and 2018. That said, we know that markets are forward indicators of economic performance and should therefore give consideration to US corporate tax cuts and the potential tax break on the \$1 trillion USD sitting offshore in corporate coffers which would no doubt result in a positive effect on corporate earnings. Mr. Trump has also proposed to reduce regulation, which would have a fairly immediate impact on the Financial and Healthcare Industries and their abilities to expand and develop products.

Predicting markets and outcomes can be a frustrating experience and lends more credence to the old term "time in the market not timing the market". Regardless of short term events and market movements, Harvest focuses on industries, sectors or themes with long-term growth dynamics while collecting dividends and selling call options to generate income for our investors. Given our long-term view, we adhere to guiding investment principals which follow our mantra "*Investing doesn't have to be complicated*".

Keep it Simple: A complex product does not mean it is a better product. We want our investors to understand exactly what they are investing in and are comfortable that it meets their objectives.

Transparent: A portfolio should reflect what an investor thought they were buying. Check your statement or our website and "*know what you own*".

Consistent income: All of our funds provide consistent monthly or quarterly income.

2017 and beyond will provide its own steady diet of surprises and challenges, which is why the adherence to an investment philosophy and process helps maintain a calm mindset and long term view of the markets.

Harvest remains committed to its philosophy and we appreciate the confidence you have placed with us as an investor in our funds.

Sincerely,

Signed "Michael Kovacs"

Michael Kovacs
President and Chief Executive Officer

ANNUAL MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the Fund. For your reference, the annual financial statements of the Fund are attached to the annual management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1-866-998-8298; by writing to us at Harvest Portfolios Group Inc., 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7; or by visiting our website at www.harvestportfolios.com; or on SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVES AND STRATEGY

The Fund has been created to provide investors with a unique exposure to a portfolio of Equity Securities that are included in the Health Care sector of the Global Industry Classification Standards (or, if such industry classification system is no longer made available by MSCI Inc. and Standard & Poor's (or, if applicable, any successor of either of these entities), any other internationally recognized industry classification system at the time of investment and whose underlying business includes, but is not limited to, the provision of healthcare goods and services, including manufacturing and distributing healthcare products, equipment, supplies and technologies, producing and marketing of pharmaceuticals and biotechnology products, and/or engaging in research and development, each with a market capitalization of at least US\$5 billion.

The Fund's investment objectives are to provide Unitholders with:

- (i) the opportunity for capital appreciation; and
- (ii) monthly cash distributions.

To achieve its investment objectives, the Fund will invest in an equally-weighted portfolio of Equity Securities of 20 Healthcare Issuers from the Healthcare Leaders Investable Universe that have a market capitalization of at least US\$5 billion at the time of investment and meet the investment characteristics described below. In order to seek to generate additional returns, the Fund's manager and investment manager, Harvest Portfolios Group Inc. ("Harvest") will sell call options on no more than 33% of the Equity Securities of each Healthcare Issuer held in the Fund.

Harvest will semi-annually reconstitute and rebalance the Portfolio such that, at the time of the initial investment and immediately following each semi-annual reconstitution and rebalancing, will have the following investment characteristics:

- Value** – An average Price-to-Earnings ratio lower than the average for the Healthcare Leaders Investable Universe; and
- Quality** – An average 5-year Return on Equity greater than the average for the Healthcare Leaders Investable Universe.

RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

RESULTS OF OPERATIONS

The Healthcare Leaders Income ETF returned -3.65% for the year ended of December 31, 2016 versus the MSCI World Health Care Index (net Total Return in USD) of -6.81%.

Calendar year 2016 marked the second year since 2002 that the S&P 500 Healthcare Index had a negative return. This was driven primarily by macro commentary and policy uncertainty leading into the November U.S. elections. Despite having broader markets stabilize and appreciate post the election, Healthcare equities continued to be volatile through the end of the year and closed the year above the pre-election lows. The Fund was underweight the biotechnology sub sector and this had a positive impact on the Fund's relative performance as that particular sub-sector underperformed, with the S&P 500 Biotechnology Sub-Index total return of -13.02% for the year.

Healthcare Leaders Income ETF (formerly Healthcare Leaders Income Fund)

The Fund was invested in 20 Healthcare Leaders during the year and sold call options on the underlying holdings during the period in order to meet its investment and income objectives.

RECENT DEVELOPMENTS

On September 19, 2016, unitholders approved the conversion of the units of the Fund into an Exchange Traded Fund (“ETF”) effective October 24, 2016. The units began trading as an ETF under the symbol HHL.

On February 9, 2017, the Fund launched a USD Series U unit of the Fund. The Series U unit began trading under the symbol HHL.U.

Upon conversion to an ETF, the Fund cancelled its normal course issuer bid program which allowed the Fund to purchase up to 1,526,051 units of the Fund for cancellation by way of a normal course issuer bid through the facilities of the Toronto Stock Exchange and other Canadian markets. During the year ended December 31, 2016, 190,500 units (2015 – 346,500 units) were purchased for cancellation for \$1,557,272 (2015 - \$3,038,838).

In December 2015, the Manager gave notice to Highstreet Asset Management Inc. (“Highstreet”) terminating the investment management agreement effective March 31, 2016. On April 1, 2016, the Manager assumed the investment management responsibilities of the Fund.

RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

MANAGEMENT AND OTHER FEES

The Fund pays its manager, Harvest, a management fee calculated based on the average daily net asset value (“NAV”) and paid monthly in arrears, based on an annual rate of 0.85%, plus applicable taxes, of the NAV of the Fund. Prior to conversion, the calculation was based on the average weekly NAV. Prior to termination, the Manager paid Highstreet, a fee for its portfolio advisory service, from the management fee received from the Fund, calculated on the basis of the Fund’s NAV.

At its sole discretion, the Manager may waive management fees or absorb expenses of the Fund. The management expense ratios of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table below.

Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund’s Independent Review Committee (“IRC”), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries, benefits and consulting fees; independent directors of the Manager and other administrative expenses and costs incurred in connection with the Fund’s continuous public offering and other obligations. These expenses were \$254,830 for the year ended December 31, 2016 (2015 - \$262,001) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss) in the financial statements.

During the Fund’s initial and subsequent offerings up to conversion to an ETF, certain offering expenses such as costs of creating the Fund, issuance of additional units, the cost of printing and preparing the prospectus, legal expenses of the Fund and other out-of pocket expenses incurred by the agents together with the agent’s fees payable by the Fund are included in the carrying amount of the Fund’s obligation for net assets attributable to holders of redeemable units.

RECOMMENDATIONS OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

As noted in the “Recent Developments” section above, effective April 1, 2016, the Manager assumed the investment management responsibilities of the Fund. This matter was brought to the attention of the IRC on December 11, 2015 and the committee resolved that the change provides a fair and reasonable result for the Fund.

Also as noted above, the Manager completed the process to convert the Fund into an exchange-traded fund (ETF) and began trading as an ETF on October 24, 2016. This matter was brought to the attention of the IRC on July 27, 2016 and the committee resolved that the change provides a fair and reasonable result for the Fund.

Explanatory Notes:

1. Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund’s net assets per unit table act as a continuity of opening and closing net assets per unit.
2. Net assets, at the commencement of operations on December 18, 2014 was \$9.39, net of agents’ commissions and issuance costs of \$0.61 per unit.
3. Distributions were paid in cash or reinvested in additional units of the Fund.

Healthcare Leaders Income ETF (formerly Healthcare Leaders Income Fund)

4. Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of daily average net asset value during the period. The MER for the period December 31, 2015 included agents' fee of \$2,551,893 and issue costs of \$655,355. The MER for 2014 (the year of inception) included agents' fee of \$4,987,500 and issue cost of \$815,000. In both cases these costs are treated as one-time expenses and therefore were not annualized. The MER without these costs is 1.33% for 2015 and 2.72% for 2014.
5. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
6. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

Past Performance

The performance information presented herein assumes all dividends of the Fund during the periods presented were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemptions, or other charges that would have reduced returns or affected performance. Past performance of the Fund is not necessarily indicative of how it will perform in the future.

YEAR-BY-YEAR RETURNS

The following charts present the Fund's performance for each of the years shown. The chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

ANNUAL COMPOUND RETURNS

The following table shows the annual compound returns for the Fund. All returns are in Canadian dollars, on a total return basis, net of fees.

For comparison purposes, the MSCI Daily TR World Net Health Care Index (the “Index”) is used. While the Fund uses this benchmark for long-term performance comparisons, it is not managed relative to the composition of the Index. As a result, the Fund may experience periods when its performance is not aligned with the Index, either positively or negatively. The return of the Index is calculated without the deduction of management fees and fund expenses whereas the performance of the Fund is calculated after deducting such fees and expenses. Please see the “Results of Operations” section of this report for a discussion on recent performance.

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's prospectus or offering memorandum. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
