

Harvest ETFs September 2017 Distributions

OAKVILLE, ONTARIO, September 21, 2017 – Harvest Portfolios Group Inc. (“Harvest”) announces the following distributions for Harvest ETF’s for the month ending September 30, 2017. The distribution will be paid on or about October 13, 2017 to unitholders of record on September 29, 2017 with an ex-dividend date of September 28, 2017.

Harvest has established a Distribution Reinvestment Plan (“DRIP”) for all classes of Harvest ETFs, allowing investors to easily benefit from compounding their distributions on a monthly or quarterly basis, dependent on the payment frequency of an individual Harvest ETF. All Harvest ETFs listed on the Toronto Stock Exchange (TSX) are eligible for the Distribution Reinvestment Plan, provided that their investment dealer supports participation in the DRIP. Investors may opt into the DRIP by contacting their investment dealer, otherwise distributions will be paid in cash.

You will usually pay brokerage fees to your dealer if you purchase or sell units of the Fund(s) on the TSX. If the units are purchased or sold on the TSX, investors may pay more than the current net asset value when buying units of the Fund(s) and may receive less than the current net asset value when selling them. There are ongoing fees and expenses associated with owning units of an investment fund. Investment funds are not guaranteed, their values change frequently and past performance may not be repeated. An investment fund must prepare disclosure documents that contain key information about the fund. You can find more detailed information about the fund in these documents.
