# NOTES TO THE FINANCIAL STATEMENTS (Unaudited)

## June 30, 2014

## 1. ORGANIZATION

Harvest Banks & Buildings Income Fund (the "Fund") is an investment trust established under the laws of the Province of Ontario pursuant to a Declaration of Trust dated September 25, 2009, as amended and restated on October 2, 2009, being the inception date. There was no significant activity in the Fund from the date of inception, October 2, 2009 to commencement of operations on October 23, 2009. The address of the Fund's registered office is 710 Dorval Drive, Oakville, Ontario.

The Fund became an open-end mutual fund on October 18, 2011 (the "Conversion Date"). On the Conversation Date, the Units became redeemable at net asset value per unit on a daily basis, and the Fund became subject to National Instrument 81-102.

The Fund's investment objectives are to provide unitholders with monthly distributions and to maximize total return for unitholders. As part of the investment strategy the Fund will invest in an actively managed portfolio that will consist primarily of Banking Issuers, Other Financial Issuers and Real Estate Issuers.

The Fund offers Series R, Series A, Series F and Series D units, only through registered dealers. Series R is the series in which all existing unitholders at October 18, 2011 were rolled into on the Conversion Date, on a unit-for-unit basis. New purchases in Series R are available to existing unitholders only, in an initial sales charge option. Series A units, which were created on October 18, 2011 but commenced operations on October 22, 2011, are available to all investors in an initial sales charge option and have a higher service fee than Series R. Series F units, which were created on October 18, 2011 but commenced operations on October 27, 2011, have no initial sales charge option and no service fees and are usually only available to investors who have fee-based accounts with the dealers. Series D units, which were created on June 20, 2014, have no initial sales charge option, a lower service fee than Series R and Series A and are available to all investors.

## 2. BASIS OF PRESENTATION AND ADOPTION OF IFRS

These financial statements have been prepared in compliance with International Financial Reporting Standards (IFRS) applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting and IFRS 1, First-time Adoption of International Financial Reporting Standards. The Fund adopted this basis of accounting in 2014 as required by Canadian securities legislation and the Canadian Accounting Standards Board. Previously, the Fund prepared its financial statements in accordance with Canadian generally accepted accounting principles as defined in the Part V of the CICA Handbook ("Canadian GAAP"). The Fund has consistently applied the accounting policies used in the preparation of its opening IFRS statement of financial position at January 1, 2013 and throughout all periods presented, as if these policies had always been in effect. The impact of the transition to IFRS on the Fund's reported financial position, financial performance and cash flows, including the nature and effect of significant changes in accounting policies from those used in the Fund's financial statements for the year ended December 31, 2013 prepared under Canadian GAAP is disclosed below.

The policies applied in these interim financial statements are based on IFRS issued and outstanding as of August 15, 2014, which is the date on which the interim financial statements were authorized for issue by Harvest Portfolios Group Inc. (the "Manager"). Any subsequent changes to IFRS that are given effect in the Fund's annual financial statements for the year ending December 31, 2014 could result in restatement of these interim financial statements, including the transition adjustments recognized on transition to IFRS.

The effect of the Fund's transition to IFRS is summarized as follows:

### Statement of cash flows

Under Canadian GAAP, the Fund was exempt from providing a statement of cash flows. IAS 1 requires that a complete set of financial statements include a statement of cash flows for the current and comparative periods, without exception.

### Classification of redeemable units

Under Canadian GAAP, the Fund accounted for its redeemable units as equity. Under IFRS, IAS 32 requires that units or shares of an entity which include a contractual obligation for the issuer to repurchase or redeem them for cash or another financial asset be classified as a financial liability unless certain criteria are met. The Fund has issued multiple classes of units which are equally subordinate, but which are subject to different fees (Note 5). As a result, not all units have identical features and are presented as financial liabilities as they do not meet the criteria for classification as equity.

#### Revaluation of investments at fair value through profit and loss

Under Canadian GAAP, the Fund measured the fair values of its investments in accordance with Section 3855, Financial Instruments – Recognition and Measurement, which required the use of bid prices for long positions and ask prices for short positions; to the extent such prices are available. Under IFRS, the Fund measures the fair values of its investment using the guidance in IFRS 13, Fair Value Measurement, which requires that if an asset or liability has a bid price and an ask price, then its fair value is to be based on a price within the bid-ask spread that is most representative of fair value. It also allows the use of mid-market pricing or other pricing conventions that are used by market participants as a practical expedient for fair value measurements within a bid-ask spread.

Reconciliation of equity and comprehensive income as previously reported under Canadian GAAP to IFRS.

Equity	December 31, 2013	June 30, 2013	January 1, 2013
Equity as reported under Canadian GAAP	\$25,617,122	\$24,119,938	\$23,057,088
Revaluation of investments at FVTPL	\$38,872	\$39,571	\$29,623
Net assets attributable to holders of	\$25,655,994	\$24,159,509	\$23,086,711
redeemable units			

Comprehensive income	December 31, 2013	June 30, 2013
Comprehensive income as reported under Canadian GAAP	\$3,277,966	\$1,182,633
Revaluation of investments at FVTPL	\$9,249	\$9,948
Increase (decrease) in net assets attributable to holders of	\$3,287,215	\$1,192,581
redeemable units		

#### **Reclassification adjustments**

In addition to the measurement adjustments noted above, the Fund reclassified certain amounts upon transition in order to conform to its financial statement presentation under IFRS.

### 3. SIGNIFICANT ACCOUNTING POLICIES

#### Financial instruments

The Fund recognizes financial instruments at fair value upon initial recognition, plus transaction costs in the case of financial instruments not measured at fair value through profit or loss (FVTPL). Transaction costs on financial assets and liabilities at FVTPL are expensed as incurred. Regular way purchases and sales of financial assets are recognized at their trade date. The Fund's investments and derivative assets and liabilities are measured at fair value through profit or loss (FVTPL), including investments which have been designated at FVTPL. Derivative assets and liabilities are classified as held-for-trading (HFT). The Fund's obligation for net assets attributable to holders of redeemable units is presented at the redemption amount. All other financial assets and liabilities are measured at amortized cost. Under this method, financial assets and liabilities reflect the amount required to be received or paid, discounted, when appropriate, at the contract's effective interest rate. The Fund's accounting policies for measuring the fair value of its investments and derivatives are identical to those used in measuring its net asset value (NAV) for transactions with unitholders.

#### Fair value of investments

Investments that are traded in an active market are valued at their closing prices through recognized public stock exchanges or through recognized investment dealers on the valuation date. The Fund uses the last traded market price that falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on specific facts and circumstances. Investments held include equities, bonds and other debt instruments.

Investments held that are not traded on an active market are valued using valuation techniques, on such basis and in such a manner established by the Manager. The value of any security for which, in the opinion of the Manager, the published market quotations are not readily available shall be the fair value as determined by the Manager. The fair values of certain securities may be determined using valuation models that are based, in part, on assumptions that are not supported by observable market inputs. These methods and procedures may include, but are not limited to, performing comparisons with prices of comparable or similar securities, obtaining valuation related information from issuers and/or other analytical data relating to the investment and using other available indication of value. These values are independently assessed internally to ensure that they are reasonable. However, because of the inherent uncertainty of valuation, the estimated fair values for the aforementioned securities and interests may be materially different from the values that would be used had a ready market for the security existed. The fair values of such securities are affected by the perceived credit risks of the issuer, predictability of cash flows and length of time to maturity.

#### Cash

Cash is comprised of cash on deposit.

#### Investment transactions and income recognition

The interest for distribution purposes shown on the Statements of Comprehensive Income represents the coupon interest received by the Fund accounted for on an accrual basis. The Fund does not amortize premiums paid or discounts received on the purchase of fixed income securities except for zero coupon bonds which are amortized on a straight line basis. Net realized gain (loss) on investments and net change in unrealized appreciation (depreciation) on investments are determined on an average cost basis. Average cost does not include amortization of premiums or discounts on fixed income securities with the exception of zero coupon bonds. Dividend income is accounted for on the ex-dividend date.

Distributions received from income trusts are recorded as income, capital gains or a return of capital, based on the best information available to the Manager. Due to the nature of these investments, actual allocations could vary from this information. Distributions from investment trusts treated as a return of capital reduce the average cost of the underlying investment trust. Distributions received from mutual funds are recognized in the same form in which they are received from the underlying funds.

### Allocation of income and expense, and realized and unrealized capital gains and losses

Management fees and service fees directly attributable to a series are charged to that series. The Fund's shared operating expenses, income, and realized and unrealized capital gains and losses are generally allocated proportionately to each series based upon the relative net assets attributable to holders of redeemable units of each series.

#### Foreign currency translation

The Fund's functional and presentation currency is Canadian dollars. Purchases and sales of investments denominated in foreign currencies and foreign currency dividend and interest income are translated into Canadian dollars at the rate of exchange prevailing at the time of the transactions. Realized and unrealized foreign currency gains or (losses) on investments are included in the Statements of Comprehensive Income in "Net realized gain (loss) on sale of investments" and "Net change in unrealized appreciation (depreciation) of investments", respectively. Realized and unrealized foreign currency gains or losses on assets, liabilities, and income, other than investments denominated in foreign currencies, are included in the Statements of Comprehensive Income in "Net realized gain (loss) on foreign exchange" and "Net change in unrealized appreciation) of foreign exchange", respectively. Foreign currency assets and liabilities in the Statement of Financial Position are translated into Canadian dollars on the statement date.

#### Securities valuation

The NAV per unit of each series is determined at the close of business each day the Toronto Stock Exchange is open for business. The NAV of each series of the Fund is computed by calculating the value of that series' proportionate share of the Fund's common assets less common liabilities and less those series-specific liabilities. Expenses directly attributable to a series are charged to that series. Other income and expenses are allocated to each series proportionately based on the relative NAV of each series.

#### Increase (decrease) in net assets attributable to holders of redeemable units per unit

"Increase (decrease) in net assets attributable to holders of redeemable units per unit" in the Statements of Comprehensive Income represents the increase (decrease) in net assets attributable to holders of redeemable units, attributed to each series, dividend by the weighted average units outstanding for that series, for the financial period.

#### Income taxes

The Fund qualifies as a mutual fund trust under the Income Tax Act (Canada). For tax purposes, the Fund has a December 31 year end. All of the Fund's net income for tax purposes and sufficient net capital gains realized in any period are required to be distributed to unitholders such that no income tax is payable by the Fund. As a result, the Fund does not record income taxes. Since the Fund does not record income taxes, the tax benefit of capital and non-capital losses has not been reflected in the statement of financial position as a deferred income tax asset. Capital losses may be carried forward indefinitely to reduce future realized capital gains. Non-capital losses may be applied against future taxable income. As at the last taxation year end, the Fund had no losses available to be carried forward for income tax purposes.

The Fund may incur withholding taxes imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis and the related withholding taxes are shown as a separate expense.

As the Manager is a resident of Ontario, the expenses paid by the Fund include HST of 13%. HST is calculated using the residency of unitholders in the Fund as at specific times, rather than the physical location of the Manager. A blended rate refund is filed with the Canada Revenue Agency on behalf of the Fund, in arrears, using each province's HST rate or GST rate in the case of non-participating provinces.

#### Critical accounting estimates and judgments

The preparation of financial statements requires management to use judgment in applying its accounting policies and to make estimates and assumptions about the future. The following discusses the most significant accounting judgments and estimates that the Fund has made in preparing the financial statements:

a) Fair value measurement of derivatives and securities not quoted in an active market

The Fund may hold financial instruments that are not quoted in active markets, including derivatives. Fair values of such instruments are determined using valuation techniques and may be determined using reputable pricing sources (such as pricing agencies) or indicative prices from market makers. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding. Refer to Note 6 for further information about the fair value measurement of the Fund's financial instruments.

b) Classification and measurement of investment and application of the fair value option

In classifying and measuring financial instruments held by the Fund, the Manager is required to make significant judgments about whether or not the business of the Fund is to invest on a total return basis for the purpose of applying the fair value option for financial assets under IAS 39, Financial Instruments – Recognition and Measurement (IAS 39). The most significant judgments made include the determination that certain investments are held-for trading and that the fair value option can be applied to those which are not.

#### Accounting standards issued but not yet adopted

### IFRS 9, Financial Instruments

The final version of IFRS 9, Financial Instruments, was issued by the IASB in July 2014 and will replace IAS 39 Financial Instruments – Recognition and Measurement. IFRS 9 introduces a model for classification and measurement, a single, forward-looking 'expected loss' impairment model and a substantially reformed approach to hedge accounting. The new single, principle based approach for determining the classification of financial assets is driven by cash flow characteristics and the business model in which an asset is held. The new model also results in a single impairment model being applied to all financial instruments, which will require more timely recognition of expected credit losses. It also includes changes in respect of own credit risk in measuring liabilities elected to be measured at fair value, so that gains caused by the deterioration of an entity's own credit risk on such liabilities are no longer recognized in profit or loss. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, however, is available for early adoption. In addition, the own credit changes can be early applied in isolation without otherwise changing the accounting for financial instruments. The Fund is in the process of assessing the impact of IFRS 9 and has not yet determined when it will adopt the new standard.

# 4. REDEEMABLE UNITS

The Fund is authorized to issue an unlimited number of transferable units and series.

Units of the Fund are offered for sale on a continuous basis and may be purchased or redeemed on any Valuation Date at the NAV per unit of a particular series. The NAV per unit of a series for the purposes of subscriptions or redemptions is computed by dividing the NAV of the Fund attributable to the series (that is, the total fair value of the assets attributable to the series less the liabilities attributable to the series) by the total number of units of the series of the Fund outstanding at such time.

During the period, the Fund launched Series D units which are available to all investors at fees described in Note 5. The series was launched on June 20, 2014 and for the period from June 20, 2014 to June 30, 2014 there were no subscriptions into Series D units.

The following units were issued and redeemed during the period indicated:

	Units outstanding		
	Series R	Series A	Series F
Total outstanding as at January 1, 2013	1,064,817	739,087	48,147
Redeemable units issued	2,916	279,410	75,172
Redeemable units issued on reinvestment	19,659	14,670	1,818
Redeemable units redeemed	(275,702)	(62,324)	(3,089)
Redeemable units transferred between Series	(860)	(2,063)	2,879
Total outstanding as at June 30, 2013	810,830	968,780	124,927
Total outstanding as at January 1, 2014	713,792	1,067,273	141,152
Redeemable units issued	6,695	106,686	13,566
Redeemable units issued on reinvestment	14,033	15,909	2,363
Redeemable units redeemed	(96,639)	(259,339)	(27,233)
Redeemable units transferred between Series	(7,361)	7,456	-
Total outstanding as at June 30, 2014	630,520	937,985	129,848

The weighted average number of units outstanding during the six-month period ended June 30, 2014 was 673,250 units for Series R (2013 - 955,946 units), 1,043,413 units for Series A (2013 - 862,697 units) and 136,578 units for Series F (2013 - 83,958 units).

### Distributions

Monthly distributions to unitholders are declared and paid to unitholders of record on the Valuation Date prior to the monthend, and automatically reinvested into additional units of the Fund at the month-end, unless unitholders specifically requested a cash distribution be paid. The total distributions were \$0.42 per unit (\$0.07 per unit per month) for the period ended June 30, 2014 (June 30, 2013 - \$0.42 per unit).

# 5. EXPENSES

### Management fees and servicing fees

Harvest Portfolios Group Inc. is the Manager of the Fund and is responsible for managing or arranging for managing the Fund's overall business and operations and provides key management personnel to the Fund. The Manager has retained Avenue Investment Management Inc. ("Avenue" or the "Investment Manager") to provide investment management services to the Fund and pays Avenue a fee for its portfolio advisory service, from the management fee received from the Fund, calculated on the basis on the Fund's net asset value.

Each series of units pays the Manager an annual management fee, plus applicable taxes, based on a percentage of the average daily NAV of the Fund attributable to that applicable series (the "Management Fee").

Dealers may be paid a servicing fee in connection with Series A, Series D and Series R units for ongoing services they provide to investors, including investment advice, account statements and newsletters. Generally, the servicing fees, plus applicable taxes, are payable monthly in arrears based on the total client assets invested in each series of units of the Fund held by all of a Dealer's clients throughout the month. The Manager can change or cancel servicing fees at any time.

Fund Series	Annual Management Fee	Dealer Service Fee	Total Fees
R	1.10%	0.40%	1.50%
А	1.10%	1.25%	2.35%
F	1.10%	0.00%	1.10%
D	1.10%	0.25%	1.35%

The fees differ among the series of units of the Fund as set out in the chart below:

#### **Operating expenses**

The Fund is responsible for all expenses relating to the operation and the carrying on of its business, including legal fees and audit fees, interest, taxes and administrative costs relating to the redemption of securities as well as the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee ("IRC"), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

The Manager may, in some cases, absorb a portion of the Fund's operating expenses. The amount of absorption for the period ended June 30, 2014 was \$10,278 (2013 - \$Nil). The Manager may cease doing so at any time without notice to unitholders.

#### Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries, benefits and consulting fees; independent directors offering and other obligations. These expenses are allocated by the Manager on a reasonable basis, across all of the Harvest Portfolios Group Inc. funds, and series of each applicable fund. These expenses were \$12,673 for the period ended June 30, 2014 (2013 - \$14,600) and are included in the unitholder reporting costs on the Statements of Comprehensive Income.

### 6. FINANCIAL RISK MANAGEMENT

Investment activities of the Fund expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate risk, other price risk and currency risk). The Manager seeks to minimize these risks by employing experienced portfolio managers that will manage the security portfolios of the Fund on a daily basis according to market events and the investment objectives of the Fund. To assist in managing risk, the Manager also maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations.

### Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The value of securities in the Fund's portfolio may be affected by the stock market conditions rather than each company's performance. Developments in the market are affected by general economic and financial conditions. Political, social and environmental factors can also affect the value of any investment.

As at June 30, 2014, 93.9% (December 31, 2013 - 96.7%; January 1, 2013 – 92.0%) of the Fund's net assets attributable to holders of redeemable units were traded on public stock exchanges. If equity prices on these exchanges had increased or decreased by 5%, as at period end, with all other factors remaining constant, net assets attributable to holders of redeemable units would have increased or decreased by approximately 1,095,764 (December 31, 2013 - 1,239,892; January 1, 2013 - 1,061,926).

In practice, the actual trading results may differ and the difference could be material.

### Currency risk

Currency risk is the risk that the value of investments denominated in currencies other than the functional currency of the Fund will fluctuate as a result of changes in foreign exchange rates. When a Fund buys an investment priced in a foreign currency and the exchange rate between the Canadian dollar and the foreign currency changes unfavorably, it could reduce the value of the Fund's investment.

The table below summarizes the Fund's exposure to currency risk. Amounts shown are based on the carrying value of monetary assets (including derivatives and the underlying principal (notional) amount of forward currency contracts, if any).

	As at June 30, 2014		As at December 31, 2013		As at January 1, 2013	
	Currency	As a % of net	Currency As a % of net		Currency	As a % of net
Currency	exposure*	assets	exposure*	assets	exposure*	assets
U.S. Dollars	\$5,930,592	25.4%	\$6,425,962	25.1%	\$5,167,973	22.4%

\*Amounts are in Canadian dollars

As at June 30, 2014, if the Canadian dollar had strengthened or weakened by 5% in relation to all foreign currencies, with all other variables held constant, the Fund's net assets attributable to holders of redeemable units would have increased or decreased, respectively, by approximately 296,530 (December 31, 2013 - 321,298; January 1, 2013 - 258,399) or 1.3% (December 31, 2013 - 1.3%; January 1, 2013 - 1.1%). In practice, the actual results may differ from this sensitivity analysis and the difference could be material.

### Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or fair value of financial instruments. A Fund that invests in fixed income securities, such as bonds and money market instruments, is sensitive to changes in interest rates. In general, when interest rates are falling, the value of these investments rises.

Moreover, fixed income securities with longer terms to maturity are usually more sensitive to changes in interest rates. If interest rates were to change by 1.0%, interest earned by the Fund would change by \$4,561 (December 31, 2013 - \$4,200; January 1, 2013 - \$7,550).

As at June 30, 2014, December 31, 2013 and January 1, 2013 the Fund had no interest bearing liabilities.

The table below summarizes the Fund's exposure to interest rate risks by either the remaining term to maturity or contractual re-pricing as at June 30, 2014, December 31, 2013 and January 1, 2013.

Debt Instruments: June 30, 2014	Fair value (\$)	% of net assets
1 to 5 years	456,078	2.0
Total	456,078	2.0

Debt Instruments: December 31, 2013	Fair Value (\$)	% of net assets
3 to 5 years	419,963	1.6
Total	419,963	1.6

Debt Instruments: January 1, 2013	Fair Value (\$)	% of net assets
Less than 1 year	338,016	1.5
3 to 5 years	417,012	1.8
Total	755,028	3.3

## Liquidity risk

Liquidity risk is defined as the risk that a fund may not be able to settle or meet its obligations on time or at a reasonable price. The Fund is exposed to redemptions as units are redeemable on demand and Unitholders may redeem their units on each valuation date. Therefore in order to maintain sufficient liquidity, the Fund primarily invests in securities that are actively traded in public markets and can be readily disposed of to raise liquidity.

As at June 30, 2014, December 31, 2013 and January 1, 2013, all of the Fund's financial liabilities had maturities of less than three months.

### Credit risk

Credit risk is the risk that counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund.

All transactions executed by the Fund in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

The Fund has holdings of fixed income debt instruments. The fair value of debt securities includes consideration of the credit worthiness of the debt issuer. This risk is largely mitigated by the standards used to select corporate investments. Ongoing credit assessments are performed on all the Fund's holdings and the exposure level is managed through careful diversification across industry sectors and individual issuers, which helps to minimize this risk. The maximum credit risk of these investments is their fair value at June 30, 2014.

At June 30, 2014, December 31, 2013 and January 1, 2013, the Fund was invested in debt securities which were not rated.

#### Fair value of financial instruments

The Fund classifies fair value measurements within a hierarchy which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

**Level 2**: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Inputs for the asset or liability that are not based on observable market data.

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

The table below summarizes the fair value of the Fund's financial instruments using the following fair value hierarchy:

Securities classification:

Investments at fair value as at June 30, 2014						
	Level 1 (\$)	Level 2 (\$)	Level 3 (\$)	Totals (\$)		
Equities						
Common stock	16,376,865	-	-	16,376,865		
Limited partnership units	630,800	-	-	630,800		
REIT	4,907,605	-	-	4,907,605		
Total equities	21,915,270	-	-	21,915,270		
Fixed income						
Corporate bonds	456,078	-	-	456,078		
Total fixed income	456,078	-	-	456,078		
Total investments at fair value	22,371,348	-	-	22,371,348		

Investments at fair value as at December 31, 2013						
	Level 1 (\$)	Level 2 (\$)	Level 3 (\$)	Totals (\$)		
Equities						
Common stock	18,900,980	-	-	18,900,980		
Limited partnership	557,200	-	-	557,200		
REIT	5,339,655	-	-	5,339,655		
Total equities	24,797,835	-	-	24,797,835		
Fixed income						
Corporate bonds	419,963	-	-	419,963		
Total fixed income	419,963	-	-	419,963		
Total investments at fair value	25,217,798	-	-	25,217,798		

Investments at fair value as at January 1, 2013						
	Level 1 (\$)	Level 2 (\$)	Level 3 (\$)	Totals (\$)		
Equities						
Common stock	13,339,984	-	-	13,339,984		
Funds	726,338	-	-	726,338		
Limited partnership	705,000	-	-	705,000		
REIT	6,467,205	-	-	6,467,205		
Total equities	21,238,528	-	-	21,238,528

Corporate bonds	755,028	-	-	755,028		
Total fixed income	755,028	-	-	755,028		
Total investments at fair value	21,993,556	-	-	21,993,556		

There were no Level 3 securities held by the Fund as at June 30, 2014, December 31, 2013 and January 1, 2013. There were no transfers between Level 1 and Level 2 for the six-month period ended June 30, 2014 or for the year ended December 31, 2013.

### **Concentration Risk**

Concentration risk arises as a result of the concentration of exposures within the same category, whether it is geographical location, product type, industry sector or counterparty type. The following is a summary of the Fund's concentration risk by geography and segment.

Geography:

As at June 30, 2014		December 31, 2013		January 1, 2013		
Country of Issue	\$*	% of net assets	\$*	% of net assets	\$*	% of net assets
Canada	17,397,321	74.6	19,230,032	74.9	17,918,738	77.6
United States of America	5,930,592	25.4	6,425,962	25.1	5,167,973	22.4
Totals	23,327,913	100.0	25,655,994	100.0	23,086,711	100.0

\*Stated in Canadian dollars

Market Segment (percentage of net assets attributable to holders of redeemable units):

	June 30, 2014	December 31, 2013	January 1, 2013
Real Estate Issuers	38.6	40.8	39.7
Banking and Other Financial Issuers	46.4	48.8	46.8
Utility Issuers	2.7	2.2	-
Pipeline Issuers	4.3	3.0	3.1
Other Public Issuers	1.9	1.9	2.4
Fixed Income	2.0	1.6	3.3

# 7. SOFT DOLLAR COMMISSIONS

Brokerage commissions paid to certain brokers may, in addition to paying for the cost of brokerage services in respect of security transactions, also provide for the cost of investment research services provided to the investment manager. The value of such research services included in commissions paid to brokers for the periods ended June 30, 2014 and 2013 amounted to \$NIL.

### CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's simplified prospectus or offering memorandum. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
