Investment Objectives

The Fund's investment objectives are to provide unitholders with the opportunity for capital appreciation, monthly cash distributions and lower overall volatility of the portfolio.

The Fund will invest in a portfolio of 20 equally weighted equity securities of Technology Issuers chosen from the Technology Achievers Investable Universe that at the time of investment and immediately following each quarterly reconstitution and rebalancing (i) have a market capitalization of at least US\$10 billion and (ii) have options in respect of their equity securities listed on a recognized options exchange.

In order to seek to generate additional returns, the Options Advisor may sell call options each month on equity securities held in the portfolio. The Options Advisor will not sell call options on more than 33% of the equity securities of any of the Technology Achievers held in the portfolio.

You will usually pay brokerage fees to your dealer if you purchase or sell units of the Fund on the TSX. If the units are purchased or sold on the TSX, investors may pay more than the current net asset value when buying units of the Fund and may receive less than the current net asset value when selling them. There are ongoing fees and expenses associated with owning units of an investment fund. An investment fund must prepare disclosure documents that contain key information about the Fund. You can find more detailed information about the Fund in these documents. Investment funds are not guaranteed, their values change frequently and past performance may not be repeated. 100% of distributions are received in cash. If the Fund earns less than the amounts distributed, the difference is a return of capital. The current yield is calculated based on the market price of the Fund. The information contained herein is not an offer to sell nor a solicitation to buy any security. Such an offer can only be made by prospectus or other applicable offering document.
