## CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest”) is a Canadian Investment Manager focused on unique income generating investment products. Harvest was founded in 2009 and is focused on developing investment products that follow three investment criteria:

1. Clear investment objectives
2. Transparency
3. Income generation

Harvest endeavours to develop investment products that are clear in their mandate and easy for our investors to understand. We strive to be transparent, so that our investors can open their financial reports and know exactly what they own. Our funds are also invested to provide investors with consistent monthly or quarterly income; therefore, we seek to invest our fund portfolios in well managed companies that have a history of steady cash flow and pay dividends.

## INVESTMENT PRODUCT

The Fund’s investment objectives are to provide unitholders with the opportunity for capital appreciation, monthly cash distributions and lower overall volatility of Portfolio returns than would otherwise be experienced by owning Equity Securities of the Technology Achievers directly. As part of the investment strategy, the Fund will invest in an equally-weighted portfolio of Equity Securities of 20 Technology Issuers from the Technology Achievers Investable Universe that have a market capitalization of at least US\$10 billion at the time of investment and have options in respect of their Equity Securities listed on a recognized options exchange.

## PRESIDENT'S MESSAGE

Tech Achievers Growth & Income Fund

Unitholder letter March 2016

Dear Valued Unitholder,

2015 can be characterized as a year of volatility in global markets. The continued and prolonged slump in commodity prices, in particular oil prices, put further pressure on economic growth in Canada. The lower oil prices have led to a lower dollar which will benefit exports, but has not currently translated into a rebound in manufacturing.

These macro factors will continue to impact our energy producing provinces, with Ontario, BC and Quebec maintaining moderate growth and therefore balancing overall national GDP. We do however expect the new Federal Liberal government to stimulate economic growth with a spending package as 2016 progresses.

Looking globally, many other nations are facing similar challenges due to slowing growth and lower commodity prices. Though the US Federal Reserve raised interest rates a quarter of a point in December we are of the opinion that further increases will be modest, if any at all during 2016, as world economic growth levels remain moderate. Japan and the European Union continue to provide fiscal stimulus and subsequently have lowered interest rates into negative territory.

The investment philosophy we have adhered to is, "if we don't understand it or can't value it, we won't buy it". With all the geo political and economic uncertainty in the world, we remain committed to our core guiding principles as set out below.

**Keep it Simple:** A complex product does not mean it is a better product. We want investors to understand exactly what they are investing in and are comfortable that it meets their objectives.

**Transparent:** A portfolio should reflect what an investor thought they were buying. Investors can check their statements and our website to verify and most importantly to "know what you own".

**Consistent Income:** All of our funds provide consistent monthly or quarterly income. We want to provide income from diverse sources.

In the latter half of 2015, we experienced turbulent markets and declines in value, but we know and are comfortable with what we own and are confident that returns will turn positive again. Investors who remain patient will see the benefits in the long term as evidenced by the strong bull market that emerged subsequent to the 2008 financial crisis.

I have personally and professionally experienced market declines as far back as 1987 and they always pose challenges and are difficult to navigate. Despite those challenges markets eventually rebounded. At Harvest we believe in our mandates in providing growth and income and we will continue to stay invested and own companies that are long term leaders in their respective industries.

Harvest continues to remain committed to its philosophy and we appreciate the confidence and patience you have placed in us by investing with us.

Sincerely,

*Signed* "Michael Kovacs"

Michael Kovacs  
President and Chief Executive Officer

## MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the Fund. For your reference, the annual financial statements of the Fund are attached to the annual management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1(866) 998-8298; by writing to us at Harvest Portfolios Group Inc., 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7; or by visiting our website at [www.harvestportfolios.com](http://www.harvestportfolios.com); or on SEDAR at [www.sedar.com](http://www.sedar.com).

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

## INVESTMENT OBJECTIVES AND STRATEGY

The Fund has been created to invest in a portfolio (the "Portfolio") of 20 equally-weighted Equity Securities of Technology Issuers chosen from the Technology Achievers Investable Universe that at the time of investment and immediately following each quarterly reconstitution and rebalancing (i) have a market capitalization of at least US\$10 billion, and (ii) have options in respect of their Equity Securities listed on a recognized options exchange (the "Technology Achievers").

The Fund's investment objectives are to provide Unitholders with (i) the opportunity for capital appreciation; (ii) monthly cash distributions; and (iii) lower overall volatility of the Portfolio returns than would otherwise be experienced by owning Equity Securities of the Technology Achievers directly.

The Fund's manager, Harvest Portfolios Group Inc. ("Harvest") has retained Highstreet Asset Management Inc. ("Highstreet" or "Option Advisor") to provide option advisory services to the Fund.

The Manager will select the Equity Securities for the Portfolio and will quarterly reconstitute and rebalance the Portfolio such that the Portfolio, at the time of the initial investment and immediately following each quarterly reconstitution and rebalancing, will have the following investment characteristics:

- Quality** – An average 3-year Return on Equity greater than the average for the Technology Achievers Investable Universe;
- Value** – An average current year Forward Price-to-Earnings Ratio that is less than the average for the Technology Achievers Investable Universe; and
- Growth** – An average PEG Ratio that is less than the average for the Technology Achievers Investable Universe.

## RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

## RESULTS OF OPERATIONS

The Tech Achievers Growth & Income Fund commenced operations following the closing of its initial public offering (IPO) on May 26, 2015 of 5,500,000 units at \$10.00 per unit for gross proceeds of \$55,000,000. Performance information is not available for periods less than one year.

The Fund listed for trading on the Toronto Stock Exchange under the ticker symbol of HTA.UN following the closing of its IPO. The Fund subsequently invested the net proceeds of the offering into 20 Tech Achievers in accordance with its investment objectives. Equity market volatility picked up shortly after the Fund's launch as uncertainty surrounding Greek bailout negotiations sent European equities lower and rippled through equity markets around the world. This coupled with uncertainty and the anticipation and subsequent increase in the United States benchmark interest rate exacerbated the broader market volatility. Energy prices continued to be extraordinarily volatile through the end of year and also weighed on investor sentiment. In general, Technology and Healthcare Technology sectors, where the Fund has concentrated exposure, were not immune to the market volatility and impacted the Fund's short term performance.

The Fund sold call options on underlying holdings held in the Portfolio during the period in order to meet its investment and income objectives.

## RECENT DEVELOPMENTS

The Fund entered into a normal course issuer bid program for the period from June 29, 2015 to June 28, 2016, which allows the Fund to purchase up to 550,000 units of the Fund for cancellation by way of a normal course issuer bid through the facilities of the Toronto Stock Exchange and other Canadian markets. During the period ended December 31, 2015 297,900 units were purchased for cancellation for \$2,384,946.

In December 2015, the Manager gave notice to Highstreet Asset Management Inc. terminating the option advisor agreement effective March 31, 2016. On April 1, 2016 the Manager will assume the option advisor responsibilities of the Fund.

## RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

## MANAGEMENT AND OTHER FEES

The Fund pays its manager, Harvest, a management fee calculated based on the average weekly net asset value (“NAV”) and paid monthly in arrears, based on an annual rate of 1.00%, plus applicable taxes, of the NAV of the Fund. The Manager pays Highstreet, a fee for its option advisory service, from the management fee received from the Fund, calculated on the basis of the Fund’s NAV.

At its sole discretion, the Manager may waive management fees or absorb expenses of the Fund. During the period there were no fees waived or absorbed. The management expense ratios of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table below.

### Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund’s Independent Review Committee (“IRC”), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

### Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries, benefits and consulting fees; independent directors of the Manager and other administrative expenses and costs incurred in connection with the Fund’s continuous public offering and other obligations. These expenses were \$53,131 for the period ended December 31, 2015 and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss) in the annual financial statements.

During the Fund’s initial offering, certain offering expenses such as costs of creating the Fund, the cost of printing and preparing the prospectus, legal expenses of the Fund and other out-of pocket expenses incurred by the agents together with the agent’s fees payable by the Fund are included in the carrying amount of the Fund’s obligation for net assets attributable to holders of redeemable units.

## RECOMMENDATIONS OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

As noted in the “Recent Developments” section above, effective April 1, 2016, the Manager will assume the option advisor responsibilities of the Fund. This matter was brought to the attention of the IRC on December 11, 2015 and the committee resolved that the change provides a fair and reasonable result for the Fund.

### Explanatory Notes:

1. Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
2. Net assets, at the commencement of operations on May, 26, 2015 was \$9.31, net of agents' commissions and issuance costs of \$0.69 per unit.
3. Distributions were paid in cash or reinvested in additional units of the Fund.
4. Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of daily average net asset value during the period. The MER for the period from May 26, 2015 to December 31, 2015 includes agents' fees of \$2,887,500 and issue costs of \$825,000. These costs are treated as one-time expenses and therefore were not annualized. The MER without these costs is 1.96%.
5. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
6. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
