HARVEST Banks & Buildings Income Fund

Interim Management Report of Fund Performance

June 30, 2016

The Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure, can be obtained at your request, and at no cost, by calling us at 1-866-998-8298; by writing to us at Harvest Portfolios Group, 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7; by visiting our website at www.harvestportfolios.com; or on SEDAR at www.sedar.com.

HARVEST Banks & Buildings Income Fund

CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest”) is a Canadian Investment Manager focused on unique income generating investment products. Harvest was founded in 2009 and is focused on developing investment products that follow three investment criteria:

1. Clear investment objectives
2. Transparency
3. Income generation

Harvest endeavours to develop investment products that are clear in their mandate and easy for our investors to understand. We strive to be transparent, so that our investors can open their reports and know exactly what they own. Our funds are also invested to provide investors with consistent monthly or quarterly income; therefore, we seek to invest our fund portfolios in well managed companies that have a history of steady cash flow and pay dividends.

INVESTMENT PRODUCT

The Harvest Banks & Buildings Income Fund (the “Fund”) invests primarily in the Canadian banking, other financial and real estate sectors. The banking, other financial and real estate sectors represent significant components of the Canadian economy. As the Canadian economy generally expands, Harvest believes that a diversified portfolio invested across these sectors will provide investors with an attractive yield and strong capital appreciation potential.

HARVEST Banks & Buildings Income Fund

INTERIM MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The interim management report of fund performance contains financial highlights but does not contain the complete condensed interim financial statements of the Fund. For your reference, the condensed interim financial statements of the Fund are attached to the interim management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1(866) 998-8298; by writing to us at Harvest Portfolios Group Inc., 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7; or by visiting our website at www.harvestportfolios.com; or on SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVES AND STRATEGY

The Fund's investment objectives are:

- i. to provide unitholders with monthly distributions; and
- ii. to maximize total return for unitholders.

To achieve the investment objectives, the portfolio sub-advisor of the Fund, Avenue Investment Management Inc. ("Avenue" or "Investment Manager"), invests in an actively managed portfolio that consists primarily of Banking Issuers, Other Financial Issuers and Real Estate Issuers. Avenue believes that in this environment, dividend paying companies in the financial and real estate sectors will continue to maintain their dividends or distributions. The issuers in the Canadian banking, other financial and real estate industries have capital ratios and leverage ratios that are conservative in nature and therefore justify consistent dividend payout policies.

Avenue uses a combination of top-down, macro analysis to evaluate and identify the most attractive companies and types of securities in the sectors mentioned above. Avenue also employs a value-based, bottom-up fundamental analysis to identify issuers based on the quality of their assets and the strength of their balance sheets and cash flows. Generally, each company or investment held in the portfolio will have consistent dividend payout history and offers a yield component that will help aid the objectives of the Fund. Avenue seeks to acquire securities that it believes have strong free cash flow metrics and will not defer future dividend or interest payments and will focus on issuers that it believes offer high levels of income and potential for capital appreciation, and that it believes provide the most attractive total return, relative to risk.

RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

RESULTS OF OPERATIONS

The Funds return for the period ending June 30, 2016 was 0.82% Series R, 0.34% for Series A, 1.06% for Series F and 0.92% for Series D versus the custom benchmark index comprised of 50% weighting of the S&P/TSX Financials Total Return Index and a 50% weighting of the S&P/Real Estate Total Return Index return of 13.06%. One of the primary reasons for the shorter term divergence is the Funds relative weightings towards banks and non-real estate financials.

Early in the year, broader global equity markets sold off as investors weighed the economic implications of multiple US interest rate hikes during 2016 amid the collapse in energy prices and moderating economic data. This had an impact on the companies in Canada with exposure to the energy sector including the Canadian banks. Uncertainty in the broader markets also weighed on some of the foreign banks held in the Fund.

In the latter part of the period, global markets had a significant increase in short term volatility surrounding the surprising results from the British referendum to leave the European Union. Markets quickly stabilized as the consensus understanding that there would be limited global economic implications and concurrently the prospects for significant rate increases for the balance of the year diminished. This had a positive effect on higher yielding and steady cash flowing assets such as the REITs held within the portfolio. The stabilization of commodity prices also resulted in relatively strong performance in Canada as business linked to the commodities, including the Canadian banks, started to recover during the latter part of the period.

HARVEST Banks & Buildings Income Fund

RECENT DEVELOPMENTS

There were no new developments to note during the period.

RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in “Management and Other Fees”.

MANAGEMENT AND OTHER FEES

Harvest Portfolios Group Inc. is the Manager of the Fund and is responsible for managing or arranging for managing the Fund’s overall business and operations and provides key management personnel to the Fund. The Manager pays Avenue a fee for its portfolio advisory service, from the management fee received from the Fund, calculated on the basis of the Fund’s average daily net asset value.

Each series of units pays the Manager an annual management fee, plus applicable taxes, based on a percentage of the average daily net asset value (“NAV”) of the Fund attributable to that applicable series (the “Management Fee”).

Dealers may be paid a servicing fee in connection with Series A, Series R and Series D units for ongoing services they provide to investors, including investment advice, account statements and newsletters. Generally, the servicing fees, plus applicable taxes, are payable monthly in arrears based on the total client assets invested in each series of units of the Fund held by all of a Dealer’s clients throughout the month. The Manager can change or cancel servicing fees at any time.

The fees differ among the series of units of the Fund as set out in the chart below:

Fund Series	Annual Management Fee	Dealer Service Fee	Total Fees
R	1.10%	0.40%	1.50%
A	1.10%	1.25%	2.35%
F	1.10%	0.00%	1.10%
D	1.10%	0.25%	1.35%

Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund’s Independent Review Committee (“IRC”), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

The Manager may, in some cases, absorb a portion of the Fund’s operating expenses. The amount of absorption for the period ended June 30, 2016 was \$nil (2015 - \$25,093). The Manager may cease doing so at any time without notice to unitholders.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries, benefits and consulting fees; independent directors of the Manager and other administrative expenses and costs incurred in connection with the Fund’s continuous public offering and other obligations. These expenses are allocated by the Manager on a reasonable basis, across all of the Harvest Portfolios Group Inc. Funds, and series of each applicable fund. These expenses were \$14,964 for the period ended June 30, 2016 (2015 - \$12,622) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss) in the financial statements.

HARVEST Banks & Buildings Income Fund

RECOMMENDATION OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

The Independent Review Committee tabled no special reports and made no extraordinary material recommendations to management of the Fund during the period ended June 30, 2016.

FINANCIAL HIGHLIGHTS

The following tables present selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period ended June 30, 2016 and past annual periods. This information is derived from the Fund's condensed interim financial statements and past audited annual financial statements.

Explanatory Notes:

1. Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
2. Net assets, at the commencement of operations was \$11.17, net of agents' commissions and issuance costs of \$0.83 per unit. On conversion from a closed end fund to an open end fund, all Fund units were exchanged one-for-one into Series R, at an NAV of \$11.27. Series A, Series F and Series D commenced operations on October 22, 2011, October 27, 2011 and July 9, 2014 respectively.
3. Distributions were paid in cash until conversion from a closed end fund to an open end fund, after which, an automatic reinvestment or cash option was made available.
4. Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of daily average net asset value during the period. The 2011 MER for Series R includes a one-time conversion cost, not annualized, of \$190,113 and interest expense of \$120,832, without which the MER was 3.05%.
5. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

HARVEST Banks & Buildings Income Fund

6. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
7. Amounts reported for the 2016 to 2013 periods are reported in accordance with International Financial Reporting Standards. All other prior periods are reported under Canadian generally accepted accounting principles.

Past Performance

The performance information presented herein assumes all dividends of the Fund during the years presented were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, or other charges that would have reduced returns or affected performance. Past performance of the Fund is not necessarily indicative of how it will perform in the future.

YEAR-BY-YEAR RETURNS

The following charts present the Fund's performance for each of the years shown and illustrate how the Fund's performance varied for Series R, Series A, Series F and Series D. The charts show, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year except for the 2016 period which represents the interim period.

Fund Performance

Series R

2009 represents the period from October 23 to December 31.

HARVEST Banks & Buildings Income Fund

Series A

2011 represents the period from October 18 to December 31.

Series F

2011 represents the period from October 18 to December 31.

HARVEST Banks & Buildings Income Fund

Series D

2014 represents the period from July 9 to December 31.

HARVEST Banks & Buildings Income Fund

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (Unaudited)

June 30, 2016

1. GENERAL INFORMATION

Harvest Banks & Buildings Income Fund (the “Fund”) is an investment trust established under the laws of the Province of Ontario pursuant to a Declaration of Trust dated September 25, 2009 and as amended and restated, being the inception date. There was no significant activity in the Fund from the date of inception to commencement of operations on October 23, 2009. The address of the Fund’s registered office is 710 Dorval Drive, Oakville, Ontario, L6K 3V7.

The Fund became an open-end mutual fund on October 18, 2011 (the “Conversion Date”). On the Conversion Date, the Units became redeemable at net asset value per unit on a daily basis, and the Fund became subject to National Instrument 81-102 Investment Funds.

The Fund’s investment objectives are to provide unitholders with monthly distributions and to maximize total return for unitholders. As part of the investment strategy the Fund will invest in an actively managed portfolio that will consist primarily of Banking Issuers, Other Financial Issuers and Real Estate Issuers.

The Fund offers Series R, Series A, Series F and Series D units, only through registered dealers. Series R is the series in which all existing unitholders at October 18, 2011 were rolled into on the Conversion Date, on a unit-for-unit basis. New purchases in Series R are available to existing unitholders only, with an initial sales charge option. Series A units, which were created on October 18, 2011 but commenced operations on October 22, 2011, are available to all investors with an initial sales charge option and have a higher service fee than Series R. Series F units, which were created on October 18, 2011 but commenced operations on October 27, 2011, have no initial sales charge option and no service fees and are usually only available to investors who have fee-based accounts with the dealers. Series D units, which were created on June 20, 2014 but commenced operations on July 9, 2014, have no initial sales charge option, a lower service fee than Series R and Series A and are available to all investors.

2. BASIS OF PRESENTATION

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) applicable to the preparation of interim financial statements, including International Accounting Standard 34, Interim Financial Reporting and should be read in conjunction with the annual financial statements for the period ended December 31, 2015 which have been prepared in accordance with IFRS. These condensed interim financial statements were authorized for issue by Harvest Portfolios Group Inc. (the “Manager”) on August 22, 2016.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial instruments

The Fund recognizes financial instruments at fair value upon initial recognition, plus transaction costs in the case of financial instruments not measured at fair value through profit or loss (FVTPL). Transaction costs on financial assets and liabilities at FVTPL are expensed as incurred. Regular way purchases and sales of financial assets are recognized at their trade date. The Fund’s investments and derivative assets and liabilities are measured at fair value through profit or loss (FVTPL), including investments which have been designated at FVTPL. Derivative assets and liabilities are classified as held-for-trading (HFT). The Fund’s obligation for net assets attributable to holders of redeemable units is presented at the redemption amount. All other financial assets and liabilities are measured at amortized cost. Under this method, financial assets and liabilities reflect the amount required to be received or paid, discounted, when appropriate, at the contract’s effective interest rate. Carrying values of other financial assets and liabilities at amortized cost and net assets attributable to holders of redeemable units approximate their fair values due to the short term to maturity. The Fund’s accounting policies for measuring the fair value of its investments and derivatives are identical to those used in measuring its net asset value (NAV) for transactions with unitholders. As at June 30, 2016, and December 31, 2015, there were no differences between the Fund’s NAV per security and its net assets per security calculated in accordance with IFRS.

HARVEST Banks & Buildings Income Fund

Fair value of investments

Investments that are traded in an active market are valued at their closing prices through recognized public stock exchanges or through recognized investment dealers on the valuation date. The Fund uses the last traded market price that falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on specific facts and circumstances. Investments held are represented by equities.

Investments held that are not traded on an active market are valued using valuation techniques, on such basis and in such a manner established by the Manager. The value of any security for which, in the opinion of the Manager, the published market quotations are not readily available shall be the fair value as determined by the Manager. The fair values of certain securities may be determined using valuation models that are based, in part, on assumptions that are not supported by observable market inputs. These methods and procedures may include, but are not limited to, performing comparisons with prices of comparable or similar securities, obtaining valuation related information from issuers and/or other analytical data relating to the investment and using other available indication of value. These values are independently assessed internally to ensure that they are reasonable. However, because of the inherent uncertainty of valuation, the estimated fair values for the aforementioned securities and interests may be materially different from the values that would be used had a ready market for the security existed. The fair values of such securities are affected by the perceived credit risks of the issuer, predictability of cash flows and length of time to maturity.

Classification of redeemable units

Under IFRS, IAS 32 Financial Instruments – Presentation requires that units or shares of an entity which include a contractual obligation for the issuer to repurchase or redeem them for cash or another financial asset be classified as a financial liability unless certain criteria are met. The Fund has issued multiple classes of units which are equally subordinate, but which are subject to different fees (Note 5). As a result, not all units have identical features and are presented as financial liabilities as they do not meet the criteria for classification as equity.

Cash

Cash is comprised of cash on deposit.

Investment transactions and income recognition

The interest for distribution purposes shown on the Statements of Comprehensive Income (Loss) represents the coupon interest received by the Fund accounted for on an accrual basis. The Fund does not amortize premiums paid or discounts received on the purchase of fixed income securities except for zero coupon bonds which are amortized on a straight line basis. Net realized gain (loss) on investments and net change in unrealized appreciation (depreciation) on investments are determined on an average cost basis. Average cost does not include amortization of premiums or discounts on fixed income securities with the exception of zero coupon bonds. Dividend income is accounted for on the ex-dividend date.

Distributions received from income trusts are recorded as income, capital gains or a return of capital, based on the best information available to the Manager. Due to the nature of these investments, actual allocations could vary from this information. Distributions from investment trusts treated as a return of capital reduce the average cost of the underlying investment trust.

Allocation of income and expense, and realized and unrealized capital gains and losses

Management fees and service fees directly attributable to a series are charged to that series. The Fund's shared operating expenses, income, and realized and unrealized capital gains and losses are generally allocated proportionately to each series based upon the relative net assets attributable to holders of redeemable units of each series.

Foreign currency translation

The Fund's subscriptions and redemptions are denominated in Canadian dollars which is also the Fund's functional and presentation currency. Purchases and sales of investments denominated in foreign currencies and foreign currency dividend and interest income are translated into Canadian dollars at the rate of exchange prevailing at the time of the transactions. Realized and unrealized foreign currency gains or (losses) on investments are included in the Statements of Comprehensive Income (Loss) in "Net realized gain (loss) on sale of investments" and "Net change in unrealized appreciation (depreciation) of investments", respectively. Realized and unrealized foreign currency gains or losses on assets, liabilities, and income, other than investments denominated in foreign currencies, are included in the Statements of Comprehensive Income (Loss) in "Net realized gain (loss) on foreign exchange" and "Net change in unrealized appreciation (depreciation) of foreign exchange", respectively. Foreign currency assets and liabilities in the Statements of Financial Position are translated into Canadian dollars on the statement date.

HARVEST Banks & Buildings Income Fund

Redeemable units valuation

The NAV per unit of each series is determined at the close of business each day the Toronto Stock Exchange is open for business. The NAV of each series of the Fund is computed by calculating the value of that series' proportionate share of the Fund's common assets less common liabilities and less those series-specific liabilities. Expenses directly attributable to a series are charged to that series. Other income and expenses are allocated to each series proportionately based on the relative NAV of each series.

Increase (decrease) in net assets attributable to holders of redeemable units per unit

"Increase (decrease) in net assets attributable to holders of redeemable units per unit" in the Statements of Comprehensive Income (Loss) represents the increase (decrease) in net assets attributable to holders of redeemable units, attributed to each series, divided by the weighted average units outstanding for that series, for the financial year.

Income and other taxes

The Fund qualifies as a mutual fund trust under the Income Tax Act (Canada). For tax purposes, the Fund has a December 31 year end. All of the Fund's net income for tax purposes and sufficient net capital gains realized in any period are required to be distributed to unitholders such that no income tax is payable by the Fund. As a result, the Fund does not record income taxes. Since the Fund does not record income taxes, the tax benefit of capital and non-capital losses has not been reflected in the statement of financial position as a deferred income tax asset. Capital losses may be carried forward indefinitely to reduce future realized capital gains. Non-capital losses may be carried forward 20 years and applied against future taxable income. As at the last taxation year end, the Fund had no capital or non-capital losses available to be carried forward for income tax purposes.

The Fund may incur withholding taxes imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis and the related withholding taxes are shown as a separate expense.

As the Manager is a resident of Ontario, the expenses paid by the Fund generally include HST of 13%. HST is calculated using the residency of unitholders in the Fund as at specific times, rather than the physical location of the Manager. A blended rate refund is filed with the Canada Revenue Agency on behalf of the Fund, in arrears, using each province's HST rate or GST rate in the case of non-participating provinces.

Critical accounting estimates and judgments

The preparation of financial statements requires management to use judgment in applying its accounting policies and to make estimates and assumptions about the future. The following discusses the most significant accounting judgments and estimates that the Fund has made in preparing the financial statements:

- a) Fair value measurement of derivatives and securities not quoted in an active market

The Fund may hold financial instruments that are not quoted in active markets, including derivatives. Fair values of such instruments are determined using valuation techniques and may be determined using reputable pricing sources (such as pricing agencies) or indicative prices from market makers. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding. Refer to Note 6 for further information about the fair value measurement of the Fund's financial instruments.

- b) Classification and measurement of investment and application of the fair value option

In classifying and measuring financial instruments held by the Fund, the Manager is required to make significant judgments about whether or not the business of the Fund is to invest on a total return basis for the purpose of applying the fair value option for financial assets under IAS 39, Financial Instruments – Recognition and Measurement (IAS 39). The most significant judgments made include the determination that certain investments are held-for trading and that the fair value option can be applied to those which are not.

HARVEST Banks & Buildings Income Fund

Accounting standards issued but not yet adopted

IFRS 9, Financial Instruments

The final version of IFRS 9, Financial Instruments, was issued by the IASB in July 2014 and will replace IAS 39 Financial Instruments – Recognition and Measurement. IFRS 9 introduces a model for classification and measurement, a single, forward-looking ‘expected loss’ impairment model and a substantially reformed approach to hedge accounting. The new single, principle based approach for determining the classification of financial assets is driven by cash flow characteristics and the business model in which an asset is held. The new model also results in a single impairment model being applied to all financial instruments, which will require more timely recognition of expected credit losses. It also includes changes in respect of own credit risk in measuring liabilities elected to be measured at fair value, so that gains caused by the deterioration of an entity’s own credit risk on such liabilities are no longer recognized in profit or loss. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, however, is available for early adoption. In addition, the own credit changes can be early applied in isolation without otherwise changing the accounting for financial instruments. The Fund is in the process of assessing the impact of IFRS 9 and has not yet determined when it will adopt the new standard.

4. REDEEMABLE UNITS

The Fund is authorized to issue an unlimited number of transferable units and series. Units of the Fund are offered for sale on a continuous basis and may be purchased or redeemed on any Valuation Date at the NAV per unit of a particular series. The NAV per unit of a series for the purposes of subscriptions or redemptions is computed by dividing the NAV of the Fund attributable to the series (that is, the total fair value of the assets attributable to the series less the liabilities attributable to the series) by the total number of units of the series of the Fund outstanding at such time.

The following units were issued and redeemed during the year indicated:

	Units outstanding			
	Series R	Series A	Series F	Series D
Total outstanding as at January 1, 2015	566,675	821,882	123,847	112
Redeemable units issued	209	21,699	8,022	427
Redeemable units issued on reinvestment	10,733	12,413	1,895	6
Redeemable units redeemed	(51,317)	(123,695)	(13,736)	(213)
Redeemable units transferred between Series	(869)	-	841	-
Total outstanding as at June 30, 2015	525,431	732,299	120,869	332
Total outstanding as at January 1, 2016	462,797	689,629	108,972	2,107
Redeemable units issued	175	9,236	3,021	1,494
Redeemable units issued on reinvestment	9,415	10,929	2,084	73
Redeemable units redeemed	(45,934)	(78,249)	(12,356)	-
Redeemable units transferred between Series	(5,615)	(79,192)	77,772	731
Total outstanding as at June 30, 2016	420,838	552,353	179,493	4,405

The weighted average number of units outstanding during the period ended June 30, 2016 was 439,725 units for Series R (2015 – 535,753 units), 611,343 units for Series A (2015 – 765,294 units), 146,300 units for Series F (2015 – 121,776 units) and 2,468 units for Series D (2015 – 206 units).

Distributions

Monthly distributions to unitholders are declared and paid to unitholders of record on the Valuation Date prior to the month-end, and automatically reinvested at NAV into additional units of the Fund at the month-end, unless unitholders specifically requested a cash distribution be paid. The total distributions were \$499,844 (\$0.42 per unit) for the period ended June 30, 2016 (2015 - \$592,545 or \$0.42 per unit).

HARVEST Banks & Buildings Income Fund

5. RELATED PARTY TRANSACTIONS AND OTHER EXPENSES

Management fees and servicing fees

Harvest Portfolios Group Inc. is the Manager of the Fund and is responsible for managing or arranging for managing the Fund's overall business and operations and provides key management personnel to the Fund. The Manager has retained Avenue Investment Management Inc. ("Avenue" or the "Investment Manager") to provide investment management services to the Fund and pays Avenue a fee for its portfolio advisory service, from the management fee received from the Fund, calculated on the basis on the Fund's net asset value.

Each series of units pays the Manager an annual management fee, plus applicable taxes, based on a percentage of the average daily NAV of the Fund attributable to that applicable series (the "Management Fee").

Dealers may be paid a servicing fee in connection with Series A, Series D and Series R units for ongoing services they provide to investors, including investment advice, account statements and newsletters. Generally, the servicing fees, plus applicable taxes, are payable monthly in arrears based on the total client assets invested in each series of units of the Fund held by all of a Dealer's clients throughout the month. The Manager can change or cancel servicing fees at any time.

The fees differ among the series of units of the Fund as set out in the chart below:

Fund Series	Annual Management Fee	Dealer Service Fee	Total Fees
R	1.10%	0.40%	1.50%
A	1.10%	1.25%	2.35%
F	1.10%	0.00%	1.10%
D	1.10%	0.25%	1.35%

Operating expenses

The Fund is responsible for all expenses relating to the operation and the carrying on of its business, including legal fees and audit fees, interest, taxes and administrative costs relating to the redemption of securities as well as the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee ("IRC"), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

The Manager may, in some cases, absorb a portion of the Fund's operating expenses. The amount of absorption for the period ended June 30, 2016 was \$nil (2015 - \$25,093). The Manager may cease doing so at any time without notice to unitholders.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries, benefits and consulting fees; independent directors of the Manager and other administrative expenses and costs incurred in connection with the Fund's continuous public offering and other obligations. These expenses are allocated by the Manager on a reasonable basis, across all of the Harvest Portfolios Group Inc. funds, and series of each applicable fund. These expenses were \$14,964 for the period ended June 30, 2016 (2015 - \$12,622) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss).

6. FINANCIAL RISK MANAGEMENT

Investment activities of the Fund expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate risk, other price risk and currency risk). The Manager seeks to minimize these risks by employing experienced portfolio managers that will manage the security portfolios of the Fund on a daily basis according to market events and the investment objectives of the Fund. To assist in managing risk, the Manager also maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations.

HARVEST Banks & Buildings Income Fund

Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The value of securities in the Fund's portfolio may be affected by the stock market conditions rather than each company's performance. Developments in the market are affected by general economic and financial conditions. Political, social and environmental factors can also affect the value of any investment.

As at June 30, 2016, 97.2% (December 31, 2015 – 97.1%) of the Fund's net assets attributable to holders of redeemable units were traded on public stock exchanges. If equity prices on these exchanges had increased or decreased by 5%, as at year end, with all other factors remaining constant, net assets attributable to holders of redeemable units would have increased or decreased by approximately \$741,787 (December 31, 2015 - \$825,805).

In practice, the actual trading results may differ and the difference could be material.

Currency risk

Currency risk is the risk that the value of investments denominated in currencies other than the functional currency of the Fund will fluctuate as a result of changes in foreign exchange rates. When a Fund buys an investment priced in a foreign currency and the exchange rate between the Canadian dollar and the foreign currency changes unfavorably, it could reduce the value of the Fund's investment.

The table below summarizes the Fund's exposure to currency risk. Amounts shown are based on the carrying value of monetary and non-monetary net assets (including derivatives and the underlying principal (notional) amount of forward currency contracts, if any).

	As at June 30, 2016		As at December 31, 2015	
Currency	Currency exposure*	As a % of net assets	Currency exposure*	As a % of net assets
U.S. Dollars	\$3,527,871	23.1	\$4,506,579	26.5

*Amounts are in Canadian dollars

The non-monetary currency exposure is \$3,516,312 (December 31, 2015 - \$4,495,050) and the monetary currency exposure is \$11,559 (December 31, 2015 - \$11,529).

As at June 30, 2016, if the Canadian dollar had strengthened or weakened by 5% in relation to all foreign currencies, with all other variables held constant, the Fund's net assets attributable to holders of redeemable units would have increased or decreased, respectively, by approximately \$176,394 (December 31, 2015 - \$225,329) or 1.2% (December 31, 2015 – 1.3%). In practice, the actual results may differ from this sensitivity analysis and the difference could be material.

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or fair value of financial instruments. A Fund that invests in fixed income securities, such as bonds and money market instruments, is sensitive to changes in interest rates. In general, when interest rates are falling, the value of these investments rises.

Moreover, fixed income securities with longer terms to maturity are usually more sensitive to changes in interest rates. The Fund held no fixed income securities at the end of June 30, 2016 and December 31, 2015.

As at June 30, 2016 and December 31, 2015 the Fund had no interest bearing liabilities.

Liquidity risk

Liquidity risk is defined as the risk that a fund may not be able to settle or meet its obligations on time or at a reasonable price. The Fund is exposed to redemptions as units are redeemable on demand and Unitholders may redeem their units on each valuation date. Therefore in order to maintain sufficient liquidity, the Fund primarily invests in securities that are actively traded in public markets and can be readily disposed of to raise liquidity. Redeemable units are redeemable on demand at the holder's option, however, the Manager does not expect that the contractual maturity will be representative of the actual cash flows as the holder of the instruments typically retain these for a longer period.

As at June 30, 2016 and December 31, 2015, all of the Fund's financial liabilities had maturities of less than three months.

HARVEST Banks & Buildings Income Fund

Credit risk

Credit risk is the risk that the counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund.

All transactions executed by the Fund in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

The Fund has no holdings of fixed income debt instruments as at June 30, 2016 and December 31, 2015. The fair value of debt securities includes consideration of the credit worthiness of the debt issuer. This risk is largely mitigated by the standards used to select corporate investments. Ongoing credit assessments are performed on all the Fund's holdings and the exposure level is managed through careful diversification across industry sectors and individual issuers, which helps to minimize this risk. The maximum credit risk of these investments is their fair value at June 30, 2016 and December 31, 2015.

Fair value of financial instruments

The Fund classifies fair value measurements within a hierarchy which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Inputs for the asset or liability that are not based on observable market data.

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

The table below summarizes the fair value of the Fund's financial instruments using the following fair value hierarchy:

Securities classification:

Investments at fair value as at June 30, 2016				
	Level 1 (\$)	Level 2 (\$)	Level 3 (\$)	Totals (\$)
Equities				
Common stock	10,102,032	-	-	10,102,032
Limited partnership	769,200	-	-	769,200
ADR	345,454	-	-	345,454
REIT	3,619,055	-	-	3,619,055
Total investments at fair value	14,835,741	-	-	14,835,741

Investments at fair value as at December 31, 2015				
	Level 1 (\$)	Level 2 (\$)	Level 3 (\$)	Totals (\$)
Equities				
Common stock	11,892,334	-	-	11,892,334
Limited partnership units	725,400	-	-	725,400
ADR	630,096	-	-	630,096
REIT	3,268,264	-	-	3,268,264
Total investments at fair value	16,516,094	-	-	16,516,094

There were no Level 3 securities held by the Fund as at June 30, 2016 and December 31, 2015. There were no transfers between Level 1 and Level 2 for the period ended June 30, 2016 or for the year ended December 31, 2015.

The value of equities and Level 1 debt securities is based on quoted prices.

HARVEST Banks & Buildings Income Fund

Concentration Risk

Concentration risk arises as a result of the concentration of exposures within the same category, whether it is geographical location, product type, industry sector or counterparty type. The following is a summary of the Fund's concentration risk by geography and segment.

Geography:

As at	June 30, 2016		December 31, 2015	
	\$*	% of net assets	\$*	% of net assets
Canada	11,319,429	74.1	12,021,044	70.7
United States of America	3,516,312	23.1	4,495,050	26.4
Totals	14,835,741	97.2	16,516,094	97.1

*Stated in Canadian dollars

Market Segment (percentage of net assets attributable to holders of redeemable units):

	June 30, 2016	December 31, 2015
	% of net assets	% of net assets
Real Estate Issuers	34.7	34.5
Banking and Other Financial Issuers	52.1	54.4
Utility Issuers	5.0	4.3
Pipeline Issuers	5.4	3.9
Total	97.2	97.1

7. SOFT DOLLAR COMMISSIONS

Brokerage commissions paid to certain brokers may, in addition to paying for the cost of brokerage services in respect of security transactions, also provide for the cost of investment research services provided to the investment manager. The value of such research services included in commissions paid to brokers for the period ended June 30, 2016 and 2015 amounted to \$nil.

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's simplified prospectus or offering memorandum. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
