## CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest”) is a Canadian Investment Manager focused on unique income generating investment products. Harvest was founded in 2009 and is focused on developing investment products that follow three investment criteria:

1. Clear investment objectives
2. Transparency
3. Income generation

Harvest endeavours to develop investment products that are clear in their mandate and easy for our investors to understand. We strive to be transparent, so that our investors can open their financial reports and know exactly what they own. Our funds are invested to provide investors with consistent monthly or quarterly income; therefore, we seek to invest our fund portfolios in well managed companies that have a history of steady cash flow and pay dividends.

## INVESTMENT PRODUCT

The Energy Leaders Plus Income ETF (the “Fund”) invests in an equally-weighted underlying portfolio of 20 Energy Issuers chosen from the Energy Leaders Investable Universe that at the time of investment and immediately following each quarterly reconstitution and rebalancing (i) have a market capitalization of at least \$10 billion; (ii) are paying a dividend/distribution; (iii) have options in respect of their Equity Securities listed on a recognized options exchange; and (iv) have operations and/or offices in at least two countries.

## MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The interim management report of fund performance contains financial highlights but does not contain the complete interim financial statements of the Fund. For your reference, the interim financial statements of the Fund are attached to the interim management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1(866) 998-8298; by writing to us at Harvest Portfolios Group Inc., 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7; or by visiting our website at [www.harvestportfolios.com](http://www.harvestportfolios.com); or on SEDAR at [www.sedar.com](http://www.sedar.com).

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

## INVESTMENT OBJECTIVES AND STRATEGY

The Fund has been created to provide investors with an exposure to a portfolio ("Portfolio") of Equity Securities of 20 Energy Issuers chosen from the Energy Leaders Investable Universe that at the time of investment and immediately following each quarterly reconstitution and rebalancing (i) have a market capitalization of at least \$10 billion; (ii) are paying a dividend/distribution; (iii) have options in respect of their Equity Securities listed on a recognized options exchange; and (iv) have operations and/or offices in at least two countries.

The Fund's investment objectives are to provide unitholders with (i) monthly cash distributions; (ii) the opportunity for capital appreciation; and (iii) lower overall volatility of the Portfolio returns than would otherwise be experienced by owning Equity Securities of the Energy Leaders directly. In order to seek to generate additional returns, the Fund's manager and investment manager, Harvest Portfolios Group Inc. ("Harvest") may sell call options each month on Equity Securities held in the Portfolio. Harvest will not sell call options on more than 33% of the Equity Securities of any of the Energy Leaders held in the Portfolio.

Harvest will quarterly reconstitute and rebalance the Portfolio such that, at the time of the initial investment and immediately following each quarterly reconstitution and rebalancing, the Portfolio will have the following investment characteristics:

- Value** – An average Price-to-Earnings ratio lower than the average for the Energy Leaders Investable Universe;
- Yield** – An average Yield greater than the average for the Energy Leaders Investable Universe; and
- Quality** – An average 5-year Return on Equity growth greater than the average for the Energy Leaders Investable Universe.

## RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

## RESULTS OF OPERATIONS

The Fund returned -10.89% for Series A and -10.20% for Series U for the period ending June 30, 2017 versus the MSCI ACW Energy Index in USD of -8.65%.

Energy prices resumed the downward pressure and enhanced volatility following the short stabilization in prices seen in late 2016. Oil prices have been under pressure since the latter part of 2014, as innovations in horizontal drilling and fracking techniques in recent years have resulted in improved productivity and allowed for resources that were previously uneconomic to be produced. This has increased the supply and inventory levels, particularly in North America. Crude oil prices took a turn for the worse in March, recovering in April before they ultimately fell briefly into bear market territory by falling to a ~20% decline in the period. The continued concern surrounding the ability of OPEC/non-OPEC production curtailments to balance the oil market, seemed to overshadow the modest improvements seen in the fundamentals, particularly witnessed in the declining US crude oil inventories that peaked during March 2017. US drill rig counts continued to rise and likely added to the negative sentiment that this would lead to increased shale production and clamp down on the expectations for deeper declines in global inventory.

While the Fund is diversified across the sub-sector, the negative commodity prices and sentiment impacted performance of the Funds' holdings. The Fund's positions in the refining related companies and pipelines provided diversity and some volatility buffer during heightened commodity price volatility.

## Energy Leaders Plus Income ETF

The Fund was invested in 20 Energy Leaders and the Fund sold call options on underlying holdings held in the Portfolio during the period in order to meet its investment and income objectives.

### RECENT DEVELOPMENTS

On July 5, 2017, the Fund made available to unitholders the opportunity to reinvest monthly distributions in additional units of the Fund by participating in a distribution reinvestment plan which would provide that cash distributions, at the election of a unitholder, be automatically reinvested in additional units, as applicable, on such unitholder's behalf in accordance with the terms of the plan.

### RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

### MANAGEMENT AND OTHER FEES

The Fund pays its manager, Harvest, a management fee calculated based on the average daily net asset value ("NAV") and paid monthly in arrears, based on an annual rate of 0.85%, plus applicable taxes, of the NAV of the Fund. Prior to conversion on October 26, 2016, the calculation was based on the average weekly NAV. Prior to termination on March 31, 2016, the Manager paid Highstreet, a fee for its portfolio advisory service, from the management fee received from the Fund, calculated on the basis of the Fund's NAV.

At its sole discretion, the Manager may waive management fees or absorb expenses of the Fund. During the period there were no fees waived or absorbed. The management expense ratios of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table below.

#### Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee ("IRC"), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

#### Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries, benefits and consulting fees; independent directors of the Manager and other administrative expenses and costs incurred in connection with the Fund's continuous public offering and other obligations. These expenses are allocated by the Manager on a reasonable basis, across all of the Harvest Portfolios Group Inc. funds, and series of each applicable fund. These expenses were \$24,040 for the period ended June 30, 2017 (2016 - \$22,116) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss) in the financial statements.

### RECOMMENDATIONS OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

The Independent Review Committee tabled no special reports and made no extraordinary material recommendations to management of the Fund during the period ended June 30, 2017.

### Explanatory Notes:

- Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
- Net assets, at the commencement of operations on October 21, 2014 was \$9.33, net of agents' commissions and issuance costs of \$0.67 per unit for Series A and was \$10.47 (\$9.33 USD), net of agents' commissions and issuance costs of \$0.75 (\$0.67 USD) per unit for Series U.
- Distributions were paid in cash or reinvested in additional units of the Fund.
- Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of daily average net asset value during the period. The MER for 2014 (the year of inception) the year of inception, included agents' fees of \$1,946,175 and issue costs of \$515,263 for Series A and agents' fees of \$128,565 and issue costs of \$34,020 for Series U, which were treated as a one-time expenses and therefore were not annualized. The MER without these costs is 2.62% for Series A and 2.64% for Series U. The MER for 2016 included agents' fee of 199,016 for Series A. This cost is treated as one-time expense and therefore is not annualized. The MER without this cost is 1.95%.
- The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

## CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's prospectus or offering memorandum. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
