CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest”) is a Canadian Investment Manager focused on unique income generating investment products. Harvest was founded in 2009 and is focused on developing investment products that follow the investment philosophy of:

1. Clear investment objectives
2. Transparency
3. Income generation

Harvest endeavours to develop investment products that are clear in their mandate and easy for our investors to understand. We strive to be transparent, so that our investors can open their financial reports and know exactly what they own. INVESTMENT OBJECTIVES AND STRATEGY

The Fund has been established to provide investors with exposure to 25 issuers selected from the top 100 issuers with the largest dollar amount of shares repurchased over the prior four quarters for which information is publicly available relative to the issuer's current market capitalization that meet the following criteria: (i) are included in the S&P 500 Index; (ii) have a market capitalization that is at least US\$10 billion as determined at the time of investment; (iii) are incorporated in the U.S.; (iv) pay a dividend; and (v) have bought back their shares within the prior four quarters as determined at the time of investment.

The Fund's investment objectives are to provide Unitholders with (i) the opportunity for capital appreciation; and (ii) quarterly cash distributions.

The Manager will select the Equity Securities for the Portfolio and will quarterly reconstitute and rebalance the Portfolio such that the Portfolio, at the time of the initial investment and immediately following each quarterly reconstitution and rebalancing, will include an equal - weighting of the 25 issuers selected from the top 100 Buyback Issuers in the US Buyback Investable Universe with the highest Buyback Ratio.

RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

RESULTS OF OPERATIONS

The US Equity Plus Income ETF (formerly US Buyback Leaders ETF) returned 4.64% for Series A and 4.97% for Series U compared to the S&P 500 Total Return Index return of 9.34% for the period ending June 30, 2017.

Sentiment quickly turned positive late in 2016, as expectations for more pro-growth policies were lifted following the surprising US Presidential election victory by Donald Trump. Momentum continued through the first half of 2017, despite periods of heightened volatility, as the Federal Reserve in the United States raised its Target Funds Rate three times during the course of the period. Political rhetoric also continued to provide a source of shorter term volatility, however strong US corporate earnings during the period, particularly those with domestic US earnings, showed resilience while balance sheets remained strong. As a result, those positions in the Fund exposed to the domestic U.S. economy, performed strongly.

The Fund was invested in 25 issuers selected from issuers in the S&P 500 that pay a dividend, are US incorporated, and rank within the top 100 issuers by their share repurchase ratios in accordance with its investment objectives and strategies.

RECENT DEVELOPMENTS

On July 5, 2017, the Fund made available to unitholders the opportunity to reinvest monthly distributions in additional units of the Fund by participating in a distribution reinvestment plan which would provide that cash distributions, at the election of a unitholder, be automatically reinvested in additional units, as applicable, on such unitholder's behalf in accordance with the terms of the plan.

- Net assets and distributions are based on the actual number of units outstanding at the relevant time. - The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period.
