This prospectus constitutes a public offering of these securities only in those jurisdictions where they may be lawfully offered for sale and only by persons permitted to sell these securities.

PROSPECTUS

Initial Public Offering and Continuous Offering

January 31, 2018

Blockchain Technologies ETF (the “**Harvest ETF**”)

The Harvest ETF is an exchange traded mutual fund trust established under the laws of the province of Ontario. Class A units of the Harvest ETF (the “**Units**”) are being offered for sale on a continuous basis by this prospectus. Units are denominated in Canadian dollars. Harvest Portfolios Group Inc. (the “**Manager**”), a registered portfolio manager and investment fund manager, is the promoter, trustee, manager and portfolio manager of the Harvest ETF. See “Organization and Management Details of the Harvest ETF”.

The Harvest ETF seeks to replicate, to the extent reasonably possible and before fees and expenses, the performance of the Harvest Blockchain Technologies Index. The Harvest ETF invests in equity securities of issuers exposed, directly or indirectly, to the development and implementation of blockchain and distributed ledger technologies. See “Investment Objectives” for further information.

Listing of Units

The Harvest ETF issues Units on a continuous basis and there is no maximum number of Units that may be issued. The Units have been conditionally approved for listing on the Toronto Stock Exchange (the “**TSX**”). Subject to satisfying the TSX’s original listing requirements, the Units will be listed on the TSX and investors will be able to buy or sell such Units on the TSX through registered brokers and dealers in the province or territory where the investor resides.

Investors may incur customary brokerage commissions in buying or selling Units. No fees are paid by investors to the Manager or the Harvest ETF in connection with the buying or selling of Units on the TSX.

Additional Considerations

No underwriter or dealer has been involved in the preparation of the prospectus or has performed any review of the contents of the prospectus. The Canadian securities regulators have provided the Harvest ETF with a decision exempting it from the requirement to include a certificate of an underwriter in this prospectus. The Designated Broker (as defined herein) and Dealers (as defined herein) are not underwriters of the Harvest ETF in connection with the distribution of Units under this prospectus.

In the opinion of counsel, provided that the Harvest ETF qualifies as a “mutual fund trust” within the meaning of the Tax Act (as defined below), or the Units are listed on a “designated stock exchange” within the meaning of the Tax Act, the Units, if issued on the date hereof, would be on such date qualified investments under the Tax Act for a trust governed by a registered retirement savings plan, a registered retirement income fund, a registered disability savings plan, a deferred profit sharing plan, a registered education savings plan or a tax-free savings account.

For a discussion of the risks associated with an investment in Units, see “Risk Factors”.

During the period in which the Harvest ETF is in continuous distribution, additional information about the Harvest ETF will be available in the most recently filed annual financial statements, any interim financial statements filed after those annual financial statements, the most recently filed annual management report of fund performance, any interim management report of fund performance filed after that annual management report of fund performance and the most recently filed ETF Facts (as defined herein). These documents will be incorporated by reference into this prospectus which means that they legally form part of this prospectus. For further details, see “Documents Incorporated by Reference”.

You can get a copy of these documents at your request, and at no cost, by calling 416-649-4541 or 1-866-998-8298 (toll-free) or by e-mail at info@harvestportfolios.com or from your dealer. These documents will also be available on the internet at www.harvestportfolios.com. These documents and other information about the Harvest ETF will also be available on the website of SEDAR (the System for Electronic Document Analysis and Retrieval) at www.sedar.com.

GLOSSARY

Unless otherwise indicated, the references to dollar amounts in this prospectus are to Canadian dollars and all references to times in this prospectus are to Toronto time. The following terms have the following meaning:

“**ADR**” means an American Depositary Receipt;

“**allowable capital loss**” has the meaning ascribed to such term under the heading “Income Tax Considerations – Taxation of Holders”;

“**Basket of Securities**” means (i) a group of some or all of the Constituent Securities held, to the extent reasonably possible, in approximately the same proportion as they are reflected in the Index; or (ii) a group of some or all of the Constituent Securities and other securities selected by the Manager from time to time that collectively reflect the aggregate investment characteristics of, or a representative sample of, the Index;

“**Canadian securities legislation**” means the securities laws in force in each province and territory of Canada, all regulations, rules, orders and policies made thereunder and all multilateral and national instruments adopted by the securities regulatory authorities in such jurisdictions;

“**Capital Gains Refund**” has the meaning ascribed to such term under the heading “Income Tax Considerations – Taxation of the Harvest ETF”;

“**CDS**” means CDS Clearing and Depository Services Inc.;

“**CDS Participant**” means a participant in CDS that holds security entitlements in Units on behalf of beneficial owners of those Units;

“**Constituent Securities**” means, in relation to the Index, the specific class or series of securities of the Constituent Issuers included in that Index;

“**Constituent Issuers**” means, in relation to the Index, the issuers that are included from time to time in that Index;

“**CRA**” means the Canada Revenue Agency;

“**CRS Provisions**” has the meaning ascribed thereto under “Other Material Information – International Information Reporting”;

“**Custodian**” means State Street Trust Company Canada, in its capacity as custodian of the Harvest ETF pursuant to the Custodian Agreement;

“**Custodian Agreement**” means the custodian agreement between the Manager, on behalf of the Harvest ETF, the Custodian and/or certain affiliates of the Custodian, as the same may be amended, restated or replaced from time to time;

“**Dealer**” means a registered dealer (that may or may not be the Designated Broker) that has entered into a Dealer Agreement with the Manager, on behalf of the Harvest ETF, pursuant to which the Dealer may subscribe for Units as described under “Purchases of Units”;

“**Dealer Agreement**” means an agreement between the Manager, on behalf of the Harvest ETF, and a Dealer;

“**Declaration of Trust**” means the amended and restated master declaration of trust establishing the Harvest ETF dated January 31, 2018, as the same may be supplemented, amended or amended and restated from time to time;

“**derivatives**” means an instrument, agreement or security, the market price, value or payment obligations of which is derived from, referenced to or based on an underlying interest;

“**Designated Broker**” means a Dealer that has entered into a Designated Broker Agreement with the Manager, on behalf of the Harvest ETF pursuant to which the Designated Broker agrees to perform certain duties in relation to the Harvest ETF;

“**Designated Broker Agreement**” means an agreement between the Manager, on behalf of the Harvest ETF, and the Designated Broker;

“**DFA Rules**” has the meaning ascribed to such term under the heading “Risk Factors – Tax Risk”;

“**Distribution Record Date**” means a date determined by the Manager as a record date for the determination of Unitholders entitled to receive a distribution;

“**DPSP**” means a deferred profit sharing plan within the meaning of the Tax Act;

“**Equity Securities**” means any securities that represent an interest in an issuer which includes common shares, and securities convertible into or exchangeable for common shares including ADRs, provided that the determination by the Manager that a security is an Equity Security shall be conclusive for all purposes herein;

“**ETF Facts**” means ETF Facts prescribed by Canadian securities legislation in respect of an exchange traded fund, which summarizes certain features of the exchange traded fund and which is publicly available at www.sedar.com and provided or made available to registered Dealers for delivery to purchasers of securities of an exchange traded fund;

“**GST/HST**” means taxes exigible under Part IX of the *Excise Tax Act* (Canada) and the regulations made thereunder;

“**Harvest**” means Harvest Portfolios Group Inc., the manager, trustee, promoter and portfolio manager of the Harvest ETF;

“**Harvest ETF**” means the exchange traded fund offered hereunder;

“**IFRS**” means the International Financial Reporting Standards;

“**IGA**” has the meaning ascribed thereto under “Other Material Facts – International Information Reporting”;

“**Index**” means a benchmark or index, provided by an Index Provider, that is used by the Harvest ETF in relation to the Harvest ETF’s investment objective and includes, as required, a replacement or alternative benchmark or index that applies substantially similar criteria to those currently used by the Index Provider for the benchmark or index and/or a successor index that is generally comprised of, or would be generally comprised of, the same Constituent Securities as the benchmark or index. The current Index tracked by the Harvest ETF is the Harvest Blockchain Technologies Index;

“**Index Agreement**” means the agreement pursuant to which the Manager licenses or sublicenses the Index for use by the Harvest ETF from the Index Provider;

“**Index Calculation Agent**” means Solactive AG, or such other calculation agent appointed by the Index Provider;

“**Index Provider**” means Harvest Portfolios Group Inc., in its capacity as the provider of the Index in respect of which the Manager has entered into a licensing arrangement pursuant to the Index Agreement to use the Index and certain trademarks in connection with the operation of the Harvest ETF;

“**IRC**” means the independent review committee of the Harvest ETF established under NI 81-107;

“**Management Fee**” has the meaning ascribed to such term under the heading “Fees and Expenses – Fees and Expenses Payable by the Harvest ETF”;

“**Management Fee Distributions**”, as described under “Fees and Expenses”, means an amount equal to the difference between the Management Fee otherwise chargeable by the Manager and a reduced fee determined by the Manager, at its discretion, from time to time, and that is distributed quarterly in cash, at the discretion of the Manager, to the applicable Unitholders who hold large investments in the Harvest ETF;

“**Manager**” means Harvest, in its capacity as investment fund manager of the Harvest ETF pursuant to the Declaration of Trust;

“**minimum distribution requirements**” has the meaning ascribed to such term under the heading “Income Tax Considerations – Status of the Harvest ETF”;

“**NAV**” means the net asset value of the Harvest ETF as calculated on each Valuation Day in accordance with the Declaration of Trust;

“**NI 81-102**” means National Instrument 81-102 *Investment Funds*;

“**NI 81-107**” means National Instrument 81-107 *Independent Review Committee for Investment Funds*;

“**Non-Portfolio Income**” has the meaning ascribed to such term under the heading “Income Tax Considerations – Taxation of the Harvest ETF”;

“**NP 11-203**” means National Policy 11-203 *Process for Exemptive Relief Applications in Multiple Jurisdictions*;

“**Other Fund**” has the meaning ascribed to such term under the heading “Investment Strategies – Investment in Other Investment Funds”;

“**Permitted Merger**” has the meaning ascribed to such term under the heading “Unitholder Matters – Permitted Mergers”;

“**Plan**” has the meaning ascribed to such term under the heading “Income Tax Considerations – Status of the Harvest ETF”;

“**Plan Agent**” means State Street Trust Company Canada, plan agent for the Reinvestment Plan;

“**Plan Participant**” has the meaning ascribed to such term under the heading “Distribution Policy – Distribution Reinvestment Plan”;

“**Plan Unit**” has the meaning ascribed to such term under the heading “Distribution Policy – Distribution Reinvestment Plan”;

“**PNU**” has the meaning ascribed to such term under “Purchases of Units – Issuance of Units”;

“**Promoter**” means Harvest, in its capacity as promoter of the Harvest ETF;

“**Proxy Voting Policy**” has the meaning ascribed to such term under the heading “Proxy Voting Disclosure for Portfolio Securities Held”;

“**RDSP**” means a registered disability savings plan within the meaning of the Tax Act;

“**Registrar and Transfer Agent**” means State Street Trust Company Canada;

“**Reinvestment Plan**” means the distribution reinvestment plan for the Harvest ETF, as described under the heading “Distribution Policy – Distribution Reinvestment Plan”;

“**RESP**” means a registered education savings plan within the meaning of the Tax Act;

“**RRIF**” means a registered retirement income fund within the meaning of the Tax Act;

“**RRSP**” means a registered retirement savings plan within the meaning of the Tax Act;

“**Sales Tax**” means all applicable provincial and federal sales, value added or goods and services taxes, including GST/HST;

“**securities regulatory authorities**” means the securities commission or similar regulatory authority in each province and territory of Canada that is responsible for administering the Canadian securities legislation in force in such jurisdictions;

“**substituted property**” has the meaning ascribed to such term under the heading “Income Tax Considerations - Taxation of the Harvest ETF”;

“**Tax Act**” means the *Income Tax Act* (Canada) and the regulations thereunder, each as may be amended from time to time;

“**Tax Amendment**” means a proposed amendment to the Tax Act publicly announced by the Minister of Finance (Canada) prior to the date hereof;

“**Tax Treaties**” has the meaning ascribed to such term under the heading “Risk Factors – Tax Risk”;

“**taxable capital gain**” has the meaning ascribed to such term under the heading “Income Tax Considerations – Taxation of Holders”;

“**TFSA**” means a tax-free savings account within the meaning of the Tax Act;

“**Trading Day**” means a day on which a session of the TSX is held, and if applicable, the day on which the Index Provider calculates and publishes data relating to the Index;

“**Trustee**” means Harvest, in its capacity as trustee of the Harvest ETF pursuant to the Declaration of Trust;

“**TSX**” means the Toronto Stock Exchange;

“**Unitholder**” means a holder of Units;

“**Units**” means redeemable, transferable class A units, each of which represents an undivided interest in the net assets of the Harvest ETF, and “**Unit**” means any one of them;

“**U.S.**” means the United States of America;

“**Valuation Day**” means each day Trading Day, or any other day as may be determined by the Manager from time to time; and

“**Valuation Time**” means 4:00 p.m. (EST) on a Valuation Day or such other time as may be determined by the Manager from time to time.

PROSPECTUS SUMMARY

The following is a summary of the principal features of the Units and should be read together with the more detailed information, financial data and financial statements contained elsewhere in this prospectus or incorporated by reference in this prospectus. Capitalized terms not defined in this summary are defined in the Glossary.

- Issuers:** Blockchain Technologies ETF
- Offering:** The Harvest ETF is an exchange traded mutual fund trust established under the laws of the province of Ontario.
- See “Overview of the Legal Structure of the Harvest ETF”.
- Continuous Distribution:** Units are being issued and sold on a continuous basis by this prospectus, and there is no maximum number of such Units that may be issued. Units are denominated in Canadian dollars. Units shall be offered for sale at a price equal to the NAV determined at the Valuation Time on the effective date of the subscription order. See “Plan of Distribution”.
- The Units have been conditionally approved for listing on the Toronto Stock Exchange (the “TSX”). Subject to satisfying the TSX’s original listing requirements, the Units will be listed on the TSX and investors will be able to buy or sell such Units on the TSX through registered brokers and dealers in the province or territory where the investor resides. Investors may incur customary brokerage commissions in buying or selling Units. No fees are paid by investors to the Manager or the Harvest ETF in connection with the buying or selling of Units on the TSX.
- The Harvest ETF issues Units directly to the Designated Broker and Dealers. From time-to-time and as may be agreed between the Harvest ETF and the Designated Broker and Dealers, the Designated Broker and Dealers may agree to accept a Basket of Securities as payment for Units from prospective purchasers. See “Purchases of Units – Issuance of Units”.
- Investment Objectives:** The Harvest ETF seeks to replicate, to the extent reasonably possible and before fees and expenses, the performance of the Harvest Blockchain Technologies Index. The Harvest ETF invests in equity securities of issuers exposed, directly or indirectly, to the development and implementation of blockchain and distributed ledger technologies. See “Investment Objectives” for further information.
- Investment Strategies:** In order to achieve its investment objective and to obtain direct or indirect exposure to the Constituent Securities of the Index, the Harvest ETF may hold the Constituent Securities of the Index in approximately the same proportion as they are reflected in that Index or may hold securities of one or more exchange traded funds that replicate the performance of the applicable Index, or a subset of such Index. The Harvest ETF will invest in its own portfolio comprised of various securities and instruments which may include, but are not limited to, equity and equity related securities. Equity related securities held by the Harvest ETF may include, but are not limited to, convertible debt, income trust units, single issuer equity options, preferred shares and warrants. If market conditions require, in order to preserve capital, the Harvest ETF may seek to invest a substantial portion of its assets in cash and cash equivalents.

Sampling Strategy

The Harvest ETF may, in certain circumstances and at the discretion of the Manager, employ a “sampling” strategy. Under a sampling strategy, the Harvest ETF may not hold all of the Constituent Securities that are included in the Index, but instead will hold a portfolio of securities selected by the Manager that closely matches the

aggregate investment characteristics (e.g., market capitalization, industry sector, weightings and yield) of the securities included in the Index. It is expected that the Manager may use this sampling methodology where it is difficult to acquire the necessary Constituent Securities of the Index, where the asset levels of the Harvest ETF do not allow for the holding of all of the Constituent Securities or where it is otherwise beneficial to the Harvest ETF to do so.

Investment in Other Investment Funds

In accordance with applicable Canadian securities legislation, including NI 81-102, and as an alternative to or in conjunction with investing in and holding securities directly, the Harvest ETF may also invest in one or more other investment funds, including other investment funds managed by the Manager (each, an “**Other Fund**”), provided that no management fees or incentive fees are payable by the Harvest ETF that, to a reasonable person, would duplicate a fee payable by the Other Fund for the same service. The Harvest ETF’s allocation to investments in other investment funds, if any, will vary from time to time depending on the relative size and liquidity of the investment fund, and the ability of the Manager to identify appropriate investment funds that are consistent with the Harvest ETF’s investment objectives and strategies.

Use of Derivative Instruments

The Harvest ETF may use derivative instruments to reduce transaction costs and increase the liquidity and efficiency of trading. The Harvest ETF may, from time to time, use derivatives to hedge their exposure to Equity Securities or to generate additional income. The Harvest ETF may invest in or use derivative instruments, including futures contracts and forward contracts, provided that the use of such derivative instruments is in compliance with NI 81-102 or the appropriate regulatory exemptions have been obtained, and is consistent with the investment objectives and strategies of the Harvest ETF.

Currency Hedging

The Harvest ETF will not hedge any foreign currency exposure back to the Canadian dollar. The currency hedging mandate shall not be changed by the Manager without first obtaining approval of Unitholders.

Securities Lending

The Harvest ETF may in the future enter into securities lending transactions, repurchase and reverse purchase transactions in compliance with NI 81-102 to earn additional income for the Harvest ETF.

See “Investment Strategies”.

Special Considerations for Purchasers:

The provisions of the so-called “early warning” requirements set out in Canadian securities legislation do not apply in connection with the acquisition of Units. In addition, the Harvest ETF is entitled to rely on exemptive relief from the securities regulatory authorities to permit a Unitholder to acquire more than 20% of the Units through purchases on the TSX without regard to the takeover bid requirements of applicable Canadian securities legislation, provided that such Unitholder, and any person acting jointly or in concert with such Unitholder, undertakes to the Manager not to vote more than 20% of the Units at any meeting of Unitholders.

See “Attributes of the Securities - Description of the Securities Distributed”.

- Distributions:** Cash distributions of income, if any, on Units are expected to be made annually. The amount and date of any cash distributions will be announced in advance by issuance of a press release.
- Distributions on the Units, if any, may consist of income, including foreign source income and dividends from taxable Canadian corporations, and capital gains, less the expenses of the Harvest ETF and may include returns of capital.
- See “Distribution Policy”.
- Distribution Reinvestment:** The Manager may adopt a distribution reinvestment plan (a “**Reinvestment Plan**”) in respect of the Harvest ETF. If a Reinvestment Plan is adopted, a Unitholder may elect to participate in the Reinvestment Plan by notifying the CDS Participant through which the Unitholder holds its Units. Under the Reinvestment Plan, cash distributions (net of any required withholding tax) will be used to acquire additional Units in the market and will be credited to the account of the Unitholder through CDS.
- See “Distributions Policy – Distribution Reinvestment Plan”.
- Redemptions:** In addition to the ability to sell Units on the TSX, Unitholders may redeem Units for cash at a redemption price per Unit equal to 95% of the closing price for the Units on the TSX on the effective day of the redemption, subject to a maximum redemption price per Unit equal to the NAV per Unit on the effective day of redemption. The Harvest ETF will also offer additional redemption or exchange options which are available where a Dealer, the Designated Broker, or Unitholder redeems or exchanges a PNU or a multiple PNU.
- See “Exchange and Redemption of Units”.
- Income Tax Considerations:** A Unitholder who is resident in Canada will generally be required to include, in computing income for a taxation year, the amount of income (including any net realized taxable capital gains) that is paid or becomes payable to the Unitholder by the Harvest ETF in that year (including such income that is reinvested in additional Units or paid in Units).
- A Unitholder who disposes of a Unit that is held as capital property, including on a redemption or otherwise, will generally realize a capital gain (or capital loss) to the extent that the proceeds of disposition (other than any amount payable by the Harvest ETF which represents capital gains allocated and designated to the redeeming Unitholder) net of costs of disposition, exceed (or are less than) the adjusted cost base of that Unit.
- Each investor should satisfy himself or herself as to the federal and provincial tax consequences of an investment in Units by obtaining advice from his or her tax advisor.
- See “Income Tax Considerations”.
- Eligibility for Investment:** Provided that the Harvest ETF qualifies as a “mutual fund trust” within the meaning of the Tax Act, or the Units are listed on a “designated stock exchange” within the meaning of the Tax Act, the Units, if issued on the date hereof, would be on such date qualified investments under the Tax Act for a trust governed by an RRSP, a RRIF, an RDSP, a DPSP, an RESP or a TFSA.
- See “Income Tax Considerations – Taxation of Registered Plans”.
- Documents Incorporated by Reference:** During the period in which the Harvest ETF is in continuous distribution, additional information about the Harvest ETF will be available in the most recently filed annual financial statements, unaudited interim financial statements filed after those annual financial statements and the most recently filed annual management report of fund

performance and any interim management report of fund performance filed after that annual management report of fund performance, and the most recently filed ETF Facts. These documents will be incorporated by reference into this prospectus. Documents incorporated by reference into this prospectus legally form part of this prospectus just as if they were printed as part of this prospectus. These documents will be publicly available on the website of the Harvest ETF at www.harvestportfolios.com and may be obtained upon request, at no cost, by calling 416-649-4541 or toll-free 1-866-998-8298 or by contacting your dealer. These documents and other information about the Harvest ETF are also publicly available at www.sedar.com.

See “Documents Incorporated by Reference”.

Termination:

The Harvest ETF does not have a fixed termination date but may be terminated at the discretion of the Manager in accordance with the terms of the Declaration of Trust. See “Termination of the Harvest ETF”.

Risk Factors:

There are certain general risk factors inherent in an investment in the Harvest ETF, including:

- (a) No assurances on achieving investment objective;
- (b) Loss of investment;
- (c) Risks associated with index investment and passive investment strategies;
- (d) Risk of Error in replicating or tracking the Index;
- (e) Risks associated with the use of a sampling methodology;
- (f) Risks associated with rebalancing and subscriptions;
- (g) Risks regarding the calculation and termination of the Index;
- (h) Securities market risk;
- (i) Specific issuer risk;
- (j) Equity risk;
- (k) Risks associated with investing in issuers in the Blockchain technology sector;
- (l) Concentration risk;
- (m) General regulatory risk;
- (n) Corresponding NAV risk;
- (o) Fluctuations in NAV and market price of the Units;
- (p) Designated broker/Dealer risk;
- (q) Reliance on key personnel risk;
- (r) Potential conflicts of interest risk;
- (s) Cease trading of securities risk;
- (t) Currency fluctuation risk;
- (u) Exchange risk;
- (v) Early closing risk;
- (w) Illiquid securities;
- (x) Large capitalization issuer risk;
- (y) Small and Micro-capitalization risk;
- (z) Market disruptions risk;
- (aa) Nature of the Units;
- (bb) Tax risk;
- (cc) Fund of funds investment risk;
- (dd) Foreign markets risk;
- (ee) Global financial developments;
- (ff) Reliance on historical data risk;
- (gg) Liability of unitholders risk;
- (hh) Risks associated with not being a trust company; and

(ii) Absence of an active market and lack of operating history as an ETF.

See “Risk Factors – General Risks Relating to an Investment in the Harvest ETF”.

Organization and Management of the Harvest ETF

The Manager, Trustee and Portfolio Manager:	<p>Harvest Portfolios Group Inc., a registered portfolio manager and investment fund manager, is the promoter, trustee, manager and portfolio manager of the Harvest ETF. The Manager will be responsible for providing or arranging for the provision of administrative services and management functions, including the day-to-day management of the Harvest ETF. As portfolio manager, Harvest will also provide investment advisory services with respect to the Harvest ETF. The principal office of Harvest is 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7.</p> <p>See “Organization and Management Details of the Harvest ETF”.</p>
Custodian:	<p>State Street Trust Company Canada is the custodian of the Harvest ETF and is independent of the Manager. The Custodian provides custodial services to the Harvest ETF. The Custodian is located in Toronto, Ontario.</p> <p>See “Organization and Management Details of the Harvest ETF – Custodian”.</p>
Valuation Agent:	<p>State Street Trust Company Canada provides accounting services in respect of the Harvest ETF. State Street Trust Company Canada is located in Toronto, Ontario.</p> <p>See “Organization and Management Details of the Harvest ETF – Valuation Agent”.</p>
Auditors:	<p>PricewaterhouseCoopers LLP is responsible for auditing the annual financial statements of the Harvest ETF. The auditor is independent with respect to the Harvest ETF within the meaning of the Rules of Professional Conduct of the Chartered Professional Accountants of Ontario. The head office of PricewaterhouseCoopers LLP is in Toronto, Ontario.</p> <p>See “Organization and Management Details of the Harvest ETF – Auditors”.</p>
Registrar and Transfer Agent:	<p>State Street Trust Company Canada, at its principal offices in Toronto, Ontario is the registrar and transfer agent for the Units pursuant to a registrar and transfer agency agreement. State Street Trust Company Canada is independent of the Manager.</p> <p>See “Organization and Management Details of the Harvest ETF – Transfer Agent and Registrar”.</p>
Promoter:	<p>Harvest is the promoter of the Harvest ETF. Harvest took the initiative in founding and organizing the Harvest ETF and is, accordingly, the promoter of the Harvest ETF within the meaning of securities legislation of certain provinces and territories of Canada.</p> <p>See “Organization and Management Details of the Harvest ETF – Promoter”.</p>

Summary of Fees and Expenses

The following table lists the fees and expenses payable by the Harvest ETF, and the fees and expenses that Unitholders may have to pay if they invest in the Harvest ETF. Unitholders may have to pay some of these fees and expenses directly. Alternatively, the Harvest ETF may have to pay some of these fees and expenses, which will therefore reduce the value of an investment in the Harvest ETF.

Fees and Expenses Payable by the Harvest ETF

Type of Charge:	Description
Management Fee:	<p>The Harvest ETF will pay an annual management fee (the “Management Fee”) calculated and payable monthly in arrears based on the average NAV, calculated at each Valuation Time of the Harvest ETF during that month. The Management Fee for the Harvest ETF is 0.65% of NAV plus applicable taxes.</p> <p>The Manager may, at its discretion, agree to charge a reduced fee as compared to the fee it would otherwise be entitled to receive from the Harvest ETF with respect to large investments in the Harvest ETF by Unitholders. Such a reduction will be dependent upon a number of factors, including the amount invested, the total assets of the Harvest ETF under administration and the expected amount of account activity. In such cases, an amount equal to the difference between the fee otherwise chargeable and the reduced fee will be distributed to the applicable Unitholders as management fee distributions (the “Management Fee Distributions”). See “Fees and Expenses”.</p>
Operating Expenses:	<p>In addition to the Management Fee, unless otherwise waived or reimbursed by the Manager, and subject to compliance with NI 81-102, it is expected that the Harvest ETF will be responsible for the payment of all operating and administrative expenses relating to the operation of the Harvest ETF and the carrying on of its business, including, but not limited to: (a) mailing and printing expenses for periodic reports to Unitholders, (b) fees payable to the trustee for acting as Trustee (except when the Manager is the trustee), (c) fees payable to the Index Calculation Agent, Registrar and Transfer Agent, (d) fees payable to the Custodian for acting as custodian of the assets of the Harvest ETF; (e) any reasonable out of pocket expenses incurred by the Manager or its agents in connection with their ongoing obligations to the Harvest ETF, (f) IRC committee member fees and expenses in connection with the IRC, (g) expenses related to compliance with NI 81-107, (h) fees and expenses relating to voting of proxies by a third party, (i) insurance coverage for the members of the IRC, (j) fees payable to the auditors and legal advisors of the Harvest ETF, (k) regulatory filing, stock exchange and licensing fees and CDS fees, (l) banking and interest with respect to any borrowing (if applicable), (m) website maintenance costs, (n) any taxes payable by the Harvest ETF or to which the Harvest ETF may be subject, including income taxes, Sales Taxes and/or withholding taxes (o) expenditures incurred upon termination of the Harvest ETF, (p) brokerage commissions, (q) costs and expenses of complying with all applicable laws, regulations and policies, including expenses and costs incurred in connection with the continuous public filing requirements such as permitted prospectus preparation and filing expenses, (r) extraordinary expenses that the Harvest ETF may incur and all amounts paid on account of any indebtedness (if applicable), (s) any expenses of insurance and costs of all suits or legal proceedings in connection with the Harvest ETF or the assets of the Harvest ETF or to protect the Unitholders, the Trustee, the Manager, the investment manager, any sub-advisor and the directors, officers, employees or agents of the Trustee, the Manager, the investment manager and any sub-advisor, (t) any expenses of indemnification of the Trustee, the Unitholders, the Manager, the investment manager, or their respective directors, officers, employees or agents to the extent permitted under the Declaration of Trust, (u) expenses relating to the preparation, printing and mailing of information to Unitholders and relating to meetings of Unitholders, and (v) legal, accounting and audit fees and fees and expenses of the Trustee, Custodian and Manager which are incurred in respect of matters not in the normal course of the Harvest ETF’s activities. The Harvest ETF is also responsible for all commissions and other costs of portfolio transactions and any extraordinary</p>

expenses of the Harvest ETF which may be incurred from time to time.

Costs and expenses payable by the Manager, or an affiliate of the Manager, include the initial organization costs of the Harvest ETF and the costs of the preparation and filing of the preliminary prospectus and initial prospectus.

See “Fees and Expenses”.

**Investments in Other
Investment Funds**

In the event the Harvest ETF invests in one or more other investment funds listed on a stock exchange in Canada or the United States, there shall be no management fees or incentive fees that are payable by the Harvest ETF that, to a reasonable person, would duplicate a fee payable by the underlying investment fund for the same service.

Expenses of the Issue:

Apart from the initial organization costs of the Harvest ETF, all expenses related to the issuance of Units shall be borne by the Harvest ETF unless otherwise waived or reimbursed by the Manager. See “Fees and Expenses”.

Fees and Expenses Payable Directly by Unitholders

Other Fees:

The Manager may, at its discretion, charge purchasing, exchanging or redeeming Unitholders a fee of up to 2% of the issue, exchange or redemption proceeds to offset certain transaction costs associated with the issue, exchange or redemption of Units. This fee, which is payable to the Harvest ETF, does not apply to Unitholders who buy and sell their Units through the facilities of the TSX.

See “Exchange and Redemption of Units”.

Annual Returns, Management Expense Ratio and Trading Expense Ratio

As the Harvest ETF does not have audited financial statements for any period of time as at the date of this document, information related to annual returns and management expense ratios does not yet exist.

OVERVIEW OF THE LEGAL STRUCTURE OF THE HARVEST ETF

The Harvest ETF is an exchange traded mutual fund trust established under the laws of the province of Ontario, the Units of which are offered pursuant to this prospectus. The promoter, trustee, manager and portfolio manager of the Harvest ETF is Harvest Portfolios Group Inc., a registered portfolio manager and investment fund manager.

The Harvest ETF issues Units on a continuous basis and there is no maximum number of Units that may be issued. The Units have been conditionally approved for listing on the TSX. Subject to satisfying the TSX's original listing requirements, the Units will be listed on the TSX and investors will be able to buy or sell such Units on the TSX through registered brokers and dealers in the province or territory where the investor resides. Investors may incur customary brokerage commissions in buying or selling Units. No fees are paid by investors to the Manager or the Harvest ETF in connection with the buying or selling of Units on the TSX.

The head office of the Manager and the Harvest ETF is 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7.

The following chart sets out the full legal name as well as the TSX ticker symbol for the Harvest ETF:

Name of Harvest ETF	TSX Ticker Symbol (Class A Units)
Blockchain Technologies ETF	HBLK

INVESTMENT OBJECTIVES

The Harvest ETF seeks to replicate, to the extent reasonably possible and before fees and expenses, the performance of the Harvest Blockchain Technologies Index. The Harvest ETF invests in equity securities of issuers exposed, directly or indirectly, to the development and implementation of blockchain and distributed ledger technologies.

The investment objectives of the Harvest ETF may not be changed except with the approval of their Unitholders. See "Unitholder Matters" for additional descriptions of the process for calling a meeting of Unitholders and the requirements of Unitholder approval.

The Index

The Harvest Blockchain Technologies Index has been designed to track the performance of issuers in the large cap blockchain segment (the "**Large Cap Blockchain Segment**") and issuers in the emerging blockchain segment (the "**Emerging Blockchain Segment**") exposed to the development and implementation of blockchain technologies in North America, giving consideration to the current of stage of the technology's development, adoption levels and the available universe of the growing number of blockchain issuers.

The Index is divided into two segments: Large Cap Blockchain Segment and Emerging Blockchain Segment.

The Large Cap Blockchain Segment is comprised of issuers exposed to the development of blockchain based technologies that meet certain criteria, including: (i) have a minimum USD\$10 billion market capitalization, (ii) are included in the Global Industry Classification Standards (GICS) Information Technology sectors, (iii) are listed on a recognized North American stock exchange, and (iv) have direct or indirect exposure to blockchain or distributed ledger technologies. Initially, ten issuers are selected for inclusion in the Large Cap Blockchain Segment of the Index. The inclusion of issuers in the Large Cap Blockchain Segment is based on a multi-factor ranking model. The Emerging Blockchain Segment is comprised of up to 50 issuers exposed to the development of blockchain based technologies that meet certain criteria, including: (i) are listed on a recognized North American stock exchange (excluding Over-the-Counter), (ii) have a minimum CAD\$50 million market capitalization, and (iii) receive a minimum score based on the Index's multi-factor ranking model. Although the Index and the Harvest ETF may each provide exposure to crypto-miners and other companies which may themselves have exposure to crypto-assets and/or crypto currencies, direct exposure to such physical crypto-assets and/or crypto currencies such as bitcoin or initial coin offerings, as well as their relevant exchanges, are excluded from inclusion in the Index.

Initially, the Large Cap Blockchain Segment of the Index is equally-weighted giving the same weight to each of the 10 Constituent Issuers in the Index as at the time of rebalancing. The Emerging Blockchain Segment is market

capitalization weighted and will initially comprise 55% of the Harvest ETF's portfolio. However, as the Emerging Blockchain Segment grows, the Index has been designed such that the Emerging Blockchain Segment progressively increases its weighting in the Index at certain pre-determined quantitative measurements, until such time as the entire Index is comprised of issuers from the Emerging Blockchain Segment. The Index is rebalanced quarterly, occurring within 15 business days following the last day of February, July, October, and December of each year.

The Index is based on a rules-based methodology and owned and managed by Harvest Portfolios Group Inc. The conditions for eligibility, inclusion and retention of Constituent Issuers is governed by the index rule book. Further information about the Index, including a description of its methodology and the Index rule book, is available on the Index Calculation Agent's website at www.solactive.com and the Manager's website at www.harvestportfolios.com.

Change in the Index

The Manager may, subject to any required Unitholder approval, change the Index tracked by the Harvest ETF to another widely-recognized index in order to provide investors with substantially the same exposure to the asset class to that which the Harvest ETF is currently exposed. If the Manager changes the Index, or any index replacing such Index, the Manager will issue a press release identifying the new Index, describing its Constituent Securities and specifying the reasons for the change in the Index.

Termination of the Index

The Index Provider maintains the Index and the Index Calculation Agent determines and calculates the Index for the Index Provider. In the event that the Index Calculation Agent ceases to calculate the Index or the Index Agreement is terminated, the Manager may terminate the Harvest ETF on 60 days' notice, change the investment objective of the Harvest ETF or seek to replicate an alternative Index (subject to Unitholder approval if required in accordance with NI 81-102), or make such other arrangements as the Manager considers appropriate and in the best interests of Unitholders in the circumstances.

If an alternate Index is selected, the investment objective of the Harvest ETF shall be to replicate, to the extent possible and before fees and expenses, the performance of such alternate Index. The Manager will notify Unitholders, which notice may be by way of press release, at least 30 days prior to the effective date of the selection of an alternate Index

INVESTMENT STRATEGIES

The Harvest ETF will invest in portfolios comprised of various securities and instruments which may include, but are not limited to equity and equity related securities, as well as exchange traded funds (provided such investments are consistent with the Harvest ETF's investment objectives and strategies). Equity related securities held by the Harvest ETF may include but are not limited to, ADRs, convertible debt, income trust units, single issuer equity options, preferred shares and warrants. If market conditions require, in order to preserve capital, the Harvest ETF may seek to invest a substantial portion of its assets in cash and cash equivalents.

Sampling Strategy

The Harvest ETF may, in certain circumstances and at the discretion of the Manager, employ a "sampling" strategy. Under a sampling strategy, the Harvest ETF may not hold all of the Constituent Securities that are included in the Index, but instead will hold a portfolio of securities selected by the Manager that closely matches the aggregate investment characteristics (e.g., market capitalization, industry sector, weightings and yield) of the securities included in the Index. It is expected that the Manager may use this sampling methodology where it is difficult to acquire the necessary Constituent Securities of the Index, where the asset levels of the Harvest ETF do not allow for the holding of all of the Constituent Securities or where it is otherwise beneficial to the Harvest ETF to do so.

Investment in Other Investment Funds

In accordance with applicable securities legislation, including NI 81-102, and as an alternative to or in conjunction with investing in and holding securities directly, the Harvest ETF may also invest in one or more other investment funds, including other investment funds managed by the Manager (each, an "**Other Fund**"), provided that no management fees or incentive fees are payable by the Harvest ETF that, to a reasonable person, would duplicate a fee payable by the Other Fund for the same service. The Harvest ETF's allocation to investments in other investment

funds, if any, will vary from time to time depending on the relative size and liquidity of the investment fund, and the ability of the Manager to identify appropriate investment funds that are consistent with the Harvest ETF' investment objectives and strategies.

Use of Derivative Instruments

The Harvest ETF may use derivative instruments to reduce transaction costs and increase the liquidity and efficiency of trading. The Harvest ETF may, from time to time, use derivatives to hedge their exposure to equity securities or to generate additional income. The Harvest ETF may invest in or use derivative instruments, including futures contracts and forward contracts, provided that the use of such derivative instruments is in compliance with NI 81-102 or the appropriate regulatory exemptions have been obtained, and is consistent with the investment objectives and strategies of the Harvest ETF.

Currency Hedging

The Harvest ETF will not hedge any foreign currency exposure back to the Canadian dollar. The currency hedging mandate shall not be changed by the Manager without first obtaining approval of Unitholders.

Securities Lending

The Harvest ETF may in the future enter into securities lending transactions, repurchase and reverse purchase transactions in compliance with NI 81-102 to earn additional income for the Harvest ETF.

Rebalancing Events

Whenever the Index Provider or Index Calculation Agent rebalances or adjusts an Index, including by adding securities to or subtracting securities from that Index or, if applicable, whenever the Manager determines that there should be a change to the representative sample of the Index, the Harvest ETF may acquire and/or dispose of the appropriate number of securities through the Designated Broker or through other brokers in the open market.

Actions Affecting Constituent Securities

From time to time, certain corporate or other actions may be taken or proposed by a Constituent Issuer or a third party that could affect a Constituent Security of the Index. Examples of such actions would be if a takeover bid or an issuer bid is made for a Constituent Security, or if a special dividend is paid on a Constituent Security. In each such case, the Manager, in its discretion, will determine what steps the Harvest ETF will take to address the action, if any. In exercising such discretion, the Manager will generally take those steps necessary to ensure that the Harvest ETF continues to seek to track the Index, to the extent reasonably possible and before fees and expenses.

OVERVIEW OF THE SECTOR THAT THE HARVEST ETF INVEST IN

The Harvest ETF invests primarily in equity securities of issuers exposed directly or indirectly to the development and implementation of blockchain technologies.

INVESTMENT RESTRICTIONS

The Harvest ETF is subject to certain investment restrictions and practices contained in Canadian securities legislation, including NI 81-102, which are designed in part to ensure that the investments of the Harvest ETF are diversified and relatively liquid and to ensure its proper administration. The investment restrictions and practices applicable to the Harvest ETF which are contained in Canadian securities legislation, including NI-81-102, may not be deviated from without the prior consent of the securities regulatory authorities having jurisdiction over the Harvest ETF. A change to the fundamental investment objectives of the Harvest ETF would require the approval of the Unitholders. Please see "Unitholder Matters – Matters Requiring Unitholders Approval".

Subject to the following, and any exemptive relief that has been or will be obtained, the Harvest ETF is managed in accordance with the investment restrictions and practices set out in the applicable securities legislation, including NI 81-102. See "Exemptions and Approvals".

Tax Related Investment Restrictions

The Harvest ETF will not make an investment or conduct any activity that would result in the Harvest ETF (i) failing to qualify as a “unit trust” or “mutual fund trust” within the meaning of the Tax Act or (ii) being subject to the tax for “SIFT trusts” for purposes of the Tax Act. In addition, the Harvest ETF will not (i) make or hold any investment in property that would be “taxable Canadian property” (if the definition of such term in the Tax Act were read without reference to paragraph (b) thereof) if more than 10% of the Harvest ETF’s property consisted of such property; (ii) invest in or hold (a) securities of or an interest in any non-resident entity, an interest in or a right or option to acquire such property, or an interest in a partnership which holds any such property if the Harvest ETF (or the partnership) would be required to include significant amounts in income pursuant to section 94.1 of the Tax Act, (b) an interest in a trust (or a partnership which holds such an interest) which would require the Harvest ETF (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or (c) any interest in a non-resident trust other than an “exempt foreign trust” for the purposes of section 94 of the Tax Act (or a partnership which holds such an interest); (iii) invest in any security that would be a “tax shelter investment” within the meaning of section 143.2 of the Tax Act; (iv) invest in any security of an issuer that would be a “foreign affiliate” of the Harvest ETF for purposes of the Tax Act; or (v) enter into any arrangement (including the acquisition of securities for the Harvest ETF’s portfolio) where the result is a “dividend rental arrangement” for purposes of the Tax Act (including any amendment to such definition).

FEES AND EXPENSES

Fees and Expenses Payable by the Harvest ETF

Management Fee

The Harvest ETF will pay an annual management fee (the “**Management Fee**”) to the Manager calculated and payable monthly in arrears based on the average NAV, calculated at each Valuation Time during that month. The Management Fee compensates the Manager for providing management and portfolio management services to the Harvest ETF including, without limitation: the making of investment portfolio decisions, the execution of portfolio transactions, services related to ongoing administration, marketing and oversight and compliance matters for the Harvest ETF. The Management Fee of the Harvest ETF is 0.65% of NAV, plus applicable taxes.

The Manager may, at its discretion, agree to charge a reduced Management Fee as compared to the fee it would otherwise be entitled to receive from the Harvest ETF with respect to large investments in the Harvest ETF by Unitholders that hold, on average during any period specified by the Manager from time to time, Units having a specified aggregate value. Such a reduction will be dependent upon a number of factors, including the amount invested, the total assets of the Harvest ETF under administration and the expected amount of account activity. In such cases, an amount equal to the difference between the fee otherwise chargeable and the reduced fee will be distributed in cash, at the discretion of the Manager, to the applicable Unitholders as management fee distributions (the “**Management Fee Distributions**”).

The availability and amount of Management Fee Distributions with respect to Units will be determined by the Manager. Management Fee Distributions for the Harvest ETF will generally be calculated and applied based on a Unitholder’s average holdings of Units over each applicable period as specified by the Manager from time to time. Management Fee Distributions will be available only to beneficial owners of Units and not to the holdings of Units by dealers, brokers or other CDS Participants that hold Units on behalf of beneficial owners. Management Fee Distributions will be paid first out of net income of the Harvest ETF, then out of capital gains of the Harvest ETF and thereafter out of capital. In order to receive a Management Fee Distribution for any applicable period, a beneficial owner of Units must submit a claim for a Management Fee Distribution that is verified by a CDS Participant on the beneficial owner’s behalf and provide the Manager with such further information as the Manager may require in accordance with the terms and procedures established by the Manager from time to time.

The Manager reserves the right to discontinue or change Management Fee Distributions at any time. The tax consequences of Management Fee Distributions made by the Harvest ETF generally will be borne by the Unitholders of the Harvest ETF receiving these distributions from the Manager.

Operating Expenses

In addition to the Management Fee, unless otherwise waived or reimbursed by the Manager, and subject to compliance with NI 81-102, it is expected that the Harvest ETF will be responsible for the payment of all operating and administrative expenses relating to the operation of the Harvest ETF and the carrying on of its business, including, but not limited to: (a) mailing and printing expenses for periodic reports to Unitholders, (b) fees payable to the trustee for acting as Trustee (except when the Manager is the trustee), (c) fees payable to the Index Calculation Agent, Registrar and Transfer Agent, (d) fees payable to the Custodian for acting as custodian of the assets of the Harvest ETF; (e) any reasonable out of pocket expenses incurred by the Manager or its agents in connection with their ongoing obligations to the Harvest ETF, (f) IRC committee member fees and expenses in connection with the IRC, (g) expenses related to compliance with NI 81-107, (h) fees and expenses relating to voting of proxies by a third party, (i) insurance coverage for the members of the IRC, (j) fees payable to the auditors and legal advisors of the Harvest ETF, (k) regulatory filing, stock exchange and licensing fees and CDS fees, (l) banking and interest with respect to any borrowing (if applicable), (m) website maintenance costs, (n) any taxes payable by the Harvest ETF or to which the Harvest ETF may be subject, including income taxes, Sales Taxes and/or withholding taxes (o) expenditures incurred upon termination of the Harvest ETF, (p) brokerage commissions, (q) costs and expenses of complying with all applicable laws, regulations and policies, including expenses and costs incurred in connection with the continuous public filing requirements such as permitted prospectus preparation and filing expenses, (r) extraordinary expenses that the Harvest ETF may incur and all amounts paid on account of any indebtedness (if applicable), (s) any expenses of insurance and costs of all suits or legal proceedings in connection with the Harvest ETF or the assets of the Harvest ETF or to protect the Unitholders, the Trustee, the Manager, the investment manager, any sub-advisor and the directors, officers, employees or agents of the Trustee, the Manager, the investment manager and any sub-advisor, (t) any expenses of indemnification of the Trustee, the Unitholders, the Manager, the investment manager, or their respective directors, officers, employees or agents to the extent permitted under the Declaration of Trust, (u) expenses relating to the preparation, printing and mailing of information to Unitholders and relating to meetings of Unitholders, and (v) legal, accounting and audit fees and fees and expenses of the Trustee, Custodian and Manager which are incurred in respect of matters not in the normal course of the Harvest ETF's activities. The Harvest ETF is also responsible for all commissions and other costs of portfolio transactions and any extraordinary expenses of the Harvest ETF which may be incurred from time to time.

Costs and expenses payable by the Manager, or an affiliate of the Manager, include the initial organization costs of the Harvest ETF and the costs of the preparation and filing of the preliminary prospectus and initial prospectus.

Expenses of the Issue

Apart from the initial organization costs of the Harvest ETF, all expenses related to the issuance of Units shall be borne by the Harvest ETF unless otherwise waived or reimbursed by the Manager.

Fees and Expenses Payable Directly by the Unitholders

Other Fees

The Manager may, at its discretion, charge purchasing, exchanging or redeeming Unitholders a fee of up to 2% of the issue, exchange or redemption proceeds to offset certain transaction costs associated with the issue, exchange or redemption of Units. This fee, which is payable to the Harvest ETF, does not apply to Unitholders who buy and sell their Units through the facilities of the TSX.

ANNUAL RETURNS, MANAGEMENT EXPENSE RATIO AND TRADING EXPENSE RATIO

As the Harvest ETF does not have audited financial statements for any period of time as at the date of this document, information related to annual returns and management expense ratios does not yet exist.

RISK FACTORS

In addition to the considerations set out elsewhere in this prospectus, the following are certain considerations relating to an investment in Units which prospective investors should consider before purchasing such Units:

Risks Relating to an Investment in the Harvest ETF

No Assurances on Achieving Investment Objective

There is no assurance that the Harvest ETF will achieve its investment objective. The funds available for distributions to Unitholders will vary according to, among other things, the dividends and other distributions paid on the securities in the portfolios and the value of the securities comprising the portfolio of the Harvest ETF.

Loss of Investment

Investment in the Harvest ETF carries with it the possibility that the investor will experience an investment loss or that distribution will not be made for any period of time.

Index Investment and Passive Investment Risk

The Harvest ETF has been designed to replicate, to the extent possible and before fees and expenses, the performance of the Index. The Harvest ETF is not actively managed and the Manager will not attempt to take defensive positions in declining markets. Therefore, any adverse financial condition of a Constituent Issuer represented in an Index will not result in the elimination of exposure to its securities, whether direct or indirect, by the Harvest ETF unless the Constituent Securities are removed from the Index.

Risk of Error in Replicating or Tracking the Index

An investment in the Harvest ETF should be made with an understanding that the Harvest ETF will not replicate exactly the performance of the Index. The total return generated by the securities held by the Harvest ETF will be reduced by the Management Fee payable to the Manager and transaction costs (including transaction costs incurred in adjusting the actual balance of the securities held by the Harvest ETF) as well as taxes and other expenses borne by the Harvest ETF whereas such transaction costs, taxes and expenses are not included in the calculation of the returns of the Index.

Also, deviations in the tracking of the Index by the Harvest ETF could occur for a variety of reasons, including if that Harvest ETF uses a sampling methodology or includes certain other securities in the portfolio of securities held by the Harvest ETF, or as a result of the costs, risks or other performance impacts of currency fluctuation experienced by the Harvest ETF. Deviations may also occur if the Harvest ETF tenders securities under a successful takeover bid for less than all securities of a Constituent Issuer and the Constituent Issuer is not taken out of the Index. In each such case, the Harvest ETF would be required to buy replacement securities for more than the takeover bid proceeds. It is also possible that, for a period of time, the Harvest ETF may not fully replicate the performance of the Index due to extraordinary circumstances.

Adjustments to the Basket of Securities necessitated by the rebalancing of or adjustment to the Index could affect the underlying market for Constituent Securities of the Index, which in turn would be reflected in the value of the Index. Similarly, subscriptions for Units by the Designated Broker and Dealers may impact the market for Constituent Securities of the Index, as the Designated Broker or Dealers seek to buy or borrow such securities to constitute Baskets of Securities to deliver to the Harvest ETF as payment for the Units to be issued.

Risks Associated with the Use of a Sampling Methodology

The Harvest ETF may employ a sampling methodology or may hold an exchange traded fund that employs a sampling methodology. A sampling methodology involves seeking to replicate the performance of the Index by holding a subset of the Constituent Securities or a portfolio of some or all of the Constituent Securities and other securities selected by the Manager such that the aggregate investment characteristics of the portfolio are reflective of the aggregate investment characteristics of, or a representative sample of, the Index. It is possible that the use of a sampling methodology may result in a greater deviation in performance relative to the Index than a replication strategy in which only the Constituent Securities are held in the portfolio in approximately the same proportions as they are represented in the applicable Index.

Risks Associated with Rebalancing and Subscriptions

Adjustments to Baskets of Securities held by the Harvest ETF to reflect rebalancing events, including adjustments to the applicable Index or as otherwise determined by the Manager, will depend on the ability of the Manager and the Designated Broker to perform their respective obligations under the designated broker agreement. If the Designated Broker fails to perform, the Harvest ETF may be required to sell or purchase, as the case may be, Constituent Securities of the Index in the market. If this happens, the Harvest ETF would incur additional transaction costs, which would cause the performance of the Harvest ETF to deviate more significantly from the performance of the Index than would otherwise be expected.

Adjustments to the Basket of Securities necessitated by a rebalancing event could affect the underlying market for the Constituent Securities of the Index, which in turn would affect the value of that Index. Similarly, subscriptions for Units by the Designated Broker and Dealers may impact the market for the Constituent Securities of the Index, as the Designated Broker or the Dealers seek to buy or to borrow the Constituent Securities to constitute the Baskets of Securities to be delivered to the Harvest ETF as payment for the Units to be issued.

Risks Associated with Calculation and Termination of the Index

The Index is maintained by the Index Provider and calculated for the Index Provider by the Index Calculation Agent. Trading in Units may be suspended for a period of time if, for whatever reason, the calculation of an Index is delayed.

Securities Market Risk

The value of most securities, including the Harvest ETF' portfolio securities, changes with securities market conditions. These conditions are affected by general economic and market conditions.

Specific Issuer Risk

The value of securities will vary positively or negatively with developments within the specific companies or governments that issue such securities.

Equity Risk

Equities such as common shares give the holder part ownership in a company. The value of Equity Securities change with the fortunes of the company that issued them. General market conditions and the health of the economy as a whole can also affect equity prices. Equity related securities that provide indirect exposure to the Equity Securities of an issuer can also be affected by equity risk.

Risks Associated with Investing in Issuers in the Blockchain Technology Sector

Blockchain technology is an entirely new and relatively untested technology which operates as a distributed ledger. The risks associated with blockchain technology may not emerge until the technology is widely used. Blockchain systems could be vulnerable to fraud, particularly if a significant minority of participants colluded to defraud the rest. Access to a given blockchain requires an individualized key, which, if compromised, could result in loss due to theft, destruction or inaccessibility. There is little regulation of blockchain technology other than the intrinsic public nature of the blockchain system. Any future regulatory developments could affect the viability and expansion of the use of blockchain technology. Because blockchain technology systems may operate across many national boundaries and regulatory jurisdictions, it is possible that blockchain technology may be subject to widespread and inconsistent regulation. Blockchain technology is not a product or service that provides identifiable revenue for companies that implement, or otherwise use it. Therefore, the values of the companies included in the Index may not be a reflection of their connection to blockchain technology, but may be based on other business operations. Currently, blockchain technology is primarily used for the recording of transactions in digital currency, which are extremely speculative, unregulated and volatile. Problems in digital currency markets could have a wider effect on companies associated with blockchain technology. Blockchain technology also may never be implemented to a scale that provides identifiable economic benefit to the companies included in the Index. There are currently a number of competing blockchain platforms with competing intellectual property claims. The uncertainty inherent in these competing technologies could cause companies to use alternatives to blockchain. Finally, because digital assets registered in a blockchain do not have a standardized exchange, like a stock market, there is less liquidity for such assets and greater possibility of fraud or manipulation.

Concentration Risk

The Harvest ETF is concentrated to a significant degree in securities of issuers or underlying funds focused in the blockchain technology sector.

General Regulatory Risk

Legal and regulatory changes may occur that may adversely affect the Harvest ETF and which could make it more difficult, if not impossible, for the Harvest ETF to operate or to achieve its investment objectives. To the extent possible, the Manager will attempt to monitor such changes to determine the impact such changes may have on the Harvest ETF and what can be done, if anything, to try and limit such impact.

There can be no assurance that applicable laws in Canada or in foreign jurisdictions, or other domestic or foreign legislation, legal and statutory rights will not be changed in a manner which adversely affects the Harvest ETF or its Unitholders. There can be no assurance that Canadian and foreign income tax, securities, and other applicable laws or the interpretation and application of such laws by courts or government authorities will not be changed in a manner which adversely affects the Harvest ETF, its Unitholders or distributions received by the Harvest ETF or by its Unitholders.

Fluctuations in NAV and Market Price of the Units

Units may trade in the market at a premium or discount to the NAV and there can be no assurance that Units will trade at a price equal to the NAV. The NAV per Unit will fluctuate with changes in the market value of the Harvest ETF's holdings. Whether Unitholders of the Harvest ETF will realize gains or losses upon a sale of Units will depend not upon the NAV but entirely upon whether the market price of Units at the time of sale is above or below the Unitholder's purchase price for the Units. The market price of the Units will be determined by factors in addition to NAV such as relative supply of and demand for the Units in the market, general market and economic conditions, and other factors. However, given that Dealers may subscribe for or exchange a PNU of the Harvest ETFs at the applicable NAV per Unit, the Manager expects that large discounts or premiums to the NAV per Unit will not be sustained.

Designated Broker/Dealer Risk

As the Harvest ETF will only issue Units directly to the Designated Broker and Dealers, in the event that a purchasing Designated Broker or Dealer is unable to meet its settlement obligations, the resulting costs and losses incurred will be borne by the Harvest ETF.

Reliance on Key Personnel

Unitholders will be dependent on the abilities of the Manager to effectively manage the Harvest ETF and its portfolio in a manner consistent with its investment objectives, investment strategies and investment restrictions. The investment portfolio of the Harvest ETF will be managed by the Manager. The Manager will apply investment techniques and risk analyses in making investment decisions for the Harvest ETF, but there can be no guarantee that these decisions will produce the desired results. There is no certainty that the individuals who are principally responsible for providing administration and portfolio management services to the Harvest ETF will continue to be employed by the Manager, as applicable.

Potential Conflicts of Interest

Harvest, and its directors and officers and affiliates and associates may engage in the promotion, management or investment management of other accounts, funds or trusts that invest primarily in the securities held by the Harvest ETF. Although officers, directors and professional staff of Harvest will devote as much time to the Harvest ETF as is deemed appropriate to perform their respective duties, such persons may have conflicts in allocating their time and services among the Harvest ETF and the other funds managed by them.

Cease Trading of Securities Risk

If the securities of an issuer included in the portfolio of the Harvest ETF are cease-traded by order of the relevant securities regulatory authority or are halted from trading by the relevant stock exchange, the Harvest ETF may halt trading in its securities. Accordingly, securities of the Harvest ETF bear the risk of cease trading orders against all issuers whose securities are included in its portfolio, not just one. If portfolio securities of the Harvest ETF are cease-traded by order of a securities regulatory authority, if normal trading of such securities is suspended on the relevant exchange, or if for any reason it is likely there will be no closing bid price for such securities, the Harvest ETF may suspend the right to redeem securities for cash, subject to any required prior regulatory approval. If the right to redeem securities for cash is suspended, the Harvest ETF may return redemption requests to securityholders who have submitted them. If securities are cease-traded, they may not be delivered on an exchange of a PNU for a Basket of Securities until such time as the cease-trade order is lifted.

Currency Fluctuation Risk

As a significant portion of the portfolio of the Harvest ETF will be invested in securities traded in currencies other than the Canadian dollar, the NAV of the Harvest ETF, when measured in Canadian dollars, will be affected by changes in the value of the relevant currency relative to the Canadian dollar.

Exchange Risk

In the event that the TSX closes early or unexpectedly on a day that it is normally open for trading, Unitholders will be unable to purchase or sell Units on the TSX until it reopens and there is a possibility that, at the same time and for the same reason, the exchange and redemption of Units may be suspended until the TSX reopens.

Early Closing Risk

Unanticipated early closings of a stock exchange on which securities held by the Harvest ETF are listed may result in the Harvest ETF being unable to sell or buy securities on that day. If such exchanges close early on a day when the Harvest ETF needs to execute a high volume of securities trades late in the Trading Day, the Harvest ETF may incur substantial trading losses.

Illiquid Securities

There is no assurance that an adequate market will exist for the securities in the portfolio. The Manager may be unable to acquire or dispose of securities in quantities or at prices which are acceptable to the Manager, if the market for such securities is illiquid.

Large Capitalization Risk

The Harvest ETF may invest a relatively large percentage of its assets in the securities of large-capitalization companies. As a result, the performance of the Harvest ETF may be adversely affected if securities of large-capitalization companies underperform securities of smaller-capitalization companies or the market as a whole. The securities of large-capitalization companies may be relatively mature compared to smaller companies and therefore subject to slower growth during times of economic expansion.

Small and Micro-capitalization Issuer Risk

Capitalization is a measure of the value of a company. It is the current price of a company's stock multiplied by the number of shares issued by the company. Companies with small and micro capitalization may not have a well-developed market for their securities. As a result, such securities may be difficult to trade, making their prices more volatile than those of large capitalization companies.

Market Disruptions Risk

War and occupation, terrorism and related geopolitical risks may in the future lead to increased short-term market volatility and may have adverse long-term effects on world economies and markets generally. Those events could also have an acute effect on individual issuers or related groups of issuers. These risks could also adversely affect securities markets, inflation and other factors relating to the portfolio securities.

Nature of the Units

The Units share certain attributes common to both Equity Securities and debt instruments. Units are dissimilar to debt instruments in that there is no principal amount owing to Unitholders. The Units represent a fractional interest in the assets of the Harvest ETF. Unitholders will not have the statutory rights normally associated with ownership of shares of a corporation including, for example, the right to bring "oppression" or "derivative" actions.

Tax Risk

It is anticipated that the Harvest ETF will qualify, or will be deemed to qualify, at all times as a "mutual fund trust" within the meaning of the Tax Act. For the Harvest ETF to qualify as a "mutual fund trust," it must comply on a continuous basis with certain requirements relating to the qualification of its Units for distribution to the public, the number of Unitholders and the dispersal of ownership of its Units.

Currently, a trust will be deemed not to be a mutual fund trust if it is established or maintained primarily for the benefit of non-residents of Canada unless, at that time, all or substantially all of its property is property other than property that would be "taxable Canadian property" (if the definition of such term in the Tax Act were read without reference to paragraph (b) thereof). The current law does not provide any means of rectifying a loss of mutual fund trust status if this requirement is not met.

Provided the Harvest ETF complies with its investment restrictions set forth under the heading "Investment Restrictions - Tax Related Investment Restrictions", no more than 10% of the fair market value of the Harvest ETF's assets will at any time consist of property that would be "taxable Canadian property" (if the definition of such term in the Tax Act were read without reference to paragraph (b) thereof). The Harvest ETF also contain a restriction on the number of permitted non-resident Unitholders.

The Harvest ETF is expected to meet all the requirements to qualify as a "mutual fund trust" for the purposes of the Tax Act before the 91st day after the end of its first taxation year (determined without regard to any taxation year-end that may be deemed to occur for other purposes under the rules in the Tax Act relating to "loss restriction

events”). Assuming that the Harvest ETF meets these requirements before such day, the Harvest ETF will file an election to qualify as a mutual fund trust from its inception in 2018.

If the Harvest ETF does not qualify as a mutual fund trust or were to cease to so qualify, the income tax considerations as described under “Income Tax Considerations” would in some respects be materially and adversely different.

There can be no assurance that Canadian federal and provincial income tax laws respecting the treatment of mutual fund trusts will not be changed in a manner that adversely affects Unitholders.

In determining its income for tax purposes, the Harvest ETF treats gains and losses on dispositions of securities in its portfolio as capital gains and losses. Generally, the Harvest ETF includes gains and deducts losses on income account in connection with investments made through certain derivatives, except where such derivatives are used to hedge portfolio securities held on capital account provided there is sufficient linkage. Designations with respect to the Harvest ETF’s income and capital gains will be made and reported to Unitholders on the foregoing basis. The CRA’s practice is not to grant advance income tax rulings on the characterization of items as capital gains or income and no advance income tax ruling has been requested or obtained. If some or all of the transactions undertaken by the Harvest ETF in respect of such dispositions or transactions were treated on income rather than capital account (whether because of the DFA Rules discussed below or otherwise), the net income of the Harvest ETF for tax purposes and the taxable component of distributions to Unitholders could increase. Any such redetermination by the CRA may result in the Harvest ETF being liable for unremitted withholding taxes on prior distributions made to Unitholders who were not resident in Canada for the purposes of the Tax Act at the time of the distribution. Such potential liability may reduce the NAV of, or trading prices of, the Units.

The Tax Act contains rules (the “**DFA Rules**”) that target financial arrangements (referred to as “derivative forward agreements”) that seek to deliver a return based on an “underlying interest” (other than certain excluded underlying interests). The DFA Rules are broad in scope and could apply to other agreements or transactions. If the DFA Rules were to apply in respect of derivatives utilized by the Harvest ETF, gains realized in respect of the property underlying such derivatives could be treated as ordinary income rather than capital gains.

Pursuant to rules in the Tax Act, if the Harvest ETF experiences a “loss restriction event” (i) it will be deemed to have a year-end for tax purposes (which would result in an unscheduled distribution of the Harvest ETF’s net income and net realized capital gains, if any, at such time to Unitholders so that the Harvest ETF is not liable for income tax on such amounts under Part I of the Tax Act), and (ii) it will become subject to the loss restriction rules generally applicable to corporations that experience an acquisition of control, including a deemed realization of any unrealized capital losses and restrictions on its ability to carry forward losses. Generally, the Harvest ETF will be subject to a loss restriction event if a Unitholder becomes a “majority-interest beneficiary”, or a group of persons becomes a “majority-interest group of beneficiaries”, of the Harvest ETF, as those terms are defined in the affiliated persons rules contained in the Tax Act, with certain modifications. Generally, a majority-interest beneficiary of the Harvest ETF is a beneficiary in the income or capital, as the case may be, of the Harvest ETF whose beneficial interests, together with the beneficial interests of persons and partnerships with whom the beneficiary is affiliated, have a fair market value that is greater than 50% of the fair market value of all the interests in the income or capital, as the case may be, of the Harvest ETF. Please see “Income Tax Considerations – Taxation of Holders” for the tax consequences of an unscheduled or other distribution to Unitholders. Trusts that qualify as “investment funds” as defined in the rules in the Tax Act relating to loss restriction events are generally excepted from the application of such rules. An “investment fund” for this purpose includes a trust that meets certain conditions, including satisfying certain of the conditions necessary to qualify as a “mutual fund trust” for purposes of the Tax Act, not using any property in the course of carrying on a business and complying with certain asset diversification requirements. If the Harvest ETF were not to qualify as an “investment fund”, it could potentially have a loss restriction event and thereby become subject to the related tax consequences described above.

The Tax Act contains rules concerning the taxation of publicly traded Canadian trusts and partnerships that own certain types of property defined as “non-portfolio property”. A trust that is subject to these rules is subject to trust level taxation, at rates comparable to those that apply to corporations, on the trust’s income earned from “non-portfolio property” to the extent that such income is distributed to its unitholders. The Harvest ETF will not be subject to tax under these rules as long as the Harvest ETF complies with its investment restrictions in this regard. If the Harvest ETF is subject to tax under these rules, the after-tax return to Unitholders could be reduced, particularly in the case of a Unitholder who is exempt from tax under the Tax Act or is a non-resident of Canada.

Changes in the interpretation and administration of GST/HST may result in the Harvest ETF being required to pay increased amounts of GST/HST.

The Harvest ETF may invest in foreign equity securities. Many foreign countries preserve their right under domestic tax laws and applicable tax conventions with respect to taxes on income and on capital (“**Tax Treaties**”) to impose tax on dividends paid or credited to persons who are not resident in such countries. While the Harvest ETF intends to make investments in such a manner as to minimize the amount of foreign taxes incurred under foreign tax laws and subject to any applicable Tax Treaties, investments in foreign equity securities may subject the Harvest ETF to foreign taxes on dividends paid or credited to it or any gains realized on the disposition of such securities. Any foreign taxes incurred by the Harvest ETF will generally reduce the value of its portfolio. To the extent that such foreign tax paid by the Harvest ETF exceeds 15% of the amount included in the Harvest ETF’s income from such investments, such excess may generally be deducted by the Harvest ETF in computing its net income for the purposes of the Tax Act. To the extent that foreign tax paid does not exceed 15% of such amount and has not been deducted in computing the Harvest ETF’s income and the Harvest ETF designates its income from a foreign source in respect of a Unitholder, the Unitholder will, for the purposes of computing its foreign tax credits, be entitled to treat the Unitholder’s proportionate share of foreign taxes paid by the Harvest ETF in respect of such income as foreign taxes paid by the Unitholder. The availability of foreign tax credits to a Unitholder is subject to the detailed rules in the Tax Act.

Fund of Funds Investment Risk

The Harvest ETF may invest in other exchange traded funds, mutual funds, closed-end funds or public investment funds as part of its investment strategy. If the Harvest ETF invest in such underlying funds, its investment performance largely depends on the investment performance of the underlying funds in which they invest. Additionally, if an underlying fund suspends redemptions, the Harvest ETF may be unable to accurately value part of its investment portfolio and may be unable to redeem its units.

Foreign Markets Risk

Participation in transactions by the Harvest ETF may involve the execution and clearing of trades on or subject to the rules of a foreign market. None of the securities regulatory authorities or Canadian exchanges regulates activities of any foreign markets, including the execution, delivery and clearing of transactions, or has the power to compel enforcement of any rule of a foreign market or any applicable foreign law. Generally, any foreign transaction will be governed by applicable foreign laws. This is true even if the foreign market is formally linked to a Canadian market so that a position taken on a market may be liquidated by a transaction on another market. Moreover, such laws or regulations will vary depending on the foreign country in which the transaction occurs. For these reasons, entities such as the Harvest ETF may not be afforded certain of the protective measures provided by Canadian legislation or Canadian exchanges. In particular, funds received from investors for transactions by the Harvest ETF on foreign exchanges may not be provided the same protection as funds received in respect of transactions by the Harvest ETF on Canadian exchanges.

Global Financial Developments

Global financial markets have experienced a sharp increase in volatility in the last several years. This has been, in part, the result of the revaluation of assets on the balance sheets of international financial institutions and related securities. This has contributed to a reduction in liquidity among financial institutions and has reduced the availability of credit to those institutions and to the issuers who borrow from them. While central banks as well as global governments have worked to restore much needed liquidity to the global economies, no assurance can be given that the combined impact of the significant revaluations and constraints on the availability of credit will not continue to materially and adversely affect economies around the world. No assurance can be given that this stimulus will continue or that, if it continues, it will be successful or these economies will not be adversely affected by the inflationary pressures resulting from such stimulus or central banks’ efforts to slow inflation. Further, continued market concerns about the European sovereign debt crisis, economic growth in China, military conflicts in the Middle East, a reduction in quantitative easing by the U.S. Federal Reserve and matters related to the U.S. government debt limits, may adversely impact global equity markets. Some of these economies have experienced significantly diminished growth and some are experiencing or have experienced a recession. These market

conditions and further volatility or illiquidity in capital markets may also adversely affect the prospects of the Harvest ETF and the value of the Harvest ETF' portfolio of securities.

Reliance on Historical Data Risk

Past trends may not be repeated in the future. The accuracy of the historical data used by the Manager and those individuals who are principally responsible for providing administration and portfolio management services to the Harvest ETF for research and development, which is often provided by third parties, cannot be guaranteed by the Manager. The Manager only seeks to obtain such data from companies that it believes to be highly reliable and of high reputation.

Liability of Unitholders

The Declaration of Trust provides that no Unitholder will be subject to any personal liability whatsoever for any wilful or negligent acts or omissions or otherwise to any party in connection with the assets of the Harvest ETF or the affairs of the Harvest ETF. The Declaration of Trust also provides that the Harvest ETF must indemnify and hold each Unitholder harmless from and against any and all claims and liabilities to which such Unitholder may become subject, by reason of being or having been a Unitholder and must reimburse such Unitholder for all legal and other expenses reasonably incurred in connection with any such claim or liability. Despite the foregoing, there can be no absolute certainty, outside of Ontario, that a claim will not be made against a Unitholder for liabilities which cannot be satisfied out of the assets of the Harvest ETF.

Risks Associated with Not Being a Trust Company

The Harvest ETF is not a trust company and, accordingly, is not registered under the trust company legislation of any jurisdiction. Units are not “deposits” within the meaning of the *Canada Deposit Insurance Corporation Act* (Canada) and are not insured under provisions of that Act or any other legislation.

Absence of an Active Market and Lack of Operating History as an ETF

The Harvest ETF is a newly organized exchange traded fund with no operating history as an exchange traded fund. Although Units may be listed on the TSX, there can be no assurance that an active public market for the Units will develop or be sustained.

Risk Rating of the Harvest ETF

The investment risk level of the Harvest ETF is required to be determined in accordance with a standardized risk classification methodology that is based on the historical volatility of the Harvest ETF, as measured by the 10-year standard deviation of the returns of the Harvest ETF. As the Harvest ETF is new, the Manager calculates the investment risk level of the Harvest ETF using a reference index that is expected to reasonably approximate the standard deviation of the Harvest ETF. Once the Harvest ETF has 10 years of performance history, the methodology will calculate the standard deviation of the Harvest ETF using the return history of the Harvest ETF rather than that of the reference index. In each case, the Harvest ETF is assigned an investment risk rating in one of the following categories: low, low to medium, medium, medium to high or high risk.

The following chart sets out a description of the reference index used for the Harvest ETF:

Harvest ETF	Reference Index
Blockchain Technologies ETF	<i>S&P Small Cap 600 Capped Information Technology (sector) Total Return Index</i> – an index that imposes capped weights on the index constituents included in the S&P SmallCap 600 Index that are classified in the GICS® information technology sector.

Unitholders should know that other types of risks, both measurable and non-measurable, exist. Also, just as historical performance may not be indicative of future returns, historical volatility may not be indicative of future volatility. The risk rating of the Harvest ETF is reviewed annually and anytime it is no longer reasonable in the

circumstances. A more detailed explanation of the risk classification methodology used to identify the risk rating of the Harvest ETF is available on request, at no cost, by calling toll-free 1-866-998-8298 or by writing to Harvest Portfolios Group Inc., 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7.

DISTRIBUTION POLICY

Cash distributions of income, if any, on Units are expected to be made annually. The amount and date of any cash distributions will be announced in advance by issuance of a press release.

Distributions on the Units, if any, may consist of income, including foreign source income and dividends from taxable Canadian corporations, and capital gains, less the expenses of the Harvest ETF and may include returns of capital.

Year-End Distributions

If in any taxation year, there would remain in the Harvest ETF additional net income or net realized capital gains, the Harvest ETF will be required to pay or make payable such net income and net realized capital gains as one or more special year-end distributions in such year to Unitholders as is necessary to ensure that the Harvest ETF will not be liable for income tax on such amounts under Part I of the Tax Act (after taking into account all available deductions, credits and refunds). Such special distributions may be paid in the form of Units and/or cash. Any special distributions payable in Units will increase the aggregate adjusted cost base of a Unitholder's Units. Immediately following payment of such a special distribution in Units, the number of Units outstanding will be automatically consolidated such that the number of Units held by a Unitholder after such distribution will be equal to the number of Units held by such Unitholder immediately prior to such distribution, except in the case of a non-resident Unitholder to the extent tax is required to be withheld in respect of the distribution. See "Income Tax Considerations".

Distribution Reinvestment Plan

The Manager may adopt a distribution reinvestment plan (the "**Reinvestment Plan**") in respect of the Harvest ETF. If a Reinvestment Plan is adopted, Unitholders may elect to participate in such Reinvestment Plan by notifying the CDS Participant through which the Unitholder holds its Units of such Unitholder's intention to participate in the Reinvestment Plan. Under a Reinvestment Plan, cash distributions (net of any required withholding tax) will be used to acquire additional Units (the "**Plan Units**") from the market and will be credited to the account of the Unitholder (the "**Plan Participant**") through CDS.

The CDS Participant must, on behalf of such Plan Participant, elect online via CDSX no later than 4:00 p.m. (Toronto time) on each applicable Distribution Record Date in respect of the next expected distribution in which the Unitholder wishes to participate. These elections are received directly by the Plan Agent via CDSX. If this election via CDSX is not received by the Plan Agent by the applicable deadline, the Unitholder will not participate in the Reinvestment Plan for that distribution.

The tax treatment to Unitholders of reinvested distributions is discussed under the heading "Income Tax Considerations".

Fractional Units

No fractional Plan Units will be purchased or sold under the Reinvestment Plan. Cash payments for any uninvested funds remaining after the Plan Agent has purchased whole Plan Units will be made in lieu of fractional Plan Units by the Plan Agent to CDS. CDS will, in turn, credit the Plan Participant via the applicable CDS Participant.

Amendments, Suspension or Termination of the Reinvestment Plan

Plan Participants may voluntarily terminate their participation in the Reinvestment Plan. Plan Participants who no longer wish to participate in the Reinvestment Plan must notify their CDS Participant through which the Plan Participant holds their Units no later than 4:00 p.m. (Toronto time) at least two business days immediately prior to the applicable Distribution Record Date. Plan Participants should contact their CDS Participant to receive details of

the appropriate procedures for terminating their participation in the Reinvestment Plan. Any expenses associated with the preparation and delivery of a termination notice will be borne by the Plan Participant exercising its right to terminate participation in the Reinvestment Plan.

The Manager may terminate the Reinvestment Plan in its sole discretion, upon not less than 30 days' notice to: (i) CDS, (ii) the Plan Agent, and (iii) the TSX (if applicable). The Manager may also amend, modify or suspend the Reinvestment Plan at any time in its sole discretion, provided that it gives notice of all amendments, modifications or suspension to: (i) CDS, (ii) the Plan Agent, and (iii) the TSX (if applicable). All amendments or modifications to the Reinvestment Plan are subject to prior approval by the Plan Agent and, if necessary, the TSX.

The Manager may, in its sole discretion, and upon at least 30 days' written notice to the Plan Agent, remove the Plan Agent and appoint a new Plan Agent, provided that the Manager may not remove the Plan Agent until such time as a successor to the Plan Agent is appointed as plan agent.

Other Provisions

Participation in the Reinvestment Plan is restricted to Plan Participants who are residents of Canada for the purposes of the Tax Act. A partnership (other than a "Canadian partnership" as defined in the Tax Act) is not eligible to participate in the Reinvestment Plan. Upon becoming a non-resident of Canada or a partnership (other than a "Canadian partnership"), a Plan Participant shall be required to notify its CDS Participant and terminate its participation in the Reinvestment Plan immediately. For purposes of the Reinvestment Plan, the Plan Agent will have no duty to inquire into the eligibility, residency status or partnership status of a Plan Participant, and the Plan Agent will not be required to know the residency status or partnership status of Plan Participants.

The automatic reinvestment of the distributions under the Reinvestment Plan will not relieve Plan Participants of any income tax applicable to such distributions.

PURCHASES OF UNITS

Initial Investment in the Harvest ETF

In compliance with NI 81-102, the Harvest ETF will not issue Units to the public until subscriptions aggregating not less than \$500,000 have been received and accepted by the Harvest ETF from investors other than persons or companies related to the Manager or its affiliates.

Issuance of Units

Units are being issued and sold on a continuous basis and there is no maximum number of such Units that may be issued.

To the Designated Broker and Dealers

All orders to purchase Units directly from the Harvest ETF must be placed by the Designated Broker or Dealers. The Harvest ETF reserves the absolute right to reject any subscription order placed by the Designated Broker and/or Dealers. No fees will be payable by the Harvest ETF to the Designated Broker or Dealers in connection with the issuance of Units. On the issuance of Units, the Manager may, at its discretion, charge an administrative fee to the Designated Broker or Dealers to offset any expenses incurred in issuing the Units.

On any Trading Day, the Designated Broker or a Dealer may place a subscription order for a prescribed number of Units (a "PNU") or integral multiple PNU.

If a subscription order is received by the Harvest ETF at or before 9:00 a.m. on a Trading Day, or such other time prior to the Valuation Time on such Trading Day as the Manager may permit, and is accepted by the Manager, the Harvest ETF will generally issue to the Dealer or the Designated Broker the PNU (or an integral multiple thereof) within two Trading Days (or such shorter period, as may be required by applicable law) from the effective date of the subscription order. The Harvest ETF must receive payment for the Units subscribed for within two Trading Days (or such shorter period, as may be required by applicable law) from the effective date of the subscription order. The effective date of a subscription order is the Trading Day on which the Valuation Time that applies to such subscription order takes place.

Unless the Manager shall otherwise agree or the Declaration of Trust shall otherwise provide, as payment for a PNU, a Dealer or the Designated Broker must deliver subscription proceeds consisting of a Basket of Securities and cash

in an amount sufficient so that the value of the Basket of Securities and cash delivered is equal to the NAV of the applicable PNU determined at the Valuation Time on the effective date of the subscription order.

The Manager may, in its complete discretion, instead accept subscription proceeds consisting of (i) cash only in an amount equal to the NAV of the PNU of the Harvest ETF determined at the Valuation Time on the effective date of the subscription order, plus (ii) if applicable, associated costs and expenses that the Harvest ETF incurs or expects to incur in purchasing securities on the market with such cash proceeds. See “Fees and Expenses – Other Fees”.

The Manager will publish, except when circumstances prevent it from doing so, the applicable PNU for the Harvest ETF following the close of business on each Trading Day on its website, www.harvestportfolios.com. The Manager may, at its discretion, increase or decrease the applicable PNU from time to time.

The Manager may from time to time and, in any event not more than once quarterly, require the Designated Broker to subscribe for Units for cash in a dollar amount not to exceed 0.30% of the NAV, or such other amount as may be agreed to by the Manager and the Designated Broker. The number of Units issued will be the subscription amount divided by the NAV per Unit next determined following the delivery by the Manager of a subscription notice to the Designated Broker. Payment for the Units must be made by the Designated Broker by no later than the second Trading Day (or such shorter period, as may be required by applicable law) after the subscription notice has been delivered.

To Unitholders as Reinvested Distributions or Distributions Paid in Units (if applicable)

In addition to the issuance of Units as described above, distributions may be made by way of the issuance of Units and Units may be issued to Unitholders on the reinvestment of certain distributions in accordance with the Reinvestment Plan of the Harvest ETF. See “Distribution Policy” and “Distribution Reinvestment Plan”.

Buying and Selling Units

The Harvest ETF issues Units on a continuous basis and there is no maximum number of Units that may be issued. The Units have been conditionally approved for listing on the TSX. Subject to satisfying the TSX’s original listing requirements, the Units will be listed on the TSX and investors will be able to buy or sell such Units on the TSX through registered brokers and dealers in the province or territory where the investor resides.

Investors may incur customary brokerage commissions in buying or selling Units. No fees are paid by investors to the Manager or the Harvest ETF in connection with the buying or selling of Units on the TSX.

Special Considerations for Unitholders

The provisions of the so-called “early warning” requirements set out in Canadian securities legislation do not apply in connection with the acquisition of Units. In addition, the Harvest ETF are entitled to rely on exemptive relief from the securities regulatory authorities to permit a Unitholder to acquire more than 20% of the Units through purchases on the TSX without regard to the takeover bid requirements of applicable Canadian securities legislation, provided that such Unitholder, and any person acting jointly or in concert with such Unitholder, undertakes to the Manager not to vote more than 20% of the Units at any meeting of Unitholders.

EXCHANGE AND REDEMPTION OF UNITS

Exchange of Units at NAV per Unit for Baskets of Securities and/or Cash

Unitholders may exchange a PNU (or an integral multiple thereof) of the Harvest ETF on any Trading Day for Baskets of Securities and cash, subject to the requirement that a minimum PNU be exchanged. To effect an exchange of Units, a Unitholder must submit an exchange request in the form and at the location prescribed by the Harvest ETF from time to time at or before 9:00 a.m. (Toronto time) on a Trading Day, or such other time prior to the Valuation Time on such Trading Day as the Manager may permit. The exchange price will be equal to the NAV of each PNU tendered for exchange determined at the Valuation Time on the effective date of the exchange request, payable by delivery of a Basket of Securities (constituted as most recently published prior to the effective date of the exchange request) and cash. The Units will be redeemed in the exchange. The Manager will also make available to Dealers and Designated Brokers the applicable PNU to redeem Units on each Trading Day. The effective date of an

exchange request is the Trading Day on which the Valuation Time that applies to such redemption request takes place.

Upon the request of a Unitholder, the Manager may, in its complete discretion, satisfy an exchange request by delivering cash only in an amount equal to the NAV of each PNU tendered for exchange determined at the Valuation Time on the effective date of the exchange request, provided that the Unitholder agrees to pay the costs and expenses that the Harvest ETF incurs or expects to incur in selling securities on the market to obtain the necessary cash for the exchange. See “Fees and Expenses – Other Fees”.

If an exchange request is not received by the applicable cut-off time, the exchange order will be effective only on the next Trading Day. Settlement of exchanges for Baskets of Securities and cash will generally be made by the second Trading Day (or such shorter period, as may be required by applicable law) after the effective day of the exchange request.

If any securities in which the Harvest ETF has invested are cease traded at any time by order of a securities regulatory authority or other relevant regulator or stock exchange, the delivery of Baskets of Securities to a Unitholder, Dealer or the Designated Broker on an exchange in the PNU may be postponed until such time as the transfer of the Baskets of Securities is permitted by law.

As described under “Book-Entry Only System”, registration of interests in, and transfers of, Units will be made only through the book-entry only system of CDS. The redemption rights described below must be exercised through the CDS Participant through which the owner holds Units. Beneficial owners of Units should ensure that they provide redemption instructions to the CDS Participant through which they hold such Units sufficiently in advance of the cut-off times described below to allow such CDS Participant to notify CDS and for CDS to notify the Manager prior to the relevant cut-off time.

Redemption of Units for Cash

On any Trading Day, Unitholders may redeem (i) Units for cash at a redemption price per Unit equal to 95% of the closing price for the Units on the TSX on the effective day of the redemption, subject to a maximum redemption price per Unit equal to the NAV per Unit on the effective day of redemption, less any applicable redemption fee determined by the Manager, in its sole discretion, from time to time, or (ii) a PNU or a multiple PNU for cash equal to the NAV of that number of Units less any applicable redemption fee determined by the Manager, in its sole discretion from time to time. Because Unitholders will generally be able to sell Units at the market price on the TSX through a registered broker or dealer subject only to customary brokerage commissions, Unitholders are advised to consult their brokers, dealers or investment advisors before redeeming such Units for cash. No fees or expenses are paid by Unitholders to the Manager or the Harvest ETF in connection with selling Units on the TSX.

In order for a cash redemption of Units to be effective on a Trading Day, a cash redemption request must be delivered to the Manager by the time, in the form and at the location prescribed by the Manager from time to time on such Trading Day. Any cash redemption request received after such time will be effective only on the next Trading Day. Where possible, payment of the redemption price will be made by no later than the second Trading Day (or such shorter period, as may be required by applicable law) after the effective day of the redemption. The cash redemption request forms may be obtained from any registered broker or dealer.

Unitholders that have delivered a redemption request prior to the Distribution Record Date for any distribution will not be entitled to receive that distribution.

In connection with the redemption of Units, the Harvest ETF will generally dispose of securities or other financial instruments.

Suspension of Exchanges and Redemptions

The Manager may suspend the exchange or redemption of Units or payment of redemption proceeds of the Harvest ETF: (i) during any period when normal trading is suspended on a stock exchange or other market on which securities owned by the Harvest ETF are listed and traded, if these securities represent more than 50% by value or underlying market exposure of the total assets of the Harvest ETF, without allowance for liabilities, and if these securities are not traded on any other exchange that represents a reasonably practical alternative for the Harvest ETF; or (ii) for a period not exceeding 30 days, with the prior permission of the securities regulatory authorities where required. The suspension may apply to all requests for exchange or redemption received prior to the suspension but

as to which payment has not been made, as well as to all requests received while the suspension is in effect. All Unitholders making such requests shall be advised by the Manager of the suspension and that the exchange or redemption will be effected at a price determined on the first valuation day following the termination of the suspension. All such Unitholders shall have and shall be advised that they have the right to withdraw their requests for exchange or redemption. The suspension shall terminate in any event on the first day on which the condition giving rise to the suspension has ceased to exist, provided that no other condition under which a suspension is authorized then exists. To the extent not inconsistent with official rules and regulations promulgated by any government body having jurisdiction over the Harvest ETF, any declaration of suspension made by the Manager shall be conclusive.

Other Fees

The Manager may, at its discretion, charge purchasing, exchanging or redeeming Unitholders a fee of up to 2% of the issue, exchange or redemption proceeds to offset certain transaction costs associated with the issue, exchange or redemption of Units. This fee, which is payable to the Harvest ETF, does not apply to Unitholders who buy and sell their Units through the facilities of the TSX.

Allocations of Capital Gains to Redeeming or Exchanging Unitholders

Pursuant to the Declaration of Trust, the Harvest ETF may allocate and designate as payable any capital gains realized by the Harvest ETF as a result of any disposition of property of the Harvest ETF undertaken to permit or facilitate the redemption or exchange of Units to a Unitholder whose Units are being redeemed or exchanged. In addition, the Harvest ETF has the authority to distribute, allocate and designate any capital gains of the Harvest ETF to a Unitholder who has redeemed Units during a year in an amount equal to the Unitholder's share, at the time of redemption, of the Harvest ETF's capital gains for the year. Any such allocations and designations will reduce the redemption price otherwise payable to the redeeming Unitholder.

Book-Entry Only System

Registration of interests in, and transfers of, Units will be made only through the book-entry only system of CDS. Units must be purchased, transferred and surrendered for redemption only through a CDS Participant. All rights of an owner of Units must be exercised through, and all payments or other property to which such owner is entitled will be made or delivered by, CDS or the CDS Participant through which the owner holds such Units. Upon buying Units, the owner will receive only the customary confirmation. References in this prospectus to a holder of Units means, unless the context otherwise requires, the owner of the beneficial interest of such Units.

Neither the Harvest ETF nor the Manager will have any liability for: (i) records maintained by CDS relating to the beneficial interests in Units or the book entry accounts maintained by CDS; (ii) maintaining, supervising or reviewing any records relating to such beneficial ownership interests; or (iii) any advice or representation made or given by CDS and made or given with respect to the rules and regulations of CDS or any action taken by CDS or at the direction of the CDS Participants.

The ability of a beneficial owner of Units to pledge such Units or otherwise take action with respect to such owner's interest in such Units (other than through a CDS Participant) may be limited due to the lack of a physical certificate.

The Harvest ETF has the option to terminate registration of Units through the book-entry only system in which case certificates for Units in fully registered form will be issued to beneficial owners of such Units or to their nominees.

Short-Term Trading

Unlike conventional open-end mutual fund trusts in which short term trading by investors may cause the mutual fund to incur additional unnecessary trading costs in connection with the purchase of additional portfolio securities and the sale of portfolio securities to fund unitholder redemptions, the Manager does not believe that it is necessary to impose any short-term trading restrictions on the Harvest ETF at this time as: (i) the Harvest ETF is primarily traded in the secondary market; and (ii) the few transactions involving Units that do not occur on the secondary market involve the Designated Broker and Dealers, who can only purchase or redeem Units in a PNU and on whom the Manager may impose a redemption fee. The redemption fee is intended to compensate the Harvest ETF for any costs and expenses incurred by the Harvest ETF in order to fund the redemption.

INCOME TAX CONSIDERATIONS

In the opinion of Blake, Cassels & Graydon LLP, the following is, as of the date hereof, a summary of the principal Canadian federal income tax considerations under the Tax Act generally applicable to the acquisition, holding and disposition of Units by a Unitholder who acquires Units pursuant to this prospectus. This summary only applies to a prospective Unitholder who is an individual (other than a trust) resident in Canada for purposes of the Tax Act, who deals at arm's length with the Harvest ETF and the Designated Broker or Dealer and is not affiliated with the Harvest ETF or the Designated Broker or Dealer and who holds Units as capital property (a "**Holder**").

Generally, Units will be considered to be capital property to a Holder provided that the Holder does not hold such Units in the course of carrying on a business of buying and selling securities and has not acquired them in one or more transactions considered to be an adventure or concern in the nature of trade. Provided the Harvest ETF qualifies as a "mutual fund trust" for purposes of the Tax Act, certain Holders who might not otherwise be considered to hold Units as capital property may, in certain circumstances, be entitled to have such Units and all other "Canadian securities" owned or subsequently acquired by them treated as capital property by making the irrevocable election permitted by subsection 39(4) of the Tax Act. This summary does not apply to a Holder who has entered or will enter into a "derivative forward agreement" as that term is defined in the Tax Act with respect to the Units or any Basket of Securities disposed of in exchange for Units.

This summary is based on the assumptions that at all times the Harvest ETF has complied and will continue to comply with its investment restrictions. In addition, this summary is based on the assumption that none of the issuers of the securities in the Harvest ETF's portfolio is a foreign affiliate of any Holder of Units for purposes of the Tax Act.

This summary is based on the facts described herein, the current provisions of the Tax Act, counsel's understanding of the current publicly available administrative policies and assessing practices of the CRA published in writing prior to the date hereof and certificates of the Manager. This summary takes into account the Tax Amendments. This description is not exhaustive of all Canadian federal income tax consequences and does not take into account or anticipate changes in the law or in administrative policy or assessing practice, whether by legislative, governmental or judicial action other than the Tax Amendments in their present form, nor does it take into account provincial, territorial or foreign tax considerations which may differ significantly from those discussed herein. There can be no assurance that the Tax Amendments will be enacted in the form publicly announced, or at all.

This summary is not exhaustive of all possible Canadian federal income tax considerations applicable to an investment in Units. This summary does not address the deductibility of interest on any funds borrowed by a Unitholder to purchase Units. The income and other tax consequences of investing in Units will vary depending on an investor's particular circumstances including the province or territory in which the investor resides or carries on business. Accordingly, this summary is of a general nature only and is not intended to be, nor should it be construed to be, legal or tax advice to any holder of Units. Prospective investors should consult their own tax advisors with respect to the income tax consequences to them of an acquisition of Units based on their particular circumstances.

Status of the Harvest ETF

This summary is based on the assumptions that the Harvest ETF will qualify at all times as a "mutual fund trust" within the meaning of the Tax Act and that the Harvest ETF has not been established and will not be maintained primarily for the benefit of non-residents unless, at that time, substantially all of its property consists of property other than property that would be "taxable Canadian property" within the meaning of the Tax Act (if the definition of such term were read without reference to paragraph (b) of that definition).

To qualify as a mutual fund trust, (i) the Harvest ETF must be a Canadian resident "unit trust" for purposes of the Tax Act, (ii) the only undertaking of the Harvest ETF must be (a) the investing of its funds in property (other than real property or interests in real property or an immovable or a real right in an immovable), (b) the acquiring, holding, maintaining, improving, leasing or managing of any real property (or interest in real property) or of any immovable (or real right in immovables) that is capital property of the Harvest ETF, or (c) any combination of the activities described in (a) and (b), and (iii) the Harvest ETF must comply with certain minimum requirements respecting the ownership and dispersal of Units (the "**minimum distribution requirements**"). In this connection, (i) the Manager has advised counsel that it intends to cause the Harvest ETF to qualify as a unit trust throughout the life of the Harvest ETF, (ii) the Harvest ETF's undertaking conforms with the restrictions for mutual fund trusts, and (iii)

the Manager has advised counsel that it has no reason to believe that the Harvest ETF will not comply with the minimum distribution requirements at all relevant times. In addition, the Manager has advised counsel that it intends to file the necessary election so that the Harvest ETF will qualify as a mutual fund trust from its inception in 2018 and that it has no reason to believe that the Harvest ETF will not comply with the minimum distribution requirements before the 91st day after the end of its first taxation year (determined without regard to any taxation year-end that may be deemed to occur for other purposes under the rules in the Tax Act relating to “loss restriction events”) and at all times thereafter, thereby permitting the filing by the Harvest ETF of such election.

If the Harvest ETF were not to qualify as a mutual fund trust at all times, the income tax considerations described below would, in some respects, be materially and adversely different.

Provided the Units are listed on a “designated stock exchange” (within the meaning of the Tax Act) or the Harvest ETF qualifies as a “mutual fund trust” within the meaning of the Tax Act, the Units will be qualified investments under the Tax Act for a trust governed by an RRSP, a RRIF, a DPSP, an RDSP, an RESP or a TFSA (the “Plans”). See “Income Tax Considerations – Taxation of Registered Plans” for the consequences of holding Units in Plans.

Taxation of the Harvest ETF

The Harvest ETF must pay tax on its net income (including net realized taxable capital gains) for a taxation year, less the portion thereof that it deducts in respect of the amount paid or payable to its Unitholders in the year. An amount will be considered to be payable to a Unitholder in a year if it is paid to the Unitholder in that year by the Harvest ETF or if the Unitholder is entitled in that year to enforce payment of the amount. The Declaration of Trust requires that sufficient amounts be paid or made payable each year by the Harvest ETF so that the Harvest ETF is not liable for any non-refundable income tax under Part I of the Tax Act.

The Harvest ETF is required to include in its income for each taxation year any dividends received (or deemed to be received) by it in such year on a security held in its portfolio.

In general, the Harvest ETF will realize a capital gain (or capital loss) upon the actual or deemed disposition of a security included in its portfolio to the extent the proceeds of disposition, net of any reasonable costs of disposition, exceed (or are less than) the adjusted cost base of such security unless the Harvest ETF were considered to be trading or dealing in securities or otherwise carrying on a business of buying and selling securities or the Harvest ETF has acquired the security in a transaction or transactions considered to be an adventure or concern in the nature of trade. The Manager has advised counsel that the Harvest ETF will purchase the securities in its portfolio with the objective of receiving dividends and other distributions thereon and will take the position that gains and losses realized on the disposition of its securities are capital gains and capital losses. The Manager has advised counsel that the Harvest ETF will make an election under subsection 39(4) of the Tax Act (if applicable) so that all securities held by the Harvest ETF that are “Canadian securities” (as defined in the Tax Act) are deemed to be capital property to the Harvest ETF.

The Harvest ETF is entitled for each taxation year throughout which it is a mutual fund trust for purposes of the Tax Act to reduce (or receive a refund in respect of) its liability, if any, for tax on its net realized capital gains by an amount determined under the Tax Act based on the redemptions of Units during the year (the “**Capital Gains Refund**”). The Capital Gains Refund in a particular taxation year may not completely offset the tax liability of the Harvest ETF for such taxation year which may arise upon the sale or other disposition of securities included in the portfolio in connection with the redemption of Units.

In general, gains and losses realized by the Harvest ETF from derivative transactions will be on income account except where such derivatives are used to hedge portfolio securities held on capital account provided there is sufficient linkage, subject to the DFA Rules discussed below, and such gains and losses will be recognized for tax purposes at the time they are realized by the Harvest ETF. Pursuant to the Tax Act, an election to realize gains and losses on “eligible derivatives” (as defined in the Tax Act) of the Harvest ETF on a mark-to-market basis may be available. The Manager will consider whether such election, if available, would be advisable for the Harvest ETF.

A loss realized by the Harvest ETF on a disposition of capital property will be a suspended loss for purposes of the Tax Act if the Harvest ETF, or a person affiliated with the Harvest ETF, acquires a property (a “**substituted property**”) that is the same as or identical to the property disposed of, within 30 days before and 30 days after the disposition and the Harvest ETF, or a person affiliated with the Harvest ETF, owns the substituted property 30 days after the original disposition. If a loss is suspended, the Harvest ETF cannot deduct the loss from the Harvest ETF’s

capital gains until the substituted property is disposed of and is not reacquired by the Harvest ETF, or a person affiliated with the Harvest ETF, within 30 days before and after the disposition.

The Harvest ETF may enter into transactions denominated in currencies other than the Canadian dollar, including the acquisition of securities in its portfolio. The cost and proceeds of disposition of securities, dividends and all other amounts will be determined for the purposes of the Tax Act in Canadian dollars using the appropriate exchange rates determined in accordance with the detailed rules in the Tax Act in that regard. The amount of income, gains and losses realized by the Harvest ETF may be affected by fluctuations in the value of foreign currencies relative to the Canadian dollar.

The DFA Rules target financial arrangements (referred to as “derivative forward agreements”) that seek to deliver a return based on an “underlying interest” (other than certain excluded underlying interests). The DFA Rules are broad in scope and could apply to other agreements or transactions. If the DFA Rules were to apply in respect of derivatives to be utilized by the Harvest ETF, gains realized in respect of the property underlying such derivatives could be treated as ordinary income rather than capital gains.

The Harvest ETF may derive income or gains from investments in countries other than Canada, and as a result, may be liable to pay income or profits tax to such countries. To the extent that such foreign tax paid by the Harvest ETF exceeds 15% of the amount included in the Harvest ETF’s income from such investments, such excess may generally be deducted by the Harvest ETF in computing its net income for the purposes of the Tax Act. To the extent that such foreign tax paid does not exceed 15% of such amount and has not been deducted in computing the Harvest ETF’s income, the Harvest ETF may designate in respect of a Holder a portion of its foreign source income that can reasonably be considered to be part of the Harvest ETF’s income distributed to such Holder so that such income and a portion of the foreign tax paid by the Harvest ETF may be regarded as foreign source income of, and foreign tax paid by, the Holder for the purposes of the foreign tax credit provisions of the Tax Act.

To the extent the Harvest ETF holds trust units issued by a trust resident in Canada that is not at any time in the relevant taxation year a “SIFT trust” and held as capital property for purposes of the Tax Act, the Harvest ETF will be required to include in the calculation of its income for a taxation year the net income, including net taxable capital gains, paid or payable to the Harvest ETF by such trust in the calendar year in which that taxation year ends, notwithstanding that certain of such amounts may be reinvested in additional units of the trust. Provided that appropriate designations are made by such trust, net taxable capital gains realized by the trust, foreign source income of the trust and taxable dividends from taxable Canadian corporations received by the trust that are paid or payable by the trust to the Harvest ETF will effectively retain their character in the hands of the Harvest ETF. The Harvest ETF will be required to reduce the adjusted cost base of units of such trust by any amount paid or payable by the trust to the Harvest ETF except to the extent that the amount was included in calculating the income of the Harvest ETF or was the Harvest ETF’s share of the non-taxable portion of capital gains of the trust, the taxable portion of which was designated in respect of the Harvest ETF. If the adjusted cost base to the Harvest ETF of such units becomes a negative amount at any time in a taxation year of the Harvest ETF, that negative amount will be deemed to be a capital gain realized by the Harvest ETF in that taxation year and the Harvest ETF’s adjusted cost base of such units will be increased by the amount of such deemed capital gain to zero.

Each issuer in the Harvest ETF’s portfolio that is a “SIFT trust” (which will generally include income trusts, other than certain real estate investment trusts, the units of which are listed or traded on a stock exchange or other public market) will be subject to a special tax in respect of (i) income from business carried on in Canada, and (ii) certain income and capital gains in respect of “non-portfolio properties” (collectively, “**Non-Portfolio Income**”). Non-Portfolio Income that is distributed by an issuer that is a SIFT trust to its unitholders will be taxed at a rate that is equivalent to the federal general corporate tax rate plus a prescribed amount on account of provincial tax. Non-Portfolio Income that becomes payable by an issuer that is a SIFT trust will generally be taxed as though it were a taxable dividend from a taxable Canadian corporation and will be deemed to be an “eligible dividend” eligible for the enhanced gross-up and tax credit rules.

The Harvest ETF is entitled to deduct an amount equal to the reasonable expenses that it incurs in the course of issuing Units. Such issue expenses paid by the Harvest ETF and not reimbursed are deductible by the Harvest ETF ratably over a five-year period subject to reduction in any taxation year which is less than 365 days. In computing its income under the Tax Act, the Harvest ETF may deduct reasonable administrative and other expenses incurred to earn income.

Losses incurred by the Harvest ETF in a taxation year cannot be allocated to Holders, but may be deducted by the Harvest ETF in future years in accordance with the Tax Act.

Taxation of Holders

A Holder will generally be required to include in computing income for a particular taxation year of the Holder such portion of the net income of the Harvest ETF, including the taxable portion of any net realized capital gains, as is paid or becomes payable to the Holder in that particular taxation year (whether in cash or in Units, whether such amount is automatically reinvested in additional Units pursuant to the Reinvestment Plan or whether as a Management Fee Distribution).

Under the Tax Act, the Harvest ETF is permitted to deduct in computing its income for a taxation year an amount that is less than the amount of its distributions of income for the year to the extent necessary to enable the Harvest ETF to use, in that taxation year, losses from prior years without affecting the ability of the Harvest ETF to distribute its income annually. In such circumstances, the amount distributed to a Holder but not deducted by the Harvest ETF will not be included in the Holder's income. However, the adjusted cost base of the Holder's Units will be reduced by such amount. The non-taxable portion of the Harvest ETF's net realized capital gains for a taxation year, the taxable portion of which was designated in respect of a Holder for the taxation year, that is paid or becomes payable to the Holder in the year will not be included in computing the Holder's income for the year. Any other amount in excess of a Holder's share of the net income of the Harvest ETF for a taxation year that is paid or becomes payable to the Holder in the year (i.e. returns of capital) will not generally be included in the Holder's income for the year, but will reduce the adjusted cost base of the Holder's Units. To the extent that the adjusted cost base of a Unit of the Harvest ETF to a Holder would otherwise be a negative amount, the negative amount will be deemed to be a capital gain and the adjusted cost base of the Unit to the Holder will be increased by the amount of such deemed capital gain to zero.

Provided that appropriate designations are made by the Harvest ETF, such portion of the net realized taxable capital gains of the Harvest ETF, the taxable dividends received or deemed to be received by the Harvest ETF on shares of taxable Canadian corporations and foreign source income of the Harvest ETF as is paid or becomes payable to a Holder will effectively retain its character and be treated as such in the hands of the Holder for purposes of the Tax Act. To the extent that amounts are designated as taxable dividends from Canadian corporations, the gross-up and dividends tax credit rules will apply, including the enhanced gross-up and credits applicable to dividends designated as "eligible dividends".

Any loss of the Harvest ETF for purposes of the Tax Act cannot be allocated to, and cannot be treated as a loss of, a Holder.

On the disposition or deemed disposition of a Unit, including on a redemption, a Holder will realize a capital gain (or capital loss) to the extent that the Holder's proceeds of disposition (other than any amount payable by the Harvest ETF which represents capital gains allocated and designated to the redeeming Holder), net of any reasonable costs of disposition, exceed (or are less than) the adjusted cost base of the Unit. For the purpose of determining the adjusted cost base of a Holder's Units, when additional Units are acquired by the Holder (as a result of a distribution by the Harvest ETF in the form of Units or pursuant to the Reinvestment Plan or otherwise), the cost of the newly acquired Units will be averaged with the adjusted cost base of all Units of the Harvest ETF owned by the Holder as capital property immediately before that time. For this purpose, the cost of Units that have been issued on a distribution will generally be equal to the amount of the distribution. A consolidation of Units following a distribution paid in the form of additional Units will not be regarded as a disposition of Units and will not affect the aggregate adjusted cost base of Units to a Holder.

In the case of an exchange of Units for a Basket of Securities, a Holder's proceeds of disposition of Units would generally be equal to the aggregate of the fair market value of the distributed property and the amount of any cash received, less any capital gain realized by the Harvest ETF on the disposition of such distributed property. The cost to a Holder of any property received from the Harvest ETF upon the exchange will generally be equal to the fair market value of such property at the time of the distribution. In the case of an exchange of Units for a Basket of Securities, the investor may receive securities that are not qualified investments under the Tax Act for Plans. If such securities are not qualified investments for Plans, such Plans (and, in the case of certain Plans, the annuitants, beneficiaries or subscribers thereunder or holders thereof) may be subject to adverse tax consequences. Holders should consult their own tax counsel for advice on whether or not such securities would be qualified investments for Plans.

Pursuant to the Declaration of Trust, the Harvest ETF may allocate and designate as payable any capital gains realized by the Harvest ETF as a result of any disposition of property of the Harvest ETF undertaken to permit or facilitate the redemption or exchange of Units to a Holder whose Units are being redeemed or exchanged. In addition, the Harvest ETF has the authority to distribute, allocate and designate any capital gains of the Harvest ETF to a Holder who has redeemed Units during a year in an amount equal to the Holder's share, at the time of redemption, of the Harvest ETF's capital gains for the year. Any such allocations and designations will reduce the redemption price otherwise payable to the Holder, and therefore the Holder's proceeds of disposition.

In general, one-half of any capital gain (a "**taxable capital gain**") realized by a Holder on the disposition of Units or a taxable capital gain designated by the Harvest ETF in respect of the Holder for a taxation year of the Holder will be included in computing the Holder's income for that year and one-half of any capital loss (an "**allowable capital loss**") realized by the Holder in a taxation year of the Holder generally must be deducted from taxable capital gains realized by the Holder in the taxation year or designated by the Harvest ETF in respect of the Holder for the taxation year in accordance with the detailed provisions of the Tax Act. Allowable capital losses for a taxation year in excess of taxable capital gains for that taxation year may be carried back and deducted in any of the three preceding taxation years or carried forward and deducted in any subsequent taxation year against taxable capital gains in accordance with the provisions of the Tax Act.

Each Holder who pays for Units by delivering a Basket of Securities will be disposing of securities in exchange for Units. Assuming that such securities are held by the Holder as capital property for purposes of the Tax Act, the Holder will generally realize a capital gain (or a capital loss) in the taxation year of the Holder in which the disposition of such securities takes place to the extent that the proceeds of disposition for such securities, net of any reasonable costs of disposition, exceed (or are less than) the adjusted cost base of such securities to the Holder. For this purpose, the proceeds of disposition to the Holder of securities disposed of will equal the aggregate of the fair market value of the Units received for the securities. The cost to a Holder of Units acquired in exchange for a Basket of Securities and cash (if any) will be equal to the aggregate of the cash paid (if any) to the Harvest ETF plus the fair market value of the securities disposed of in exchange for Units at the time of disposition, which sum would generally be equal to or would approximate the fair market value of the Units received as consideration in exchange for a Basket of Securities and cash (if any).

Amounts designated by the Harvest ETF to a Holder as taxable capital gains or dividends from taxable Canadian corporations, and taxable capital gains realized on the disposition of Units may increase the Holder's liability for alternative minimum tax.

Taxation of Registered Plans

Amounts of income and capital gains included in a Plan's income are generally not taxable under Part I of the Tax Act provided the Units are "qualified investments" for the Plan for the purposes of the Tax Act. Holders should consult their own advisors regarding the tax implications of establishing, amending, terminating or withdrawing amounts from a Plan.

Notwithstanding the foregoing, the holder of a TFSA or RDSP, the annuitant of an RRSP or RRIF or the subscriber of an RESP will be subject to a penalty tax in respect of Units held by such Plan if such Units are a "prohibited investment" for such Plan for the purposes of the Tax Act. The Units will not be a "prohibited investment" for a trust governed by such a Plan unless the holder of the TFSA or RDSP, the annuitant of the RRSP or RRIF or the subscriber of the RESP, as applicable, (i) does not deal at arm's length with the Harvest ETF for purposes of the Tax Act, or (ii) has a "significant interest" as defined in the Tax Act in the Harvest ETF. Generally, a holder, annuitant or subscriber, as the case may be, will not have a significant interest in the Harvest ETF unless the holder, annuitant or subscriber, as the case may be, owns interests as a beneficiary under the Harvest ETF that have a fair market value of 10% or more of the fair market value of the interests of all beneficiaries under the Harvest ETF, either alone or together with persons and partnerships with which the holder, annuitant or subscriber, as the case may be, does not deal at arm's length. In addition, the Units will not be a prohibited investment if such Units are "excluded property" as defined in the Tax Act for a trust governed by a TFSA, RDSP, RRSP, RRIF or RESP.

Holders, annuitants and subscribers should consult their own tax advisors with respect to whether Units would be prohibited investments, including with respect to whether such Units would be excluded property.

Tax Implications of the Harvest ETF' Distribution Policy

The NAV per Unit of the Harvest ETF will, in part, reflect any income and gains of the Harvest ETF that have been earned or been realized, but have not been made payable at the time Units were acquired. Accordingly, a Holder who acquires Units, including on a reinvestment of distributions pursuant to the Reinvestment Plan or a distribution of Units, may become taxable on the Holder's share of such income and gains of the Harvest ETF. In particular, an investor who acquires Units at any time in the year but prior to a distribution being paid or made payable will have to pay tax on the entire distribution (to the extent it is a taxable distribution) notwithstanding that such amounts may have been reflected in the price paid by the Holder for the Units.

ORGANIZATION AND MANAGEMENT DETAILS OF THE HARVEST ETF

Manager

Harvest, a registered portfolio manager and investment fund manager, is the promoter, trustee, manager and portfolio manager of the Harvest ETF and its principal office is at 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7. The Manager will perform or arrange for the performance of management services for the Harvest ETF and will be responsible for the administration of the Harvest ETF. The Manager will be entitled to receive fees as compensation for management services rendered to the Harvest ETF.

Duties and Services to be Provided by the Manager

Pursuant to the Declaration of Trust, the Manager provides and arranges for the provision of required administrative services to the Harvest ETF including, without limitation: portfolio management services, negotiating contracts with certain third-party service providers, including, but not limited to, investment managers, custodians, registrars, transfer agents, auditors, index-related service providers and printers; authorizing the payment of operating expenses incurred on behalf of the Harvest ETF; maintaining accounting records; preparing the reports to Unitholders and to the applicable securities regulatory authorities; calculating the amount and determining the frequency of distributions by the Harvest ETF; preparing financial statements, income tax returns and financial and accounting information as required; ensuring that Unitholders are provided with financial statements and other reports as are required from time to time by applicable law; ensuring that the Harvest ETF complies with all other regulatory requirements including continuous disclosure obligations under applicable securities laws; administering purchases, redemptions and other transactions in Units; arranging for any payments required upon termination of the Harvest ETF; and dealing and communicating with Unitholders. The Manager will provide office facilities and personnel to carry out these services, if not otherwise furnished by any other service provider to the Harvest ETF. The Manager will also monitor the investment strategies of the Harvest ETF to ensure that they comply with their investment objective, investment strategies and investment restrictions and practices.

No manager of the Harvest ETF shall be a person who (i) is not a resident of Canada for purposes of the Tax Act, or (ii) does not agree to carry out its functions of managing the Harvest ETF in Canada.

Pursuant to the Declaration of Trust, the Manager has full authority and responsibility to manage and direct the business and affairs of the Harvest ETF, to make all decisions regarding the business of the Harvest ETF and to bind the Harvest ETF. The Manager may delegate certain of its powers to third parties where, in the discretion of the Manager, it would be in the best interests of the Harvest ETF to do so.

The Manager is required to exercise its powers and discharge its duties honestly, in good faith and in the best interests of the Unitholders, and to exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. The Declaration of Trust provides that the Manager will not be liable to the Harvest ETF or to any Unitholder or any other person for any loss or damage relating to any matter regarding the Harvest ETF, including any loss or diminution of value of the assets of the Harvest ETF if it has satisfied its standard of care set forth above.

The Manager and each of its directors, officers, employees and agents may be indemnified out of the assets of the Harvest ETF from and against all claims whatsoever, including costs, charges and expenses in connection therewith, brought, commenced or prosecuted against it for or in respect of any act, deed, matter or thing whatsoever made, done or omitted in or in relation to the execution of its duties to the Harvest ETF as long as the person acted honestly and in good faith with a view to the best interests of the Harvest ETF.

The Manager may resign upon 90 days' prior written notice to the Trustee or upon such lesser notice period as the Trustee may accept. The Manager may also be removed by the Trustee on at least 90 days' written notice to the Manager. The Trustee shall make every effort to select and appoint a successor manager prior to the effective date of the Manager's resignation.

The Manager is entitled to fees for its services as manager under the Declaration of Trust as described under "Fees and Expenses" and will be reimbursed for all reasonable costs and expenses incurred by the Manager on behalf of the Harvest ETF. The Manager may, in its discretion, terminate the Harvest ETF without the approval of Unitholders if, in its opinion, it is no longer economically feasible to continue the Harvest ETF and/or it would otherwise be in the best interests of Unitholders to terminate the Harvest ETF.

The administration and management services of the Manager under the Declaration of Trust are not exclusive and nothing in the Declaration of Trust prevents the Manager from providing similar administrative and management services to other investment funds and other clients (whether or not their investment objectives and policies are similar to those of the Harvest ETF) or from engaging in other activities.

Officers and Directors of the Manager

The name and municipality of residence of each of the directors and executive officers of the Manager and their principal occupations are as follows:

<i><u>Name and Municipality of Residence</u></i>	<i><u>Position with the Manager</u></i>	<i><u>Principal Occupation</u></i>
MICHAEL KOVACS Oakville, Ontario	President, Chief Executive Officer and Secretary and Director	President and Chief Executive Officer, Harvest
DANIEL LAZZER Toronto, Ontario	Chief Financial Officer	Chief Financial Officer, Harvest
MARY MEDEIROS Oakville, Ontario	Chief Operating Officer and Director	Chief Operating Officer, Harvest
PAUL MACDONALD Mississauga, Ontario	Chief Investment Officer and Portfolio Manager	Chief Investment Officer and Portfolio Manager, Harvest
DAVID BALSDON Mississauga, Ontario	Chief Compliance Officer*	Chief Compliance Officer, Harvest*
TOWNSEND HAINES Toronto, Ontario	Director	Director, Harvest
NICK BONTIS Ancaster, Ontario	Director	Associate Professor, Strategic Director Management & Director, Undergraduate Programs DeGroote School of Business, McMaster University

During the past five years, all the officers and directors of the Manager listed above have held their present principal occupations except for (i) Townsend Haines, who was the Chief Financial Officer and Managing Director of Harvest from 2009 to 2014; (ii) Paul MacDonald, who was Vice President, Portfolio Manager of Creststreet Asset Management Limited from 2010 to 2013; (iii) Daniel Lazzer, who was Senior Manager for PricewaterhouseCoopers LLP (PwC) in the Audit and Assurance practice from 2003 to 2013; and (iv) David Balsdon, who was an

Independent Consultant from 2013 to 2014 and was Chief Operating Officer and Chief Compliance Officer at Matrix Asset Management Inc. from 2011 to 2013 and was Chief Compliance Officer, Vice President and Secretary-Treasurer at Mavrix Fund Management Inc. from 2004 to 2010.

Designated Broker

The Manager, on behalf of the Harvest ETF, has entered or will enter into a Designated Broker Agreement with the Designated Broker pursuant to which the Designated Broker agrees to perform certain duties relating to the Harvest ETF, including, without limitation: (i) to subscribe for a sufficient number of Units to satisfy the TSX's listing requirements; (ii) to subscribe for Units on an ongoing basis, and (iii) to post a liquid two way market for the trading of Units on the TSX. Payment for Units must be made by the Designated Broker, and those Units will be issued, by no later than the second Trading Day (or such shorter period, as may be required by applicable law) after the subscription notice has been delivered. Currently, the Manager intends to engage one Designated Broker in respect of the Harvest ETF.

The Designated Broker may terminate the Designated Broker Agreement at any time by giving the Manager at least six months' prior written notice of such termination. The Manager may terminate the Designated Broker Agreement at any time, without prior notice, by sending a written notice of termination to the Designated Broker.

Units do not represent an interest or an obligation of the Designated Broker or Dealer or any affiliate thereof and a Unitholder will not have any recourse against any such parties in respect of amounts payable by the Harvest ETF to the Designated Broker or such Dealers.

Brokerage Arrangements

The Manager is responsible for selecting members of securities exchanges, brokers and investment dealers for the execution of transactions in respect of the Harvest ETF's investments and, when applicable, the negotiation of commissions in connection therewith. The Harvest ETF is responsible to pay those commissions.

The Manager's allocation of brokerage business to companies, including those that furnish statistical, research or other services to the Harvest ETF, is based on decisions made by the portfolio managers, analysts and traders of the Manager and will only be made in compliance with applicable law and in accordance with the Manager's policies and procedures. The Manager may receive research and order execution goods and services in return for directing brokerage transactions for the Harvest ETF to registered dealers. When doing so, the Manager ensures that the goods or services are used by the Harvest ETF to assist with investment or trading decisions, or with effecting securities transactions, on behalf of the Harvest ETF. The Manager also makes a good faith determination that the funds receive reasonable benefit considering the use of the goods and services, the amount of brokerage commissions paid, the range of services and the quality of research received. The Manager uses the same criteria in selecting registered dealers. These arrangements are always subject to best execution, which includes a number of considerations such as price, volume, speed and certainty of execution and total transaction costs.

Conflicts Of Interest

The Manager and its affiliates are engaged in a wide range of investment management, investment advisory and other business activities. The services provided by the Manager under the Declaration of Trust and Index Agreement are not exclusive and nothing in the agreements prevent the Manager or any of its affiliates from providing similar services to other investment funds or clients (whether or not their investment objectives, strategies and policies are similar to those of the Harvest ETF) or from engaging in other activities. The Manager therefore will have conflicts of interest in allocating management time, services and functions to the Harvest ETF and the other persons for which they provide similar services. The Manager's investment decisions for the Harvest ETF will be made independently of those made on behalf of its other clients or for its own investments. On occasion, however, the Manager may make the same investment for the Harvest ETF and for one or more of its other clients. If the Harvest ETF and one or more of the other clients of the Manager, or any of its affiliates, are engaged in the purchase or sale of the same security, the transactions will be effected on an equitable basis. In this regard, the Manager will generally endeavour to allocate investment opportunities to the Harvest ETF and other investment funds managed by it on a pro rata basis.

The Manager also acts as Index Provider to the Harvest ETF. In its capacity as Index Provider, the Manager has very limited discretion in administering the Constituent Issuers and their weightings included in the Index, and is not

under any obligation to take the needs of the Harvest ETF or its Unitholders into consideration for any reason. Any licensing fee payable to the Index Provider will be paid out of the management fee paid to the Manager.

The Manager may trade and make investments for its own accounts, and the Manager currently trades and manages and will continue to trade and manage accounts other than the Harvest ETF's accounts utilizing trading and investment strategies which are the same as or different from the ones to be utilized in making investment decisions for the Harvest ETF. In addition, in proprietary trading and investment, the Manager may take positions the same as, different than or opposite to those of the Harvest ETF. Furthermore, all of the positions held by accounts owned, managed or controlled by the Manager will be aggregated for purposes of applying certain exchange position limits. As a result, the Harvest ETF may not be able to enter into or maintain certain positions if such positions, when added to the positions already held by the Harvest ETF and such other accounts, would exceed applicable limits. All of such trading and investment activities may also increase the level of competition experienced with respect to priorities of order entry and allocations of executed trades.

The Manager may at times have interests that differ from the interests of the Unitholders. Where the Manager, or its affiliates otherwise perceive in the course of business, that they are or may be in a material conflict of interest position, the matter will be referred to the IRC. The IRC will consider all matters referred to it and provide its recommendations to the Manager as soon as possible.

In evaluating these conflicts of interest, potential investors should be aware that the Manager has a responsibility to the Unitholders to exercise good faith and fairness in all dealings affecting the Harvest ETF. In the event that a Unitholder believes that the Manager has violated its duty to such Unitholder, the Unitholder may seek relief for itself or on behalf of the Harvest ETF to recover damages from or to require an accounting by the Manager. Unitholders should be aware that the performance by the Manager of its responsibilities to the Harvest ETF will be measured in accordance with (i) the provisions of the agreement by which the Manager has been appointed to its position with the Harvest ETF; and (ii) applicable laws.

A registered Dealer acts or may act as the Designated Broker, a Dealer and/or a market maker. These relationships may create actual or perceived conflicts of interest which investors should consider in relation to an investment in the Harvest ETF. In particular, by virtue of these relationships, these registered Dealers may profit from the sale and trading of Units. The Designated Broker, as market maker of the Harvest ETF in the secondary market, may therefore have economic interests which differ from and may be adverse to those of Unitholders.

Any such registered Dealer and its affiliates may, at present or in the future, engage in business with the Harvest ETF, the issuers of securities making up the investment portfolio of the Harvest ETF, or with the Manager or any funds sponsored by the Manager or its affiliates, including by making loans, entering into derivative transactions or providing advisory or agency services. In addition, the relationship between any such registered Dealer and its affiliates, and the Manager and its affiliates may extend to other activities, such as being part of a distribution syndicate for other funds sponsored by the Manager or its affiliates.

Neither the Designated Broker nor any Dealer has been involved in the preparation of this prospectus or has performed any review of the contents of this prospectus. The Designated Broker and Dealers do not act as underwriters of the Harvest ETF in connection with the distribution by the Harvest ETF of Units under this prospectus. Units do not represent an interest or an obligation of the Designated Broker, any Dealer or any affiliate thereof, and a Unitholder does not have any recourse against any such parties in respect of amounts payable by the Harvest ETF to the Designated Broker or such Dealers. The Canadian securities regulators have provided the Harvest ETF with a decision exempting the Harvest ETF from the requirement to include a certificate of any underwriter in the prospectus.

Independent Review Committee

NI 81-107 requires the Harvest ETF to establish an IRC to whom the Manager must refer conflict of interest matters for review or approval. NI 81-107 also imposes obligations upon the Manager to establish written policies and procedures for dealing with conflict of interest matters, maintain records in respect of these matters and provide assistance to the IRC in carrying out its functions. The IRC will be required to conduct regular assessments and provide reports to the Manager and to Unitholders in respect of its functions.

The investment funds in the Harvest family all share the same IRC. The fees and expenses of the IRC are borne and shared by all of the investment funds in the Harvest family. Each investment fund is also responsible for all expenses associated with insuring and indemnifying the IRC members.

The members of the IRC are Don Hathaway, James Adam Conyers and Karen Fisher.

The IRC will prepare a report, at least annually, of its activities for Unitholders which will be available on the Harvest ETF's website at www.harvestportfolios.com or at a Unitholder's request at no cost, by contacting the Manager at 1-866-998-8298.

The members of the IRC are paid an annual fee for serving on the IRC of the investment funds in the Harvest family of investment funds. Each investment fund, including the Harvest ETF, is responsible for a portion of that fee which is allocated by the Manager among the various funds. The annual fee payable to each member of the IRC is as follows: Don Hathaway (\$14,000), James Adam Conyers (\$10,500) and Karen Fisher (\$10,500). Expenses incurred by the members of the IRC in connection with performing their duties are also the responsibility of the investment funds, including the Harvest ETF.

The Trustee

Harvest is also the trustee of the Harvest ETF pursuant to the Declaration of Trust. The Trustee may resign and be discharged from all further duties under the Declaration of Trust upon 90 days' prior written notice to the Manager or upon such lesser notice as the Manager may accept. No trustee of the Harvest ETF shall be a person who (i) is not a resident of Canada for the purposes of the Tax Act, or (ii) does not agree to carry out its functions of managing the Harvest ETF in Canada, and exercise the main powers and discretions of the trustee of the Harvest ETF in Canada. The Manager shall make every effort to select and appoint a successor trustee prior to the effective date of the Trustee's resignation. If the Manager fails to appoint a successor trustee within 90 days after notice is given or a vacancy occurs, the Manager shall call a meeting of Unitholders within 60 days thereafter for the purpose of appointing a successor trustee. If there is no manager, five Unitholders may call a meeting of Unitholders within 31 days after notice is given or a vacancy occurs for the purpose of appointing a successor trustee. In each case, if, upon the expiry of a further 30 days, neither the Manager nor the Unitholders have appointed a successor trustee, the Harvest ETF shall be terminated and the property of the Harvest ETF shall be distributed in accordance with the terms of the Declaration of Trust.

The Trustee is required to exercise its powers and discharge its duties honestly, in good faith and in the best interests of the Harvest ETF, and to exercise the degree of care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. The Declaration of Trust provides that the Trustee will not be liable in carrying out its duties under the Declaration of Trust as long as the Trustee has adhered to its standard of care set out above. In addition, the Declaration of Trust contains other customary provisions limiting the liability of the Trustee and indemnifying the Trustee in respect of certain liabilities incurred by it in carrying out its duties.

The Trustee will not receive any fees from the Harvest ETF but will be reimbursed for all expenses and liabilities that it properly incurs in carrying out activities on behalf of the Harvest ETF.

Custodian

State Street Trust Company Canada is the custodian of the Harvest ETF's assets pursuant to the Custodian Agreement. The Custodian is located in Toronto, Ontario. Pursuant to the Custodian Agreement, the Custodian is required to exercise its duties with the degree of care, diligence and skill that a reasonably prudent person would exercise in the same circumstances. Provided the Custodian has not breached its standard of care as set out in the Custodian Agreement, the Custodian shall not be responsible for the holding or control of any property of the Harvest ETF which is not directly held by the Custodian, including any property of the Harvest ETF that is loaned or pledged to a counterparty.

Under the Custodian Agreement, the Harvest ETF shall pay fees to the Custodian at such rate as determined by the parties from time to time and shall reimburse the Custodian for all reasonable expenses and disbursements incurred in the performance of its duties under the Custodian Agreement. The Harvest ETF shall also indemnify the Custodian or any of its officers, directors, employees or agents for any loss, damage, liability, actions, suits, claims, costs and expenses arising in the course of performing the duties of the Custodian Agreement unless arising from negligence, fraud, bad faith, wilful default or breach of the Custodian's standard of care. Either party may terminate the Custodian Agreement in the event that the other party violates any material provision of the Custodian Agreement by giving written notice to the violating party, provided the violating party has not cured or made substantial progress to cure the violation within 10 days of receipt of such written notice.

Valuation Agent

State Street Trust Company Canada provides accounting services in respect of the Harvest ETF pursuant to a valuation services agreement.

Auditors

PricewaterhouseCoopers LLP are the auditors of the Harvest ETF. The office of the auditors is located at 18 York Street, Toronto, Ontario, M5J 0B2 Canada.

Transfer Agent and Registrar

State Street Trust Company Canada, at its principal offices in Toronto, Ontario, is the Registrar and Transfer Agent for the Harvest ETF pursuant to a registrar and transfer agency agreement.

Promoter

Harvest is also the promoter of the Harvest ETF. Harvest took the initiative in founding and organizing the Harvest ETF and is, accordingly, the promoter of the Harvest ETF within the meaning of securities legislation of certain provinces and territories of Canada.

Accounting and Reporting

The Harvest ETF's fiscal year is the calendar year or such other fiscal period permitted under the Tax Act as that Harvest ETF elects. The annual financial statements of the Harvest ETF shall be audited by its auditors in accordance with Canadian generally accepted auditing standards. The auditors will be asked to report on the fair presentation of the annual financial statements in accordance with IFRS. The Manager will arrange for the Harvest ETF's compliance with all applicable reporting and administrative requirements.

The Manager will keep, or arrange for the keeping of, adequate books and records reflecting the activities of the Harvest ETF. A Unitholder or his or her duly authorized representative will have the right to examine the books and records of the Harvest ETF during normal business hours at the offices of the Manager or such other location as the Manager shall determine. Notwithstanding the foregoing, a Unitholder shall not have access to any information that, in the opinion of the Manager, should be kept confidential in the interests of the Harvest ETF.

CALCULATION OF NET ASSET VALUE

The NAV on a particular date will be equal to the proportionate share of the aggregate value of the common assets of the Harvest ETF attributable to each class, less the proportionate share of the aggregate value of the common liabilities attributable to each class, expressed in Canadian dollars. The NAV will be calculated using the fair value of the Harvest ETF's assets and liabilities based on the policies and procedures described below. The NAV per Unit will be calculated on each Valuation Day. The NAV per Unit on any day will be obtained by dividing the NAV by the number of Units then outstanding at the time the calculation is made. Typically, the NAV per Unit will be calculated at its applicable valuation time. The NAV per Unit may be determined at an earlier valuation time if the TSX and/or the principal exchange for the securities held by the Harvest ETF closes earlier on that valuation day.

Valuation Policies and Procedures of the Harvest ETF

The Manager will use the following valuation procedures in determining the NAV on each Valuation Day:

1. The value of any cash on hand or on deposit, demand notes, accounts receivable, prepaid expenses, cash dividends or distributions received (or to be received and declared to shareholders of record on a date before the date as of which the NAV is being determined), and interest accrued and not yet received, shall be deemed to be the face amount thereof, unless the Manager determines that any such asset is not worth the face amount thereof, in which event the value thereof shall be deemed to be such value as the Manager determines to be the fair value thereof;
2. Bonds, debentures, notes, money market instruments and other debt securities shall be valued by taking the bid price at the Valuation Time;

3. Any security that is listed or dealt in on a stock exchange shall be valued at the sale price applicable to a board lot last reported at the Valuation Time on the principal stock exchange on which such security is traded, or if no sale price is available at that time, at the last closing price quoted for the security, but if bid and ask quotes are available and, no last closing price is available at that time, at the average of the latest bid and ask price;
4. The value of any security, the resale of which is restricted or limited by reason of a representation, undertaking or agreement by the Harvest ETF or by the predecessor in title of the Harvest ETF shall be the lesser of (i) the value based on reported quotation in common use and (ii) that percentage of the market value of securities of the same class, the resale of which is not restricted or limited by reasons of any representation, undertaking or agreement, equal to the percentage that the acquisition cost of the Harvest ETF was of the market value of such securities at the time of acquisition, provided that a gradual taking into account of the actual value of the securities may be made when the date on which the restrictions will be lifted is known;
5. Any security purchased, the purchase price of which has not been paid, shall be included for valuation purposes as a security held, and the purchase price, including brokers' commissions and other expenses, shall be treated as a liability of the Harvest ETF;
6. Any security sold but not delivered, pending receipt of the proceeds, shall be valued at the net sale price;
7. If any date on which the NAV is determined is not a business day, then the securities comprising the portfolio and other property of the Harvest ETF will be valued as if such date were the preceding business day;
8. If any investment cannot be valued under the foregoing rules or if the foregoing rules are at any time considered by the Manager to be inappropriate under the circumstances, then notwithstanding the foregoing rules, the Manager shall make such valuation as it considers fair and reasonable;
9. The value of all assets of the Harvest ETF quoted or valued in terms of foreign currency, the value of all funds on deposit and contractual obligations payable to the Harvest ETF in foreign currency and the value of all liabilities and contractual obligations payable by the Harvest ETF in foreign currency shall be determined using the applicable rate of exchange current as quoted by customary banking sources at, or as nearly as practicable to, the applicable date on which the NAV is determined; and
10. The estimated operating expenses of the Harvest ETF shall be accrued to the date as of which the NAV is being determined. Prior to the calculation of the NAV of the Harvest ETF, any foreign currency assets and liabilities of the Harvest ETF will be translated into Canadian currency at the prevailing rate of exchange, as determined by the Manager, on the applicable Valuation Day.

For the purposes of the foregoing rules, quotations may be obtained from any report in common use, or from a reputable broker or other financial institution, provided always that the Trustee shall, in circumstances where such quotations are not available or the Trustee is of the opinion that they do not accurately reflect the value of the assets of the Harvest ETF, retain sole discretion to use such information and methods as it deems to be necessary or desirable for valuing the assets of the Harvest ETF, including the use of a formula computation.

In determining the NAV, Units subscribed for will be deemed to be outstanding and an asset of the Harvest ETF as of the time a subscription for such Units is received by and accepted by the Manager. Units that are being redeemed will only be deemed to be outstanding until (and not after) the close of business on the day on which such Units are redeemed and the redemption proceeds thereafter, until paid, will be a liability of the Harvest ETF.

Reporting of NAV

Following the Valuation Time on the Valuation Day, the most recent NAV or NAV per Unit will be made available to persons or companies, at no cost, by calling the Manager toll free at 1-866-998-8298, or checking the Harvest ETF's website at www.harvestportfolios.com.

ATTRIBUTES OF THE SECURITIES

Description of the Securities Distributed

The Harvest ETF is authorized to issue an unlimited number of redeemable, transferable Units.

On December 16, 2004, the *Trust Beneficiaries' Liability Act, 2004* (Ontario) came into force. This statute provides that holders of units of a trust are not, as beneficiaries, liable for any default, obligation or liability of the trust if, when the default occurs or the liability arises: (i) the trust is a reporting issuer under the *Securities Act* (Ontario); and (ii) the trust is governed by the laws of Ontario. The Harvest ETF is a reporting issuer under the *Securities Act* (Ontario) and is governed by the laws of Ontario by virtue of the provisions of the Declaration of Trust.

Each Unit of the Harvest ETF entitles the owner to one vote at meetings of Unitholders. Each Unit is entitled to participate equally with all other Units of the same class with respect to all payments made to Unitholders, other than Management Fee Distributions and capital gains allocated and designated to a redeeming Unitholder, including distributions of net income and net realized capital gains and, on liquidation, to participate equally in the net assets of the Harvest ETF remaining after satisfaction of any outstanding liabilities that are attributable to Units of that class. All Units will be fully paid, with no liability for future assessments, when issued and will not be transferable except by operation of law. Unitholders are entitled to require the Harvest ETF to redeem their Units as outlined under the heading "Exchange and Redemption of Units".

Exchange of Units for Baskets of Securities

Unitholders may exchange the applicable PNU (or an integral multiple thereof) of the Harvest ETF on any Trading Day for Baskets of Securities and/or cash, subject to the requirement that a minimum PNU be exchanged. See "Exchange and Redemption of Units".

Redemptions of Units for Cash

On any Trading Day, Unitholders may redeem (i) Units for cash at a redemption price per Unit equal to 95% of the closing price for the Units on the TSX on the effective day of the redemption, subject to a maximum redemption price per Unit equal to the NAV per Unit on the effective day of redemption, less any applicable redemption fee determined by the Manager, in its sole discretion, from time to time, or (ii) a PNU or a multiple PNU for cash equal to the NAV of that number of Units less any applicable redemption fee determined by the Manager, in its sole discretion from time to time. See "Exchange and Redemption of Units".

Modification of Terms

Any amendment to the Declaration of Trust that creates a new class of Units will not require notice to existing Unitholders unless such amendment in some way affects the existing Unitholders' rights or the value of their investment. An amendment such as the re-designation of Units, or the termination of a class of Units, which has an effect on a Unitholder's holdings will only become effective after 30 days' notice to Unitholders of the applicable classes of Units.

All other rights attached to the Units may only be modified, amended or varied in accordance with the terms of the Declaration of Trust. See "Unitholder Matters — Amendments to the Declaration of Trust".

Voting Rights in the Portfolio Securities

Holders of Units will not have any voting rights in respect of the securities in the Harvest ETF's portfolio.

UNITHOLDER MATTERS

Meetings of Unitholders

Meetings of Unitholders will be held if called by the Manager or upon the written request to the Manager of Unitholders holding not less than 25% of the then outstanding Units.

Matters Requiring Unitholder Approval

NI 81-102 requires a meeting of Unitholders to be called to approve certain changes as follows:

- (i) the basis of the calculation of a fee or expense that is charged to the Harvest ETF or its Unitholders is changed in a way that could result in an increase in charges to the Harvest ETF or to its Unitholders, except where:
 - (A) the Harvest ETF are at arm's length with the person or company charging the fee; and
 - (B) the Unitholders have received at least 60 days' notice before the effective date of the change;
- (ii) a fee or expense, to be charged to the Harvest ETF or directly to its Unitholders by the Harvest ETF or the Manager in connection with the holding of Units that could result in an increase in charges to the Harvest ETF or its Unitholders, is introduced;
- (iii) the Manager is changed, unless the new manager of the Harvest ETF is an affiliate of the Manager;
- (iv) the fundamental investment objectives of the Harvest ETF are changed;
- (v) the Harvest ETF decrease the frequency of the calculation of NAV per Unit;
- (vi) other than a Permitted Merger for which Unitholder approval is not required, the Harvest ETF undertake a reorganization with, or transfers its assets to, another mutual fund, if the Harvest ETF cease to continue after the reorganization or transfer of assets and the transaction results in the Unitholders of the Harvest ETF becoming securityholders in the other mutual fund;
- (vii) the Harvest ETF undertake a reorganization with, or acquires assets from, another mutual fund, if the Harvest ETF continue after the reorganization or acquisition of assets, the transaction results in the securityholders of the other mutual fund becoming Unitholders, and the transaction would be a material change to the Harvest ETF; or
- (viii) any matter which is required by the constitutive documents of the Harvest ETF; by the laws applicable to the Harvest ETF or by any agreement to be submitted to a vote of the Unitholders.

In addition to the foregoing, the Declaration of Trust provides that Unitholders may request to change the manager of an ETF only if such manager is in breach under the Declaration of Trust. Approval of Unitholders will be deemed to have been given if expressed by resolution passed at a meeting of Unitholders, duly called on at least 21 days' notice and held for the purpose of considering the same, by at least a majority of the votes cast.

The auditors of the Harvest ETF may not be changed unless:

- (i) the IRC of the Harvest ETF has approved the change; and
- (ii) Unitholders have received at least 60 days' notice before the effective date of the change.

Approval of Unitholders will be deemed to have been given if expressed by resolution passed at a meeting of Unitholders, duly called on at least 21 days' notice and held for the purpose of considering the same, by at least a majority of the votes cast.

Amendments to the Declaration of Trust

If a Unitholder meeting is required to amend a provision of the Declaration of Trust, no change proposed at a meeting of Unitholders shall take effect until the Manager has obtained the prior approval of not less than a majority of the votes cast at such meeting of Unitholders.

Subject to any longer notice requirements imposed under Canadian securities legislation, the Trustee is entitled to amend the Declaration of Trust by giving not less than 30 days' notice to Unitholders affected by the proposed amendment in circumstances where:

- (a) Canadian securities legislation requires that written notice be given to Unitholders before the change takes effect;
- (b) the change would not be prohibited by Canadian securities legislation; or

- (c) the Trustee reasonably believes that the proposed amendment has the potential to adversely impact the financial interests or rights of the Unitholders, so that it is equitable to give Unitholders advance notice of the proposed change.

All Unitholders shall be bound by an amendment affecting the Harvest ETF from the effective date of the amendment.

The Trustee may amend the Declaration of Trust, without the approval of or prior notice to any Unitholders, if the Trustee reasonably believes that the proposed amendment does not have the potential to adversely impact the financial interests or rights of Unitholders or that the proposed amendment is necessary to:

- (a) ensure compliance with applicable laws, regulations or policies of any governmental authority having jurisdiction over the Harvest ETF or the distribution of its Units;
- (b) remove any conflicts or other inconsistencies which may exist between any terms of the Declaration of Trust and any provisions of any applicable laws, regulations or policies affecting the Harvest ETF, the Trustee or its agents;
- (c) make any change or correction in the Declaration of Trust which is a typographical correction or is required to cure or correct any ambiguity or defective or inconsistent provision, clerical omission or error contained therein;
- (d) facilitate the administration of the Harvest ETF as a mutual fund trust or make amendments or adjustments in response to any existing or proposed amendments to the Tax Act or its administration which might otherwise adversely affect the tax status of the Harvest ETF or its Unitholders;
- (e) protect the Unitholders of the Harvest ETF; or
- (f) make any change or correction which is necessary or desirable for the purpose of bringing the Declaration of Trust into conformity with current market practice within the securities or investment fund industries or curing or correcting any administrative difficulty.

Permitted Mergers

The Harvest ETF may, without Unitholders' approval, enter into a merger or other similar transaction which has the effect of combining the funds or its assets (a "**Permitted Merger**") with any other investment fund or funds that have investment objectives that are similar to the Harvest ETF's portfolio, subject to:

- (a) approval of the merger by the Harvest ETF's IRC in accordance with NI 81-107;
- (b) the Harvest ETF being reorganized with, or its assets being transferred to, another mutual fund to which NI 81-102 and NI 81-107 apply, and that is managed by the Manager, or an affiliate of the Manager;
- (c) compliance with certain other requirements of applicable Canadian securities legislation; and
- (d) Unitholders have received at least 60 days' notice which notice may be by way of press release, before the effective date of the Permitted Merger.

In connection with a Permitted Merger, the merging funds will be valued at their respective NAVs for the purpose of such transaction.

Reporting to Unitholders

The Manager, on behalf of the Harvest ETF, will in accordance with applicable laws furnish to each Unitholder, unaudited semi-annual financial statements and an interim management report of fund performance for the Harvest ETF within 60 days of the end of each semi-annual period and audited annual financial statements and an annual management report of fund performance for the Harvest ETF within 90 days of the end of each financial year. Both the semi-annual and the annual financial statements of the Harvest ETF will contain a statement of financial position, a statement of comprehensive income, a statement of changes in net assets attributable to holders of redeemable units, a statement of cashflows and a statement of investment portfolio.

Any tax information necessary for Unitholders to prepare their annual federal income tax returns will also be distributed to them within 90 days after the end of each taxation year of the Harvest ETF or such other time as required by applicable law. None of the Manager nor the Registrar and Transfer Agent is responsible for tracking the adjusted cost base of a Unitholder's Units. Unitholders should consult with their tax or investment adviser in respect of how to compute the adjusted cost base of their Units and in particular how designations made by the Harvest ETF to a Unitholder affect the Unitholder's tax position.

The NAV per Unit will be determined by the Manager on each Valuation Day and will usually be published daily in the financial press.

TERMINATION OF THE HARVEST ETF

Subject to complying with applicable securities law, the Manager may terminate the Harvest ETF at its discretion. In accordance with the terms of the Declaration of Trust and applicable securities law, Unitholders will be provided 60 days' advance written notice of the termination.

If the Harvest ETF is terminated, the Trustee is empowered to take all steps necessary to effect the termination of the Harvest ETF. Prior to terminating the Harvest ETF, the Trustee may discharge all of the liabilities of the Harvest ETF and distribute the net assets of the Harvest ETF to the Unitholders.

Upon termination of the Harvest ETF, each Unitholder shall be entitled to receive at the Valuation Time on the termination date out of the assets of the Harvest ETF: (i) payment for that Unitholder's Units at the NAV per Unit for that class of Units determined at the Valuation Time on the termination date; plus (ii) where applicable, any net income and net realized capital gains that have been made payable to such Unitholder but that have not otherwise been paid to such Unitholder; less (iii) any applicable redemption charges and any taxes that are required to be deducted. Payment shall be made by cheque or other means of payment payable to such Unitholder and drawn on the Harvest ETF's bankers and may be mailed by ordinary post to such Unitholder's last address appearing in the register of Unitholders of the Harvest ETF or may be delivered by such other means of delivery acceptable to both the Manager and such Unitholder.

Procedure on Termination

The Trustee shall be entitled to retain out of any assets of the Harvest ETF, at the date of termination of the Harvest ETF, full provision for all costs, charges, expenses, claims and demands incurred or believed by the Trustee to be due or to become due in connection with or arising out of the termination of the Harvest ETF and the distribution of its assets to the Unitholders. Out of the moneys so retained, the Trustee is entitled to be indemnified and saved harmless against all costs, charges, expenses, claims and demands.

PLAN OF DISTRIBUTION

Units are being issued and sold on a continuous basis and there is no maximum number of such Units that may be issued. Units shall be offered for sale at a price equal to the NAV of the Units determined at the Valuation Time on the effective date of the subscription order.

The Harvest ETF issues Units on a continuous basis and there is no maximum number of Units that may be issued. The Units have been conditionally approved for listing on the TSX. Subject to satisfying the TSX's original listing requirements, the Units will be listed on the TSX and investors will be able to buy or sell such Units on the TSX through registered brokers and dealers in the province or territory where the investor resides.

Investors may incur customary brokerage commissions in buying or selling Units. No fees are paid by investors to the Manager or the Harvest ETF in connection with the buying or selling of Units on the TSX.

Non-Resident Unitholders

The Harvest ETF was not established and is not maintained primarily for the benefit of one or more non-resident persons within the meaning of the Tax Act. At no time may non-residents of Canada and partnerships (other than "Canadian partnerships" as defined in the Tax Act) be the beneficial owners of more than 50% of the Units (on a number of Units or on a fair market value basis) and the Trustee shall inform the Registrar and Transfer Agent of this restriction. The Trustee may require a declaration as to the jurisdiction in which a beneficial owner of Units is

resident and, if a partnership, as to its status as a “Canadian partnership”. If the Trustee becomes aware, as a result of requiring such declarations as to beneficial ownership or otherwise, that the beneficial owners of 40% or more of the Units then outstanding (on a number of Units or on a fair market value basis) are, or may be, non-residents and/or partnerships (other than “Canadian partnerships”), or that such a situation is imminent, the Trustee may make a public announcement thereof and the Trustee may send a notice to such non-resident Unitholders and partnerships, chosen in inverse order to the order of acquisition or in such manner as the Trustee may consider equitable and practicable, requiring them to dispose of their Units of the Harvest ETF or a portion thereof to residents of Canada within a specified period of not less than 30 days. If the Unitholders receiving such notice have not disposed of the specified number of Units of the Harvest ETF or provided the Trustee with satisfactory evidence that they are not non-residents or partnerships (other than “Canadian partnerships”) within such period, the Trustee may redeem or, on behalf of such Unitholders, dispose of such Units. Upon such redemption or sale, the affected Unitholders shall cease to be beneficial holders of Units and their rights shall be limited to receiving the redemption price or the net proceeds of sale of such Units of the Harvest ETF.

Notwithstanding the foregoing, the Manager may determine not to take any of the actions described above if the Manager has been advised by legal counsel that the failure to take any of such actions would not adversely impact the status of the Harvest ETF as a mutual fund trust for purposes of the Tax Act or, alternatively, may take such other action or actions as may be necessary to maintain the status of the Harvest ETF as a mutual fund trust for purposes of the Tax Act.

RELATIONSHIP BETWEEN THE HARVEST ETF AND THE DEALERS

The Manager, on behalf of the Harvest ETF, may enter into various Dealer Agreements with registered Dealers (that may or may not be the Designated Broker) pursuant to which the Dealers may subscribe for Units as described under “Purchases of Units”. Such registered Dealers may be related to the Manager. See “Organization and Management Details of the Harvest ETF – Conflicts of Interest”.

A Dealer Agreement may be terminated by the registered Dealer at any time by notice to Harvest, provided that, except in certain conditions, no such termination will be permitted after the registered Dealer has subscribed for Units and such subscription has been accepted by Harvest.

Neither the Designated Broker nor any Dealer has been involved in the preparation of this prospectus, nor has it performed any review of the contents of this prospectus. The Designated Broker and Dealers do not act as underwriters of the Harvest ETF in connection with the distribution of its Units under this prospectus. See “Organization and Management Details of the Harvest ETF – Conflicts of Interest”.

PRINCIPAL HOLDERS OF UNITS

CDS & Co., the nominee of CDS, is the registered owner of the Units, which it holds for various brokers and other persons on behalf of their clients and others. From time to time, the Designated Broker, Dealers, or another investment fund managed by the Manager or an affiliate thereof, may beneficially own, directly or indirectly, more than 10% of the Units.

PROXY VOTING DISCLOSURE FOR PORTFOLIO SECURITIES HELD

The proxies associated with securities held by the Harvest ETF are voted in accordance with the best interests of Unitholders determined at the time the vote is cast. The Manager maintains policies and procedures that are designed to be guidelines for the voting of proxies; however, each vote is ultimately cast on a case-by-case basis, taking into consideration the relevant facts and circumstances at the time of the vote. Any conflict of interest will be resolved in a way that most benefits Unitholders. The Manager’s proxy voting policies and procedures set out various considerations that the Manager will address when voting, or refraining from voting, proxies, including that:

- (a) the Manager will generally vote with management on routine matters such as electing corporate directors, appointing external auditors and adopting or amending management compensation plans unless it is determined that supporting management’s position would not be in the best interests of Unitholders;
- (b) the Manager will address on a case-by-case basis, non-routine matters, including those business issues specific to the issuer or those raised by shareholders of the issuer with a focus on the potential impact of the vote on the NAV; and

(c) the Manager has the discretion whether or not to vote on routine or non-routine matters. In cases where the Manager determines that it is not in the best interests of Unitholders to vote, the Manager will not be required to vote.

Where appropriate in the circumstances, including with respect to any situations in which the Harvest ETF is in a conflict of interest position, the Manager will seek the advice of the IRC prior to casting its vote.

The policies and procedures that the Harvest ETF follows when voting proxies relating to portfolio securities are available on request, at no cost, by calling 1-866-998-8298 or via email at info@harvestportfolios.com.

The Manager will post the proxy voting record of the Harvest ETF for the most recent period ended June 30 annually any time after August 31 of that year at www.harvestportfolios.com. The Harvest ETF will send the most recent proxy voting policies and procedures and proxy voting record, without charge, to any Unitholder upon a request made by the Unitholder. Information contained on the Harvest ETF's website is not part of this prospectus and is not incorporated herein by reference.

MATERIAL CONTRACTS

The only contracts material to the Harvest ETF are the:

- (a) **Declaration of Trust.** For additional disclosure related to the Declaration of Trust, including relevant termination provisions and other key terms of the agreement, see “Organization and Management Details of the Harvest ETF – The Trustee”, “Attributes of Securities – Modification of Terms”, and “Unitholder Matters – Amendments to the Declaration of Trust”; and
- (b) **Custodian Agreement.** For additional disclosure related to the Custodian Agreement, including relevant termination provisions and other key terms of the agreement, see “Organization and Management Details of the Harvest ETF – Custodian”.

Copies of these agreements may be examined at the head office of the Manager at 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7.

LEGAL AND ADMINISTRATIVE PROCEEDINGS

In September 2013, Michael Kovacs, President and Chief Executive Officer of the Manager, entered into a settlement agreement and order with the Ontario Securities Commission (the “OSC”) with respect to certain personal trades and failing to file insider trading reports in connection with a fund managed by the Manager. Pursuant to the settlement agreement reached between the OSC and Mr. Kovacs, Mr. Kovacs agreed to an order which included that all of his trades be pre-cleared by the chief compliance officer of the Manager for a period of one year following the date of the settlement agreement.

Pursuant to the settlement agreement, Mr. Kovacs paid a voluntary payment of \$15,000 and paid an administrative penalty and costs of the OSC's investigation in the amount of \$15,000. A copy of the settlement agreement and order of the OSC is available on the OSC's website at www.osc.gov.on.ca.

The Harvest ETF is not involved in any legal proceedings, nor is the Manager aware of existing or pending legal or arbitration proceedings involving the Harvest ETF.

EXPERTS

The matters referred to under “Income Tax Considerations” and certain other legal matters relating to the securities offered hereby will be passed upon on behalf of the Harvest ETF by Blake, Cassels & Graydon LLP.

PricewaterhouseCoopers LLP, the auditors of the Harvest ETF, has prepared an independent auditor's report dated January 31, 2018 in respect of the financial statement of the Harvest ETF as at January 31, 2018. PricewaterhouseCoopers LLP has confirmed that it is independent with respect to the Harvest ETF within the meaning of the Rules of Professional Conduct of the Chartered Professional Accountants of Ontario.

EXEMPTIONS AND APPROVALS

The Harvest ETF will rely on exemptive relief from the Canadian securities regulatory authorities:

- (a) to permit a Unitholder to acquire more than 20% of the Units through purchases on the TSX without regard to the takeover bid requirements of applicable Canadian securities legislation provided the Unitholder, and any person acting jointly or in concert with such Unitholder, undertakes to the Manager not to vote more than 20% of the Units at any meeting of Unitholders. See “Purchases of Units – Buying and Selling Units”;
- (b) to relieve the Harvest ETF from the requirement that a prospectus contain a certificate of the underwriters; and
- (c) to relieve the Harvest ETF from the requirement contained in paragraph 12.2(2)(a) of National Instrument 81-106 *Investment Fund Continuous Disclosure* (“**NI 81-106**”) for a person or company that solicits proxies, by or on behalf of management of the Harvest ETF, to send an information circular to each registered holder of securities of the Harvest ETF whose proxy is solicited, and instead allow the Harvest ETF to send a Notice-and-Access Document (as defined in the exemptive relief decision) using the Notice-and-Access Procedure (as defined in the exemptive relief decision).

Additionally, certain dealers of the Harvest ETF, including the Designated Broker and Dealers of the Harvest ETFs, have received exemptive relief from the Canadian securities regulatory authorities from the requirement that a dealer, not acting as agent of the purchaser, who receives an order or subscription for a security offered in a distribution to which the prospectus requirement of Canadian securities legislation apply, send or deliver to the purchaser or its agent, unless the dealer has previously done so, the latest prospectus and any amendment either before entering into an agreement of purchase and sale resulting from the order or subscription, or not later than midnight on the second business day after entering into that agreement. As a condition of this exemptive relief, the dealer is required to deliver a copy of the ETF Facts of the Harvest ETFs to a purchaser if the dealer does not deliver a copy of this prospectus.

OTHER MATERIAL FACTS

The Index

The Index Provider has contracted with Solactive AG, as the Index Calculation Agent, to calculate the Index. The Index Calculation Agent independently calculates and publishes the Index. The Index Calculation Agent is not related to the Index Provider or the Harvest ETF. The Index Calculation Agent has no obligation to continue to publish, and may discontinue publication of, the Index.

The Index Calculation Agent and the Index Provider have entered into a calculation agreement regarding the Index. The Index Calculation Agent does not guarantee the accuracy or completeness of the Index, any data included therein, or any data from which it is derived, and the Index Calculation Agent has no liability for any errors, omissions, or interruptions therein. The Index Calculation Agent does not make any warranty, express or implied, as to results to be obtained from use of information provided by the Index Calculation Agent in respect of the Index and the Index Calculation Agent expressly disclaims all warranties of suitability with respect thereto. The Index Calculation Agent, nor any of its affiliates are involved in the operation or distribution of the Units of the Harvest ETF, or shall have any liability for operation or distribution of such Units or the failure of the Harvest ETF to achieve its investment objective.

The securities are not sponsored, promoted, sold or supported in any other manner by the Index Calculation Agent, nor does the Index Calculation Agent offer any express or implicit guarantee or assurance either with regard to the results of using the Index or the index prices at any time or in any other respect. Index Calculation Agent uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards the Manager, the Index Calculation Agent does not have any obligation to point out errors in the Index to third parties including but not limited to investors and/or financial intermediaries of Harvest ETF. The publication of the Index by the Index Calculation Agent does not constitute a recommendation by the Index Calculation Agent to invest capital in Harvest

ETF nor does it in any way represent an assurance or opinion of the Index Calculation Agent or with regard to any investment in the Harvest ETF.

The Index Provider and its related parties perform a number of different roles in relation to the Index. The Index Provider and its affiliates developed, sponsored and own the Index. The Index Provider may have positions or engage in transactions, securities or other investments based on or otherwise related to the Index. The Index Provider or one or more of its affiliates may, at present or in the future, publish research reports with respect to the Indices that may express opinions inconsistent with purchasing or holding the securities. As such, there are potential conflicts of interest resulting from the different roles the Index Provider and its related parties will be performing in relation to the Index.

International Information Reporting

Pursuant to the Canada-United States Enhanced Tax Information Exchange Agreement entered into between Canada and the United States on February 5, 2014 (the “**IGA**”) and related Canadian legislation in the Tax Act, the dealers through which Unitholders hold their Units are required to report certain information with respect to Unitholders who are U.S. residents and U.S. citizens (including U.S. citizens who are residents and/or citizens of Canada) or certain entities the “controlling persons” of which are “U.S. Persons”, as defined under the IGA (excluding Plans, as defined above under “Income Tax Considerations – Status of the Harvest ETF”), to the CRA. The CRA is expected to provide the information to the U.S. Internal Revenue Service.

Pursuant to the provisions of the Tax Act that implement the Organization for Economic Co-operation and Development Common Reporting Standard (the “**CRS Provisions**”), “Canadian financial institutions” (as defined in the CRS Provisions) would be required to have procedures in place to identify accounts held by residents of foreign countries (other than the U.S.) or by certain entities the “controlling persons” of which are resident in a foreign country (other than the U.S.) and to report required information to the CRA. Such information would be exchanged on a reciprocal, bilateral basis with the countries, where such countries have agreed to a bilateral information exchange with Canada under the Common Reporting Standard in which the account holders or such controlling persons are resident. Under the CRS Provisions, Unitholders will be required to provide certain information regarding their investment in the Harvest ETF for the purpose of such information exchange (which information is initially required to be provided to the CRA by May 1, 2018), unless the investment is held within a Plan.

PURCHASERS’ STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Securities legislation in certain of the provinces and territories of Canada provides purchasers with the right to withdraw from an agreement to purchase ETF securities within 48 hours after the receipt of a confirmation of a purchase of such securities. In several of the provinces and territories, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus and any amendment contains a misrepresentation, or non-delivery of the ETF Facts, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory.

The purchaser should refer to the applicable provisions of the securities legislation of the province or territory for the particulars of these rights or should consult with a legal adviser.

DOCUMENTS INCORPORATED BY REFERENCE

Additional information about the Harvest ETF is, or will be, available in the following documents:

- (a) the most recently filed comparative annual financial statements, together with the accompanying report of the auditor;
- (b) any interim financial statements filed after those annual financial statements;
- (c) the most recently filed annual management report of fund performance;
- (d) any interim management report of fund performance filed after that most recently filed annual management report of fund performance; and

- (e) the most recently filed ETF Facts.

These documents are or will be incorporated by reference into this prospectus, which means that they legally form part of this document just as if they were printed as part of this document. You can obtain a copy of these documents, at your request, and at no cost, by calling toll-free at 1-866-998-8298 or by contacting your dealer. These documents are available on the Harvest ETF's website at www.harvestportfolios.com. These documents and other information about the Harvest ETF will also be available on the internet at www.sedar.com.

In addition to the documents listed above, any documents of the type described above that are filed on behalf of the Harvest ETF after the date of this prospectus and before the termination of the distribution of the Harvest ETF are deemed to be incorporated by reference into this prospectus.

INDEPENDENT AUDITOR'S REPORT

To the Unitholder and Trustee of the Blockchain Technologies ETF
(the "**Harvest ETF**")

We have audited the accompanying statement of financial position of the Harvest ETF as at January 31, 2018 and the related notes, which comprise a summary of significant accounting policies and other explanatory information (together the financial statement).

Management's responsibility for the financial statement

Management is responsible for the preparation and fair presentation of the financial statement in accordance with those requirements of International Financial Reporting Standards relevant to preparing such a financial statement, and for such internal control as management determines is necessary to enable the preparation of the financial statement that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on the financial statement based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates, if any, made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statement of the Harvest ETF presents fairly, in all material respects, the financial position of the Harvest ETF as at January 31, 2018, in accordance with International Financial Reporting Standards relevant to preparing such a financial statement.

The accompanying notes are an integral part of this statement of financial position.

Blockchain Technologies ETF

Notes to the Financial Statement

As at January 31, 2018

1. General Information

The Blockchain Technologies ETF (the “**Harvest ETF**”) is an investment fund established under the laws of the province of Ontario, pursuant to the terms of a Declaration of Trust dated January 31, 2018. The Harvest ETF is a mutual fund under the securities legislation of the provinces and territories of Canada. Harvest is the promoter, manager, trustee and portfolio manager of the Harvest ETF and is responsible for the administration of the Harvest ETF.

The principal office of Harvest is 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7.

The Harvest ETF seeks to replicate, to the extent reasonably possible and before fees and expenses, the performance of the Harvest Blockchain Technologies Index. The Harvest ETF invests in equity securities of issuers exposed, directly or indirectly, to the development and implementation of blockchain and distributed ledger technologies.

This financial statement as at January 31, 2018 was authorized for issue by the Manager on January 31, 2018.

2. Summary of Significant Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are set out below.

Basis of Preparation

The financial statement of the Harvest ETF has been prepared in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB), relevant to preparing a statement of financial position. The financial statement of the Harvest ETF has been prepared under the historical cost convention.

Functional and Presentation Currency

The financial statement of the Harvest ETF is presented in Canadian dollars, which is the functional and presentation currency of the Harvest ETF.

Financial Instruments

The Harvest ETF recognizes financial instruments at fair value upon initial recognition, plus transaction costs in the case of financial instruments measured at amortized cost. Regular way purchases and sales of financial assets are recognized at their trade date.

Cash is comprised of cash on deposit.

Redeemable Units

The Harvest ETF is authorized to issue an unlimited number of redeemable, transferable class A units, each of which represents an undivided interest in the net assets of the Harvest ETF (the “**Units**”). The Units are classified as financial liabilities in accordance with the requirements of International Accounting Standard 32, Financial Instruments: Presentation.

3. Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The carrying values of cash and the obligation of the Harvest ETF for net assets attributable to holders of redeemable units approximate their fair values due to their short-term nature.

4. **Risks Associated with Financial Instruments**

The Harvest ETF's overall risk management program seeks to maximize the returns derived for the level of risk to which the Harvest ETF is exposed and seeks to minimize potential adverse effects on the Fund's financial performance.

Credit risk

The Harvest ETF is exposed to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. As at January 31, 2018, the credit risk is considered limited as the cash balance was held in trust by the counsel to the Harvest ETF.

Liquidity risk

Liquidity risk is the risk that the Harvest ETF will encounter difficulty in meeting obligations associated with financial liabilities. The Harvest ETF maintains sufficient cash on hand to fund anticipated redemptions.

5. **Capital Risk Management**

The capital of the Harvest ETF is represented by the net assets attributable to holders of Units. The amount of net assets attributable to holders of redeemable units can change. IAS 32 "Financial Instruments: Presentation" requires that units of the Harvest ETF, which are considered puttable instruments, be classified as either financial liabilities or equity instruments and presented at redemption amount. The Harvest ETF units included different redemption rights and in some instances are at 95% of market value of the units on the exchange. As a result, the Harvest ETF units contain multiple contractual obligations and are presented as financial liabilities as they do not meet the criteria for classification as equity.

6. **Authorized Units**

The Harvest ETF is authorized to issue an unlimited number of redeemable, transferable Units, each of which represents an undivided interest in the net assets of the Harvest ETF.

Each Unit entitles the owner to one vote at meetings of Unitholders and is entitled to participate equally with all other Units with respect to all payments made to Unitholders, other than management fee distributions and capital gains allocated and designated to a redeeming Unitholder, including distributions of net income and net realized capital gains and, on liquidation, to participate equally in the net assets of the Harvest ETF remaining after satisfaction of any outstanding liabilities that are attributable to Units. All Units are fully paid, with no liability for future assessments, when issued and will not be transferable except by operation of law.

In accordance with the objectives outlined in Note 1 and the risk management policies in Note 4, the Harvest ETF endeavours to invest the subscriptions received in appropriate investments while maintaining sufficient liquidity to meet redemptions.

The Manager has initially purchased one Unit of the Harvest ETF.

7. **Management Fees and Other Expenses**

The Harvest ETF will pay an annual management fee (the "**Management Fee**") to the Manager equal to an annual percentage of the net asset value ("**NAV**") of the Harvest ETF, calculated daily and payable monthly in arrears, plus applicable taxes. The Management Fee of the Harvest ETF is 0.65% of NAV plus applicable taxes.

In addition to the Management Fee, unless otherwise waived or reimbursed by the Manager, and subject to compliance with NI 81-102, it is expected that the Harvest ETF will be responsible for the payment of all operating and administrative expenses relating to the operation of the Harvest ETF and the carrying on of

its business, including, but not limited to: (a) mailing and printing expenses for periodic reports to Unitholders, (b) fees payable to the trustee for acting as Trustee (except when the Manager is the trustee), (c) fees payable to the Index Calculation Agent, Registrar and Transfer Agent, (d) fees payable to the Custodian for acting as custodian of the assets of the Harvest ETF; (e) any reasonable out of pocket expenses incurred by the Manager or its agents in connection with their ongoing obligations to the Harvest ETF, (f) IRC committee member fees and expenses in connection with the IRC, (g) expenses related to compliance with NI 81-107, (h) fees and expenses relating to voting of proxies by a third party, (i) insurance coverage for the members of the IRC, (j) fees payable to the auditors and legal advisors of the Harvest ETF, (k) regulatory filing, stock exchange and licensing fees and CDS fees, (l) banking and interest with respect to any borrowing (if applicable), (m) website maintenance costs, (n) any taxes payable by the Harvest ETF or to which the Harvest ETF may be subject, including income taxes, Sales Taxes and/or withholding taxes (o) expenditures incurred upon termination of the Harvest ETF, (p) brokerage commissions, (q) costs and expenses of complying with all applicable laws, regulations and policies, including expenses and costs incurred in connection with the continuous public filing requirements such as permitted prospectus preparation and filing expenses, (r) extraordinary expenses that the Harvest ETF may incur and all amounts paid on account of any indebtedness (if applicable), (s) any expenses of insurance and costs of all suits or legal proceedings in connection with the Harvest ETF or the assets of the Harvest ETF or to protect the Unitholders, the Trustee, the Manager, the investment manager, any sub-advisor and the directors, officers, employees or agents of the Trustee, the Manager, the investment manager and any sub-advisor, (t) any expenses of indemnification of the Trustee, the Unitholders, the Manager, the investment manager, or their respective directors, officers, employees or agents to the extent permitted under the Declaration of Trust, (u) expenses relating to the preparation, printing and mailing of information to Unitholders and relating to meetings of Unitholders, and (v) legal, accounting and audit fees and fees and expenses of the Trustee, Custodian and Manager which are incurred in respect of matters not in the normal course of the Harvest ETF's activities. The Harvest ETF is also responsible for all commissions and other costs of portfolio transactions and any extraordinary expenses of the Harvest ETF which may be incurred from time to time.
