Australian REIT Income Fund
Annual Management Report of Fund Performance

December 31, 2017

The Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure, can be obtained at your request, and at no cost, by calling us at 1-866-998-8298; by writing to us at Harvest Portfolios Group Inc., 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7; by visiting our website at www.harvestportfolios.com; or on SEDAR at www.sedar.com.

Australian REIT Income Fund

CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest”) is a Canadian Investment Manager focused on unique income generating investment products. Harvest was founded in 2009 and is focused on developing investment products that follow three investment criteria:

1. Clear investment objectives
2. Transparency
3. Income generation

Harvest endeavours to develop investment products that are clear in their mandate and easy for our investors to understand. We strive to be transparent, so that our investors can open their financial reports and know exactly what they own. Our funds are invested to provide investors with consistent monthly or quarterly income; therefore, we seek to invest our fund portfolios in well managed companies that have a history of steady cash flow and pay dividends.

INVESTMENT PRODUCT

The Australian REIT Income Fund (“the Fund”) invests in a portfolio comprised primarily of Equity Securities listed on the ASX issued by Real Estate Issuers. The Fund will be actively managed to take advantage of opportunities within the Australian real estate sector with a focus on Real Estate Issuers that provide attractive current cash yield and/or capital appreciation opportunities.

Australian REIT Income Fund

PRESIDENT'S MESSAGE

Australian REIT Income Fund

Unitholder letter March 2018

Dear Valued Unitholder,

Fresh off the US Election, 2017 markets started off strong, coasted through the summer months and ended on an upswing. The US Federal Reserve raised the benchmark interest rate three times with December's quarter point hike being the 5th since 2006. President Trump managed to get his tax bill passed while US unemployment drifted ever lower and looks to breach below 4% in 2018. It was also the year of Bitcoin and the crypto currency mania, though back on earth, not a bad year for the portfolios with lower volatility than we have been used to for some time.

As per Warren Buffett, "In the business world, the rearview mirror is always clearer than the windshield". That said, 2017 will go down in the history of markets as one of the surprising "up" years as the preponderance of investors did not feel positive at the outset of the year. We have all heard the term "the most hated bull market", because it was hard to be long equities after what has been one volatile ride for the previous 16 years. It is sometimes forgotten that the S&P 500 highs of March 2000, were not achieved again until October 2007, and then achieved for a third time and finally surpassed in March 2013. If one was long the S&P 500 Index, one basically spent 13 years riding a roller coaster to end up on the same platform where one started. Since the Financial crisis bottomed in March 2009, we have had successive years of negative sentiment, quantitative easing, a new US President, a flash crash and two large pullbacks, the last between May 2015 and February 2016 with the S&P 500 down over 15% during that time. No doubt equity investors were skittish going into 2017.

Our investment philosophy at Harvest doesn't change, markets will change and we accept that, we will fine tune portfolios when the dynamics for a company change, but we maintain our long term thesis. Option writing, in our Leaders Funds, allows us to reduce some of the shorter term risk of a portfolio and monetize that portion of return for income generation. The majority of the portfolio will remain long due to our positive bias towards the businesses we hold. When we develop a new portfolio (Fund) at Harvest, the first thing we look at is the industry or theme, does it have growth characteristics, and will it continue to be part of human, industrial, technological or some other positive advancement. If we can answer "yes", then the deeper work begins on the portfolio construction.

Looking towards 2018, our belief is that investors stay the course. This is not a view of complacency as volatility will reemerge and markets will face new challenges, but one of long term belief that quality companies with established franchises, solid cash flow, earnings and track records of growth will prevail over time. Most importantly is patience, to hold on when times are good and when times are tough.

On behalf of Harvest, I would like to thank you for your trust and investment in our products.

Sincerely,

Signed "Michael Kovacs"

Michael Kovacs
President and Chief Executive Officer

Australian REIT Income Fund

ANNUAL MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the Fund. For your reference, the annual financial statements of the Fund are attached to the annual management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1(866) 998-8298; by writing to us at Harvest Portfolios Group Inc., 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7; or by visiting our website at www.harvestportfolios.com; or on SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVES AND STRATEGY

The Fund's investment objectives are to provide unitholders with:

- (i) stable monthly cash distributions; and
- (ii) the opportunity for capital appreciation

To seek to achieve its investment objectives, the Fund invests in an actively managed portfolio comprised primarily of Equity Securities listed on the ASX issued by Australian real estate investment trusts and to a lesser extent, issuers principally engaged in the real estate industry in Australia.

The Fund's manager, Harvest Portfolios Group Inc. ("Harvest") has retained Macquarie Investment Management Global Limited ("Macquarie" or "Portfolio Manager") to provide portfolio management services to the Fund. On November 14, 2016, the Fund received notice that as a result of internal restructuring, an affiliate of the Portfolio Manager, Macquarie Investment Management Global Limited, would replace Macquarie Private Portfolio Management Limited to provide portfolio management services to the Fund effective January 31, 2017. Macquarie was terminated on June 30, 2017 and Harvest assumed the investment management responsibilities on July 1, 2017.

The Fund invests in Real Estate Issuers in various sectors, including industrial, residential, office, retail and other real estate sectors and from time to time may invest in debt securities.

Harvest believes that Australian REITs offer attractive income and an opportunity for capital gains.

RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

RESULTS OF OPERATIONS

The Australian REIT Income Fund returned 6.34% for Series A and 6.71% for the Series F for the period ending December 31, 2017 versus the S&P ASX 200 Accumulation A-REIT Index return of 7.24% for the period. The primary divergence in performance is a result of the index being highly concentrated with significant weightings to select holdings that are beyond the maximum thresholds allowed by the Fund's investment restrictions.

Following strong performance through 2016, the REIT sector in Australia came under pressure during the first six months of 2017. In particular as the US Federal Reserve raised its Target Rate three times during the period, yield sensitive investments came under pressure, including REITs in Australia. Australian economic data through the end of the period started to meet relatively low expectations and following numerous cuts to the Reserve Bank of Australia (RBA) cash target rate over the past several years, the Cash Rate remained at the historic low 1.5% for the year. The Fund remained hedged back to the Canadian dollar during the period and had reduced leverage at select times during the period.

The Fund remained invested in an actively managed portfolio of listed Australian Real Estate Issuers during the period to meet its objectives of (i) stable monthly distributions; and (ii) the opportunity for capital appreciation.

Australian REIT Income Fund

RECENT DEVELOPMENTS

The Fund renewed its normal course issuer bid program for the period from May 11, 2016 to May 10, 2017 which allows the Fund to purchase up to 276,543 Series A units of the Fund for cancellation by way of a normal course issuer bid through the facilities of the Toronto Stock Exchange and other Canadian markets. The program was not renewed after expiry. During the year ended December 31, 2017 and 2016, no Series A units were purchased for cancellation.

During the year, the Manager gave notice to Macquarie Investment Management Global Limited terminating the investment management agreement effective June 30, 2017. On July 1, 2017 the Manager assumed the investment management responsibilities of the Fund.

RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

MANAGEMENT AND OTHER FEES

The Fund pays its manager, Harvest, a management fee, plus applicable taxes, calculated based on the average daily net asset value ("NAV") and paid monthly in arrears, based on an annual rate of 1.30% of the NAV of the Fund. Up until termination, the Manager paid Macquarie, a fee for its portfolio advisory service, from the management fee received from the Fund, calculated on the basis of the Fund's NAV. The Fund pays service fees to registered dealers on Series A units at a rate of 0.40% of the average daily NAV, plus applicable taxes, per annum of the Fund. No service fee is charged to Series F units. Service fees are accrued daily and paid monthly to the Manager, who in turn pays the dealers quarterly.

At its sole discretion, the Manager may waive management fees or absorb expenses of the Fund. During the year there were no fees waived or absorbed. The management expense ratios of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table below.

Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee ("IRC"), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries, benefits and consulting fees; independent directors of the Manager and other administrative expenses and costs incurred in connection with the Fund's continuous public offering and other obligations. These expenses are allocated by the Manager on a reasonable basis, across all of the Harvest Portfolios Group Inc. funds, and series of each applicable fund. These expenses were \$37,226 for year ended December 31, 2017 (2016 - \$59,698) and are included in the unitholder reporting costs on the Statements of Comprehensive Income.

LOAN FACILITY

The Fund established a revolving term loan facility with a Canadian chartered bank for the purpose of acquiring assets for the portfolio and such other short term funding purposes as may be determined from time to time and in accordance with the investment strategy. The loan facility is drawn down by way of a Banker's Acceptance (BA's) with a shorter term maturity and renewed on an ongoing basis. The loan outstanding at December 31, 2017 is interest bearing at a rate of 1.34% per annum plus a stamping fee of 0.90% per annum for \$6,000,000, (December 31, 2016 - 0.9% for \$10,000,000), secured against the assets of the Fund and the amount of the loan cannot exceed 62.471% of the net asset value of the Fund. The outstanding balance on the loan facility was \$6,000,000 at December 31, 2017 (December 31, 2016 - \$10,000,000). The amount of borrowings ranged between \$6,000,000 and \$11,000,000 during the year (2016 - \$10,000,000 and \$15,000,000).

The initial interest paid on the drawdown and renewal of the Banker's Acceptance is deferred and amortized over the term of the BA's, which mature on January 15, 2018 for the loan. The loan amount was renewed on January 15, 2018. The unamortized

Australian REIT Income Fund

portion of the deferred interest was \$5,897 at (December 31, 2016 - \$9,870) and is netted against the loan facility balance on the Statements of Financial Position. For the year ended December 31, 2017, the Fund recorded interest expense of \$191,425 (2016 - \$254,848).

RECOMMENDATIONS OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

As noted in the “Recent Developments” section above, effective July 1, 2017, the Manager assumed the investment management responsibilities of the Fund. This matter was brought to the attention of the IRC on March 27, 2017 and the committee resolved that the change provides a fair and reasonable result for the Fund.

FINANCIAL HIGHLIGHTS

The following tables present selected key financial information about the Fund and are intended to help you understand the Fund’s financial performance for the year ended December 31, 2017 and past periods. This information is derived from the Fund’s annual financial statements and past audited annual financial statements.

Series A

Net asset value per unit	\$ 12.90	\$ 12.72	\$ 11.78	\$ 10.92	\$ 8.77

Explanatory Notes:

- Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
- Net assets, at the commencement of operations on March 21, 2013 was \$11.18, net of agents' commissions and issuance costs of \$0.82 per unit for Series A and net assets, at the beginning of the period was \$11.60, net of agents' commissions and issuance costs of \$0.40 per unit for Series F.
- Distributions were paid in cash or reinvested in additional units of the Fund.
- Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of daily average net asset value during the period. The MER for 2013, the year of inception, included agents' fees of \$3,367,379 and issue costs of \$962,108 for Series A and agents' fees of \$50,927 and issue costs of \$33,952 for Series F, which were treated as one-time expenses and therefore were not annualized. The MER without these costs is 4.74% for Series A and 4.29% for Series F. The MER for 2014, included agents' fee of \$119,247 and issue costs of \$101,651 for Series A, which were treated as one-time expenses and therefore were not annualized. The MER without these costs is 3.95% for Series A.
- The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

Australian REIT Income Fund

Past Performance

The performance information presented herein assumes all dividends of the Fund during the periods presented were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemptions, or other charges that would have reduced returns or affected performance. Past performance of the Fund is not necessarily indicative of how it will perform in the future.

YEAR-BY-YEAR RETURNS

The following charts present the Fund's performance for each of the periods shown and illustrate how the Fund's performance varied. The charts show, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

Fund Performance

Series A

2013 represents the period from March 21 to December 31

Australian REIT Income Fund

Series F

2013 represents the period from March 21 to December 31

ANNUAL COMPOUND RETURNS

The following table shows the annual compound returns for the Fund. All returns are in Canadian dollars, on a total return basis, net of fees.

For comparison purposes, a benchmark of the S&P/ASX 200 Accumulation A-REIT Index (the “Index”) is used. While the Fund uses this benchmark for long-term performance comparisons, it is not managed relative to the composition of the Index. As a result, the Fund may experience periods when its performance is not aligned with the Index, either positively or negatively. The return of the Index is calculated without the deduction of management fees and fund expenses whereas the performance of the Fund is calculated after deducting such fees and expenses. Please see the “Results of Operations” section of this report for a discussion on recent performance.

Investment Return %	1 Year	3 Years	5 Years	10 Years	Since Inception
Fund Performance Series A (%)	6.34	10.52	-	-	6.90
Fund Performance Series F (%)	6.71	11.52	-	-	8.50

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's prospectus or offering memorandum. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
