Australian REIT Income Fund

CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest”) is a Canadian Investment Manager founded in 2009. Harvest is focused on developing investment products that follow three investment criteria:

1. Clear investment objectives
2. Transparency
3. Consistent income and growth

Harvest endeavours to develop investment products that are clear in their mandate and easy for our investors to understand. We strive to be transparent, so that our investors can open their financial reports and know exactly what they own. Our funds are invested to provide investors with consistent monthly or quarterly income; therefore, we seek to invest our fund portfolios in well managed companies that have a history of steady cash flow and pay dividends.

INVESTMENT PRODUCT

The Australian REIT Income Fund (“the Fund”) invests in a portfolio comprised primarily of Equity Securities listed on the ASX issued by Real Estate Issuers. The Fund will be actively managed to take advantage of opportunities within the Australian real estate sector with a focus on Real Estate Issuers that provide attractive current cash yield and/or capital appreciation opportunities.

INVESTMENT OBJECTIVES AND STRATEGY

The Fund's investment objectives are to provide unitholders with:

- (i) stable monthly cash distributions; and
- (ii) the opportunity for capital appreciation

To seek to achieve its investment objectives, the Fund invests in an actively managed portfolio comprised primarily of Equity Securities listed on the ASX issued by Australian real estate investment trusts and to a lesser extent, issuers principally engaged in the real estate industry in Australia.

The Fund's manager, Harvest Portfolios Group Inc. ("Harvest") previously retained Macquarie Investment Management Global Limited ("Macquarie" or "Portfolio Manager") to provide portfolio management services to the Fund. On November 14, 2016, the Fund received notice that as a result of internal restructuring, an affiliate of the Portfolio Manager, Macquarie Investment Management Global Limited, would replace Macquarie Private Portfolio Management Limited to provide portfolio management services to the Fund effective January 31, 2017. Macquarie was terminated on June 30, 2017 and Harvest assumed the investment management responsibilities on July 1, 2017.

The Fund invests in Real Estate Issuers in various sectors, including industrial, residential, office, retail and other real estate sectors and from time to time may invest in debt securities.

Harvest believes that Australian REITs offer attractive income and an opportunity for capital gains.

RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

RESULTS OF OPERATIONS

The Australian REIT Income Fund returned 1.34% for Series A and 2.41% for the Series F for the period ending June 30, 2018 versus the S&P ASX 200 Accumulation A-REIT Index return of 2.00% for the period. The primary divergence in performance is a result of the index being highly concentrated with significant weightings to select holdings that are beyond the maximum thresholds allowed by the Fund's investment restrictions.

Australian economic data through the end of the period started to meet relatively low expectations and following numerous cuts to the Reserve Bank of Australia (RBA) cash target rate over the past several years, the Cash Rate remained at the historic low 1.5% at the end of the period despite many other developed markets having raised interest rates. Industrial focused REITs held in the portfolio with overseas assets outside of Australia performed particularly well during the period. Domestic M&A over the past year has also resurfaced and has had a positive impact to the domestic market. The Fund remained hedged back to the Canadian dollar during the period and had reduced leverage at select times during the period.

The Fund remained invested in an actively managed portfolio of listed Australian Real Estate Issuers during the period to meet its objectives of (i) stable monthly distributions; and (ii) the opportunity for capital appreciation.

RECENT DEVELOPMENTS

No new recent developments to note for the period ended June 30, 2018.

RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

MANAGEMENT AND OTHER FEES

The Fund pays its manager, Harvest, a management fee, plus applicable taxes, calculated based on the average daily net asset value (“NAV”) and paid monthly in arrears, based on an annual rate of 1.30% of the NAV of the Fund. Up until termination, the Manager paid Macquarie, a fee for its portfolio advisory service, from the management fee received from the Fund, calculated on the basis of the Fund’s NAV. The Fund pays service fees to registered dealers on Series A units at a rate of 0.40% of the average daily NAV, plus applicable taxes, per annum of the Fund. No service fee is charged to Series F units. Service fees are accrued daily and paid monthly to the Manager, who in turn pays the dealers quarterly.

At its sole discretion, the Manager may waive management fees or absorb expenses of the Fund. During the year there were no fees waived or absorbed. The management expense ratios of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table below.

Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund’s Independent Review Committee (“IRC”), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

The Manager may, in some cases, absorb a portion of the Fund’s operating expenses. The management expense ratios of the Fund with and without the absorptions are reported in the Ratios and Supplemental Data table.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries, benefits and consulting fees; independent directors of the Manager and other administrative expenses and costs incurred in connection with the Fund’s continuous public offering and other obligations. These expenses are allocated by the Manager on a reasonable basis, across all of the Harvest Portfolios Group Inc. funds, and series of each applicable fund. These expenses were \$10,244 for period ended June 30, 2018 (2017 - \$22,455) and are included in the unitholder reporting costs on the Statements of Comprehensive Income.

LOAN FACILITY

The Fund established a revolving term loan facility with a Canadian chartered bank for the purpose of acquiring assets for the portfolio and such other short-term funding purposes as may be determined from time to time and in accordance with the investment strategy. The loan facility is drawn down by way of a Banker’s Acceptance (BA’s) with a shorter-term maturity and renewed on an ongoing basis. The loan outstanding at June 30, 2018 is interest bearing at a rate of 1.64125% per annum plus a stamping fee of 0.90% per annum for \$5,300,000, (December 31, 2017 - 0.9% for \$6,000,000), secured against the assets of the Fund and the amount of the loan cannot exceed 62.471% of the net asset value of the Fund. The outstanding balance on the loan facility was \$5,300,000 at June 30, 2018 (December 31, 2017 - \$6,000,000). The amount of borrowings ranged between \$5,300,000 and \$6,500,000 during the period (2017 - \$6,000,000 and \$11,000,000).

The initial interest paid on the drawdown and renewal of the Banker’s Acceptance is deferred and amortized over the term of the BA’s, which mature on July 16, 2018 for the loan. The loan amount was renewed on July 16, 2018. The unamortized portion of the deferred interest was \$5,893 at (December 31, 2017 - \$5,897) and is netted against the loan facility balance on the Statements of Financial Position. For the period ended June 30, 2018, the Fund recorded interest expense of \$82,510 (2017 - \$96,001).

Explanatory Notes:

- Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
- Net assets, at the commencement of operations on March 21, 2013 was \$11.18, net of agents' commissions and issuance costs of \$0.82 per unit for Series A and net assets, at the beginning of the period was \$11.60, net of agents' commissions and issuance costs of \$0.40 per unit for Series F.
- Distributions were paid in cash or reinvested in additional units of the Fund.
- Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of daily average net asset value during the period. The MER for 2013, the year of inception, included agents' fees of \$3,367,379 and issue costs of \$962,108 for Series A and agents' fees of \$50,927 and issue costs of \$33,952 for Series F, which were treated as one-time expenses and therefore were not annualized. The MER without these costs is 4.74% for Series A and 4.29% for Series F. The MER for 2014, included agents' fee of \$119,247 and issue costs of \$101,651 for Series A, which were treated as one-time expenses and therefore were not annualized. The MER without these costs is 3.95% for Series A.
- The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

Australian REIT Income Fund

- The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

Past Performance

The performance information presented herein assumes all dividends of the Fund during the periods presented were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemptions, or other charges that would have reduced returns or affected performance. Past performance of the Fund is not necessarily indicative of how it will perform in the future.
