Brand Leaders Income Fund

CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest”) is a Canadian Investment Manager founded in 2009. Harvest is focused on developing investment products that follow three investment criteria:

1. Clear investment objectives
2. Transparency
3. Consistent and income and growth

Harvest endeavours to develop investment products that are clear in their mandate and easy for our investors to understand. We strive to be transparent, so that our investors can open their financial reports and know exactly what they own. Our funds are invested to provide investors with consistent monthly or quarterly income; therefore, we seek to invest our fund portfolios in well managed companies that have a history of steady cash flow and pay dividends.

INVESTMENT PRODUCT

The Brand Leaders Income Fund (the “Fund”) invests in an equally-weighted portfolio of fifteen of the world’s top one hundred rated brand companies, each with a market capitalization of at least US\$10 billion. As the US and global economy generally expands, Harvest believes that a diversified portfolio invested in these blue chip companies will provide investors with an attractive yield and strong capital appreciation potential.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The interim management report of fund performance contains financial highlights but does not contain the complete interim financial statements of the Fund. For your reference, the interim financial statements of the Fund are attached to the interim management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1(866) 998-8298; by writing to us at Harvest Portfolios Group Inc., 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7; or by visiting our website at www.harvestportfolios.com; or on SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVES AND STRATEGY

The Fund has been created to provide investors with exposure to a portfolio ("Portfolio") of Equity Securities of issuers selected from the world's top 100 rated brand companies, as recognized by Interbrand in its annual study of the best global brands (the "**Brand Leaders**"), from the Brand Leaders Investable Universe. "**Brand Leaders Investable Universe**" means those Brand Leaders that are eligible to have options written on their Equity Securities and where such Equity securities and options are traded on a North American stock exchange.

The Fund's investment objectives are to provide Unitholders with:

- (i) monthly cash distributions;
- (ii) the opportunity for capital appreciation; and
- (iii) lower overall volatility of Portfolio returns than would otherwise be experienced by owning Equity securities of the Brand Leaders directly.

To achieve its investment objectives, the Fund invests in an equally-weighted portfolio of equity securities of 15 Brand Leaders from the Brand Leaders Investable Universe that have a market capitalization of at least US\$10 billion at the time of investment and meet the investment characteristics described below. In order to seek to generate additional returns, the Fund's manager and investment manager, Harvest Portfolios Group Inc. ("Harvest") will sell "at-the-money" call options each month on Equity Securities held in the Portfolio. Harvest will not sell call options on more than 25% of the Equity Securities of each Brand Leader held in the Fund.

Harvest will annually rebalance the Portfolio such that, at the time of the initial investment and immediately following each annual rebalancing, the Portfolio will have the following investment characteristics:

- Growth** – An average 5-year Annual Compound Earnings per Share growth rate greater than the average for the Brand Leaders Investable Universe;
- Value** – An average Price-to-Earnings ratio lower than the average for the Brand Leaders Investable Universe;
- Quality** – An average 5-year Return On Equity growth greater than the average for the Brand Leaders Investable Universe; and
- Yield** – An average Yield greater than the average for the Brand Leaders Investable Universe.

RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

RESULTS OF OPERATIONS

The Brand Leaders Income Fund returned -3.27% compared to the S&P 100 Index Total Return in USD of 1.69% for the period ended June 30, 2018.

The US economy started 2018 with strong momentum following a positive finish to 2017. Synchronized global economic momentum continued to lay the backdrop for positive returns for companies positioned to benefit from the growth. US equity markets also started strongly despite the fears that the world could be facing a trade war over the potential tariffs the United States is planning to impose. Volatility did pick up in the equity markets as political rhetoric surrounding trade tariffs increased.

Brand Leaders Income Fund

However, robust earnings seasons, domestic tax cuts and tax repatriation were key drivers for the broader markets to regain some ground following a pullback early in the period. The Fund's overweight exposure towards the outperforming Information Technology sector had a positive impact on the Funds performance while the Consumer Staples sector, where the Fund has a relatively modest weighting, tended to lag the broader market.

The Fund sold call options on underlying holdings held in the Portfolio during the year in order to meet its investment and income objectives. The Fund was invested in 15 Brand Leaders during the period.

RECENT DEVELOPMENTS

No new recent developments to note for the period ended June 30, 2018.

RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

MANAGEMENT AND OTHER FEES

The Fund pays its manager, Harvest, a management fee calculated based on the average weekly net asset value ("NAV") and paid monthly in arrears, based on an annual rate of 0.90%, plus applicable taxes, of the NAV of the Fund. The Fund also pays service fees to registered dealers at the rate on 0.40% of the average weekly NAV, plus applicable taxes, per annum of the Fund. Service fees are accrued daily and paid monthly to the Manager, who in turn pays the dealers quarterly.

Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee ("IRC"), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

At its sole discretion, the Manager may waive management fees or absorb expenses of the Fund. During the year there were no fees waived or absorbed. The management expense ratios of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table below.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries, benefits and consulting fees; independent directors of the Manager and other administrative expenses and costs incurred in connection with the Fund's continuous public offering and other obligations. These expenses were \$3,349 for the period ended June 30, 2018 (2017 - \$9,145) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss) in the financial statements.

RECOMMENDATIONS OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

The Independent Review Committee tabled no special reports and made no extraordinary material recommendations to management of the Fund during the year ended June 30, 2018.

Explanatory Notes:

- Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
- Distributions were paid in cash.
- Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of daily average net asset value during the period. The MER for the year December 31, 2014 includes agents' fees and issue costs of \$210,849 related to the warrants issued. These costs are treated as one-time expenses and therefore were not annualized. The MER without these costs is 2.57% for 2014.
- The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the year.
- The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's prospectus or offering memorandum. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
