HARVEST Canadian Income & Growth Fund

CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest”) is a Canadian Investment Manager founded in 2009. Harvest is focused on developing investment products that follow three investment criteria:

1. Clear investment objectives
2. Transparency
3. Consistent income and growth

Harvest endeavours to develop investment products that are clear in their mandate and easy for our investors to understand. We strive to be transparent, so that our investors can open their annual report and know exactly what they own. Our funds are invested to provide investors with consistent monthly or quarterly income; therefore, we seek to invest our fund portfolios in well managed companies that have a history of steady cash flow and pay dividends.

INVESTMENT PRODUCT

The Harvest Canadian Income & Growth Fund (the “Fund”) invests to provide investors with income and the potential for capital appreciation by investing primarily in dividend paying securities of publicly-traded utilities, industrials, communications, real estate and retail issuers domiciled in Canada.

INVESTMENT OBJECTIVES AND STRATEGY

The Fund's investment objectives are to:

- (i) provide unitholders with monthly distributions; and
- (ii) maximize long-term total return for unitholders while reducing volatility.

The Fund was created to provide investors with income and the potential for capital appreciation.

To achieve the Fund's objectives, the Fund invests in an actively managed portfolio comprised primarily of dividend-paying equity and debt securities of publicly-traded utilities, industrial, communications, real estate and retail issuers domiciled in Canada. The investment manager focuses on the less cyclical segments of the Canadian equities market with the goal of reducing volatility by diversifying away from the main sectors (financials, energy and materials) that make up the majority of the market capitalization on the Toronto Stock Exchange (the "TSX").

The Fund invests primarily in companies that have: (i) proven long-term histories of earnings; (ii) established and experienced management; and (iii) business models that are not primarily dependent on commodity prices.

The investment manager focuses on free cash flow and free cash flow yield, earnings potential, and the investment's intrinsic value in order to assess dividend sustainability and growth in distributions, with a view to delivering:

1. Attractive income generation;
2. Opportunity for capital gains; and
3. Lower volatility relative to the overall S&P/TSX Composite Index.

RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

RESULTS OF OPERATIONS

The S&P TSX bounced back from early year lows helped in large part by rising energy prices and performed well relative to other developed world indices. The Fund's return for the period ending June 30, 2018 was -2.84% for Series R, -2.98% for Series A, -2.30% for Series F and -2.43% for Series D compared to the S&P/TSX Composite Total Return Index return of 1.95%.

In general, positioning away from the big-3 sub-sectors in Canada, financials, energy and materials was a key driver for the relative divergence compared to the broad S&P TSX Index. Financials underperformed which was positive for the Fund, however, the more cyclical E&P Energy and Materials names saw outperformance, which was a detriment to the Fund's underweighting as set out in the Fund strategy. Other focus sectors of the Fund, such as industrial and REITs, were positive return sources.

The Fund remains well diversified and primarily invested in a portfolio of Canadian equity securities in the utilities, industrials, communications, real estate and retail sub-sectors, augmented with select U.S. equities.

RECENT DEVELOPMENTS

No new recent developments to note for the period ended June 30, 2018.

RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in “Management and Other Fees”.

MANAGEMENT AND OTHER FEES

Harvest Portfolios Group Inc. is the Manager of the Fund and is responsible for managing the Fund’s overall business and operations and provides key management personnel to the Fund. The Manager retained Avenue Investment Management Inc. (“Avenue” or the “Investment Manager”) to provide investment management services to the Fund up until termination on January 15, 2017. Avenue was paid a fee for its portfolio advisory service, from the management fee received from the Fund, calculated on the basis of the Fund’s net asset value. On January 16, 2017, the Manager assumed the investment management responsibilities of the Fund.

Each series of units pays the Manager an annual management fee, plus applicable taxes, based on a percentage of the average daily net asset value (“NAV”) of the Fund attributable to that applicable series (the “Management Fee”).

Dealers may be paid a servicing fee in connection with Series A, Series R and Series D units for ongoing services they provide to investors, including investment advice, account statements and newsletters. Generally, the servicing fees, plus applicable taxes, are payable monthly in arrears based on the total client assets invested in each series of units of the Fund held by all of a Dealer’s clients throughout the month. The Manager can change or cancel servicing fees at any time.

The fees differ among the series of units of the Fund as set out in the chart below:

Fund Series	Annual Management Fee	Dealer Service Fee	Total Fees
R	1.25%	1.00%	2.25%
A	1.25%	1.25%	2.50%
F	1.25%	0.00%	1.25%
D	1.25%	0.25%	1.50%

Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund’s Independent Review Committee (“IRC”), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

The Manager may, in some cases, absorb a portion of the Fund’s operating expenses. There were no absorptions for the period ended June 30, 2018 and 2017. The Manager may cease doing so at any time without notice to unitholders.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries, benefits and consulting fees; independent directors of the Manager and other administrative expenses and costs incurred in connection with the Fund’s continuous public offering and other obligations. These expenses are allocated by the Manager on a reasonable basis, across all of the Harvest Portfolios Group Inc. funds, and series of each applicable fund. These expenses were \$20,980 for the period ended June 30, 2018 (2017 - \$22,503) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss).

Explanatory Notes:

1. Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
2. Net assets, at the commencement of operations was \$11.17, net of agents' commissions and issuance costs of \$0.83 per unit. On conversion to a mutual fund ("Conversion Day"), June 20, 2012, all Fund units were exchanged one-for-one into Series R, at a NAV of \$13.1442. Series A, Series F and Series D commenced operations on June 25, 2012, July 16, 2012 and July 9, 2014 respectively.
3. Distributions were paid in cash until Conversion Day, June 20, 2012, after which, an automatic reinvestment or cash option was made available.

HARVEST Canadian Income & Growth Fund

4. Management expense ratio (“MER”) is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of daily average net asset value during the period.
5. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
6. The Fund’s portfolio turnover rate indicates how actively the Fund’s portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund’s portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
