Harvest Global Resource Leaders ETF

NOTES TO THE INTERIM FINANCIAL STATEMENTS (Unaudited)

June 30, 2018

1. GENERAL INFORMATION

Harvest Global Resource Leaders ETF (the “Fund”) is an investment fund established under the laws of the Province of Ontario pursuant to a Declaration of Trust dated January 26, 2018 and as amended and restated, being the inception date. There was no significant activity in the Fund from the date of inception to commencement of operations on January 31, 2018. The address of the Fund’s registered office is 710 Dorval Drive, Oakville, Ontario L6K 3V7.

The Fund’s investment objectives are to provide unitholders with quarterly cash distributions, the opportunity for capital appreciation. To achieve lower overall volatility of portfolio returns, the Fund will selectively write covered call options on up to 33% of the portfolio securities. The level of covered call option writing may vary based on market volatility and other factors.

2. BASIS OF PRESENTATION

These interim financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) applicable to the preparation of interim financial statements, including International Accounting Standard 34, Interim Financial Reporting. These interim financial statements were authorized for issue by Harvest Portfolios Group Inc. (the “Manager”) on August 21, 2018.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial instruments

The Fund recognizes financial instruments at fair value upon initial recognition, plus transaction costs in the case of financial instruments not measured at fair value through profit or loss (FVTPL). Transaction costs on financial assets and liabilities at FVTPL are expensed as incurred. Regular way purchases and sales of financial assets are recognized at their trade date. The Fund’s investments and derivative assets and liabilities are measured at fair value through profit or loss (FVTPL) based on its business model. The Fund’s obligation for net assets attributable to holders of redeemable units is presented at the redemption amount, which approximates fair value. All other financial assets and liabilities are measured at amortized cost. Under this method, financial assets and liabilities reflect the amount required to be received or paid. Carrying values of other financial assets and liabilities at amortized cost approximate their fair values due to the short term to maturity. The Fund’s accounting policies for measuring the fair value of its investments and derivatives are identical to those used in measuring its net asset value (NAV) for transactions with unitholders. As at June 30, 2018, there were no differences between the Fund’s NAV per security and its net assets per security calculated in accordance with IFRS 9.

Fair value of investments and derivatives

Investments and derivatives that are traded in an active market are valued at their closing prices through recognized public stock exchanges or through recognized investment dealers on the valuation date. The Fund uses the last traded market price that falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on specific facts and circumstances. Investments held are represented by equities. Derivatives held include options and foreign currency forward contracts.

Investments and derivatives held that are not traded in an active market are valued using valuation techniques, on such basis and in such a manner established by the Manager. The value of any security for which, in the opinion of the Manager, the published market quotations are not readily available shall be the fair value as determined by the Manager. The fair values of certain securities may be determined using valuation models that are based, in part, on assumptions that are not supported by observable market inputs. These methods and procedures may include, but are not limited to, performing comparisons with prices of comparable or similar securities, obtaining valuation related information from issuers and/or other analytical data relating to the investment and using other available indication of value. These values are independently assessed internally to ensure that they are reasonable. However, because of the inherent uncertainty of valuation, the estimated fair values for the aforementioned securities and interests may be materially different from the values that would be used had a ready market for the security existed. The fair values of such securities are affected by the perceived credit risks of the issuer, predictability of cash flows and length of time to maturity.

Harvest Global Resource Leaders ETF

Classification of redeemable units

Under IFRS, IAS 32 Financial Instruments – Presentation requires that units or shares of an entity which include a contractual obligation for the issuer to repurchase or redeem them for cash or another financial asset be classified as a financial liability unless certain criteria are met. The Fund's units include different redemption rights and in some instances are at 95% of market value of the units on the exchange. As a result, the Fund's units contain multiple contractual obligations and are presented as financial liabilities as they do not meet the criteria for classification as equity.

Cash

Cash is comprised of cash on deposit.

Investment transactions and income recognition

Net realized gain (loss) on investments and net change in unrealized appreciation (depreciation) on investments are determined on an average cost basis. Dividend income is accounted for on the ex-dividend date. The cost of investments is determined using the average cost method.

Foreign currency translation

The Fund's subscriptions and redemptions are denominated in Canadian dollars which is also the Fund's functional and presentation currency. Purchases and sales of investments denominated in foreign currencies and foreign currency dividend and interest income are translated into Canadian dollars at the rate of exchange prevailing at the time of the transactions. Realized and unrealized foreign currency gains or (losses) on investments are included in the Statement of Comprehensive Income (Loss) in "Net realized gain (loss) on sale of investments" and "Net change in unrealized appreciation (depreciation) of investments", respectively. Realized and unrealized foreign currency gains or losses on assets, liabilities, and income, other than investments denominated in foreign currencies, are included in the Statement of Comprehensive Income (Loss) in "Net realized gain (loss) on foreign exchange" and "Net change in unrealized appreciation (depreciation) of foreign exchange", respectively. Foreign currency assets and liabilities in the Statement of Financial Position are translated into Canadian dollars on the statement date.

Foreign currency forward contracts

The Fund may enter into foreign currency forward contracts to hedge against exposure to foreign currency fluctuations. The fair value of these contracts is based on the difference between the contract rate and current forward market rate for the underlying currency at the measurement date applied to the contract's notional amount and adjusted for counterparty risk. Upon closing of a contract, the gain or loss is recorded as a net realized gain or loss on foreign exchange.

Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

Redeemable units valuation

The NAV on a particular date will be equal to the aggregate value of the assets of the Fund less the aggregate value of the liabilities of the Fund, expressed in Canadian dollars at the applicable exchange rate on such date. The NAV and NAV per unit will be calculated on each Business Day. "Business Day" means any day on which the TSX is open for trading.

Options

An option is a contractual arrangement under which the seller (writer) grants the purchaser (holder) the right, but not the obligation, either to buy (a call option) or sell (a put option) at or by a set date or during a set period, a specific amount of securities or a financial instrument at a pre-determined price. The seller receives a premium from the purchaser in consideration for the assumption of a future securities price.

The premium received upon writing an option is recorded at cost as "Payable for option contracts written" in the Statement of Financial Position. As long as the position of the written option is maintained, the liability for written options is revalued at an amount equal to the current market value of the option. Any gain or loss resulting from revaluation is reflected in the Statement of Comprehensive Income (Loss) in "Net changes in unrealized appreciation (depreciation) of options written".

The gain or loss on sale or expiry of options is reflected in the Statement of Comprehensive Income (Loss) in "Net realized gain (loss) on sale of options written".

Harvest Global Resource Leaders ETF

Increase (decrease) in net assets attributable to holders of redeemable units per unit

“Increase (decrease) in net assets attributable to holders of redeemable units per unit” in the Statement of Comprehensive Income (Loss) represents the increase (decrease) in net assets attributable to holders of redeemable units, divided by the weighted average units outstanding for the financial period.

Income and other taxes

The Fund currently is a unit trust however has until March 31, 2019 to qualify as a mutual fund trust under the Income Tax Act (Canada). For tax purposes, the Fund has a December 31 year end. All of the Fund’s net income for tax purposes and sufficient net capital gains realized in any period are required to be distributed to unitholders such that no income tax is payable by the Fund. As a result, the Fund does not record income taxes. Since the Fund does not record income taxes, the tax benefit of capital and non-capital losses has not been reflected in the statement of financial position as a deferred income tax asset. Capital losses may be carried forward indefinitely to reduce future realized capital gains. Non-capital losses may be carried forward 20 years and applied against future taxable income. 2018 is the first taxation year, therefore the Fund has no non-capital losses and net capital losses available to be carried forward for income tax purposes.

The Fund may incur withholding taxes imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis and the related withholding taxes are shown as a separate expense.

As the Manager is a resident of Ontario, the expenses paid by the Fund generally include HST of 13%. HST is calculated using the residency of unitholders in the Fund as at specific times, rather than the physical location of the Manager. A blended rate refund is filed with the Canada Revenue Agency on behalf of the Fund, in arrears, using each province’s HST rate or GST rate in the case of non-participating provinces.

Structured entities and associates

In determining whether an exchange-traded fund in which the Fund invests, but that it does not consolidate, meets the definitions of either a structured entity or of an associate, the Manager is required to make judgements about whether these underlying funds have the typical characteristics of a structured entity or of an associate. The Manager has assessed the characteristics and has concluded that they do not meet the definition of either a structured entity or of an associate because the Fund does not have the ability to influence the activities of the underlying fund.

Critical accounting estimates and judgments

The preparation of financial statements requires management to use judgment in applying its accounting policies and to make estimates and assumptions about the future. The following discusses the most significant accounting judgments and estimates that the Fund has made in preparing the financial statements:

- a) Fair value measurement of derivatives and securities not quoted in an active market

The Fund may hold financial instruments that are not quoted in active markets, including derivatives. Fair values of such instruments are determined using valuation techniques and may be determined using reputable pricing sources (such as pricing agencies) or indicative prices from market makers. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding. Refer to Note 7 for further information about the fair value measurement of the Fund’s financial instruments.

- b) Classification and measurement of investments and derivatives under IFRS 9

In classifying and measuring financial instruments held by the Fund, the Manager is required to make significant judgments about the business model in which the portfolio of investments and derivatives is held. The Manager has determined that the Fund’s business model is one in which its portfolio is managed and performance evaluated on a fair value basis under IFRS 9.

4. REDEEMABLE UNITS

The authorized capital of the Fund consists of an unlimited number of transferable units of one class representing an equal, undivided interest in the net assets of the Fund. Except as provided in the Declaration of Trust, all units have equal rights and privileges. Each unit is entitled to one vote at all meetings of unitholders and is entitled to participate equally in any and all distributions made by the Fund. The units trade on the TSX under the symbol HRES. As at June 30, 2018, the closing price of the units was \$18.20 per unit.

Harvest Global Resource Leaders ETF

Subscriptions and Redemptions

On any trading day, a designated broker or underwriter may place a subscription or redemption order for an integral multiple of the prescribed number of units of the ETF. A trading day is each day on which the TSX is opened for business.

If the subscription or redemption order is accepted, the ETF will issue or redeem units to/from the designated broker or underwriter by no later than the second trading day after the date on which the subscription or redemption order is accepted. For each prescribed number of units issued or redeemed, a designated broker or underwriter must deliver or receive payment consisting of:

- (a) A basket of applicable securities and cash in an amount sufficient so that the value of the securities, and the cash received is equal to the NAV of the units issued or redeemed; or
- (b) Cash in the amount equal to the NAV of the units issued or redeemed.

On any trading day, unitholders may redeem units for cash or exchange units for baskets of securities and cash. Units redeemed for cash may be redeemed at a redemption price per unit equal to 95% of the closing price for the units on the TSX on the effective day of the redemption, subject to a maximum redemption price per unit equal to NAV. Units exchanged for baskets of securities will be exchanged at a price equal to the NAV of the units on the effective date of the exchange request, payable by delivery of baskets of securities and cash. The units will be redeemed in the exchange.

The following units were issued and redeemed during the period indicated:

| | Units outstanding |
|---------------------------------------|-------------------|
| Initial issuance, January 31, 2018 | 100,000 |
| Redeemable units issued | 600,000 |
| Total outstanding as at June 30, 2018 | 700,000 |

The weighted average number of units outstanding during the period ended June 30, 2018 was 494,667 units.

Distributions

The Fund intends to make monthly cash distributions to unitholders of record on the last business day of each month and pay such cash distributions on or before the 15th day of the following month. The distribution amount was \$213,320 or \$0.20 per unit per quarter for the period ended June 30, 2018.

5. RELATED PARTY TRANSACTIONS AND OTHER EXPENSES

Management fees

Harvest Portfolios Group Inc. is the Manager of the Fund and is responsible for managing the Fund's overall business and operations and provides key management personnel to the Fund. The Fund pays the Manager an annual management fee, plus applicable taxes, of 0.75% based on a percentage of the average daily net asset value ("NAV") of the Fund.

Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee ("IRC"), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

The Manager may, in some cases, absorb a portion of the Fund's operating expenses. For the period ended June 30, 2018 the Manager absorbed \$22,640 of expenses of the Fund. The Manager may cease doing so at any time without notice to unitholders.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries, benefits and consulting fees; independent directors of the Manager and other administrative expenses and costs incurred in connection with the Fund's continuous public offering and

Harvest Global Resource Leaders ETF

other obligations. These expenses are allocated by the Manager on a reasonable basis, across all of the Harvest Portfolios Group Inc. Funds, and series of each applicable fund. These expenses were \$3,902 for the period ended June 30, 2018 and are included in the unitholder reporting costs on the Statement of Comprehensive Income (Loss) in the financial statements.

6. FOREIGN CURRENCY FORWARD CONTRACTS

The Fund enters into foreign currency forward contracts to hedge assets and liabilities denominated in foreign currencies. Foreign currency forward contracts entered into by the Fund represent a firm commitment to buy or sell a currency at a specified value and point in time based upon an agreed or contracted quantity. The value of the foreign currency forward contract is the difference between the contract rate and the current forward rate at the measurement date applied to the contract's notional amount and adjusted for counterparty risk. The unrealized gains or losses on the forward contract are reported as part of the change in unrealized appreciation or depreciation of foreign exchange in the Statement of Comprehensive Income (Loss) until it is closed out or partially settled.

At June 30, 2018, the Fund had entered into the following foreign currency forward contracts:

| As at June 30, 2018 | | | | | |
|--|-----------------|--------------------|-----------------|------------------------|----------------|
| Counterparty | Settlement Date | Purchased currency | Sold currency | Unrealized gain (loss) | Contract Price |
| CIBC World Markets Inc. - credit rating A+ | August 22, 2018 | CAD \$2,945,599 | USD \$2,989,541 | (\$43,943) | 0.7727 |
| CIBC World Markets Inc. - credit rating A+ | August 29, 2018 | CAD \$1,506,750 | GBP \$1,496,233 | \$10,518 | 0.5714 |
| CIBC World Markets Inc. - credit rating A+ | August 29, 2018 | CAD \$2,008,498 | AUD \$1,994,795 | \$13,702 | 1.0217 |
| CIBC World Markets Inc. - credit rating A+ | August 29, 2018 | CAD \$2,404,652 | EUR \$2,395,234 | \$9,418 | 0.6467 |
| CIBC World Markets Inc. - credit rating A+ | August 29, 2018 | CAD \$591,697 | JPY \$583,045 | \$8,652 | 82.7400 |
| CIBC World Markets Inc. - credit rating A+ | August 29, 2018 | CAD \$523,095 | NOK \$518,024 | \$5,070 | 6.1270 |
| CIBC World Markets Inc. - credit rating A+ | August 29, 2018 | CAD \$944,917 | SEK \$932,246 | \$12,671 | 6.6990 |
| CIBC World Markets Inc. - credit rating A+ | August 22, 2018 | USD \$131,351 | CAD \$132,860 | (\$1,508) | 1.3286 |
| Total | | | | \$14,580 | |

Offsetting of foreign currency forward contracts

In 2018, the Fund had a foreign exchange settlement for its foreign currency forward contracts that do not meet the criteria for offsetting in the Statement of Financial Position. The following table presents the recognized financial instruments that were not offset, as at June 30, 2018.

| June 30, 2018 | | | |
|----------------------------------|----------------------------|-----------------------------|--------------------|
| Financial assets and liabilities | Gross assets (liabilities) | Amounts eligible for offset | Net offset amounts |
| Derivative assets | \$60,031 | - | \$60,031 |
| Derivative liabilities | (\$45,451) | - | (\$45,451) |

7. FINANCIAL RISK MANAGEMENT

Investment activities of the Fund expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate risk, other price risk and currency risk). The Manager seeks to minimize these risks by employing experienced portfolio managers that will manage the security portfolios of the Fund on a daily basis according to market events and the

Harvest Global Resource Leaders ETF

investment objectives of the Fund. To assist in managing risk, the Manager also maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations.

Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The value of securities in the Fund's portfolio may be affected by the stock market conditions rather than each company's performance. Developments in the market are affected by general economic and financial conditions. Political, social and environmental factors can also affect the value of any investment.

As at June 30, 2018, 98.8% of the Fund's net assets attributable to holders of redeemable units were traded on public stock exchanges. If equity prices on these exchanges had increased or decreased by 5%, as at period end, with all other factors remaining constant, net assets attributable to holders of redeemable units would have increased or decreased by approximately \$625,004.

In practice, the actual trading results may differ and the difference could be material.

Currency risk

Currency risk is the risk that the value of investments denominated in currencies other than the functional currency of the Fund will fluctuate as a result of changes in foreign exchange rates. When a Fund buys an investment priced in a foreign currency and the exchange rate between the Canadian dollar and the foreign currency changes unfavorably, it could reduce the value of the Fund's investment.

The table below summarizes the Fund's net exposure to currency risk. Amounts shown are based on the carrying value of monetary and non-monetary net assets (including derivatives and the underlying principal (notional) amount of forward currency contracts, if any).

| As at June 30, 2018 | | | | |
|---------------------|---------------------|---------------------|------------------------|----------------------|
| Currency | Currency exposure* | Forward contracts* | Net currency exposure* | As a % of net assets |
| U.S. Dollars | \$2,982,490 | \$2,858,191 | \$124,299 | 1.0 |
| Australian Dollar | \$2,025,866 | \$1,994,795 | \$31,071 | 0.2 |
| Euro | \$2,356,583 | \$2,395,234 | (\$38,651) | (0.3) |
| Norwegian Krone | \$504,272 | \$518,024 | (\$13,752) | (0.1) |
| Pound | \$1,491,089 | \$1,496,233 | (\$5,144) | - |
| Swedish Krona | \$919,690 | \$932,246 | (\$12,556) | (0.1) |
| Japanese Yen | \$606,381 | \$583,045 | \$23,336 | 0.2 |
| Total | \$10,886,371 | \$10,777,768 | \$108,603 | 0.9 |

*In Canadian dollars

The non-monetary currency exposure is \$10,556,133 and the monetary currency exposure is \$330,238.

As at June 30, 2018, if the Canadian dollar had strengthened or weakened by 5% in relation to all foreign currencies, with all other variables held constant, the Fund's net assets attributable to holders of redeemable units would have increased or decreased, respectively, by approximately \$5,430 or 0.04% based on the net currency exposure. In practice, the actual results may differ from this sensitivity analysis and the difference could be material.

Substantially all of the securities in the portfolio investments are denominated in foreign currencies and expected dividends and premiums from call options received are in foreign currencies, the Fund enters into a forward currency contract on substantially all of the value of the portfolio investments back to the Canadian dollar at all times.

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or fair value of financial instruments. Interest rate risk arises when the Fund invests in interest-bearing financial instruments. The Fund does not hold any bonds or money market instruments; therefore, the Fund has no significant exposure to interest rate risk.

Harvest Global Resource Leaders ETF

Liquidity risk

Liquidity risk is defined as the risk that a fund may not be able to settle or meet its obligations on time or at a reasonable price. The Fund is exposed to redemption of units as described in Note 4. Since the settlement of redemptions is primarily by delivery of securities, the Fund is not exposed to any significant liquidity risk. Therefore, in order to maintain sufficient liquidity, the Fund primarily invests in securities that are actively traded in public markets and can be readily disposed of to raise liquidity. In addition, the Fund retains sufficient cash and cash equivalent positions to maintain liquidity.

As at June 30, 2018, all of the Fund's financial liabilities have maturities of less than three months.

Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund.

All transactions executed by the Fund in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

The Fund also enters into foreign currency forward contracts which are exposed to credit risk. The maximum credit risk exposure is the unrealized gain (loss) on the forward contracts.

As at June 30, 2018, the Fund did not have significant credit risk exposure. All cash held by the fund is held with a reputable and regulated financial institution.

Fair value of financial instruments

The Fund classifies fair value measurements within a hierarchy which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Inputs for the asset or liability that are not based on observable market data.

The table below summarizes the fair value of the Fund's financial instruments using the following fair value hierarchy:

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

Securities classification:

| Investments at fair value as at June 30, 2018 | | | | |
|---|-------------------|---------------|--------------|-------------------|
| | Level 1 (\$) | Level 2 (\$) | Level 3 (\$) | Totals (\$) |
| Financial Assets | | | | |
| Equities | | | | |
| Common Stock | 11,078,553 | - | - | 11,078,553 |
| ADR | 960,676 | - | - | 960,676 |
| ETF | 460,858 | - | - | 460,858 |
| Derivatives | | | | |
| Foreign currency forward contract | - | 60,031 | - | 60,031 |
| Total Financial Assets | 12,500,087 | 60,031 | - | 12,560,118 |

Harvest Global Resource Leaders ETF

| Investments at fair value as at June 30, 2018 (continued) | | | | |
|---|----------------|-----------------|--------------|-----------------|
| | Level 1 (\$) | Level 2 (\$) | Level 3 (\$) | Totals (\$) |
| Financial Liabilities | | | | |
| Derivatives | | | | |
| Options | (9,096) | (40,469) | - | (49,565) |
| Foreign currency forward contract | - | (45,451) | - | (45,451) |
| Total Financial Liabilities | (9,096) | (85,920) | - | (95,016) |

There were no Level 3 securities held by the Fund as at June 30, 2018, and there were no significant transfers between Level 1 and Level 2 for the period ended June 30, 2018.

The value of the equities and written options is based on quoted prices. The value of the foreign currency forward contract is determined as the difference between the contract rate and the current forward rate at the measurement date applied to the contract's notional amount and adjusted for counterparty risk.

Concentration Risk

Concentration risk arises as a result of the concentration of exposures within the same category, whether it is geographical location, product type, industry, sector or counterparty type. The following is a summary of the Fund's concentration risk by geography and segment.

Geography:

| As at | June 30, 2018 | |
|--------------------------|-------------------|-----------------|
| Country of Issue | \$* | % of net assets |
| United States of America | 2,747,261 | 21.7 |
| Canada | 1,894,389 | 15.0 |
| Australia | 2,015,390 | 15.9 |
| Europe | 2,316,525 | 18.3 |
| Norway | 493,351 | 3.9 |
| United Kingdom | 1,472,484 | 11.6 |
| Sweden | 910,061 | 7.2 |
| Japan | 601,061 | 4.8 |
| Totals | 12,450,522 | 98.4 |

*Stated in Canadian dollars

Market Segment (percentage of net assets attributable to holders of redeemable units):

| | June 30, 2018 |
|-------------------|-----------------|
| | % of net assets |
| EQUITIES | |
| Materials | 95.2 |
| Materials - Funds | 3.6 |
| OPTIONS | |
| Materials | (0.4) |
| Total | 98.4 |

8. SOFT DOLLAR COMMISSIONS

Brokerage commissions paid to certain brokers may, in addition to paying for the cost of brokerage services in respect of security transactions, also provide for the cost of investment research services provided to the investment manager. The value of such research services included in commissions paid to brokers for the period ended June 30, 2018 amounted to \$nil.

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's prospectus or offering memorandum. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
