Harvest Healthcare Leaders Income ETF (formerly Healthcare Leaders Income ETF)

CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest”) is a Canadian Investment Manager founded in 2009. Harvest is focused on developing investment products that follow the investment philosophy of:

1. Clear investment objectives
2. Transparency
3. Consistent income and growth

Harvest endeavours to develop investment products that are clear in their mandate and easy for our investors to understand. We strive to be transparent, so that our investors can open their financial reports and know exactly what they own. Our funds are invested to provide investors with consistent monthly or quarterly income; therefore, we seek to invest our fund portfolios in well managed companies that have a history of steady cash flow and pay dividends.

INVESTMENT PRODUCT

The Harvest Healthcare Leaders Income ETF (formerly Healthcare Leaders Income ETF) (the “Fund”) invests in an equally-weighted portfolio of 20 Equity Securities that are included in the Health Care sector of the Global Industry Classification Standards or, if such industry classification system is no longer made available by MSCI Inc. and Standard & Poor’s, any other internationally recognized industry classification system at the time of investment and whose underlying business includes, but is not limited to, the provision of healthcare goods and services, including manufacturing and distributing healthcare products, equipment, supplies and technologies, producing and marketing of pharmaceuticals and biotechnology products, and/or engaging in research and development, each with a market capitalization of at least US\$5 billion.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The interim management report of fund performance contains financial highlights but does not contain the complete interim financial statements of the Fund. For your reference, the interim financial statements of the Fund are attached to the interim management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1-866-998-8298; by writing to us at Harvest Portfolios Group Inc., 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7; or by visiting our website at www.harvestportfolios.com; or on SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVES AND STRATEGY

The Fund has been created to provide investors with a unique exposure to a portfolio of Equity Securities that are included in the Health Care sector of the Global Industry Classification Standards (or, if such industry classification system is no longer made available by MSCI Inc. and Standard & Poor's (or, if applicable, any successor of either of these entities), any other internationally recognized industry classification system at the time of investment and whose underlying business includes, but is not limited to, the provision of healthcare goods and services, including manufacturing and distributing healthcare products, equipment, supplies and technologies, producing and marketing of pharmaceuticals and biotechnology products, and/or engaging in research and development, each with a market capitalization of at least US\$5 billion.

The Fund's investment objectives are to provide Unitholders with:

- (i) the opportunity for capital appreciation; and
- (ii) monthly cash distributions.

To achieve its investment objectives, the Fund will invest in an equally-weighted portfolio of Equity Securities of 20 Healthcare Issuers from the Healthcare Leaders Investable Universe that have a market capitalization of at least US\$5 billion at the time of investment and meet the investment characteristics described below. In order to seek to generate additional returns, the Fund's manager and investment manager, Harvest Portfolios Group Inc. ("Harvest") will sell call options on no more than 33% of the Equity Securities of each Healthcare Issuer held in the Fund.

Harvest will semi-annually reconstitute and rebalance the Portfolio such that, at the time of the initial investment and immediately following each semi-annual reconstitution and rebalancing, will have the following investment characteristics:

- Value –** An average Price-to-Earnings ratio lower than the average for the Healthcare Leaders Investable Universe; and
- Quality –** An average 5-year Return on Equity greater than the average for the Healthcare Leaders Investable Universe.

RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

RESULTS OF OPERATIONS

The Harvest Healthcare Leaders Income ETF (formerly Healthcare Leaders Income ETF) returned 1.75% for Series A and 2.12% for Series U compared to the MSCI World Health Care Index (net Total Return in USD) of 1.52% for the period ended June 30, 2018.

Following a robust recovery in the broader Healthcare sectors in 2017, volatility in the sector was exacerbated early in 2018 as several key drug trials missed expectations and political rhetoric increased ahead of the release of the Trump administration's blueprint to "Lower Drug Prices and Reduce Out-of-Pocket Costs" released in early May. Broader market noise surrounding potential US tariffs also was a source of volatility. However, towards the latter part of the period, commentary surrounding drug prices started to shift away from the drug manufacturers and was more focused on inefficiencies within the supply chain that might result in lower net prices for consumer. This coincided with a shift in the sentiment toward the group and resulted in

Harvest Healthcare Leaders Income ETF (formerly Healthcare Leaders Income ETF)

a rebound in the underlying shares of the drug manufacturers. The Fund has had limited exposure towards the drug supply chain focused companies during the period in favour of relatively overweight the drug manufacturers. This allocation had a positive impact on the Fund during the period.

Healthcare is considered a superior good and directly exposed to the structurally positive macro tailwind of the global aging population. However, despite the sector having a strong return over the past 12 months, the sector ended the period at price-to-earnings multiples significantly below the broader markets, an infrequent occurrence historically.

The Fund was invested in 20 Healthcare Leaders during the period and sold call options on the underlying holdings during the period to meet its investment and income objectives.

RECENT DEVELOPMENTS

On June 14, 2018, the Fund changed its name from Healthcare Leaders Income ETF to Harvest Healthcare Leaders Income ETF. No changes were made to the investment objective, strategies or management of the Fund.

RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

MANAGEMENT AND OTHER FEES

Harvest Portfolios Group Inc. is the Manager of the Fund and is responsible for managing the Fund's overall business and operations and provides key management personnel to the Fund. The Fund pays the Manager an annual management fee, plus applicable taxes, of 0.85% based on a percentage of the average daily net asset value ("NAV") of the Fund.

Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee ("IRC"), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

The Manager may, in some cases, absorb a portion of the Fund's operating expenses. The management expense ratios of the Fund with and without the absorptions are reported in the Ratios and Supplemental Data table.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries, benefits and consulting fees; independent directors of the Manager and other administrative expenses and costs incurred in connection with the Fund's continuous public offering and other obligations. These expenses were \$160,986 for the period ended June 30, 2018 (2017 - \$149,773) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss) in the financial statements.

RECOMMENDATIONS OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

The Independent Review Committee tabled no special reports and made no extraordinary material recommendations to management of the Fund during the period ended June 30, 2018.

Explanatory Notes:

- Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
- Series A net assets, at the commencement of operations on December 18, 2014 was \$9.39, net of agents' commissions and issuance costs of \$0.61 per unit. Series U commenced operations on February 6, 2017 with net assets of \$10.40 (\$8.00 USD).
- Distributions were paid in cash or reinvested in additional units of the Fund.
- Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of daily average net asset value during the period. The Series A MER for the period December 31, 2015 included agents' fee of \$2,551,893 and issue costs of \$655,355. The Series A MER for 2014 (the year of inception) included agents' fee of \$4,987,500 and issue cost of \$815,000. In both cases these costs are treated as one-time expenses and therefore were not annualized. The MER without these costs is 1.33% for 2015 and 2.72% for 2014.
- The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
- The USD amount of the net assets at the end of the period was \$8.03 USD.
