Harvest Tech Achievers Growth & Income ETF (formerly Tech Achievers Growth & Income ETF)

CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest”) is a Canadian Investment Manager founded in 2009. Harvest is focused on developing investment products that follow three investment criteria:

1. Clear investment objectives
2. Transparency
3. Consistent income and growth

Harvest endeavours to develop investment products that are clear in their mandate and easy for our investors to understand. We strive to be transparent, so that our investors can open their financial reports and know exactly what they own. Our funds are invested to provide investors with consistent monthly or quarterly income; therefore, we seek to invest our fund portfolios in well managed companies that have a history of steady cash flow and pay dividends.

INVESTMENT PRODUCT

The Harvest Tech Achievers Growth & Income ETF (formerly Tech Achievers Growth & Income ETF) (the “Fund”) investment objectives are to provide unitholders with the opportunity for capital appreciation, monthly cash distributions and lower overall volatility of Portfolio returns than would otherwise be experienced by owning Equity Securities of the Technology Achievers directly. As part of the investment strategy, the Fund will invest in an equally-weighted portfolio of Equity Securities of 20 Technology Issuers from the Technology Achievers Investable Universe that have a market capitalization of at least US\$10 billion at the time of investment and have options in respect of their Equity Securities listed on a recognized options exchange.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The interim management report of fund performance contains financial highlights but does not contain the complete interim financial statements of the Fund. For your reference, the interim financial statements of the Fund are attached to the interim management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1(866) 998-8298; by writing to us at Harvest Portfolios Group Inc., 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7; or by visiting our website at www.harvestportfolios.com; or on SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVES AND STRATEGY

The Fund has been created to invest in a portfolio (the "Portfolio") of 20 equally-weighted Equity Securities of Technology Issuers chosen from the Technology Achievers Investable Universe that at the time of investment and immediately following each quarterly reconstitution and rebalancing (i) have a market capitalization of at least US\$10 billion, and (ii) have options in respect of their Equity Securities listed on a recognized options exchange (the "Technology Achievers").

The Fund's investment objectives are to provide Unitholders with (i) the opportunity for capital appreciation; (ii) monthly cash distributions; and (iii) lower overall volatility of the Portfolio returns than would otherwise be experienced by owning Equity Securities of the Technology Achievers directly.

The Manager will select the Equity Securities for the Portfolio and will quarterly reconstitute and rebalance the Portfolio such that the Portfolio, at the time of the initial investment and immediately following each quarterly reconstitution and rebalancing, will have the following investment characteristics:

- Quality** – An average 3-year Return on Equity greater than the average for the Technology Achievers Investable Universe;
- Value** – An average current year Forward Price-to-Earnings Ratio that is less than the average for the Technology Achievers Investable Universe; and
- Growth** – An average PEG Ratio that is less than the average for the Technology Achievers Investable Universe.

RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

RESULTS OF OPERATIONS

The Harvest Tech Achievers Growth & Income ETF (formerly Tech Achievers Growth & Income ETF) returned 7.58% for Series A and 7.78% for Series U compared to the S&P 500 Information Technology Total Return Index return of 10.87% for the period ended June 30, 2018. One of the reasons for the modest divergence is the Fund's equal weight strategy versus the benchmark index being concentrated with over 40% representing the top 4 holdings in the Index in addition to foregoing some upside in return for income earned on the covered call strategy.

The technology sector has been strong year-to-date. The S&P 500 technology sector performance was in fact the best of any sector within the S&P 500 as technology continued to gain momentum in 2018. The structurally positive drivers for technology including the shift towards the cloud, internet of things and the changing methods in which consumers utilize technology to interact remain in place and are driving robust financial performance by large cap technology companies. This had a positive impact on the performance of the Fund during the period.

The Fund remained invested in 20 technology leaders and sold call options on underlying holdings held in the Portfolio during the period in order to meet its investment and income objectives.

RECENT DEVELOPMENTS

On June 14, 2018, the Fund changed its name from Tech Achievers Growth & Income ETF to Harvest Tech Achievers Growth & Income ETF. No changes were made to the investment objective, strategies or management of the Fund.

RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

MANAGEMENT AND OTHER FEES

Prior to conversion to an ETF, the Fund paid its manager, Harvest, a management fee calculated based on the average weekly net asset value (“NAV”) and paid monthly in arrears, based on an annual rate of 1.00%, plus applicable taxes, of the NAV of the Fund. Subsequent to the conversion to an ETF, the Fund paid its manager, Harvest, a management fee calculated based on the average daily net asset value (“NAV”) and paid monthly in arrears, based on an annual rate of 0.85%, plus applicable taxes, of the NAV of the Fund.

Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund’s Independent Review Committee (“IRC”), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

The Manager may, in some cases, absorb a portion of the Fund’s operating expenses. The management expense ratios of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries, benefits and consulting fees; independent directors of the Manager and other administrative expenses and costs incurred in connection with the Fund’s continuous public offering and other obligations. These expenses are allocated by the Manager on a reasonable basis, across all of the Harvest Portfolios Group Inc. funds, and series of each applicable fund. These expenses were \$30,322 for the period ended June 30, 2018 (2017 - \$41,900) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss) in the financial statements.

RECOMMENDATIONS OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

The Independent Review Committee tabled no special reports and made no extraordinary material recommendations to management of the Fund during the period ended June 30, 2018.

Explanatory Notes:

- Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
- Net assets, at the commencement of operations on May 26, 2015 was \$9.31, net of agents' commissions and issuance costs of \$0.69 per unit. Series U commenced operation on June 21, 2017 with a net asset value of \$11.88 (\$9.00 USD).
- Distributions were paid in cash or reinvested in additional units of the Fund.
- Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of daily average net asset value during the period. The MER for the period from May 26, 2015 to December 31, 2015 includes agents' fees of \$2,887,500 and issue costs of \$825,000. These costs are treated as one-time expenses and therefore were not annualized. The MER without these costs is 1.96%.
- The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
- The USD amount of the net assets at the end of the period was \$10.14 USD.
