Harvest Brand Leaders Plus Income ETF

(formerly Brand Leaders Plus Income ETF)

CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest”) is a Canadian Investment Manager founded in 2009. Harvest is focused on developing investment products that follow three investment criteria:

1. Clear investment objectives
2. Transparency
3. Consistent income and growth

Harvest endeavours to develop investment products that are clear in their mandate and easy for our investors to understand. We strive to be transparent, so that our investors can open their financial reports and know exactly what they own. Our funds are invested to provide investors with consistent monthly or quarterly income; therefore, we seek to invest our fund portfolios in well managed companies that have a history of steady cash flow and pay dividends.

INVESTMENT PRODUCT

Harvest Brand Leaders Plus Income ETF (formerly Brand Leaders Plus Income ETF) (the “Fund”) invests in an equally-weighted underlying portfolio of twenty of the world’s top one hundred rated brand companies, each with a market capitalization of at least US\$10 billion. As the US and global economy generally expands, Harvest believes that a diversified portfolio invested in blue chip companies will provide investors with an attractive yield and strong capital appreciation potential.

PRESIDENT'S MESSAGE

Harvest Brand Leaders Plus Income ETF

Unitholder letter March 2019

Dear Valued Unitholder,

Like 2017, 2018 proved to be a year of unexpected surprises, though this time with considerably more volatility and global markets ending the year in negative territory.

Should we really be that surprised? As we break into the tenth year since the financial crisis when the market put in a bottom in March 2009, we can point to three additional periods of market disruption: 1) in 2011, 2) late 2015 to early 2016, and 3) most of 2018. I have heard people referring to the current situation as a trader's market while investors have been sidelined. Though the volatility is tough to endure, remaining focused on long term growth by staying invested in great businesses will prove itself now as it has in the past.

A stockholder or unitholder never thinks of himself/herself as a business owner, though in the case of equity investing, that's what you are. You own a piece of many businesses through your ETF or Fund holdings, and if you like what you own and feel comfortable with the underlying companies its best to ignore noise and stay with the program. In short periods of time, interest rates, inflation, analyst reports and media articles can move a company's share price around, but over longer time horizons the trendline economics of the underlying business will override short term price fluctuations with the true direction of the stock price.

One thing we do know is that our investment philosophy at Harvest doesn't change, markets will change, and we accept that, we will fine tune portfolios when the dynamics for a company change, but we maintain our long-term thesis. Option writing, in our Leaders ETFs, allows us to reduce some of the shorter-term risk of a portfolio and monetize that portion of return for income generation. Most of the portfolio will remain long due to our positive bias towards the businesses we hold.

Early in 2018 Harvest launched its first specialty index ETF, the Blockchain Technologies ETF, as a long-term proxy on the transformational Blockchain technology. We truly believe this technology will change the way businesses and consumers transact, track and verify goods and services in a secure and non-corruptible manner. The sell off in crypto currencies early in the year washed through the burgeoning Blockchain technology sector due to its close association to cryptos as Blockchain provides the framework for the crypto currencies to transact upon. As tough as the inaugural year was, we hold steadfast in our belief that it is still early days for Blockchain technology, and it will continue to emerge as the go to transactional technology of the future.

As we look towards 2019, we expect to see some of the macro trade issues resolved and a relatively flat trend for interest rates, it wouldn't surprise us to see markets end the year on a positive note, but to predict how much or how we will get there is like trying to predict the weather. Plan your picnic, just keep an umbrella in the car.

On behalf of Harvest, I would like to thank you for your trust and investment in our products.

Sincerely,

Signed "Michael Kovacs"

Michael Kovacs
President and Chief Executive Officer

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the Fund. For your reference, the annual financial statements of the Fund are attached to the annual management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1(866) 998-8298; by writing to us at Harvest Portfolios Group Inc., 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7; or by visiting our website at www.harvestportfolios.com; or on SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVES AND STRATEGY

The Fund's investment objectives are to provide Unitholders with:

- (i) monthly cash distributions;
- (ii) the opportunity for capital appreciation; and
- (iii) lower overall volatility of Portfolio returns than would otherwise be experienced by owning Equity Securities of the Brand Leaders directly.

To achieve its investment objectives, the Fund will invest in an equally-weighted portfolio of Equity Securities of 20 Brand Leaders from the Brand Leaders Investable Universe that have a market capitalization of at least US\$10 billion at the time of investment and meet the investment characteristics described below. In order to seek to generate additional returns, the Fund's manager and investment manager, Harvest Portfolios Group Inc. ("Harvest") may sell call options on no more than 33% of the Equity Securities of each Brand Leader held in the Fund.

Harvest will quarterly reconstitute and rebalance the Portfolio such that, at the time of the initial investment and immediately following each quarterly reconstitution and rebalancing, the Portfolio will have the following investment characteristics:

- Value** – An average Price-to-Earnings ratio lower than the average for the Brand Leaders Investable Universe;
- Yield** – An average Yield greater than the average for the Brand Leaders Investable Universe; and
- Quality** – An average 5-year Return on Equity growth greater than the average for the Brand Leaders Investable Universe.

RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

RESULTS OF OPERATIONS

The Harvest Brand Leaders Plus Income ETF (formerly the Brand Leaders Plus Income ETF) returned -4.41% for Series A and -3.47% for Series U compared to the S&P 100 Index Total Return in USD of -4.47% for the year ended December 31, 2018.

The US equity market started strong in 2018 following a positive performance in 2017. The performance of the market continued to be strong through the 3rd quarter driven by the strong performance of the US economy and tax reforms that generally helped support continued strong earnings reports. As the latter part of 2018 emerged however, the broader market volatility increased significantly driven by macro concerns surrounding US / China trade relations and the extent and pace at which global economic growth was slowing. Other broad based geo-political issues that exacerbated the volatility included the US mid-term elections, the partial US government shutdown and uncertain risks and implications surrounding the noisy exit of the United Kingdom from the Eurozone. This added to the downside pressure in the market as investors feared that earnings growth may have peaked and resulted in the performance over the period being negative. Despite the macro uncertainty, heightened volatility, a maturing business cycle and ever-present political noise, the US corporate balance sheets remained in solid shape while quarterly profits remained robust.

The Fund performed in line with expectations during the period given the underlying holdings and structure of the Portfolio. The nature of the companies within the broader Universe are amongst the leading global brands. Companies with solid global brands can benefit from strong customer loyalty, have reduced competitive threats and many have proven resiliency across many economic cycles.

Harvest Brand Leaders Plus Income ETF

(formerly Brand Leaders Plus Income ETF)

The Fund was invested into a diversified portfolio of 20 Brand Leaders and wrote call options in accordance with its investment objectives and strategies.

RECENT DEVELOPMENTS

On June 14, 2018, the Fund changed its name from Brand Leaders Plus Income ETF to Harvest Brand Leaders Plus Income ETF. No changes were made to the investment objective, strategies or management of the Fund.

RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

MANAGEMENT AND OTHER FEES

Harvest Portfolios Group Inc. is the Manager of the Fund and is responsible for managing the Fund's overall business and operations and provides key management personnel to the Fund. The Fund pays the Manager an annual management fee of 0.75%, plus applicable taxes, based on a percentage of the average daily net asset value ("NAV") of the Fund.

At its sole discretion, the Manager may waive management fees or absorb expenses of the Fund. The amount of absorption for the year ended December 31, 2018 was \$nil (2017 - \$51,804). The management expense ratios of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table below.

Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee ("IRC"), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries, benefits and consulting fees; independent directors of the Manager and other administrative expenses and costs incurred in connection with the Fund's continuous public offering and other obligations. These expenses were \$118,657 for the year ended December 31, 2018 (2017 - \$70,575) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss).

RECOMMENDATIONS OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

The Independent Review Committee tabled no special reports and made no extraordinary material recommendations to management of the Fund during the year ended December 31, 2018.

Explanatory Notes:

1. Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
2. Net assets, at the commencement of operations on July 24, 2014 was \$9.33, net of agents' commissions and issuance costs of \$0.67 per unit for Series A and was \$10.02 (\$9.33 USD), net of agents' commissions and issuance costs of \$0.73 (\$0.67 USD) per unit for Series U.
3. Distributions were paid in cash or reinvested in additional units of the Fund.
4. Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of daily average net asset value during the period. The MER for 2014 the year of inception, included agents' fees of \$2,458,549 and issue costs of \$702,443 for Series A and agents' fees of \$187,340 and issue costs of \$53,526 for Series U, which were treated as one-time expenses and therefore were not annualized. The MER without these costs is 1.85% for both Series A and Series U.
5. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
6. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
7. The USD amount of the net assets at the end of the year was \$8.75 USD.

Past Performance

The performance information presented herein assumes all dividends of the Fund during the periods presented were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemptions, or other charges that would have reduced returns or affected performance. Past performance of the Fund is not necessarily indicative of how it will perform in the future.

YEAR-BY-YEAR RETURNS

The following charts present the Fund's performance for each of the years shown and illustrate how the Fund's performance varied for Series A and Series U. The charts show, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

ANNUAL COMPOUND RETURNS

The following table shows the annual compound returns for the Fund. All returns are in Canadian dollars unless otherwise indicated, on a total return basis, net of fees.

For comparison purposes the S&P 100 Index, in US dollars (the "Index") is used. While the Fund uses this benchmark for long-term performance comparisons, it is not managed relative to the composition of the Index. As a result, the Fund may experience periods when its performance is not aligned with the Index, either positively or negatively. The return of the Index is calculated without the deduction of management fees and fund expenses whereas the performance of the Fund is calculated after deducting such fees and expenses. Please see the "Results of Operations" section of this report for a discussion on recent performance.

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's prospectus or offering memorandum. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
