## CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest”) is a Canadian Investment Manager founded in 2009. Harvest is focused on developing investment products that follow three investment criteria:

1. Clear investment objectives
2. Transparency
3. Consistent income and growth

Harvest endeavours to develop investment products that are clear in their mandate and easy for our investors to understand. We strive to be transparent, so that our investors can open their annual report and know exactly what they own. Our funds are invested to provide investors with consistent monthly or quarterly income; therefore, we seek to invest our fund portfolios in well managed companies that have a history of steady cash flow and pay dividends.

## INVESTMENT PRODUCT

The Harvest Canadian Income & Growth Fund (the “Fund”) invests to provide investors with income and the potential for capital appreciation by investing primarily in dividend paying securities of publicly-traded utilities, industrials, communications, real estate and retail issuers domiciled in Canada.

## PRESIDENT'S MESSAGE

Harvest Canadian Income & Growth Fund

Unitholder letter March 2019

Dear Valued Unitholder,

Like 2017, 2018 proved to be a year of unexpected surprises, though this time with considerably more volatility and global markets ending the year in negative territory.

Should we really be that surprised? As we break into the tenth year since the financial crisis when the market put in a bottom in March 2009, we can point to three additional periods of market disruption: 1) in 2011, 2) late 2015 to early 2016, and 3) most of 2018. I have heard people referring to the current situation as a trader's market while investors have been sidelined. Though the volatility is tough to endure, remaining focused on long term growth by staying invested in great businesses will prove itself now as it has in the past.

A stockholder or unitholder never thinks of himself/herself as a business owner, though in the case of equity investing, that's what you are. You own a piece of many businesses through your ETF or Fund holdings, and if you like what you own and feel comfortable with the underlying companies its best to ignore noise and stay with the program. In short periods of time, interest rates, inflation, analyst reports and media articles can move a company's share price around, but over longer time horizons the trendline economics of the underlying business will override short term price fluctuations with the true direction of the stock price.

One thing we do know is that our investment philosophy at Harvest doesn't change, markets will change, and we accept that, we will fine tune portfolios when the dynamics for a company change, but we maintain our long-term thesis. Option writing, in our Leaders ETFs, allows us to reduce some of the shorter-term risk of a portfolio and monetize that portion of return for income generation. Most of the portfolio will remain long due to our positive bias towards the businesses we hold.

Early in 2018 Harvest launched its first specialty index ETF, the Blockchain Technologies ETF, as a long-term proxy on the transformational Blockchain technology. We truly believe this technology will change the way businesses and consumers transact, track and verify goods and services in a secure and non-corruptible manner. The sell off in crypto currencies early in the year washed through the burgeoning Blockchain technology sector due to its close association to cryptos as Blockchain provides the framework for the crypto currencies to transact upon. As tough as the inaugural year was, we hold steadfast in our belief that it is still early days for Blockchain technology, and it will continue to emerge as the go to transactional technology of the future.

As we look towards 2019, we expect to see some of the macro trade issues resolved and a relatively flat trend for interest rates, it wouldn't surprise us to see markets end the year on a positive note, but to predict how much or how we will get there is like trying to predict the weather. Plan your picnic, just keep an umbrella in the car.

On behalf of Harvest, I would like to thank you for your trust and investment in our products.

Sincerely,

*Signed* "Michael Kovacs"

Michael Kovacs  
President and Chief Executive Officer

## MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the Fund. For your reference, the annual financial statements of the Fund are attached to the annual management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1(866) 998-8298; by writing to us at Harvest Portfolios Group Inc., 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7; or by visiting our website at [www.harvestportfolios.com](http://www.harvestportfolios.com); or on SEDAR at [www.sedar.com](http://www.sedar.com).

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

## INVESTMENT OBJECTIVES AND STRATEGY

The Fund's investment objectives are to:

- (i) provide unitholders with monthly distributions; and
- (ii) maximize long-term total return for unitholders while reducing volatility.

The Fund was created to provide investors with income and the potential for capital appreciation.

To achieve the Fund's objectives, the Fund invests in an actively managed portfolio comprised primarily of dividend-paying equity and debt securities of publicly-traded utilities, industrial, communications, real estate and retail issuers domiciled in Canada. The investment manager focuses on the less cyclical segments of the Canadian equities market with the goal of reducing volatility by diversifying away from the main sectors (financials, energy and materials) that make up the majority of the market capitalization on the Toronto Stock Exchange (the "TSX").

The Fund invests primarily in companies that have: (i) proven long-term histories of earnings; (ii) established and experienced management; and (iii) business models that are not primarily dependent on commodity prices.

The investment manager focuses on free cash flow and free cash flow yield, earnings potential, and the investment's intrinsic value in order to assess dividend sustainability and growth in distributions, with a view to delivering:

1. Attractive income generation;
2. Opportunity for capital gains; and
3. Lower volatility relative to the overall S&P/TSX Composite Index.

## RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

## RESULTS OF OPERATIONS

The S&P TSX bounced back from early year lows helped in large part by rising energy prices and performed well relative to other developed world indices. The Fund's return for the year ended December 31, 2018 was -7.04% for Series R, -7.28% for Series A, -5.98% for Series F and -6.25% for Series D compared to the S&P/TSX Composite Total Return Index return of -8.89%.

In general, positioning away from the big-3 sub-sectors in Canada: Financials, Energy and Materials was a key driver for the relative divergence compared to the broad S&P TSX Index. Financials underperformed which was positive for the Fund, as did the more cyclical exploration and production companies within the Energy sector, which was also a positive for the Fund given the underweighting as set out in the Fund strategy. Security selection within the sub-sectors also had a positive impact on the Fund's performance with select new positions performing very strongly during the period. One new position was also taken over at a substantial premium to the price it was purchased at in the Fund. There were also several new positions added later in the period amongst the broader market volatility.

The Fund remains well diversified and primarily invested in a portfolio of Canadian equity securities in the utilities, industrials, communications, real estate and retail sub-sectors, augmented with select U.S. equities.

## RECENT DEVELOPMENTS

No new recent developments to note for the year ended December 31, 2018.

## Harvest Canadian Income & Growth Fund

### RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in "Management and Other Fees".

### MANAGEMENT AND OTHER FEES

Harvest Portfolios Group Inc. is the Manager of the Fund and is responsible for managing the Fund's overall business and operations and provides key management personnel to the Fund. Each series of units pays the Manager an annual management fee, plus applicable taxes, based on a percentage of the average daily net asset value ("NAV") of the Fund attributable to that applicable series (the "Management Fee").

Dealers may be paid a servicing fee in connection with Series A, Series R and Series D units for ongoing services they provide to investors, including investment advice, account statements and newsletters. Generally, the servicing fees, plus applicable taxes, are payable monthly in arrears based on the total client assets invested in each series of units of the Fund held by all of a Dealer's clients throughout the month. The Manager can change or cancel servicing fees at any time.

The fees differ among the series of units of the Fund as set out in the chart below:

Fund Series	Annual Management Fee	Dealer Service Fee	Total Fees
R	1.25%	1.00%	2.25%
A	1.25%	1.25%	2.50%
F	1.25%	0.00%	1.25%
D	1.25%	0.25%	1.50%

### Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee ("IRC"), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

The Manager may, in some cases, absorb a portion of the Fund's operating expenses. There were no absorptions for the year ended December 31, 2018 and 2017. The Manager may cease doing so at any time without notice to unitholders.

### Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries, benefits and consulting fees; independent directors of the Manager and other administrative expenses and costs incurred in connection with the Fund's continuous public offering and other obligations. These expenses are allocated by the Manager on a reasonable basis, across all of the Harvest Portfolios Group Inc. funds, and series of each applicable fund. These expenses were \$41,998 for the year ended December 31, 2018 (2017 - \$43,729) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss).

### RECOMMENDATION OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

The Independent Review Committee tabled no special reports and made no extraordinary material recommendations to management of the Fund during the year ended December 31, 2018.

### Explanatory Notes:

1. Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.

## Harvest Canadian Income & Growth Fund

2. Series D commenced operations on July 9, 2014.
3. Distributions were paid in cash until Conversion Day, June 20, 2012, after which, an automatic reinvestment or cash option was made available.
4. Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of daily average net asset value during the period.
5. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
6. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

### Past Performance

The performance information presented herein assumes all dividends of the Fund during the periods presented were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemptions, or other charges that would have reduced returns or affected performance. Past performance of the Fund is not necessarily indicative of how it will perform in the future.

### YEAR-BY-YEAR RETURNS

The following charts present the performance for each of the periods shown and illustrate how the performance varied for Series R, Series A, Series F and Series D. The charts show, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

### ANNUAL COMPOUND RETURNS

The following table shows the annual compound returns for the Fund. All returns are in Canadian dollars, on a total return basis, net of fees.

For comparison purposes, a benchmark of the S&P/TSX Composite Index (the "Index") is used. The Index is a capitalization-weighted index that measures market activity of a universe of stocks traded on the Toronto Stock Exchange.

While the Fund uses this benchmark for long-term performance comparisons, it is not managed relative to the composition of the Index. As a result, the Fund may experience periods when its performance is not aligned with the Index, either positively or negatively. The return of the Index is calculated without the deduction of management fees and fund expenses whereas the performance of the Fund is calculated after deducting such fees and expenses. Please see the "Results of Operations" section of this report for a discussion on recent performance.

\*In connection with the conversion of the Fund into an open-end mutual fund, the trailing commission charged on the Series R units increased by 0.60% (increasing the aggregate annual management fee to 2.25%) and the Fund ceased using leverage in order to achieve its investment objectives. If these changes had been in effect when the Fund was created, the performance would have been lower.

#### **CAUTION REGARDING FORWARD-LOOKING STATEMENTS**

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's prospectus or offering memorandum. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
