Harvest US Bank Leaders Income ETF

CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest”) is a Canadian Investment Manager founded in 2009. Harvest is focused on developing investment products that follow the investment philosophy of:

1. Clear investment objectives
2. Transparency
3. Consistent income and growth

Harvest endeavours to develop investment products that are clear in their mandate and easy for our investors to understand. We strive to be transparent, so that our investors can open their financial reports and know exactly what they own. Our funds are invested to provide investors with consistent monthly or quarterly income; therefore, we seek to invest our fund portfolios in well managed companies that have a history of steady cash flow and pay dividends.

INVESTMENT PRODUCT

The Harvest US Bank Leaders Income ETF (the “Fund”) invests in an equally weighted portfolio of Equity Securities of not less than 15 US Bank Leaders and not more than 20 US Bank Leaders, chosen from the US Bank Leaders Investable Universe that, immediately following each quarterly reconstitution, (i) have a market capitalization that is at least US\$10 billion as determined at the time of investment; (ii) are listed on a US stock exchange; and (iii) pay a dividend.

PRESIDENT'S MESSAGE

Harvest US Bank Leaders Income ETF

Unitholder letter March 2019

Dear Valued Investor,

Like 2017, 2018 proved to be a year of unexpected surprises, though this time with considerably more volatility and global markets ending the year in negative territory.

Should we really be that surprised? As we break into the tenth year since the financial crisis when the market put in a bottom in March 2009, we can point to three additional periods of market disruption: 1) in 2011, 2) late 2015 to early 2016, and 3) most of 2018. I have heard people referring to the current situation as a trader's market while investors have been sidelined. Though the volatility is tough to endure, remaining focused on long term growth by staying invested in great businesses will prove itself now as it has in the past.

A stockholder or unitholder never thinks of himself/herself as a business owner, though in the case of equity investing, that's what you are. You own a piece of many businesses through your ETF or Fund holdings, and if you like what you own and feel comfortable with the underlying companies its best to ignore noise and stay with the program. In short periods of time, interest rates, inflation, analyst reports and media articles can move a company's share price around, but over longer time horizons the trendline economics of the underlying business will override short term price fluctuations with the true direction of the stock price.

One thing we do know is that our investment philosophy at Harvest doesn't change, markets will change, and we accept that, we will fine tune portfolios when the dynamics for a company change, but we maintain our long-term thesis. Option writing, in our Leaders ETFs, allows us to reduce some of the shorter-term risk of a portfolio and monetize that portion of return for income generation. Most of the portfolio will remain long due to our positive bias towards the businesses we hold.

Early in 2018 Harvest launched its first specialty index ETF, the Blockchain Technologies ETF, as a long-term proxy on the transformational Blockchain technology. We truly believe this technology will change the way businesses and consumers transact, track and verify goods and services in a secure and non-corruptible manner. The sell off in crypto currencies early in the year washed through the burgeoning Blockchain technology sector due to its close association to cryptos as Blockchain provides the framework for the crypto currencies to transact upon. As tough as the inaugural year was, we hold steadfast in our belief that it is still early days for Blockchain technology, and it will continue to emerge as the go to transactional technology of the future.

As we look towards 2019, we expect to see some of the macro trade issues resolved and a relatively flat trend for interest rates, it wouldn't surprise us to see markets end the year on a positive note, but to predict how much or how we will get there is like trying to predict the weather. Plan your picnic, just keep an umbrella in the car.

On behalf of Harvest, I would like to thank you for your trust and investment in our products.

Sincerely,

Signed "Michael Kovacs"

Michael Kovacs
President and Chief Executive Officer

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the Fund. For your reference, the annual financial statements of the Fund are attached to the annual management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1-866-998-8298; by writing to us at Harvest Portfolios Group Inc., 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7; or by visiting our website at www.harvestportfolios.com; or on SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVES AND STRATEGY

The Fund has been created to provide investors with a unique exposure to a portfolio of Equity Securities that are primarily included in the Banks sector of the Global Industry Classification Standards and (i) have a market capitalization that is at least US\$10 billion as determined at the time of investment; (ii) are listed on a US stock exchange; and (iii) pay a dividend.

The Fund's investment objectives are to provide Unitholders with:

- (i) monthly cash distributions; and
- (ii) the opportunity for capital appreciation.

To achieve its investment objectives, the Fund will invest in an equally-weighted portfolio of Equity Securities of not less than 15 US Bank Leaders and not more than 20 US Bank Leaders, chosen from the US Bank Leaders Investable Universe. In order to seek to generate additional returns, the Fund's manager and investment manager, Harvest Portfolios Group Inc. ("Harvest") will sell call options on no more than 33% of the Equity Securities of each US Bank Leader held in the Fund. At the time of the initial investment and immediately following each quarter reconstitution, the Manager will review and give consideration to select investment characteristics that may include:

- Value** – Price-to-Earnings Ratio, Price-to-Book Value Ratio, Price-to-Cash Flow Ratio and Yield;
- Quality** – Return-on-Equity, Debt-to-Equity, Debt-to-Cash Flow Ratio and debt maturity profile; and
- Growth** – Long term earnings and dividend per share growth.

RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

RESULTS OF OPERATIONS

The Harvest US Bank Leaders Income ETF began trading following the listing of its units on February 5, 2018 consisting of 100,000 units of Class A Shares at \$20.00 per unit for gross proceeds of \$2,000,000 and 100,000 units of Class U Shares at US\$20.00 per unit for gross proceeds of US\$2,000,000. Performance information is not available for periods less than one year.

Short term interest rates rose relative to long term interest rates during the period. This is often referred to as a flattening of the yield curve and caused volatility in banking related issuers as it can impact operating and lending profit margins. Concerns over a slowing economy resulting in a slowing of new home & business loans issued by the banks was also a key driver for the relatively weak performance of the sector during the period. This was heightened by the general uncertainty surrounding trade negotiations between the two largest economies in the world and later in the period, the partial shut-down in the United States government. The US Bank sub-sector was under pressure due to these events and resulted in valuation multiples compressing at times to levels well below those seen on average over the past five years.

The Fund was invested into a diversified portfolio of 15 issuers consisting primarily of large capitalization US Banks & related financial institutions and wrote call options in accordance with its investment objectives.

RECENT DEVELOPMENTS

The Fund was established on January 26, 2018 and commenced operations on January 31, 2018 and trades under the symbol HUBL and HUBL.U.

RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

MANAGEMENT AND OTHER FEES

Harvest Portfolios Group Inc. is the Manager of the Fund and is responsible for managing the Fund's overall business and operations and provides key management personnel to the Fund. The Fund pays the Manager an annual management fee of 0.75%, plus applicable taxes, based on a percentage of the average daily net asset value ("NAV") of the Fund.

Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee ("IRC"), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

The Manager may, in some cases, absorb a portion of the Fund's operating expenses. For the period ended December 31, 2018 the Manager absorbed \$82,164 of expenses of the Fund. The Manager may cease doing so at any time without notice to unitholders. The management expense ratios of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries, benefits and consulting fees; independent directors of the Manager and other administrative expenses and costs incurred in connection with the Fund's continuous public offering and other obligations. These expenses were \$4,544 for the period ended December 31, 2018 and are included in the unitholder reporting costs on the Statement of Comprehensive Income (Loss) in the financial statements.

RECOMMENDATIONS OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

The Independent Review Committee tabled no special reports and made no extraordinary material recommendations to management of the Fund during the period ended December 31, 2018.

Explanatory Notes:

1. Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
2. Net assets, at the commencement of operations on January 31, 2018 was \$20.00 for Class A and \$20.00 USD for Class U.
3. Distributions were paid in cash.
4. Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of daily average net asset value during the period.
5. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
6. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
7. The USD amount of the net assets at the end of the period was \$14.31 USD.
