## CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest” or the “Manager”) is a Canadian Investment Manager founded in 2009. Harvest is focused on developing investment products that follow three investment criteria:

1. Clear investment objectives
2. Transparency
3. Consistent income and growth

Harvest endeavours to develop investment products that are clear in their mandate and easy for our investors to understand. We strive to be transparent, so that our investors can open their financial reports and know exactly what they own. Our funds are invested to provide investors with consistent monthly or quarterly income; therefore, we seek to invest our fund portfolios in well managed companies that have a history of steady cash flow and pay dividends.

## INVESTMENT PRODUCT

The Australian REIT Income Fund (“the Fund”) invests in a portfolio comprised primarily of Equity Securities<sup>1</sup> listed on the ASX<sup>1</sup> issued by Real Estate Issuers<sup>1</sup>. The Fund will be actively managed to take advantage of opportunities within the Australian real estate sector with a focus on Real Estate Issuers that provide attractive current cash yield and/or capital appreciation opportunities.

## MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The interim management report of fund performance contains financial highlights but does not contain the complete interim financial statements of the Fund. For your reference, the interim financial statements of the Fund are attached to the interim management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1(866) 998-8298; by writing to us at Harvest Portfolios Group Inc., 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7; or by visiting our website at [www.harvestportfolios.com](http://www.harvestportfolios.com); or on SEDAR at [www.sedar.com](http://www.sedar.com).

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

## INVESTMENT OBJECTIVES AND STRATEGY

The Fund's investment objectives are to provide unitholders with:

- (i) stable monthly cash distributions; and
- (ii) the opportunity for capital appreciation

To seek to achieve its investment objectives, the Fund invests in an actively managed portfolio comprised primarily of Equity Securities listed on the ASX issued by Australian real estate investment trusts and to a lesser extent, issuers principally engaged in the real estate industry in Australia.

The Fund invests in Real Estate Issuers in various sectors, including industrial, residential, office, retail and other real estate sectors and from time to time may invest in debt securities.

Harvest believes that Australian REITs<sup>1</sup> offer attractive income and an opportunity for capital gains.

## RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

## RESULTS OF OPERATIONS

The Fund returned 23.42% for Series A and 23.43% for the Series F for the period ended June 30, 2019 versus the S&P ASX 200 Accumulation A-REIT Index return of 14.21% for the period. The primary divergence in performance is a result of the index being highly concentrated with significant weightings to select holdings that are beyond the maximum thresholds allowed by the Fund's investment restrictions.

While the Australian Federal election in May was expected to be a clearing event for many, the Australian economic data continued to be relatively soft during the period with the heightened trade tensions between China & the United States having a direct impact on the economic outlook for Australia, as Australia's largest trading partner is China. This resulted in the RBA cutting the cash rate from 1.5% to 1.25% in June, the first rate cut since 2016. Subsequent to the period end, in early July, with continued uncertainty surrounding the follow through impact to Australian economic data from the trade tensions, the RBA cut the rate again to 1% from 1.25%. Generally, cuts to interest rates can have a positive impact on the traditionally more yield sensitive sectors such as Real Estate. REITs performed well during the period in Australia with the Fund being well positioned in the sector.

The Fund remained invested in an actively managed portfolio of listed Australian Real Estate Issuers during the period to meet its objectives of (i) stable monthly distributions; and (ii) the opportunity for capital appreciation.

## RECENT DEVELOPMENTS

There were no recent developments during the reporting period.

## RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

## MANAGEMENT AND OTHER FEES

The Fund pays the Manager a management fee, plus applicable taxes, calculated based on the average daily net asset value (“NAV”) and paid monthly in arrears, based on an annual rate of 1.30% of the NAV of the Fund. The Fund pays service fees to registered dealers on Series A units at a rate of 0.40% of the average daily NAV, plus applicable taxes, per annum of the Fund. No service fee is charged to Series F units. Service fees are accrued daily and paid monthly to the Manager, who in turn pays the dealers quarterly.

### Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund’s Independent Review Committee (“IRC”), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

### Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries and benefits; and other administrative expenses and costs incurred in connection with the Fund’s continuous public offering and other obligations. These expenses are allocated by the Manager on a reasonable basis, across all of the Harvest Portfolios Group Inc. funds, and series of each applicable fund. These expenses were \$6,252 for period ended June 30, 2019 (2018 - \$10,244) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss).

### Waivers and absorptions

At its sole discretion, the Manager may waive management fees or absorb expenses of the Fund. There were no management fee waivers or expense absorptions for the period ended June 30, 2019 or 2018. The management expense ratios of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table below.

## LOAN FACILITY

The Fund established a revolving term loan facility with a Canadian chartered bank for the purpose of acquiring assets for the portfolio and such other short-term funding purposes as may be determined from time to time and in accordance with the investment strategy. The loan facility is drawn down by way of a Banker’s Acceptance (BA’s) with a shorter-term maturity and renewed on an ongoing basis. The loan outstanding at June 30, 2019 is interest bearing at a rate of 1.95625% per annum plus a stamping fee of 0.9% per annum for \$4,300,000, (December 31, 2018 – 2.23625% plus 0.9% for \$4,300,000), secured against the assets of the Fund and the amount of the loan cannot exceed 62.471% of the net asset value of the Fund. The outstanding balance on the loan facility was \$4,300,000 at June 30, 2019 (December 31, 2018 - \$4,300,000). The amount of borrowings remained at \$4,300,000 during the period (2018 – ranged between \$5,300,000 and \$6,500,000).

The initial interest paid on the drawdown and renewal of the Banker’s Acceptance is deferred and amortized over the term of the BA’s, which mature on July 29, 2019 for the loan. The loan amount was renewed on July 29, 2019. The unamortized portion of the deferred interest was \$10,074 at June 30, 2019 (December 31, 2018 - \$8,493) and is netted against the loan facility balance on the Statements of Financial Position. For the period ended June 30, 2019, the Fund recorded interest expense of \$63,926(2018 - \$82,510).

## RECOMMENDATIONS OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

The Independent Review Committee tabled no special reports and made no extraordinary material recommendations to management of the Fund during the period ended June 30, 2019.

### Explanatory Notes:

1. Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
2. Distributions were paid in cash or reinvested in additional units of the Fund.
3. Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of the daily average net asset value during the period. The MER for 2014, included agents' fee of \$119,247 and issue costs of \$101,651 for Series A, which were treated as one-time expenses and therefore were not annualized. The MER without these costs is 3.95% for Series A.
4. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
5. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

#### **CAUTION REGARDING FORWARD-LOOKING STATEMENTS**

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's prospectus or offering memorandum. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
