Harvest Energy Leaders Plus Income ETF

CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest” or the “Manager”) is a Canadian Investment Manager founded in 2009. Harvest is focused on developing investment products that follow three investment criteria:

1. Clear investment objectives
2. Transparency
3. Consistent income and growth

Harvest endeavours to develop investment products that are clear in their mandate and easy for our investors to understand. We strive to be transparent, so that our investors can open their financial reports and know exactly what they own. Our funds are invested to provide investors with consistent monthly or quarterly income; therefore, we seek to invest our fund portfolios in well managed companies that have a history of steady cash flow and pay dividends.

INVESTMENT PRODUCT

The Harvest Energy Leaders Plus Income ETF (the “Fund”) invests in an equally-weighted underlying portfolio of 20 Energy Issuers¹ chosen from the Energy Leaders Investable Universe¹ that at the time of investment and immediately following each quarterly reconstitution and rebalancing (i) have a market capitalization of at least \$10 billion; (ii) are paying a dividend/distribution; (iii) have options in respect of their Equity Securities¹ listed on a recognized options exchange; and (iv) have operations and/or offices in at least two countries.

¹ As defined in the Fund’s prospectus dated June 14, 2019.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The interim management report of fund performance contains financial highlights but does not contain the complete interim financial statements of the Fund. For your reference, the interim financial statements of the Fund are attached to the interim management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1(866) 998-8298; by writing to us at Harvest Portfolios Group Inc., 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7; or by visiting our website at www.harvestportfolios.com; or on SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVES AND STRATEGY

The Fund has been created to provide investors with an exposure to a portfolio ("Portfolio") of Equity Securities of 20 Energy Issuers chosen from the Energy Leaders Investable Universe that at the time of investment and immediately following each quarterly reconstitution and rebalancing (i) have a market capitalization of at least \$10 billion; (ii) are paying a dividend/distribution; (iii) have options in respect of their Equity Securities listed on a recognized options exchange; and (iv) have operations and/or offices in at least two countries.

The Fund's investment objectives are to provide unitholders with (i) monthly cash distributions; (ii) the opportunity for capital appreciation; and (iii) lower overall volatility of the Portfolio returns than would otherwise be experienced by owning Equity Securities of the Energy Leaders directly. In order to seek to generate additional returns, Harvest may sell call options each month on Equity Securities held in the Portfolio. Harvest will not sell call options on more than 33% of the Equity Securities of any of the Energy Leaders held in the Portfolio.

Harvest will quarterly reconstitute and rebalance the Portfolio such that, at the time of the initial investment and immediately following each quarterly reconstitution and rebalancing, the Portfolio will have the following investment characteristics:

- Value** – An average Price-to-Earnings ratio lower than the average for the Energy Leaders Investable Universe;
- Yield** – An average Yield greater than the average for the Energy Leaders Investable Universe; and
- Quality** – An average 5-year Return on Equity growth greater than the average for the Energy Leaders Investable Universe.

RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

RESULTS OF OPERATIONS

The Fund returned 9.39% for Series A and 10.65% for Series U compared to the MSCI ACW Energy Index in USD of 12.85% for the period ended June 30, 2019.

The "Trade War" tensions between China and the US heightened through the end of 2018, and continue throughout 2019, despite hopes they would be resolved by now. In the fourth quarter of 2018, oil prices were under significant pressure as oversupply came to the fore once again and the intensification of the "Trade War" saw reduced global demand expectations for crude oil. Oil prices, and energy stocks, did see an early 2019 rebound off the fourth quarter lows, where market sentiment improved and hopes that trade tensions could eventually find some resolution, but oil prices have since remained largely rangebound in nature with wide, volatile swings.

The Fund is diversified across the sub-sectors with allocations to commodity producers, energy services, integrated producers, refining and pipeline related companies that provided diversity and some volatility buffer during the heightened commodity price volatility. After a tough second half of 2018, energy stocks rebounded in the first half of 2019, with the rebound in crude oil prices.

Even more specific, the slight overweight in our Fund to Refiners and underweight to Services reduced the beta to oil prices and was beneficial to performance during the downturn, while the sharp rebound of oil prices in 2019 contributed to some slight underperformance to the benchmark, in the period, particularly with the Services names.

The Fund was invested in 20 Energy Leaders during the period and sold call options on the underlying holdings during the period to meet its investment and income objectives.

RECENT DEVELOPMENTS

There were no recent developments during the reporting period.

RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

MANAGEMENT AND OTHER FEES

The Manager is responsible for managing the Fund's overall business and operations and provides key management personnel to the Fund. The Fund pays the Manager an annual management fee of 0.85%, plus applicable taxes, based on a percentage of the average daily net asset value ("NAV") of the Fund.

Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee ("IRC"), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries and benefits; independent directors of the Manager and other administrative expenses and costs incurred in connection with the Fund's continuous public offering and other obligations. These expenses were \$8,809 for the period ended June 30, 2019 (2018 - \$19,074) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss) in the financial statements.

Waivers and absorptions

At its sole discretion, the Manager may waive management fees or absorb expenses of the Fund. There were no management fee waivers or expense absorptions for the period ended June 30, 2019 or 2018. The management expense ratios of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table.

RECOMMENDATIONS OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

The Independent Review Committee tabled no special reports and made no extraordinary material recommendations to management of the Fund during the period ended June 30, 2019.

Explanatory Notes:

- Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
- Net assets, at the commencement of operations on October 21, 2014 was \$9.33, net of agents' commissions and issuance costs of \$0.67 per unit for Series A and was \$10.47 (\$9.33 USD), net of agents' commissions and issuance costs of \$0.75 (\$0.67 USD) per unit for Series U.
- Distributions were paid in cash or reinvested in additional units of the Fund.
- Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of the daily average net asset value during the period. The MER for 2014, the year of inception, included agents' fees of \$1,946,175 and issue costs of \$515,263 for Series A and agents' fees of \$128,565 and issue costs of \$34,020 for Series U, which were treated as one-time expenses and therefore were not annualized. The MER without these costs is 2.62% for Series A and 2.64% for Series U. The MER for 2016 included agents' fee of \$199,016 for Series A. This cost is treated as one-time expense and therefore is not annualized. The MER without this cost is 1.95%.
- The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
- The USD amount of the net assets at the end of the period was \$4.70 USD.

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's prospectus or offering memorandum. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
