CORPORATE OVERVIEW

Harvest Portfolios Group Inc. ("Harvest" or the "Manager") is a Canadian Investment Manager founded in 2009. Harvest is focused on developing investment products that follow three investment criteria.

We (i) endeavor to develop investment products that are clear in their mandate and easy for investors to understand, (ii) strive to be transparent so that our investors can review their financial reports and know exactly what they own and (iii) seek to provide investors with consistent monthly or quarterly income by investing the fund portfolios in well managed companies that have a steady cash flow and dividend-paying history.

INVESTMENT PRODUCT

The Harvest Canadian Income & Growth Fund (the "Fund") invests to provide investors with income and the potential for capital appreciation by investing primarily in dividend paying securities of publicly traded utilities, industrials, communications, real estate and retail issuers domiciled in Canada.

PRESIDENT'S MESSAGE

Harvest Canadian Income & Growth Fund

Unitholder letter March 2020

Dear Valued Investor,

"In the business world, the rear-view mirror is always clearer than the windshield"

Warren Buffet

As a long time follower of Warren Buffett, I think this particular quote makes sense when looking back at the previous year of activity in markets, what is difficult is looking ahead and trying to adjust your investments accordingly. To that end I hold steadfast in my belief that owning quality and steady streams of earnings will provide the confidence one needs as an investor looking ahead.

The immediate challenges of 2020 circle around the U.S. election, global trade issues, Middle East tensions, negative interest rates and, at the time of writing, the coronavirus. These are all important issues that will affect shorter term movements in markets, but like the Vietnam war in the 60's, the oil embargo of the 70s, the market crash of 1987 and many other events through the decades, they become blips on an overall long term trend of growth and increasing value and global GDP.

For a saver, retired investor or those approaching retirement, a more pressing concern is the record low interest rates that persist today and look to remain for some time. I believe this is another compelling reason to own quality companies through our ETFs. As an investor in equities, one must be willing to accept the risk that is associated with market volatility and we believe methods of mitigating that market risk is through time and quality of investment.

Our first objective is to position in growth industries or mega trends that we see continuing for many years if not decades to come. The second criteria is to select companies that are leaders in their respective fields, are making money now and generate steady dividends. Thirdly, we write (sell) call options across the portfolio to generate additional income for our investors. Throughout this process we continue to monitor, analyse and rebalance the positions which also results in portfolio constituent changes from time to time.

I read a number of Annual Reports that simply look through the rear-view mirror at the previous year to explain what happened due to various events as no one can predict the future with any degree of certainty. That said, what we can be sure of is disruptions, recessions and natural disasters will occur but will be overcome while more goods and services are consumed. Global GDP will continue to expand and throughout we will focus on businesses that we believe provide the best outcome due to their track records of success.

On behalf of Harvest, I would like to thank you for your trust and investment in our products.

Sincerely,

Signed "Michael Kovacs"

Michael Kovacs President and Chief Executive Officer

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the Fund. For your reference, the annual financial statements of the Fund are attached to the annual management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1(866) 998-8298; by writing to us at Harvest Portfolios Group Inc., 610 Chartwell Road, Suite 204, Oakville, Ontario, L6J 4A5; or by visiting our website at www.harvestportfolios.com; or on SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVES AND STRATEGY

The Fund's investment objectives are to:

- (i) provide unitholders with monthly distributions; and
- (ii) maximize long-term total return for unitholders while reducing volatility.

The Fund was created to provide investors with income and the potential for capital appreciation.

To achieve the Fund's objectives, the Fund invests in an actively managed portfolio comprised primarily of dividend-paying equity and debt securities of publicly-traded utilities, industrial, communications, real estate and retail issuers domiciled in Canada. The investment manager focuses on the less cyclical segments of the Canadian equities market with the goal of reducing volatility by diversifying away from the main sectors (financials, energy and materials) that make up the majority of the market capitalization on the Toronto Stock Exchange (the "TSX").

The Fund invests primarily in companies that have: (i) proven long-term histories of earnings; (ii) established and experienced management; and (iii) business models that are not primarily dependent on commodity prices.

The investment manager focuses on free cash flow and free cash flow yield, earnings potential, and the investment's intrinsic value in order to assess dividend sustainability and growth in distributions, with a view to delivering:

- 1. Attractive income generation;
- 2. Opportunity for capital gains; and
- 3. Lower volatility relative to the overall S&P/TSX Composite Index.

RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

RESULTS OF OPERATIONS

The S&P TSX bounced back from early year lows helped in large part by rising energy prices and performed well relative to other developed world indices. The Fund's return for the period ended December 31, 2019 was 20.39% for Series R, 20.07% for Series A, 21.79% for Series F and 23.99% for Series D compared to the S&P/ TSX Composite Total Return Index return of 22.88%.

Positioning away from the big-3 sub-sectors in Canada: Financials, Energy, and Materials as part of the Investment Objectives has historically been a key driver for the relative divergence compared to the broad S&P TSX Index, during the period those sub-sectors performed well and our relative outperformance on the Fund can be attributed not only to some more overweighting in interest rates sensitive sub-sectors, such as REITs and Utilities but can also be attributed to select securities within those industries, in addition to a relative overweight in the industrials. Security selection within the sub-sectors also had a positive impact on the Fund's performance with select new positions performing very strongly during the period.

The Fund remains well diversified and primarily invested in a portfolio of Canadian equity securities in the utilities, industrials, communications, real estate and retail sub-sectors, augmented with select U.S. equities.

RECENT DEVELOPMENTS

The recent spread of the coronavirus ("COVID-19") and its impact on the financial performance of the Fund's investments will depend on the duration and spread of the outbreak and related advisories and restrictions. The overall impact to financial markets and the economy are highly uncertain and cannot be predicted. If the financial markets and/or the overall economy are impacted for an extended period, the Fund's future investment results may be materially adversely affected.

RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

MANAGEMENT AND OTHER FEES

The Manager is responsible for managing the Fund's overall business and operations and provides key management personnel to the Fund. Each series of units pays the Manager an annual management fee, plus applicable taxes, based on a percentage of the average daily net asset value ("NAV") of the Fund attributable to that applicable series (the "Management Fee").

Dealers may be paid a servicing fee in connection with Series A, Series R and Series D units for ongoing services they provide to investors, including investment advice, account statements and newsletters. Generally, the servicing fees, plus applicable taxes, are payable monthly in arrears based on the total client assets invested in each series of units of the Fund held by all of a Dealer's clients throughout the month. The Manager can change or cancel servicing fees at any time.

The fees differ among the series of units of the Fund as set out in the chart below:

Fund Series	Annual Management Fee	Dealer Service Fee	Total Fees
R	1.25%	1.00%	2.25%
A	1.25%	1.25%	2.50%
F	1.25%	0.00%	1.25%
D	1.25%	0.25%	1.50%

Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee ("IRC"), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries and benefits; and other administrative expenses and costs incurred in connection with the Fund's continuous public offering and other obligations. These expenses are allocated by the Manager on a reasonable basis, across all of the Harvest Portfolios Group Inc. funds, and series of each applicable fund. These expenses were \$35,573 for the year ended December 31, 2019 (2018 - \$41,998) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss).

Waivers and absorptions

At its sole discretion, the Manager may waive management fees or absorb expenses of the Fund. There were no management fee waivers or expense absorptions for the year ended December 31, 2019 or 2018. The management expense ratios of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table below.

RECOMMENDATION OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

The Independent Review Committee tabled no special reports and made no extraordinary material recommendations to management of the Fund during the year ended December 31, 2019.

Explanatory Notes:

- 1. Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
- 2. Series D commenced operations on July 9, 2014.
- 3. Distributions may be paid in cash or automatically reinvested into additional units.
- 4. Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of the daily average net asset value during the period.
- 5. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- 6. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

Past Performance

The performance information presented herein assumes all dividends of the Fund during the periods presented were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemptions, or other charges that would have reduced returns or affected performance. Past performance of the Fund is not necessarily indicative of how it will perform in the future.

YEAR-BY-YEAR RETURNS

The following charts present the Fund's performance for each of the years shown and illustrate how the Fund's performance varied for Series R, Series A, Series F and Series D. The charts show, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

Fund Performance

Series R

2010 represents the period from June 29 to December 31

Series A

²⁰¹² represents the period from June 25 to December 31

2012 represents the period from July 16 to December 31

2014 represents the period from July 9 to December 31

ANNUAL COMPOUND RETURNS

The following table shows the annual compound returns for the Fund. All returns are in Canadian dollars, on a total return basis, net of fees.

For comparison purposes, a benchmark of the S&P/TSX Composite Index (the "Index") is used. The Index is a capitalizationweighted index that measures market activity of a universe of stocks traded on the Toronto Stock Exchange.

While the Fund uses this benchmark for long-term performance comparisons, it is not managed relative to the composition of the Index. As a result, the Fund may experience periods when its performance is not aligned with the Index, either positively or negatively. The return of the Index is calculated without the deduction of management fees and fund expenses whereas the performance of the Fund is calculated after deducting such fees and expenses. Please see the "Results of Operations" section of this report for a discussion on recent performance.

*In connection with the conversion of the Fund into an open-end mutual fund, the trailing commission charged on the Series R units increased by 0.60% (increasing the aggregate annual management fee to 2.25%) and the Fund ceased using leverage in order to achieve its investment objectives. If these changes had been in effect when the Fund was created, the performance would have been lower. +Since inception dates are: Series R - June 29, 2010; Series A – June 25, 2012; Series F – July 9, 2012; Series D – July 9, 2014

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's prospectus or offering memorandum. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
