Harvest Global Resource Leaders ETF

CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest” or the “Manager”) is a Canadian Investment Manager founded in 2009. Harvest is focused on developing investment products that follow three investment criteria.

We (i) endeavor to develop investment products that are clear in their mandate and easy for investors to understand, (ii) strive to be transparent so that our investors can review their financial reports and know exactly what they own and (iii) seek to provide investors with consistent monthly or quarterly income by investing the fund portfolios in well managed companies that have a steady cash flow and dividend-paying history.

INVESTMENT PRODUCT

The Harvest Global Resource Leaders ETF (the “Fund”) invests in an equally weighted portfolio of Equity Securities¹ of not less than 20 Global Resource Leaders¹ and not more than 30 Global Resource Leaders, chosen from the Global Resource Leaders Investable Universe¹ that, immediately following each quarterly reconstitution, have a market capitalization that is at least US\$2 billion as determined at the time of investment.

¹ As defined in the Fund’s prospectus dated January 7, 2020.

PRESIDENT'S MESSAGE

Harvest Global Resource Leaders ETF

Unitholder letter March 2020

Dear Valued Investor,

"In the business world, the rear-view mirror is always clearer than the windshield"

- Warren Buffet

As a long time follower of Warren Buffett, I think this particular quote makes sense when looking back at the previous year of activity in markets, what is difficult is looking ahead and trying to adjust your investments accordingly. To that end I hold steadfast in my belief that owning quality and steady streams of earnings will provide the confidence one needs as an investor looking ahead.

The immediate challenges of 2020 circle around the U.S. election, global trade issues, Middle East tensions, negative interest rates and, at the time of writing, the coronavirus. These are all important issues that will affect shorter term movements in markets, but like the Vietnam war in the 60's, the oil embargo of the 70s, the market crash of 1987 and many other events through the decades, they become blips on an overall long term trend of growth and increasing value and global GDP.

For a saver, retired investor or those approaching retirement, a more pressing concern is the record low interest rates that persist today and look to remain for some time. I believe this is another compelling reason to own quality companies through our ETFs. As an investor in equities, one must be willing to accept the risk that is associated with market volatility and we believe methods of mitigating that market risk is through time and quality of investment.

Our first objective is to position in growth industries or mega trends that we see continuing for many years if not decades to come. The second criteria is to select companies that are leaders in their respective fields, are making money now and generate steady dividends. Thirdly, we write (sell) call options across the portfolio to generate additional income for our investors. Throughout this process we continue to monitor, analyse and rebalance the positions which also results in portfolio constituent changes from time to time.

I read a number of Annual Reports that simply look through the rear-view mirror at the previous year to explain what happened due to various events as no one can predict the future with any degree of certainty. That said, what we can be sure of is disruptions, recessions and natural disasters will occur but will be overcome while more goods and services are consumed. Global GDP will continue to expand and throughout we will focus on businesses that we believe provide the best outcome due to their track records of success.

On behalf of Harvest, I would like to thank you for your trust and investment in our products.

Sincerely,

Signed "Michael Kovacs"

Michael Kovacs
President and Chief Executive Officer

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the Fund. For your reference, the annual financial statements of the Fund are attached to the annual management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1-866-998-8298; by writing to us at Harvest Portfolios Group Inc., 610 Chartwell Road, Suite 204, Oakville, Ontario, L6J 4A5; or by visiting our website at www.harvestportfolios.com; or on SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVES AND STRATEGY

The Fund invests in an equally weighted portfolio of Equity Securities of not less than 20 Global Resource Leaders and not more than 30 Global Resource Leaders, chosen from the Global Resource Leaders Investable Universe that, immediately following each quarterly reconstitution, have a market capitalization that is at least US\$2 billion as determined at the time of investment.

The Manager selects the Equity Securities for the portfolio and at a minimum will review and reconstitute and rebalance the portfolio quarterly (within 30 days following the last business day of January, April, July and October). If, in the opinion of the Manager, there are not 20 Global Resource Leaders that meet the investment criteria of the Fund, the Manager may invest in fewer than 20 Global Resource Leaders. At the time of the initial investment and immediately following each quarterly reconstitution, the Manager will review and give consideration to select investment characteristics that may include:

Diversification:	Geographic, sub-sector and commodity price outlooks
Value:	Price-to-Earnings Ratio, Price-to-Book Value Ratio, Priceto-Cash Flow Ratio and Yield
Quality:	Return-on-Equity, Debt-to-Equity, Debt-to-Cash Flow Ratio and debt maturity profile
Growth:	Long term earnings and dividend per share growth

The Fund's investment objectives are to provide unitholders with:

- (i) quarterly cash distributions; and
- (ii) the opportunity for capital appreciation;

To achieve lower overall volatility of portfolio returns, the Fund will selectively write covered call options on up to 33% of the portfolio securities. The level of covered call option writing may vary based on market volatility and other factors.

RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

RESULTS OF OPERATIONS

The Fund returned 6.45% compared to the MSCI Daily Total Return World Gross Materials Local Index (USD) return of 23.25% for the year ended December 31, 2019.

The "Trade War" tensions between China and the US continued throughout 2019 and finally culminated in a Phase One Trade Deal by year's end. Market sentiment improved on the news, but resources continue to exhibit wide, volatile swings that have continued into early 2020, driven by concerns surrounding the potential negative global economic impact from the coronavirus outbreak.

The Fund offers diversified resource-focused exposure across industrial metals, chemicals, strategic resources and, other materials-related industries while deviating from the Benchmark, which has much greater concentrations in specific non-resource sub-sectors, in the chemicals space, containers & packaging and precious metals. The Benchmark is also heavily weighted in select issuers compared to equally weighted within the Fund. The Fund did see positive performance on the year – holdings in non-resource focused stocks in the Benchmark being the primary reason for the divergence. Secondly, the Investment Objectives limit the exposure towards precious metals that had positive returns while the relative overweight in industrial and strategic metals also was a source of relative weaker performance versus the Benchmark. While the Fund did have select exposure to the resource-centric chemicals sub-industries, the broader materials Benchmark tends to have relatively high weights to Chemicals in general and are often in more consumer-focused specialty chemical companies that performed relatively well during the year, along with not capturing additional outperforming stocks in non-resource Materials sub-categories, such as containers & packaging.

Harvest Global Resource Leaders ETF

The Fund was invested in 29 Resource Issuers at the end of the year and is well-positioned to benefit from a recovery in the underlying positions that had been under pressure during the year. The Fund selectively sold call options during the year to meet its investment objectives.

RECENT DEVELOPMENTS

The recent spread of the coronavirus ("COVID-19") and its impact on the financial performance of the Fund's investments will depend on the duration and spread of the outbreak and related advisories and restrictions. The overall impact to financial markets and the economy are highly uncertain and cannot be predicted. If the financial markets and/or the overall economy are impacted for an extended period, the Fund's future investment results may be materially adversely affected.

During the year, State Street Trust Company Canada replaced CIBC Mellon Trust Company as the custodian of the Fund and State Street Fund Services Toronto Inc. replaced CIBC Mellon Global Security Services Company as the valuation agent of the Fund. Both of these changes took effect on September 23, 2019.

RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

MANAGEMENT AND OTHER FEES

Harvest Portfolios Group Inc. is the Manager of the Fund and is responsible for managing the Fund's overall business and operations and provides key management personnel to the Fund. The Fund pays the Manager an annual management fee of 0.75%, plus applicable taxes, based on a percentage of the average daily net asset value ("NAV") of the Fund.

Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee ("IRC"), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries and benefits; and other administrative expenses and costs incurred in connection with the Fund's continuous public offering and other obligations. These expenses are allocated by the Manager on a reasonable basis, across all of the Harvest Portfolios Group Inc. Funds, and series of each applicable fund. These expenses were \$6,873 for the year ended December 31, 2019 (2018 - \$10,689) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss) in the financial statements.

Waivers and absorptions

At its sole discretion, the Manager may waive management fees or absorb expenses of the Fund. There were no management fee waivers for the year ended December 31, 2019. The Manager absorbed \$44,354 of expenses of the Fund for the year ended December 31, 2019 (2018 - \$64,926). The management expense ratios of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table below.

RECOMMENDATIONS OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

The Independent Review Committee tabled no special reports and made no extraordinary material recommendations to management of the Fund during the year ended December 31, 2019.

Explanatory Notes:

- Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
- Net assets, at the commencement of operations on January 31, 2018 was \$20.00.
- Distributions were paid in cash.
- Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of the daily average net asset value during the period.
- The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

Past Performance

The performance information presented herein assumes all dividends of the Fund during the periods presented were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemptions, or other charges that would have reduced returns or affected performance. Past performance of the Fund is not necessarily indicative of how it will perform in the future.

YEAR-BY-YEAR RETURNS

The following charts present the Fund's performance for each of the years shown. The chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

ANNUAL COMPOUND RETURNS

The following table shows the annual compound returns for the Fund. All returns are in Canadian dollars unless otherwise indicated, on a total return basis, net of fees.

For comparison purposes the MSCI Daily Total Return World Gross Materials Local Index (USD) (the "Benchmark") is used. While the Fund uses this Benchmark for long-term performance comparisons, it is not managed relative to the Benchmark's composition. As a result, the Fund may experience periods when its performance is not aligned with the Benchmark, either positively or negatively. The return of the Benchmark is calculated without the deduction of management fees and fund expenses whereas the performance of the Fund is calculated after deducting such fees and expenses. Please see the "Results of Operations" section of this report for a discussion on recent performance.

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's prospectus or offering memorandum. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
