(1) Each ETF pays annual management fees to the Manager equal to an annual percentage of the net asset value of the units of that ETF, together with applicable sales tax. The management fee rates of each ETF, excluding sales tax, are presented in the table. Out of its management fees, the Manager pays for such services to the ETF as investment management and marketing. (2) Management expense ratio (MER) is based on total expenses (excluding commissions and other portfolio transaction costs), including sales tax for the stated period for each ETF and is expressed as an annualized percentage of each ETF's daily average net asset value during the period after absorptions.

Commission, management fees and expenses all may be associated with an investment in exchange traded products managed by Harvest Portfolios Group Inc. Harvest ETFs are not guaranteed, their values change frequently and past performance may not be repeated. The prospectus contains important detailed information about Harvest ETFs and is available on our website www.harvestportfolios.com. Please read the relevant prospectus before investing.
