Harvest US Equity Plus Income ETF

CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest” or the “Manager”) is a Canadian Investment Manager founded in 2009. Harvest is focused on developing investment products that follow three investment criteria.

We (i) endeavor to develop investment products that are clear in their mandate and easy for investors to understand, (ii) strive to be transparent so that our investors can review their financial reports and know exactly what they own and (iii) seek to provide investors with consistent monthly or quarterly income by investing the fund portfolios in well managed companies that have a steady cash flow and dividend-paying history.

INVESTMENT PRODUCT

The Harvest US Equity Plus Income ETF (the “Fund”) has investment objectives to provide unitholders with quarterly cash distributions, the opportunity for capital appreciation and provide investors with exposure to select large capitalization U.S. companies that are leaders in terms of share repurchase programs. As part of the investment strategy, the Fund will invest in an equally-weighted portfolio of equity securities of the 25 issuers selected from the top 100 issuers in the US Buyback Leaders Investable Universe¹ with the highest Buyback Ratio¹ and that have a market capitalization of at least US\$10 billion at the time of investment.

¹ As defined in the Fund’s prospectus dated June 15, 2021.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The interim management report of fund performance contains financial highlights but does not contain the complete interim financial statements of the Fund. For your reference, the interim financial statements of the Fund are attached to the interim management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1-866-998-8298; by writing to us at Harvest Portfolios Group Inc., 610 Chartwell Road, Suite 204, Oakville, Ontario, L6J 4A5; or by visiting our website at www.harvestportfolios.com; or on SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVES AND STRATEGY

The Fund has been established to provide investors with exposure to 25 issuers selected from the top 100 issuers with the largest dollar amount of shares repurchased over the prior four quarters for which information is publicly available relative to the issuer's current market capitalization that meet the following criteria: (i) are included in the S&P 500 Index; (ii) have a market capitalization that is at least US\$10 billion as determined at the time of investment; (iii) are incorporated in the U.S.; (iv) pay a dividend; and v) have bought back their shares within the prior four quarters as determined at the time of investment.

The Fund's investment objectives are to provide unitholders with (i) the opportunity for capital appreciation; and (ii) quarterly cash distributions.

The Manager will select the Equity Securities¹ for the Portfolio¹ and will quarterly reconstitute and rebalance the Portfolio such that the Portfolio, at the time of the initial investment and immediately following each quarterly reconstitution and rebalancing, will include an equal weighting of the 25 issuers selected from the top 100 issuers in the US Buyback Investable Universe with the highest Buyback Ratio.

RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

RESULTS OF OPERATIONS

The Fund returned 14.74% for Series A and 14.90% for Series U compared to the S&P 100 Total Return Index (USD) return of 14.78% for the period ended June 30, 2021.

Equity markets in the U.S. continued to rally strongly in the first half of 2021 as vaccines against Covid-19 began to be distributed around the world fueling expectations for a broadly based global economic recovery from the pandemic. Market gains were led by cyclical sectors that tend to be more exposed to the early periods in the economic cycle, such as commodities and banks, as well as those sectors that were most acutely impacted by lockdowns in 2020, like retailers and retail REITs. Sectors that had outperformed during the pandemic, like Consumer Staples and many areas of the Technology sector, lagged during the first half though returns were also positive in these areas.

In recent months, a resurgence in Covid cases linked to the Delta variant led to increased uncertainty regarding the pace of the economic recovery. During this period, the market began to experience a mean reversion across sectors resulting in weaker performance for early cycle stocks while secular growth areas in technology and technology-like stocks rallied.

The Fund benefitted during the period from having a high allocation to the Financials and Energy sectors which performed very well during the period. Investments in Walgreens Boots Alliance Inc. and Home Depot Inc. also performed well in the first half of 2021. These benefits were partially offset by weak performance in Qualcomm Inc., while strong performance in mega-cap stocks Alphabet Inc. and Facebook Inc., which were not eligible for investment by the Fund during the period, also had a negative impact on the Fund's performance relative to the benchmark. During the height of the pandemic, many share repurchase programs were significantly reduced or temporarily put on hold. Through the second quarter earnings results in 2021, corporate optimism appears to be reversing with many companies resuming and increasing their share buybacks, a positive macro back-drop for the underlying universe of companies of the Fund.

The Fund continued to invest in a portfolio of 25 Buyback Leaders during the period.

¹ As defined in the Fund's prospectus dated June 15, 2021.

RECENT DEVELOPMENTS

The spread of the coronavirus (“COVID-19”) has caused volatility in the global financial markets and a slowdown in the global economy. Uncertainty on the impact and the strength of the economic recovery continues with the spread of variants. Although financial markets have been strong over the past year, this uncertainty may have a continued adverse impact on the financial performance of the Fund's investments. If there is renewed spread of COVID-19, the duration and resulting government restrictions could continue to impact the overall economy for an extended period and the Fund's future investment results may be materially adversely affected.

RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting year, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

MANAGEMENT AND OTHER FEES

The Manager is responsible for managing the Fund's overall business and operations and provides key management personnel to the Fund. The Fund pays the Manager an annual management fee of 0.75%, plus applicable taxes, based on a percentage of the average daily net asset value (“NAV”) of the Fund.

Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee (“IRC”), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries and benefits; and other administrative expenses and costs incurred in connection with the Fund's continuous public offering and other obligations. These expenses are allocated by the Manager on a reasonable basis, across all the Harvest Portfolios Group Inc. funds, and series of each applicable fund. These expenses were \$2,335 for the period ended June 30, 2021 (2020 – \$3,136) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss) in the financial statements.

Waivers and absorptions

At its sole discretion, the Manager may waive management fees or absorb expenses of the Fund. There were no management fee waivers or expense absorptions for the period ended June 30, 2021 or 2020. The management expense ratios of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table below.

RECOMMENDATIONS OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

The Independent Review Committee tabled no special reports and made no extraordinary material recommendations to management of the Fund during the period ended June 30, 2021.

Explanatory Notes:

- Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
- Distributions were paid in cash or reinvested in additional units of the Fund.
- Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of the daily average net asset value during the period.
- The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period. In 2020 the calculation was modified to include certain transactions costs charged by the custodian. The trading expense ratio in prior periods was not re-stated.
- The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
- The USD amount of the net assets at the end of the period was \$10.82 USD.

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's prospectus or offering memorandum. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
