## CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest” or the “Manager”) is a Canadian Investment Manager founded in 2009. Harvest is focused on developing investment products that follow three investment criteria.

We (i) endeavor to develop investment products that are clear in their mandate and easy for investors to understand, (ii) strive to be transparent so that our investors can review their financial reports and know exactly what they own and (iii) seek to provide investors with consistent monthly or quarterly income by investing the fund portfolios in well managed companies that have a steady cash flow and dividend-paying history.

## INVESTMENT PRODUCT

The Harvest Canadian Income & Growth Fund (the “Fund”) invests to provide investors with income and the potential for capital appreciation by investing primarily in dividend paying securities of publicly traded utilities, industrials, communications, real estate and retail issuers domiciled in Canada.

## MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The interim management report of fund performance contains financial highlights but does not contain the complete interim financial statements of the Fund. For your reference, the interim financial statements of the Fund are attached to the interim management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1(866) 998-8298; by writing to us at Harvest Portfolios Group Inc., 610 Chartwell Road, Suite 204, Oakville, Ontario, L6J 4A5; or by visiting our website at [www.harvestportfolios.com](http://www.harvestportfolios.com); or on SEDAR at [www.sedar.com](http://www.sedar.com).

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

## INVESTMENT OBJECTIVES AND STRATEGY

The Fund's investment objectives are to:

- (i) provide unitholders with monthly distributions; and
- (ii) maximize long-term total return for unitholders while reducing volatility.

The Fund was created to provide investors with income and the potential for capital appreciation.

To achieve the Fund's objectives, the Fund invests in an actively managed portfolio comprised primarily of dividend-paying equity and debt securities of publicly-traded utilities, industrial, communications, real estate and retail issuers domiciled in Canada. The investment manager focuses on the less cyclical segments of the Canadian equities market with the goal of reducing volatility by diversifying away from the main sectors (financials, energy and materials) that make up the majority of the market capitalization on the Toronto Stock Exchange (the "TSX").

The Fund invests primarily in companies that have: (i) proven long-term histories of earnings; (ii) established and experienced management; and (iii) business models that are not primarily dependent on commodity prices.

The investment manager focuses on free cash flow and free cash flow yield, earnings potential, and the investment's intrinsic value in order to assess dividend sustainability and growth in distributions, with a view to delivering:

1. Attractive income generation;
2. Opportunity for capital gains; and
3. Lower volatility relative to the overall S&P/TSX Composite Index.

## RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

## RESULTS OF OPERATIONS

The Fund returned -10.92% for Series R, -11.04% for Series A, -10.42% for Series F and -10.50% for Series D compared to the S&P/TSX Composite Total Return Index return of -9.87% for the period ended June 30, 2022.

Recognizing that it was a tough period of negative performance, the fund did witness somewhat better relative downside protection against broader markets, largely due to its composition primarily in a portfolio of Canadian publicly traded equity securities of utilities, industrials, communications, real estate and retail issuers. The fund was designed to invest away from the TSX-dominant resource and financials sectors.

The Fund's overweight to utilities, telecom and staples versus the benchmark was helpful in cushioning the downside that broad markets experienced during the period. On the flipside, the lack of exposure to the Canadian energy producers was an area that the Fund missed out on very strong upside performance, as commodity markets fell under severe supply/demand imbalances coming out of global lockdowns, and then coupled with the fallout from the Russian invasion into Ukraine. Additionally, the overweight to REITs was a drag, as they lost ground due to central banks' decisions to raise interest rates, accelerating the move away from emergency rates near zero.

In the technology sector, Shopify, at such a large weight in the index but not in the fund was another outlier in causing issues for the benchmark. Meanwhile, the fund's position in CGI Inc held its price much better, as CGI is a much steadier business with a slower growth profile and strong cashflow creation which is used to repurchase its shares.

The Fund remains well diversified and continues to be primarily focused in on a portfolio of Canadian equity securities in the utilities, industrials, communications, and real estate sub-sectors, augmented with select U.S. equities.

## RECENT DEVELOPMENTS

The spread of the coronavirus has caused volatility in the global financial markets and impacted the global economy. Locally and globally restrictions have eased and appear to be less likely in the future however the lasting effects of the previous restrictions have impacted the economy with rising inflation and resulting rising interest rates. In addition to this, the war in Ukraine has further contributed to rising inflation and has added to the economic and financial markets instability. Both events have significantly impacted global economies and financial markets and there is uncertainty as to how long this will last or the impact on the financial performance of the Fund's investments and the Fund's future investments.

Effective May 1, 2022 the Fund no longer pays service fees on Series D units.

## RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

## MANAGEMENT AND OTHER FEES

The Manager is responsible for managing the Fund's overall business and operations and provides key management personnel to the Fund. Each series of units pays the Manager an annual management fee, plus applicable taxes, based on a percentage of the average daily net asset value ("NAV") of the Fund attributable to that applicable series (the "Management Fee").

Dealers may be paid a servicing fee in connection with Series A and Series R units for ongoing services they provide to investors, including investment advice, account statements and newsletters. Generally, the servicing fees, plus applicable taxes, are payable monthly in arrears based on the total client assets invested in each series of units of the Fund held by all of a Dealer's clients throughout the month. The Manager can change or cancel servicing fees at any time.

The fees differ among the series of units of the Fund as set out in the chart below:

Fund Series	Annual Management Fee	Dealer Service Fee	Total Fees
R	1.25%	1.00%	2.25%
A	1.25%	1.25%	2.50%
F	1.25%	0.00%	1.25%
D	1.25%	0.00%	1.25%

## Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee ("IRC"), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

## Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries and benefits; and other administrative expenses and costs incurred in connection with the Fund's continuous public offering and other obligations. These expenses are allocated by the Manager on a reasonable basis, across all the Harvest Portfolios Group Inc. funds, and series of each applicable fund. These expenses were \$22,915 for the period ended June 30, 2022 (2021 - \$22,375) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss).

## Waivers and absorptions

At its sole discretion, the Manager may waive management fees or absorb expenses of the Fund. There were no management fee waivers or expense absorptions for the period June 30, 2022 or 2021. The management expense ratios of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table below.

## RECOMMENDATION OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

The Independent Review Committee tabled no special reports and made no extraordinary material recommendations to management of the Fund during the period ended June 30, 2022.

### Explanatory Notes:

1. Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
2. Distributions may be paid in cash or automatically reinvested into additional units.
3. Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of the daily average net asset value during the period.
4. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period. In 2020 the calculation was modified to include certain transaction costs charged by the custodian. The trading expense ratio in prior periods was not re-stated.
5. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's prospectus or offering memorandum. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
