

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

Harvest Clean Energy ETF

June 30, 2022

The Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure, can be obtained at your request, and at no cost, by calling us at 1-866-998-8298; by writing to us at Harvest Portfolios Group Inc., 610 Chartwell Road, Suite 204, Oakville, Ontario, L6J 4A5; by visiting our website at www.harvestportfolios.com; or on SEDAR at www.sedar.com.

Harvest Clean Energy ETF

CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest” or the “Manager”) is a Canadian Investment Manager founded in 2009. Harvest is focused on developing investment products that follow three investment criteria.

We (i) endeavor to develop investment products that are clear in their mandate and easy for investors to understand, (ii) strive to be transparent so that our investors can review their financial reports and know exactly what they own and (iii) seek to provide investors with consistent monthly or quarterly income by investing the fund portfolios in well managed companies that have a steady cash flow and dividend-paying history.

INVESTMENT PRODUCT

The Harvest Clean Energy ETF (the “Fund”) invests in an equally weighted portfolio of Equity Securities¹ of 40 Clean Energy Issuers¹ chosen from the Clean Energy Investable Universe¹ that, immediately following each semi-annual reconstitution, rank in the top 40 issuers as measured by market capitalization on an equally weighted basis (in Canadian dollars based on the most recent month end value).

¹ As defined in the Fund’s prospectus dated November 1, 2021.

Harvest Clean Energy ETF

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The interim management report of fund performance contains financial highlights but does not contain the complete interim financial statements of the Fund. For your reference, the interim financial statements of the Fund are attached to the interim management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1(866) 998-8298; by writing to us at Harvest Portfolios Group Inc., 610 Chartwell Road, Suite 204, Oakville, Ontario, L6J 4A5; or by visiting our website at www.harvestportfolios.com; or on SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVES AND STRATEGY

The Fund's investment objective is to provide unitholders with the opportunity for capital appreciation. The Fund primarily invests in issuers that are engaged in clean energy related businesses that are listed on a regulated stock exchange in select North American, Asian or European countries.

In order to achieve its investment objectives, the Fund will invest in an equally weighted portfolio of Equity Securities of 40 Clean Energy Issuers chosen from the Clean Energy Investable Universe that, immediately following each semi-annual reconstitution, rank in the top 40 issuers as measured by market capitalization on an equally weighted basis (in Canadian dollars based on the most recent month end value) and in the determination of the Manager, have sufficient liquidity to meet the Fund's investment objectives. If, in the opinion of the Manager, there are not 40 Clean Energy Issuers that meet the investment criteria of the Fund, the Manager may invest in fewer than 40 Clean Energy Issuers.

RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

RESULTS OF OPERATIONS

The Fund return for the period ended June 30, 2022 was -17.44% compared to the custom benchmark index comprised of 50% weighting of the S&P Global Clean Energy Index and a 50% weighting of the MSCI World Utilities Gross Total Return Index return of -6.19%.

The negative performance of the Fund has been tied into short-term narratives. Firstly, disappointment continued this year with regards to the Biden administration being unable to push through sweeping climate spending initiatives. These would have helped to accelerate near-term targets for many of the clean energy companies. Secondly, the market entered a broad-based market selloff, as inflation has moved sharply higher, central banks have embarked on rapidly raising interest rates from ultra-low levels and worries about an economic slowdown have grown. Also, particularly negative for the clean energy space, has been a style shift of the market out of growth stocks (particularly those with "long duration" profiles), which have been favored for years.

Nonetheless, Harvest believes that the changing landscape toward renewable energy production and investment represents a necessary long-term structural change and is an environment that the clean energy sub-sectors are well positioned to benefit from over the long term, despite the shorter-term volatility.

The Fund invests in a portfolio of the 40 largest clean energy issuers selected from the clean energy investable universe. The universe includes equity securities listed on select North American, European and developed Asian stock exchanges that are categorized as renewable energy or renewable energy generation.

The portfolio is equally weighted and follows a systematic process in selecting the top 40 largest clean energy issuers measured by market capitalization and is reconstituted and rebalanced semi-annually.

RECENT DEVELOPMENTS

The spread of the coronavirus has caused volatility in the global financial markets and impacted the global economy. Locally and globally restrictions have eased and appear to be less likely in the future however the lasting effects of the previous restrictions have impacted the economy with rising inflation and resulting rising interest rates. In addition to this, the war in Ukraine has further contributed to rising inflation and has added to the economic and financial markets instability. Both events have significantly impacted global economies and financial markets and there is uncertainty as to how long this will last or the impact on the financial performance of the Fund's investments and the Fund's future investments.

Harvest Clean Energy ETF

RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

MANAGEMENT AND OTHER FEES

Harvest Portfolios Group Inc. is the Manager of the Fund and is responsible for managing the Fund's overall business and operations and provides key management personnel to the Fund. The Fund pays the Manager an annual management fee of 0.40%, plus applicable taxes, based on a percentage of the average daily net asset value ("NAV") of the Fund.

Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee ("IRC"), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries and benefits; and other administrative expenses and costs incurred in connection with the Fund's continuous public offering and other obligations. These expenses are allocated by the Manager on a reasonable basis, across all the Harvest Portfolios Group Inc. Funds, and series of each applicable fund. These expenses were \$11,079 for the period ended June 30, 2022 (2021 - \$10,574) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss) in the financial statements.

Waivers and absorptions

At its sole discretion, the Manager may waive management fees or absorb expenses of the Fund. There were no management fee waivers for the period ended June 30, 2022 or 2021. The Manager absorbed \$35,548 of expenses of the Fund for the period ended June 30, 2022 (2021 - \$14,537). The Manager may cease doing so at any time without notice to unitholders. The management expense ratios of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table below.

RECOMMENDATION OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

The Independent Review Committee tabled no special reports and made no extraordinary material recommendations to management of the Fund during the period ended June 30, 2022.

Harvest Clean Energy ETF

FINANCIAL HIGHLIGHTS

The following tables present selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period ended June 30, 2022 and past annual periods. This information is derived from the Fund's interim financial statements and past annual audited financial statements.

THE FUND'S NET ASSETS PER UNIT	2022	2021
Net assets - beginning of period²	\$ 14.86	\$ 20.00
Increase (decrease) from operations		
Total revenue	0.12	0.23
Total expenses	(0.05)	(0.12)
Realized gains (losses) for the period	(1.59)	(1.01)
Unrealized gains (losses) for the period	(1.11)	(2.68)
Total increase (decrease) from operations¹	\$ (2.63)	\$ (3.58)
Distributions³		
From net investment income	-	(0.05)
From dividends	-	(0.04)
Total annual distributions³	\$ -	\$ (0.09)
Net assets - end of period¹	\$ 12.27	\$ 14.86

RATIOS AND SUPPLEMENTAL DATA	2022	2021
Total net asset value	\$ 51,535,271	\$ 65,842,699
Number of units outstanding	4,200,000	4,430,000
Management expense ratio ⁴	0.69%	0.69%
Management expense ratio before waivers or absorptions ⁴	0.82%	0.78%
Trading expense ratio ⁵	0.15%	0.31%
Portfolio turnover rate ⁶	25.84%	44.05%
Net asset value per unit	\$ 12.27	\$ 14.86
Closing market price (HCLN)	\$ 12.27	\$ 14.88

Explanatory Notes:

- Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
- Net assets, at the commencement of operations on January 11, 2021 was \$20.00.
- Distributions, if any, are paid in cash. The Fund may pay additional year end distributions in the form of reinvested units that are subsequently consolidated. There is no impact on NAV per unit, however such reinvested distributions increase the cost base of units held. Included in the above amounts is the reinvested distribution of \$0.09 per unit paid to unitholders of record on December 31, 2021.
- Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of the daily average net asset value during the period.
- The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

Harvest Clean Energy ETF

Past Performance

The performance information presented herein assumes all dividends of the Fund during the periods presented were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemptions, or other charges that would have reduced returns or affected performance. Past performance of the Fund is not necessarily indicative of how it will perform in the future.

YEAR-BY-YEAR RETURNS

The following chart presents the Fund's performance for each of the years shown. The chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year except for 2022 which represents the interim period.

Fund Performance

2021 represents the period from January 11 to December 31

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's prospectus or offering memorandum. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
