Australian REIT Income Fund

NOTES TO THE INTERIM FINANCIAL STATEMENTS (Unaudited)

June 30, 2023

1. GENERAL INFORMATION

Australian REIT Income Fund (the "Fund") is a closed end mutual fund trust established under the laws of the Province of Ontario pursuant to a Declaration of Trust dated February 26, 2013 and as amended and restated, being the inception date. There was no significant activity in the Fund from the date of inception to commencement of operations on March 21, 2013. The address of the Fund's registered office is 610 Chartwell Road, Oakville, Ontario, L6J 4A5.

The Fund's investment objectives are to provide unitholders with stable monthly cash distributions and the opportunity for capital appreciation. To seek to achieve its investment objectives, the Fund will invest in an actively managed portfolio comprised primarily of equity securities listed on the Australian Securities Exchange ("ASX") issued by Australian real estate investment trusts and to a lesser extent, issuers principally engaged in the real estate industry in Australia.

The Fund is offering Series A units and Series F units. The Series F units are designed for fee-based and/or institutional accounts and differ from the Series A units in the following ways: (i) Series F units will not be listed on a stock exchange; (ii) the Agents' fees payable on the issuance of the Series F units were lower than those payable on the issuance of the Series A units; and (iii) no service fee is payable in respect of the Series F units.

2. BASIS OF ACCOUNTING

These interim financial statements have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS"). These interim financial statements were authorized for issue by Harvest Portfolios Group Inc. (the "Manager") on August 15, 2023.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial instruments

The Fund recognizes financial instruments at fair value upon initial recognition, plus transaction costs in the case of financial instruments not measured at fair value through profit or loss ("FVTPL"). Transaction costs on financial assets and liabilities at FVTPL are expensed as incurred. Regular way purchases and sales of financial assets are recognized at their trade date. The Fund's investments and derivative assets and liabilities are measured at FVTPL based on its business model. The Fund's obligation for net assets attributable to holders of redeemable units is presented at the redemption amount. All other financial assets and liabilities are measured at amortized cost. Under this method, financial assets and liabilities reflect the amount required to be received or paid. Carrying values of other financial assets and liabilities at amortized cost approximate their fair values due to the short term to maturity. The Fund's accounting policies for measuring the fair value of its investments and derivatives are identical to those used in measuring its net asset value ("NAV") for transactions with unitholders. As at June 30, 2023 and December 31, 2022, there were no differences between the Fund's NAV per security and its net assets per security calculated in accordance with IFRS 9.

Fair value of investments and derivatives

Investments and derivatives that are traded in an active market are valued at their closing prices through recognized public stock exchanges or through recognized investment dealers on the valuation date. The Fund uses the last traded market price that falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on specific facts and circumstances. Investments held are represented by equities. Derivatives held include foreign currency forward contracts.

Investments and derivatives held that are not traded in an active market are valued using valuation techniques, on such basis and in such a manner established by the Manager. The value of any security for which, in the opinion of the Manager, the published market quotations are not readily available shall be the fair value as determined by the Manager. The fair values of certain securities may be determined using valuation models that are based, in part, on assumptions that are not supported by observable market inputs. These methods and procedures may include, but are not limited to, performing comparisons with prices of comparable or similar securities, obtaining valuation related information from issuers and/or other analytical data relating to the investment and using other available indication of value. These values are independently assessed internally to ensure that they are reasonable. However, because of the inherent uncertainty of valuation, the estimated fair values for the aforementioned securities and interests may be materially different from the values that would be used had a ready market for the security existed. The fair values of such securities are affected by the perceived credit risks of the issuer, predictability of cash flows and length of time to maturity.

Classification of redeemable units

Under IFRS, IAS 32 Financial Instruments – Presentation requires that units or shares of an entity which include a contractual obligation for the issuer to repurchase or redeem them for cash or another financial asset be classified as a financial liability unless certain criteria are met. In addition to the annual redemption at 100% of NAV, the Fund's units are redeemable at 95% of their market price monthly. As a result, the Fund's units contain multiple contractual obligations and are presented as financial liabilities on transition to IFRS as they do not meet the criteria for classification as equity.

Cash

Cash is comprised of cash on deposit.

Australian REIT Income Fund

Investment transactions and income recognition

Net realized gain (loss) on sale of investments and net change in unrealized appreciation (depreciation) of investments are determined on an average cost basis. Dividend income is accounted for on the ex-dividend date. The cost of investments is determined using the average cost method.

Distributions received from income trusts are recorded as income, capital gains or a return of capital, based on the best information available to the Manager. Due to the nature of these investments, actual allocations could vary from this information. Distributions from investment trusts treated as a return of capital reduce the average cost of the underlying investment trust.

Allocation of income and expense, and realized and unrealized capital gains and losses

Management fees directly attributable to a series are charged to that series. The Fund's shared operating expenses, income, and realized and unrealized capital gains and losses are generally allocated proportionately to each series based upon the relative net assets attributable to holders of redeemable units of each series.

Foreign currency translation

The Fund's subscriptions and redemptions are denominated in Canadian dollars which is also the Fund's functional and presentation currency. Purchases and sales of investments denominated in foreign currencies and foreign currency dividend and interest income are translated into Canadian dollars at the rate of exchange prevailing at the time of the transactions. Realized and unrealized foreign currency gains or (losses) on investments are included in the Statement of Comprehensive Income (Loss) in "Net realized gain (loss) on sale of investments" and "Net change in unrealized appreciation (depreciation) of investments", respectively. Realized and unrealized foreign currency gains or losses on assets and liabilities, other than investments, denominated in foreign currencies are included in the Statement of Comprehensive Income (Loss) in "Net realized gain (loss) on foreign exchange" and "Net change in unrealized appreciation (depreciation) of foreign exchange", respectively. Foreign currency assets and liabilities in the Statement of Financial Position are translated into Canadian dollars on the statement date.

Foreign currency forward contracts

The Fund will enter into foreign currency forward contracts to hedge against exposure to foreign currency fluctuations. The fair value of these contracts is based on the difference between the contract rate and current forward market rate for the underlying currency at the measurement date applied to the contract's notional amount and adjusted for counterparty risk. Upon closing of a contract, the gain or loss is included in the Statement of Comprehensive Income (Loss) in "Net realized gain (loss) on foreign exchange". The unrealized gains or losses on forward contracts are included in the Statement of Comprehensive Income (Loss) in "Net change in unrealized appreciation (depreciation) of foreign exchange".

Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

Redeemable units valuation

The NAV of each series on a particular date will be equal to each series' proportionate share of the assets of the Fund less each series' proportionate share of the common liabilities of the Fund and each series specific liabilities, expressed in Canadian dollars at the applicable exchange rate on such date. The NAV and NAV per unit will be calculated on any day on which the Toronto Stock Exchange ("TSX") is open for trading ("Business Day").

Increase (decrease) in net assets attributable to holders of redeemable units per unit

"Increase (decrease) in net assets attributable to holders of redeemable units per unit" in the Statement of Comprehensive Income (Loss) represents the increase (decrease) in net assets attributable to holders of redeemable units, attributed to each series, dividend by the weighted average units outstanding for that series, for the financial year.

Critical accounting estimates and judgments

The preparation of financial statements requires management to use judgment in applying its accounting policies and to make estimates and assumptions about the future. The following discusses the most significant accounting judgments and estimates that the Fund has made in preparing the financial statements:

- a) Fair value measurement of derivatives and securities not quoted in an active market

The Fund may hold financial instruments that are not quoted in active markets, including derivatives. Fair values of such instruments are determined using valuation techniques and may be determined using reputable pricing sources (such as pricing agencies) or indicative prices from market makers. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding.

- b) Classification and measurement of investments and derivatives under IFRS 9

In classifying and measuring financial instruments held by the Fund, the Manager is required to make significant judgments about the business model in which the portfolio of investments and derivatives is held. The Manager has determined that the Fund's business model is one in which its portfolio is managed and performance evaluated on a fair value basis under IFRS 9.

4. REDEEMABLE UNITS

The authorized capital of the Fund consists of an unlimited number of transferable units of each series, each of which represents an equal, undivided interest in their respective series' net assets of the Fund. Except as provided in the Declaration of Trust, all units have equal rights and privileges. Each unit is entitled to one vote at all meetings of unitholders and is entitled to participate equally in any and all distributions

Australian REIT Income Fund

made by the Fund. Series A units trade on the TSX under the symbol HRR.UN and Series F units do not trade. The closing price per unit for Series A was as follows:

As at	June 30, 2023	December 31, 2022
Series A	\$8.25	\$8.65

Redemptions

Series A units may be surrendered prior to 5:00 p.m. (Toronto time) on the tenth Business Day before the last Business Day of the applicable month by unitholders for redemption. Upon receipt by the Fund of the redemption notice the unitholder shall be entitled to receive a price per Series A unit equal to the lesser of:

- (a) 95% of the "market price" of the Series A units on the principal market on which the Series A units are quoted for trading during the 20 trading-day period ending immediately before the monthly redemption date; and
- (b) 100% of the "closing market price" on the principal market on which the Series A units are quoted for trading on the monthly redemption date.

Notwithstanding the monthly redemption price formula above, at no time will the Fund pay out redemption proceeds greater than the NAV per Unit as determined on the monthly redemption date for each Unit being redeemed.

Series F units may be redeemed or converted to Series A units on a monthly basis on the same terms as the Series A units.

In accordance with the Fund prospectus, in addition to the monthly redemption rights, on an annual basis, commencing in September 2014, Series A and Series F units may be surrendered for redemption at the NAV per unit of each series, subject to the required redemption notice period, by the second last Business Day of September and the unitholder will receive payment on or before the 15th Business Day of the following month.

The following Series F units were converted into Series A units:

For the period ended	Conversion amount (\$)	Series F units	Series A units
June 30, 2023	-	-	-
June 30, 2022	-	-	-

The following units were issued, redeemed and/or cancelled during the period:

	Series A	Series F
Total outstanding as at January 1, 2022	658,267	12,595
Reinvestment of distributions to holders of redeemable units	336	-
Redeemable units redeemed	-	(2,000)
Transfer between series	-	-
Total outstanding as at June 30, 2022	658,603	10,595
Weighted average number of units outstanding	658,433	11,943

	Series A	Series F
Total outstanding as at January 1, 2023	655,948	8,100
Reinvestment of distributions to holders of redeemable units	476	-
Redeemable units redeemed	-	-
Transfer between series	-	-
Total outstanding as at June 30, 2023	656,424	8,100
Weighted average number of units outstanding	656,189	8,100

Distributions

The Fund intends to make monthly cash distributions to unitholders of record on the last Business Day of each month and pay such cash distributions on or before the 15th day of the following month. The Fund will annually determine and announce the distribution amount for the following year based upon the prevailing market conditions. The total distribution was as follows:

For the period ended	Amount (\$)
June 30, 2023	219,227
June 30, 2022	221,226

Australian REIT Income Fund

During the period the Fund has also made available to unitholders the opportunity to reinvest monthly distributions from the Fund in additional Series A units and/or Series F units, as applicable, by participating in a distribution reinvestment plan which will provide that cash distributions made by the Fund shall, at the election of a unitholder, be automatically reinvested in additional Series A units or Series F units, as applicable, on such unitholder's behalf in accordance with the terms of the plan. Reinvestment of distributions for Series A will occur either through market purchases or units issued from treasury depending on whether the trading price of the Series A units is above or below NAV and if units are available for purchase on the market. Reinvestment of distributions for Series F units will occur through units issued from treasury at NAV. During the period ended June 30, 2023 and 2022 all reinvested Series A units were issued from treasury and no reinvestments were from market purchases. No Series F units were enrolled in the reinvestment plan.

5. RELATED PARTY TRANSACTIONS AND OTHER EXPENSES

Management and service fees

The Manager is responsible for managing the Fund's overall business and operations and provides key management personnel to the Fund. The Manager is entitled to a fee of 1.30% of the average daily NAV per unit, plus applicable taxes, per annum of the Fund. Prior to January 1, 2022 the Fund paid service fees to registered dealers on Series A units at a rate of 0.40% of the average daily NAV, plus applicable taxes, per annum of the Fund. No service fee is charged to Series F units. Service fees are accrued daily and paid monthly to the Manager, who in turn pays the dealers quarterly.

Effective January 1, 2022 the Fund no longer pays service fees on Series A units.

Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee ("IRC"), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries and benefits; and other administrative expenses and costs incurred in connection with the Fund's public offering and other obligations. These expenses are allocated by the Manager on a reasonable basis, across all of the Harvest Portfolios Group Inc. funds, and series of each applicable fund. The following expenses are included in the unitholder reporting costs on the Statement of Comprehensive Income (Loss):

For the period ended	Amount (\$)
June 30, 2023	934
June 30, 2022	1,504

Waivers and absorptions

At its sole discretion, the Manager may waive management fees or absorb expenses of the Fund. There were no management fee waivers or expense absorptions for the period ended June 30, 2023 or 2022.

6. FOREIGN CURRENCY FORWARD CONTRACTS

The Fund may enter into foreign currency forward contracts to hedge assets and liabilities denominated in foreign currencies. Foreign currency forward contracts entered into by the Fund represent a firm commitment to buy or sell a currency at a specified value and point in time based upon an agreed or contracted quantity. The value of each foreign currency forward contract is the difference between the contract rate and the current forward rate at the measurement date applied to the contract's notional amount and adjusted for counterparty risk.

As at June 30, 2023 and December 31, 2022, the Fund had not entered into any foreign currency forward contracts.

7. FINANCIAL RISK MANAGEMENT

Investment activities of the Fund expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate risk, other price risk and currency risk). The Manager seeks to minimize these risks by employing experienced portfolio managers that will manage the security portfolios of the Fund on a daily basis according to market events and the investment objectives of the Fund. To assist in managing risk, the Manager also maintains governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and securities regulations.

Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The value of securities in the Fund's portfolio may be affected by the stock market conditions rather than each company's performance. Developments in the market are affected by general economic and financial conditions. Political, social and environmental factors can also affect the value of any investment. COVID-19 and the war in Ukraine have had significant impacts to the global economy over the last few years and have contributed to the current inflationary pressures. The significant increase in interest rates globally by central banks to address inflation has increased the likelihood of a global recession impacting financial markets and global economies which may impact the financial performance of the Fund's investments.

Australian REIT Income Fund

The percentage of the Fund's net assets attributable to holders of redeemable units that were traded on public stock exchanges was as follows:

As at	% of net assets
June 30, 2023	144.3
December 31, 2022	141.3

If equity prices on these exchanges had increased or decreased by 5%, as at period end, with all other factors remaining constant, net assets attributable to holders of redeemable units would have increased or decreased by approximately the following amounts:

As at	Amount (\$)
June 30, 2023	398,793
December 31, 2022	434,151

In practice, the actual trading results may differ, and the difference could be material.

Currency risk

Currency risk is the risk that the value of investments denominated in currencies other than the financial currency of the Fund will fluctuate as a result of changes in foreign exchange rates. When the Fund buys an investment priced in a foreign currency and the exchange rate between the Canadian dollar and the foreign currency changes unfavorably, it could reduce the value of the Fund's investment.

The table below summarizes the Fund's exposure to currency risk. Amounts shown are based on the carrying value of monetary and non-monetary net assets (including derivatives and the underlying principal (notional) amount of forward currency contracts, if any).

As at June 30, 2023		
Currency	Currency exposure*	As a % of net assets
Australian Dollar	\$8,099,594	146.5

* In Canadian dollars

As at December 31, 2022		
Currency	Currency exposure*	As a % of net assets
Australian Dollar	\$8,707,563	141.7

* In Canadian dollars

The Fund's currency exposure is broken down between monetary and non-monetary as follows:

As at	Monetary	Non-Monetary
June 30, 2023	\$123,739	\$7,975,855
December 31, 2022	\$24,542	\$8,683,021

If the Canadian dollar had strengthened or weakened by 5% in relation to the Australian dollar, with all other variables held constant, the Fund's net assets attributable to holders of redeemable units would have decreased or increased, respectively, approximately as follows:

As at	Amount (\$)	% Increase (decrease)
June 30, 2023	404,980	7.3
December 31, 2022	435,378	7.1

In practice, the actual results may differ from this sensitivity analysis and the difference could be material.

As all of the securities in the portfolio investments are denominated in Australian dollars, the Fund from time to time may enter into a foreign currency forward contract on substantially all of the value of the portfolio investments back to the Canadian dollar. There is no requirement to hedge the currency at all times.

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or fair value of financial instruments. A Fund that invests in fixed income securities, such as bonds and money market instruments, is sensitive to changes in interest rates. In general, when interest rates are falling, the value of these investments rises.

Australian REIT Income Fund

Moreover, fixed income securities with longer terms to maturity are usually more sensitive to changes in interest rates. As at June 30, 2023 and December 31, 2022, the Fund did not hold any fixed income securities.

A fund that has an interest-bearing liability is exposed to risks associated with the effects of fluctuations in interest rates on its cash flows. The Fund's interest-bearing liabilities net of prepaid interest of are as follows:

As at	Amount (\$)
June 30, 2023	2,692,445
December 31, 2022	2,693,530

The interest-bearing liabilities have a fixed interest rate and a maturity of less than three months, therefore the exposure to interest rate risk is not considered significant.

Liquidity risk

Liquidity risk is defined as the risk that a fund may not be able to settle or meet its obligations on time or at a reasonable price. The Fund is exposed to redemption of units as described in Note 4. However, the Manager does not expect that the contractual redemptions will be representative of the actual cash outflows as holders of those units typically retain them for a longer period. Therefore, in order to maintain sufficient liquidity, the Fund primarily invests in securities that are actively traded in public markets and can be readily disposed of to raise liquidity.

As at June 30, 2023 and December 31, 2022, all the Fund's financial liabilities had maturities of less than three months.

Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund.

All transactions executed by the Fund in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

The Fund also may enters into foreign currency forward contracts which are exposed to credit risk. The maximum credit risk exposure is the unrealized gain on the forward contracts.

As at June 30, 2023 and December 31, 2022, the Fund did not have significant credit risk exposure. All cash held by the fund is held with a reputable and regulated financial institution.

Fair value of financial instruments

The Fund classifies fair value measurements within a hierarchy which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Inputs for the asset or liability that are not based on observable market data.

The table below summarizes the fair value of the Fund's financial instruments using the following fair value hierarchy:

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

Securities classification:

Investments at fair value as at June 30, 2023				
	Level 1 (\$)	Level 2 (\$)	Level 3 (\$)	Totals (\$)
Financial Assets				
Equities				
Real Estate	7,975,854	-	-	7,975,854
Total Financial Assets	7,975,854	-	-	7,975,854

Australian REIT Income Fund

Investments at fair value as at December 31, 2022				
	Level 1 (\$)	Level 2 (\$)	Level 3 (\$)	Totals (\$)
Financial Assets				
Equities				
Real Estate	8,683,021	-	-	8,683,021
Total Financial Assets	8,683,021	-	-	8,683,021

There were no Level 3 securities held by the Fund as at June 30, 2023 and December 31, 2022 and there were no significant transfers between Level 1 and Level 2 for the period ended June 30, 2023 and 2022.

The value of equities is based on quoted prices. The value of the foreign currency forward contract is determined as the difference between the contract rate and the current forward rate at the measurement date applied to the contract's notional amount and adjusted for counterparty risk.

Concentration Risk

Concentration risk arises as a result of the concentration of exposures within the same category, whether it is geographical location, product type, industry, sector or counterparty type. The following is a summary of the Fund's concentration risk by industry segment. All investments held operate in Australia as outlined in the investment objectives of the Fund.

Market Segment:

As at	June 30, 2023	December 31, 2022
	% of net assets	% of net assets
Real Estate	144.3	141.3
Net other liabilities	(44.3)	(41.3)
Total	100.0	100.0

8. TAXATION

The Fund qualifies as a mutual fund trust under the Income Tax Act (Canada). For tax purposes, the Fund has a December 15 year end. All of the Fund's net income for tax purposes and sufficient net capital gains realized in any period are required to be distributed to unitholders such that no income tax is payable by the Fund. As a result, the Fund does not record income taxes. Since the Fund does not record income taxes, the tax benefit of capital and non-capital losses has not been reflected in the Statement of Financial Position as a deferred income tax asset. Capital losses may be carried forward indefinitely to reduce future realized capital gains. Non-capital losses may be carried forward for 20 years and applied against future taxable income.

As at the last taxation year end, the Fund had the following capital losses, which can be carried forward indefinitely and applied against future capital gains.

	Amount (\$)
Capital Losses	2,145,619

As at the last taxation year, the Fund had the following non-capital losses available to offset against income in future years.

	Amount (\$)	Year of expiry
Non-Capital Losses	-	-

The Fund may incur withholding taxes imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis and the related withholding taxes are shown as a separate expense in the Statement of Comprehensive Income (Loss).

As the Manager is a resident of Ontario, the expenses paid by the Fund generally include HST of 13%. HST is calculated using the residency of unitholders in the Fund as at specific times, rather than the physical location of the Manager. A blended rate refund is filed with the Canada Revenue Agency on behalf of the Fund, in arrears, using each province's HST rate or GST rate in the case of non-participating provinces.

9. SOFT DOLLAR COMMISSIONS

Brokerage commissions paid to certain brokers may, in addition to paying for the cost of brokerage services in respect of security transactions, also provide for the cost of investment research services provided to the investment manager. The value of such research services included in commissions paid to brokers for the period ended June 30, 2023 and 2022 amounted to \$nil.

Australian REIT Income Fund

10. LOAN FACILITY

The Fund established a revolving term loan facility with a Canadian chartered bank for the purpose of acquiring assets for the portfolio and such other short-term funding purposes as may be determined from time to time and in accordance with the investment strategy. The loan facility is drawn down by way of a Banker's Acceptance (BA's) with a shorter-term maturity and renewed on an ongoing basis. The loan outstanding is secured against the assets of the Fund and the amount of the loan cannot exceed 62.471% of the net asset value of the Fund up to the maximum available credit. Throughout the period the Fund was in compliance with all covenants.

The interest rate, stamping fee, and loan amount borrowed per annum of the loan outstanding are as follows:

As at	June 30, 2023	December 31, 2022
Interest rate	5.15750%	4.60578%
Stamping fee	1.25%	1.25%
Loan amount borrowed	\$2,700,000	\$2,700,000

The minimum and maximum amounts borrowed were as follows:

For the period ended	June 30, 2023	June 30, 2022
Minimum	\$2,700,000	\$2,700,000
Maximum	\$2,700,000	\$2,700,000

The initial interest paid on the drawdown and renewal of the Banker's Acceptance is deferred and amortized over the term of the BA's, which mature on July 17, 2023 for the loan. The loan amount was renewed on July 17, 2023. The following unamortized portion of the deferred interest was netted against the loan facility balance on the Statement of Financial Position:

As at	June 30, 2023	December 31, 2022
Deferred Interest Amount	\$7,555	\$6,470

The Fund recorded the following interest expense for the period ended June 30, 2023:

For the period ended	Amount (\$)
June 30, 2023	83,256
June 30, 2022	30,923
