

The background of the entire page is a dark blue-tinted photograph of a city skyline. On the left, a large, ornate domed building is visible. In the center, the CN Tower stands prominently. To the right, several modern high-rise buildings are clustered together. A white line graph, resembling a stock price chart, is overlaid on the image, with its peaks and valleys corresponding to the positions of the major buildings.

Harvest Canadian Equity Income Leaders ETF

High Monthly Income

November 2023

Steady Income from Canadian Leaders

Canada is home to some of the most dominant companies in the world. In industries like banking, telecommunications, energy, and utilities a few key players have huge market shares, significant financial reserves, and long histories of dividend payment. At the same time, Canada is a dynamic economy with a highly educated and entrepreneurial population.

HLIF captures the powerful traits of Canada's leading companies combining them with Harvest's proven process for generating equity income.

Powerful Companies with Oligopolistic Traits

Key Canadian industries are dominated by a few companies. In Telecoms, Utilities, Energy and Banking, a handful of companies command significant market share within the Canadian landscape. Many pay consistent dividends and have a history of steady dividend growth over the long-term.
