## Why Invest in Enhanced Equity Income

Income yields at rates above both inflation and fixed income. Market-like performance from covered call strategies combined with modest leverage. Enhancing the monthly cashflow and growth opportunities from existing Harvest equity income ETFs.

Our Enhanced Equity Income ETFs are built to deliver these benefits to investors. They offer leveraged exposure to select Harvest Equity Income ETFs. Through the application of approximately 25% leverage, these ETFs deliver high monthly cashflows. They have an elevated risk-return profile, but also offer heightened access to market growth opportunity.

## The Impact of Enhanced Strategy

- The enhanced income, risk-return profile, and growth prospects of the enhanced ETFs are achieved through the addition of modest leverage.
- For every \$1 invested in the ETF **Modest Leverage** is applied by borrowing around \$0.25 and adding it to the principal.
- Because of the leverage, the Enhanced ETF generates a higher level of income than its underlying ETF.
- **Growth Prospects** are also enhanced by leverage while overall risk-return profile is raised.

## Disclaimer

\*The current yield represents an annualized amount that is comprised of 12 unchanged monthly distributions (using the most recent month's distribution figure multiplied by 12) as a percentage of the closing market price of the Fund. The current yield does not represent historical returns of the ETF but represents the distribution an investor would receive if the last distribution stayed the same going forward.

Distributions are paid to you in cash unless you request, pursuant to your participation in a distribution reinvestment plan, that they be reinvested into Class A units of the Fund. If the Fund earns less than the amounts distributed, the difference is a return of capital.

For Information Purposes Only. Commissions, management fees and expenses all may be associated with investing in Harvest Exchange Traded Funds (managed by Harvest Portfolios Group Inc.). Please read the relevant prospectus before investing. The indicated rates of return are the historical annual compounded total returns (except for figures of one year or less, which are simple total returns) including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. The funds are not guaranteed, their values change frequently, and past performance may not be repeated.
