Harvest Premium Yield ETFs

Harvest Premium Yield ETFs are designed to generate high, consistent income that is paid twice monthly to unitholders, through Canadian and U.S. equity portfolios. These ETFs apply a single strategy of written puts and calls that are designed to generate high distribution yields, paid twice every month.

Active Equity Income Strategy | Dynamically Adjusting to Markets

The Objective: Earnings income while systematically buying and selling at predetermined price levels.

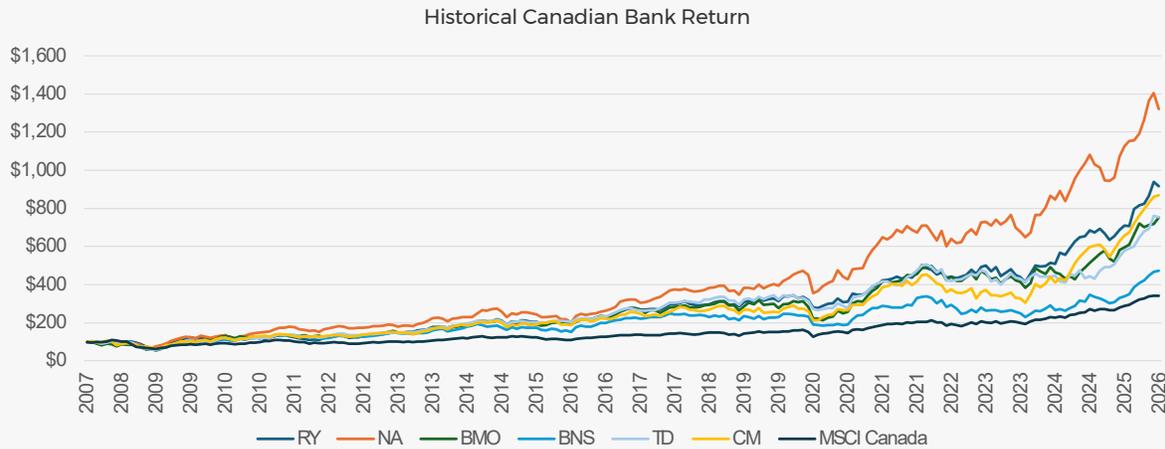

1. Rally Phase: Covered Calls Active
2. Sell Equities into Rally
3. Correction Phase: Written Puts Active
4. Buy Equities on Dip
5. Back to Rally Phase

Disclaimer

Commissions, management fees and expenses all may be associated with investing in Harvest ETFs (the “Fund(s)” or “ETF(s)”) managed by Harvest Portfolios Group Inc. Please read the relevant prospectus before investing. The Funds are not guaranteed, their values change frequently and past performance may not be repeated. Tax, investment and all other decisions should be made with guidance from a qualified professional.

Distributions are paid to you in cash unless you request, pursuant to your participation in a distribution reinvestment plan, that they be reinvested into the Class of units that you own of the Fund. If the Fund earns less than the amounts distributed, the difference is a return of capital. Depending on the Fund’s mandate, distributions on the units, if any, may consist of income, including foreign source income, dividends from taxable Canadian corporations and capital gains, less the expenses and may include returns of capital.

* The Funds are categorized as liquid alternative ETFs. This means they have the ability to use leverage and can invest more than 10% of their assets in a single issuer. The Funds employ modest leverage, which can amplify both gains and losses.
