## MANAGEMENT REPORT OF FUND PERFORMANCE

---

### Harvest Tech Achievers Growth & Income ETF

December 31, 2022

The Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure, can be obtained at your request, and at no cost, by calling us at 1-866-998-8298; by writing to us at Harvest Portfolios Group Inc., 610 Chartwell Road, Suite 204, Oakville, Ontario, L6J 4A5; by visiting our website at [www.harvestportfolios.com](http://www.harvestportfolios.com); or on SEDAR at [www.sedar.com](http://www.sedar.com).

# Harvest Tech Achievers Growth & Income ETF

## CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest” or the “Manager”) is a Canadian Investment Manager founded in 2009. Harvest is focused on developing investment products that follow three investment criteria.

We (i) endeavor to develop investment products that are clear in their mandate and easy for investors to understand, (ii) strive to be transparent so that our investors can review their financial reports and know exactly what they own and (iii) seek to provide investors with consistent monthly or quarterly income by investing the fund portfolios in well managed companies that have a steady cash flow and dividend-paying history.

## INVESTMENT PRODUCT

The Harvest Tech Achievers Growth & Income ETF (the “Fund”) investment objectives are to provide unitholders with the opportunity for capital appreciation, monthly cash distributions and lower overall volatility of portfolio returns than would otherwise be experienced by owning Equity Securities<sup>1</sup> of the Technology Achievers<sup>1</sup> directly. As part of the investment strategy, the Fund will invest in an equally weighted portfolio of Equity Securities of 20 Technology Issuers<sup>1</sup> from the Technology Achievers Investable Universe<sup>1</sup> that have a market capitalization of at least US\$10 billion at the time of investment and have options in respect of their Equity Securities listed on a recognized options exchange.

---

<sup>1</sup> As defined in the Fund’s prospectus dated June 6, 2022.

## PRESIDENT'S MESSAGE

### Unitholder letter March 2023

Dear Valued Investor,

Thank you for taking the time to read about Harvest ETFs & Funds in 2022 and our look ahead to 2023.

The past year reminded us of key lessons as investors, advisors, and fund managers. At Harvest Portfolios Group Inc., we were reminded of the importance of our core philosophy for wealth creation and preservation: own great businesses, hold them for the long-term, and generate steady income.

2022 saw central banks hiking key interest rates higher and faster than we, and many others, expected. These were among the highest and fastest rate increases in modern history, driven largely by central banks' goal to tame high and persistent inflation.

It was also a year of high volatility. Interest rate increases played a role, as did geopolitical instability and global economic uncertainty.

In an environment of persistent inflation, rising rates and high volatility, our focus on leading businesses and selling covered call options remained highly effective. Our Equity Income ETFs' defensive characteristics and ability to monetize volatility to generate high yields proved attractive in a turbulent year.

With bonds and equities both underperforming, the reliability of attractive income became a key component of total returns for many investors.

Even as investors have found success with our strategies, there is still a great deal of uncertainty around markets. The U.S. Federal Reserve claims they are trying to combat inflation without pushing the economy into recession. History shows that goal is very rarely achieved, but perhaps lightening up on the brakes early in 2023 could achieve the desired results.

We know that these rate increases will plateau at some point, and we believe we are nearing the end of that cycle. When that time comes, markets will react appropriately and likely move higher. We expect that 2023 will finish positive as rate hikes end and markets process these changes in the economy.

Markets are forward looking indicators, and the economic impact of rate increases are often delayed. This generally means markets recover and begin a growth trajectory before their underlying economies do.

As optimists and believers in the longer-term value of great businesses, we will continue to do what we always have at Harvest. We construct ETFs that hold solid businesses in their sector and use active & flexible covered call strategies to generate income where appropriate. We do that because we believe owning great businesses in the long-term is the best way to build and preserve wealth.

On behalf of Harvest, I would like to thank you for your continued trust and investment in our products.

Sincerely,

*Signed* "Michael Kovacs"

Michael Kovacs

Founder  
President and Chief Executive Officer

## MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the Fund. For your reference, the annual financial statements of the Fund are attached to the annual management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1(866) 998-8298; by writing to us at Harvest Portfolios Group Inc., 610 Chartwell Road, Suite 204, Oakville, Ontario, L6J 4A5; or by visiting our website at [www.harvestportfolios.com](http://www.harvestportfolios.com); or on SEDAR at [www.sedar.com](http://www.sedar.com).

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

## INVESTMENT OBJECTIVES AND STRATEGY

The Fund has been created to invest in a portfolio (the "Portfolio") of 20 equally weighted Equity Securities of Technology Issuers chosen from the Technology Achievers Investable Universe that at the time of investment and immediately following each quarterly reconstitution and rebalancing (i) have a market capitalization of at least US\$10 billion, and (ii) have options in respect of their Equity Securities listed on a recognized options exchange.

The Fund's investment objectives are to provide unitholders with (i) the opportunity for capital appreciation; (ii) monthly cash distributions; and (iii) lower overall volatility of the Portfolio returns than would otherwise be experienced by owning Equity Securities of the Technology Achievers directly.

The Manager will select the Equity Securities for the Portfolio and will quarterly reconstitute and rebalance the Portfolio such that the Portfolio, at the time of the initial investment and immediately following each quarterly reconstitution and rebalancing, will have the following investment characteristics:

- Quality** – An average 3-year Return on Equity greater than the average for the Technology Achievers Investable Universe;
- Value** – An average current year Forward Price-to-Earnings Ratio that is less than the average for the Technology Achievers Investable Universe; and
- Growth** – An average PEG Ratio that is less than the average for the Technology Achievers Investable Universe.

## RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

## RESULTS OF OPERATIONS

The Fund returned -32.17% for Series A, -26.32% for Series B and -31.17% for Series U compared to the S&P 500 Information Technology Total Return Index (USD) return of -28.19% for the year ended December 31, 2022.

The S&P 500 Information Technology sector declined sharply in 2022 as investors became concerned that the pandemic/work-from-home environment had pulled customer demand forward from future years, while a significant increase in interest rates also pressured valuations of growth stocks in general. Software stocks bore the brunt of the selling pressure early in the year as several companies expressed outlooks for 2022 that were below expectations. Semiconductor stocks were the worst performing segment during the first half, as the past two years' strong stay-at-home demand gave way to an emerging supply glut particularly for consumer-focused devices such as televisions, PC's, tablets, and mobile handsets. This, in turn, led to concerns among investors about semiconductor inventories and the potential for longer-term oversupply conditions for the industry in the wake of planned manufacturing capacity increases.

The Fund lagged its benchmark during the period, primarily due to positions in Meta Platforms Inc. (formerly Facebook Inc.) which declined sharply during the period and is not included in the benchmark and an overweight allocation to the semiconductor industry, which underperformed the broader benchmark.

In accordance with its investment objectives, the Fund continued to employ an active covered call strategy in order to enhance the underlying dividend yield and meet its distribution requirements.

## RECENT DEVELOPMENTS

The spread of the coronavirus ("COVID-19") over the last couple of years has had a significant impact on the global economy. Although COVID-19 continues to exist, most countries have largely lifted COVID-19 related restrictions and the world has returned to a more normal level of activity. The lasting impact of COVID-19 has been significant supply chain

# Harvest Tech Achievers Growth & Income ETF

issues which have begun to subside however persist in some industries, and a significant rise in inflation. Inflationary pressures have been exacerbated by the war in Ukraine and continue to impact global commodity supplies and costs. Central banks globally have quickly raised interest rates to address inflation although increasing the likelihood for a global recession. The above factors continue to impact global economies and financial markets, and uncertainty of the impact on financial performance of the Fund's investments persists. The Fund's future investment results may be materially adversely affected as a result.

Commencing with distributions declared in February 2022, the monthly distribution amount increased from \$0.07 per unit per month to \$0.10 per unit per month. This change impacted all Series of units of the Fund.

## RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

## MANAGEMENT AND OTHER FEES

The Manager is responsible for managing the Fund's overall business and operations and provides key management personnel to the Fund. The Manager is entitled to an annual management fee of 0.85% of the average daily NAV, plus applicable taxes, per annum of the Fund and paid monthly in arrears.

The Manager may, in its discretion, agree to charge the Fund and/or certain unitholders a reduced management fee as compared with the management fee that it otherwise would be entitled to receive, provided that the amount of the reduced management fee is distributed periodically by the Fund to the unitholder as a management fee distribution. Any reduction will depend on a number of factors, including the amount of account activity. Any tax consequences of a management fee distribution will generally be borne by the unitholder who receives the distribution.

### Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee ("IRC"), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

### Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries and benefits; and other administrative expenses and costs incurred in connection with the Fund's continuous public offering and other obligations. These expenses are allocated by the Manager on a reasonable basis, across all the Harvest Portfolios Group Inc. funds, and series of each applicable fund. These expenses were \$91,145 for the year ended December 31, 2022 (2021 - \$85,203) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss) in the financial statements.

### Waivers and absorptions

At its sole discretion, the Manager may waive management fees or absorb expenses of the Fund. There were no management fee waivers for the year ended December 31, 2022 or 2021. The Manager absorbed \$239,428 of expenses of the Fund for the year ended December 31, 2022 (2021 - \$216,310). The Manager may cease doing so at any time without notice to unitholders. The management expense ratios of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table below.

## RECOMMENDATIONS OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

The Independent Review Committee tabled no special reports and made no extraordinary material recommendations to management of the Fund during the year ended December 31, 2022.

# Harvest Tech Achievers Growth & Income ETF

## FINANCIAL HIGHLIGHTS

The following tables present selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the year ended December 31, 2022 and past annual periods. This information is derived from the Fund's annual audited financial statements.

### Series A

THE FUND'S NET ASSETS PER UNIT	2022	2021	2020	2019	2018

### Explanatory Notes:

1. Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
2. Series U commenced operation on June 19, 2017 with a net asset value per unit of \$11.88 (\$9.00 USD). Series B commenced operations on March 10, 2020 with a net asset value per unit of \$10.50.
3. Distributions were paid in cash or reinvested in additional units of the Fund. The Fund may pay additional year end distributions in the form of reinvested units that are subsequently consolidated. There is no impact on NAV per unit, however such reinvested distributions increase the cost base of units held. Included in the above amounts is the reinvested distribution of \$0.74 per unit paid to Series A unitholders of record on December 31, 2021.
4. Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of the daily average net asset value during the period.
5. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period. In 2020 the calculation was modified to include certain transaction costs charged by the custodian. The trading expense ratio in prior periods was not re-stated.
6. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
7. The USD amount of the net assets at the end of the year was \$12.39 USD.

# Harvest Tech Achievers Growth & Income ETF

## Past Performance

The performance information presented herein assumes all dividends of the Fund during the periods presented were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemptions, or other charges that would have reduced returns or affected performance. Past performance of the Fund is not necessarily indicative of how it will perform in the future.

## YEAR-BY-YEAR RETURNS

The following charts present the Fund's performance for each of the years shown and illustrate how the Fund's performance varied for Series A, Series B and Series U. The chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

### Fund Performance

#### Series A

2015 represents the period from May 26 to December 31

#### Series B

2020 represents the period from March 10 to December 31

# Harvest Tech Achievers Growth & Income ETF

## Series U (USD)

2017 represents the period from June 19 to December 31

## ANNUAL COMPOUND RETURNS

The following table shows the annual compound returns for the Fund. All returns are in Canadian dollars unless otherwise indicated, on a total return basis, net of fees.

For comparison purposes, the S&P 500 Information Technology Total Return Index (USD) (the “Index”) is used. While the Fund uses this benchmark for long-term performance comparisons, it is not managed relative to the composition of the Index. As a result, the Fund may experience periods when its performance is not aligned with the Index, either positively or negatively. The return of the Index is calculated without the deduction of management fees and fund expenses whereas the performance of the Fund is calculated after deducting such fees and expenses. Please see the “Results of Operations” section of this report for a discussion on recent performance.

Investment Return %	1 Year	3 Years	5 Years	10 Years	Since Inception*
Series A Performance	-32.17	7.87	10.63	-	10.74
S&P 500 Information Technology Total Return Index (USD)	-28.19	11.60	15.81	-	17.22
Series B Performance	-26.32	-	-	-	11.94
S&P 500 Information Technology Total Return Index (USD)	-28.19	-	-	-	14.29
Series U Performance (USD)	-31.17	9.41	11.93	-	13.08
S&P 500 Information Technology Total Return Index (USD)	-28.19	11.60	15.81	-	17.26

\* Since inception is May 26, 2015 for Series A, March 10, 2020 for Series B, and June 19, 2017 for Series U

#### CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's prospectus or offering memorandum. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
