(1) Each ETF pays annual management fees to the Manager equal to an annual percentage of the net asset value of the units of that ETF, together with applicable sales tax. The management fee rates of each ETF, excluding sales tax, are presented in the table. Out of its management fees, the Manager pays for such services to the ETF as investment management and marketing. (2) Management expense ratio (MER) is based on total expenses (excluding commissions and other portfolio transaction costs), including sales tax for the stated period for each ETF and is expressed as an annualized percentage of each ETF's daily average net asset value during the period after absorptions. (3) The underlying ETFs in which the Fund invests will pay applicable management fees. As a result, the actual aggregate management fees indirectly payable to the Manager in respect of an investment in the Fund will be greater than nil. (4) The MER of this ETF includes its proportionate share of management fees and expenses of the underlying ETF(s) in which it invests.

Commission, management fees and expenses all may be associated with an investment in exchange traded products managed by Harvest Portfolios Group Inc. Harvest ETFs are not guaranteed, their values change frequently and past performance may not be repeated. The prospectus contains important detailed information about Harvest ETFs and is available on our website [www.harvestportfolios.com](http://www.harvestportfolios.com).

Please read the relevant prospectus before investing.
