

TSX HBLK | Blockchain Technologies ETF

Blockchain is a decentralized and distributed digital ledger that facilitates recording data and transactions in an unalterable database. It enables transactions to be validated without a centralized intermediary while maintaining a high level of security. The technology is expected to have a disruptive impact across global systems, transforming how governments, institutions, businesses and individuals interact and transact.

HBLK tracks the Harvest Blockchain Technologies Index which invests in a cross section of Large Cap established companies and Dedicated businesses that are primarily involved in blockchain technology services.

Harvest Blockchain Technologies Index

The primary stock index, the Harvest Blockchain Technologies Index, tracks the leading public companies with business activities focused on the blockchain industry in North America. The Harvest Blockchain Technologies Index is broken down into two separate segments: Large Cap Blockchain and Dedicated Blockchain. The Index is intended to represent the broad landscape of publicly listed blockchain technology companies. Given the developing nature of the technology, the Index is designed to transition from a combination of both Large Cap Technology Blockchain and Dedicated Blockchain issuers into being focused exclusively on the Dedicated Blockchain segment, as this sector evolves and gains critical mass.
