### Investment Goal

The Harvest Premium Yield 7-10 Year Treasury ETF will seek to provide attractive and tax efficient monthly cash distributions to unitholders supported by writing call options on up to 100% of its investment in US Treasury ETFs, that primarily hold mid-duration US Treasury bonds with average maturities of 7-10 years (intermediate treasury bonds). The level of covered call option writing may vary based on market volatility and other factors. HPYM aims to provide stability from its exposure to US Treasury bonds, which are guaranteed with the full faith and credit of the US government.

### Benefits of Investing in HPYM

- Exposure to high quality medium-range US Treasury Bonds through US-listed ETFs
- Covered call strategy increased yields and lower volatility on underlying holdings
- Experienced active covered call specialists at Harvest ETFs
- Currency hedged with attractive tax efficient income
- Competitive management fee

### Key Benefits

#### Tax Efficient Income

Tax efficient income above bond yields generated from covered calls.

#### Downside Protection

Higher income can cushion returns during bond price weakness.

#### Single Ticket Solution

Access multiple ETFs with issuer diversification for optimal option price targeting.

#### Portfolio Diversification

Low correlation with equities- a portfolio exposed to medium term treasuries & generates high income.
