Investment Goal

The Harvest Clean Energy ETF invests in a portfolio of the 40 largest Clean Energy Issuers selected from the Clean Energy investable universe ("Universe") to provide Unitholders with the opportunity for capital appreciation. The Universe includes Equity Securities that are listed on select North American, European and developed Asian stock exchanges that are categorized as renewable energy or renewable energy generation. The portfolio is equally weighted and follows a systematic process in selecting the top 40 largest Clean Energy Issuers measured by market capitalization and is reconstituted and rebalanced semi-annually.

Harvest believes that the changing landscape for renewable energy production and investment represents a long term structural change and is an environment that the Clean Energy sub-sectors are well positioned to benefit from over the long term.
