## NAVs and Distributions Since Inception

**Total Value of Portfolio + Cumulative Cash Distributions Assuming Starting Value of \$100,000**

**Cumulative Distributions on \$100,000 Investment**

**Disclaimer:** The chart above is based on a hypothetical and historical initial \$100,000 CAD investments (monthly leverage ratio maintained at approximately 25% subject to rebalancing thresholds of 23% and 27%) into the underlying ETF and shows the market value using the daily market close on the TSX and identifies the monthly cash distributions paid by such portfolio on a cumulative basis. The starting point of the data is the day the ETF was launched or commenced trading on the TSX. The cash distributions are not compounded or treated as reinvested, and the chart does not account for sales, redemption, distribution or optional charges or income taxes payable by any unitholder. The chart is not a performance chart and is not indicative of future market values of the ETF or returns on investment in ETF, which will vary.

Distributions on the units, if any, may consist of income, including foreign source income and dividends from taxable Canadian corporations, and capital gains, less the expenses and may include returns of capital.

1 The current yield represents an annualized amount that is comprised of 12 unchanged monthly distributions (using the most recent month's distribution figure multiplied by 12) as a percentage of the closing market price of the Fund. The current yield does not represent historical returns of the ETF but represents the distribution an investor would receive if the most recent distribution stayed the same going forward.

2 Source: Bloomberg. Average statistics calculated based on portfolio weighted average. Dividend yield (gross) based on Bloomberg indicated 12 month yield of portfolios positions and does not represent the distribution yield paid to investors. The above information is for illustrative purposes only, is estimated and unaudited. Distributions are paid to you in cash unless you request, pursuant to your participation in a distribution reinvestment plan, that they be reinvested into Class A Units of the Fund. If the Fund earns less than the amounts distributed, the difference is a return of capital.
