Investment Objective

The Harvest Travel & Leisure Index ETF provides investors access to a diversified portfolio of large capitalization companies that own or operate travel related businesses. Harvest believes that prior to the pandemic, global travel growth had structural long-term drivers and, in the shorter term, these companies stand to benefit from a resumption in travel following global shutdowns.

The Harvest Travel & Leisure Index ETF has been designed to replicate, to the extent possible, the performance of the Solactive Travel & Leisure Index TR (the "Index"), net of expenses. The ETF intends to invest in and hold the Constituent Securities of the Index in the same proportion as they are reflected in the Index.
